"Atterbury System"

The many explanations and assertions we have published about this perfected system of clothes making has convinced many beyond a doubt that it's the up-to-date method of custom made clothes, ready-to-wear. We shall keep on giving explanations and advertising "Atterbury" system. "It's a good thing," and we mean to push this "good thing." The designers and cutters who first conceived this up-to-date system of clothes making realized that the progress made by Americans in all other lines of business was also necessary in the tailoring business. There's nothing wonderful about the "Atterbury System." It's simply the development of ideas and rules produced by thoughtful men. As Mr. Edison is studying to develop electricity, so are these men striving to raise the standard of clothes making and make the "Atterbury System" famous.

THE FACTS ABOUT THE LOOKOUT GATE TENDER

Edward Kenworthy Was Changed Though He Is on Duty Again. The Order of His Removal Leads to Confusion and Discharge of Two Men—The Tribune's Story Was Not Incorrect as Assented by Delaware and Hudson Officials.

An item appeared in the Carbondale correspondence of a morning paper to the effect that the gate man at the Lookout crossing of the D. & H. had been removed. To allay the alleged excitement of some people over the danger of the unguarded crossing it can be said that the item is incorrect. The gate tender and flagman, Edward Kenworthy, is still on duty there and will remain as formerly. Evening Leader of yesterday.

LACK COW SENSE. People Get Willful.

A cow or horse or even a dog will refuse to eat or drink what the animal knows to be harmful, but mankind will persist in pouring in coffee even after having been fully assured that it is steadily killing him. Once in a while they wake up and do the sensible thing. A lady says, "Why will people wait as long as I did when it is so easy to save oneself the suffering caused by coffee drinking? After using coffee several years I discovered that I was breaking down nervously. I consulted several doctors, but in spite of everything, steadily grew worse. One physician advised me to quit coffee and I tried quitting by the use of will power, but every time it was a miserable failure. My stomach was in dreadful shape and I was unable to sleep at night, nervous prostration set in and I became barely able to drag about. One day while visiting a minister's wife, a motherly old lady, she proposed to give me a cup of coffee, the kind she had been using three times a day for three years. So she brought out a cup of the most fragrant, delicious beverage. It was coffee and it was not coffee. I tried it and was eager to know how it was made. She said, 'Five years ago I was afflicted much as you are but I quit drinking coffee and began using Postum Food Coffee, and that produced the result you see and restored me to health.' She said a lot more and when I went home I got a box of Postum and began using it. Such a soothing effect took place and I began sleeping nights and felt a relief from my awful nervous tension. Gradually and surely I got well and now I feel as strong and healthy as a woman should at my age. With all my old-time energy restored. I earnestly entreat all coffee drinkers to change to Postum. What is the use of suffering day and night because of some paltry coffee when one has but to leave it off and use Postum to be well, and think anyone will agree with me that health is worth everything else; money, property or fame." Name given by Postum Co., Battle Creek, Mich.

tion is that Kenworthy, the gate man at the Lookout crossing, had not been removed at all. The fact is, as The Tribune stated yesterday, Kenworthy was removed and was off duty for a day. Furthermore The Tribune was correct when the story that appeared yesterday was written. Unfortunately it was crowded out on the day it was intended to appear, but was used on the first opportunity. In the meantime the return of Kenworthy to his post was not made public.

ABOUT THE STRIKE

Rev. F. Ehinger's Contribution Touching on the Situation. Rev. F. Ehinger, pastor of St. Paul's Lutheran church, left last evening for the Lutheran ministerium at Easton. Before leaving he communicated the following to The Tribune, touching on the strike situation:

"Our annual convention, the Ministerium of the Evangelical Lutheran Church of Pennsylvania, is meeting in Easton, whence I go, wishing the strike over by my return. During the famous strike of 1877, I had charge of the Pittston Lutheran church. We felt like a family besieged, as the trains were crumpled with soldiers, armed to the teeth, and famine seemed imminent. I can never forget the horrible aspects of the situation, and was glad to leave the coal regions by accepting a call from near Buffalo, N. Y. "And now I live again in this region for a number of years, where strikes, so various, follow each other in such succession as to make life unpleasant in spite of all pleasure arrangements, to lull the people asleep at the brink of the abyss. "And God looked upon the earth and behold it was corrupt. Genesis, vi. 12. Nothing less, but a speedy return to that true Christianity and love of the first century can correct and remove the evils that menace the world. The old, corrupt world, represented in the Roman empire was saved and regenerated by this true Christianity of the first century. The speedy return to this spirit could and would solve the grave social problems of today. Rev. F. Ehinger.
