A DELIGHTFUL RECITAL.

Miss Laura Meldrum and Vocalist Gippel Please Large Audience.

It was a well pleased audience which heard the delightful piano forte recital, given last night at Powell's music store, by Miss Laura Meldrum, a pupil of E. E. Southworth. Miss Meldrum was to have been assisted by Miss Florence Robertson, but that young lady was unable to sing, on account of a severe cold. Her place was very acceptably filled by Tom Gippel, whose fine tenor voice was heard to advantage in the "Song of Thanksgiving," and a number of other selections. Miss Meldrum played several very difficult numbers, and evinced a delicacy of touch and keen technique, which were recognized and generously greeted by her audience. Scamatti's delicious "Vesuvio Minuetto," and Leschetizky's dashing "Valse Chromatique" were among the favorite pieces played, and Schubert-Liszt's magnificent serenade, "Hark, Hark, the Lark," also scored a decided hit.

KILLED ON THE RAILROAD.

Mrs. Catherine Kline Run Down on Central Railroad of New Jersey.

Mrs. Catherine Kline, aged 69 years, residing with her niece, Mrs. Peter Noone, at 221 Railroad avenue, met death on the Central Railroad of New Jersey tracks at noon yesterday, by being struck by the engine of the passenger train due in this city at 12:20 o'clock.

The aged woman had been picking coal along the railroad on what is known as the "curve," opposite the power house of the Scranton Electric Light company, and below Scranton street. She was at work on the north-bound track when the train approached, and stepped to the south-bound track. She evidently became confused at the approach of the train, and stepped back again on the north-bound track just as the engine reached her. The result was that she was knocked senseless, and died in a few minutes. One of her legs was fractured.

The remains were removed to her home, and Coroner Saltry made an examination, determining that an inquest was not necessary, as the cause of death was apparent. The funeral announcement will be made later.

RETAIL MEN'S CONVENTION

LIQUOR DEALERS OF TWO COUNTIES MET IN THIS CITY.

Permanent Organization Effected and Fred Dilcher, of This City, the Father of the Movement, Was Elected President—A Resolution Adopted Agreeing to Buy Only Union Goods and Hire Only Union Help—Executive Committee Will Be in Charge of Affairs.

The Retail Liquor Dealers' Associations of Lackawanna and Luzerne counties effected a joint permanent organization at a convention held in Music hall yesterday. There were delegates present from nearly all the cities and towns between Lansford and Forest City, representing 1,300 dealers.

A large delegation from Wilkes-Barre and vicinity came at 2:15 over the Delaware and Hudson road, accompanied by Rowley's band. Another large delegation came from up the valley at about the same time. They were met by the members of the local association, headed by Lawrence's band, and prior to going into session, paraded the principal streets.

The convention was presided over by Fred Dilcher, of this city, father of the movement to join the two associations. Addresses were made by a number of delegates and by Hugh Frayne, state president of the American Federation of Labor.

Mr. Frayne presented for the consideration of the convention a resolution pledging its members to use only union cigars and beer, employ none except union bartenders and waiters, and permit no work to be done for them except by craftsmen who can show a union card. After Mr. Frayne had earnestly urged the adoption of the resolution and gave assurance that union labor would cooperate, the resolution was enthusiastically adopted.

OFFICERS OF ASSOCIATION.

Officers of the joint association were elected as follows: President, Fred Dilcher, of Scranton; secretary, M. P. Riley, of Scranton; treasurer, John F. Connoie, of Plymouth; first vice president, E. J. Lynch, of Plymouth; second vice president, John H. Rice, of Wilkes-Barre; executive committee, W. J. Evans, of Olyphant; J. H. Evans, of Duryea; Stanley Komeskie, of Plymouth; William Dumbore, of Glen Lyon; Andrew, of Dunmore; James McLaughlin, of Avoca.

It was decided to hold the next joint convention, six months hence, in Wilkes-Barre. In the evening the visitors were tendered a banquet and ball at Music hall. It was confined to members of the association and their families.

The main purposes of the organization are the suppression of illegal liquor selling and the reduction of license fees. Branches of the organization will be formed in every city and town in the two counties. These local organizations are expected to report to the executive committee the names of unlicensed dealers in their respective communities, and the executive committee is to proceed against them in law. Attorneys at each county seat will be engaged permanently to look after the legal business of the association.

HEADQUARTERS HERE.

The executive headquarters will be in this city. An office will be opened in the course of a few days. The Scranton branch of the association will have a meeting in Honan's hall, 229 Lackawanna avenue, Friday afternoon, at 2:30 o'clock.

Rowley's band, which accompanied the Luzerne delegation, serenaded The Tribune last evening.

CHIQUITA'S AUTOMOBILE.

The Smallest Ever Built Will Be Seen Here Shortly.

