A meeting of the officers of the Thirteenth regiment, was held at the armory last night, in the room of Col. L. A. Watres, at which arrangements were perfected for the encampment at Gettysburg.

Captain John W. Kambeck, of Company B, will be in charge of the detail, which will be made up of eight men from each company.

PERSONAL.

John Dowling, of Philadelphia, is visiting his father in South Scranton. Attorney James W. Platt, of Tunkhannock, was a guest in this city yesterday.

Miss Mildred Green and Miss Cora Schutte, of Wyoming avenue, are at Long Branch. Mr. and Mrs. Michael Coyne, of South Scranton, have returned from their honeymoon.

Mr. and Mrs. J. L. Wilson entertained a house party during the past week at Lakewood. Among the guests present were Miss Cora B. Gerson, Miss Gertrude Gerson, Miss Susan Morris, Gertrude Kennedy, Beata Carlstrom, E. E. Weeks, Bert Edwards, J. Wynkop, Howard Yast, and Lewis H. E. Weeks.

Several changes have occurred in the company commands, two vacancies occurring through the resignations of captains, who left last fall for college, and were thus unable to remain in the regiment.

NEW WATER COMPANY.

Preparing to Supply Scranton from a Reservoir on Top of Campbell's Ledge.

Next Monday the newly formed Susquehanna Water company will meet in this city, to effect permanent organization and pass upon plans for proceeding with the construction work.

This is the company which proposes to bring water to this city from the Susquehanna, by tapping the river at Ransom, pumping water to an immense reservoir on the top of Campbell's ledge, and piping it along the side of the West Mountain by an easy grade to Scranton.

The company is composed of S. M. Nash, J. T. Boyer and N. M. Eicke, of this city; M. Echolz and A. Surber, of Pittston. The company's attorney is Hon. M. F. Sando.

A nominal capitalization of \$10,000 is all that has been subscribed, but eventually this will be increased to half a million. The additional capital has been subscribed, it is claimed, and everything is in readiness to proceed with the installation of the plant.

Engineers agree that the company's scheme is perfectly feasible and not expensive. There is no end to the supply afforded by the river, the cost of pumping is comparatively trifling, and natural conditions on top of the mountain near the ledge permit of the construction of an immense reservoir at a very moderate cost.

The company will devote itself chiefly to furnishing water for industrial purposes. It can give a rate, it claims, which will make for it a customer of every manufacturer in the city.

The plan was first conceived by the engineers of the Lackawanna Iron and Steel company when it had its fight on with the Scranton Gas and Water company, a decade ago. The steel company cast about in every direction for a means of securing an independent water supply and surveyed two routes for piping water from the Susquehanna, one of which is that adopted by the new company.

It is said the new company has succeeded in interesting in its scheme capitalists who are not only able to finance the company but to fight to a finish any opponent who may be likely to attempt to hinder the scheme.

WILL PAVE THE STREETS.

Garfield Avenue and Swetland Street to Receive Needed Repairs.

"We are going to give the people of West Scranton a pleasant surprise, this week, by making some much needed repairs on Swetland street and Garfield avenue," remarked Director of Public Works John E. Roche, to a Tribune man, yesterday afternoon.

The block on Swetland street between Rebecca avenue and Garfield avenue will be paved with pressed stones, and the same repairs will take place on Garfield avenue, from Swetland