The most unique and, at the same time, the smallest automobile ever built will be seen here during the Elk's carnival. The Jenkins Automobile company, of Washington, has completed the machine. It has been at the order of Chiquita, the tiny Cuban atom of humanity. This machine is a specimen of the carriage-maker's skill, fitted with electric lights and electric gear. It is a Victoria, with top, and upholstered in solid leather. The body is painted a dark green, with running gear of bright red, with nickel-plated wheels and pneumatic tires two inches in diameter. In fact, it is an exact miniature of a full-grown Victoria, with everything complete down to the tiny gong and card case. With the top up it does not come up to an ordinary man's elbow.

In order that the chauffeur may be in keeping with the machine, Frank C. Bostock, who controls the destinies of the little lady, has secured a dwarf, who has been taught how to handle the vehicle. Chiquita's automobile is operated by electricity, and with the batteries charged and in position weighs 225 pounds, and can run for several hours at an average speed rate of ten miles an hour. It is not much larger than an ordinary baby carriage. The seat is eighteen inches long, and the forward wheels with pneumatic tires are eight inches, while the rear wheels are twelve inches in diameter. The lacquer work and general finish of this dainty little affair is of the very best workmanship, and with its mistress and her little chauffeur it cannot help but make a very attractive appearance on the city streets of Scranton during the Elk's carnival, which takes place next week.

JULY 4 AT LAKE ARIEL.

Trains Every Hour—Many Attractions.

The people of Northeastern Pennsylvania will, no doubt, be pleased to learn that Lake Ariel, the favorite of the many excursion resorts hereabouts, is open this season. The closing of this beautiful resort to excursions last summer caused considerable regret, and at the same time real appreciation of the manifold advantages of this beautiful spot over all other similar resorts in this region.

As has been the custom in former years, the management of the lake property will run excursion trains to the lake every hour on July 4. No expense or effort will be spared to provide a day of unusual interest and en-

MANY SUITS TO BE INSTITUTED

RESULT OF THE POSTING OF "UNFAIR" LISTS.

First of These Appeared at Kingston Yesterday, with the Names of a Committee Attached, and at Once the Companies Set About the Work of Having Suits for Damages and Criminal Libel Brought Against Them—Story That Collieries Are to Start Up Can Not Be Verified.

Pursuant to directions from strike headquarters, at Wilkes-Barre, locals of the United Mine Workers are preparing "unfair" lists for publication in the communities in which they exist. The list will contain the names of all men working about the collieries and merchants, hotelmen, milkmen and the like who have business dealings with the workmen.

The first of these "unfair" lists to make its appearance was posted some time during Monday night, in and about Kingston. It is printed on a small-sized poster, is headed "Unfair List of W. S. Miller, A.," and at the bottom is printed the names of the five strikers comprising the committee which presumably compiled and published the list. There are sixty-eight names on the list. Four of them are milkmen.

Agents of the coal companies secured copies of the lists and forwarded them to the head officers of the various companies operating in that locality. Each company will proceed to have its employees, whose names are on the list, bring suits for damages and criminal libel. Detectives were set at work immediately to secure evidence against the parties responsible for the posting of the lists. The result will be about three hundred suits for damages and as many more prosecutions for criminal libel. The number will depend on how many of the "listed" employees will consent to act as plaintiffs and how many strikers the detectives will be able to connect with the affair.

It was thought at first that the names of the strikers attached to the "lists" were fictitious, but the detectives reported, yesterday afternoon, that such was not the case. All are members of the various active workers' locals in the Kingston district.

None of the "lists" have as yet appeared in this locality. Secretary Dempsey said, yesterday, that this matter is left entirely to the local unions.

Some of the local superintendents will verify the story that the coal companies are to make a pool of available employees and start one or more of the collieries, with a view of making a break in the strikers' ranks. General Manager May, of the Erie; Superintendent Phillips, of the Delaware, Lackawanna and Western, and Superintendent Rose, of the Delaware and Hudson, all declared they knew nothing of any such movement other than what they saw in the newspapers. They have enough men at hand, they say, to start up several collieries and believe that if a start is once made there will be a stamped out of the strikers' ranks, that will mark the beginning of the end of the strike. The heads of the coal companies in New York, however, have not as yet given the word to make the experiment.

Row Over a Fence.

John Cunningham, of Capouse avenue, was yesterday arraigned before Magistrate W. S. Miller, at the instance of one Robert Shaw, who charged him with assault and battery. Shaw claimed that, while driving along Capouse avenue, he accidentally drove into Cunningham's fence. He dismounted from his buggy and attempted to repair the damage, and it was then that the fracas occurred. Shaw swore that Cunningham declared that he would not allow him to touch the fence, as he was no carpenter, and that when his remarks were made he was brutally beaten. Cunningham was held in \$300 bail.
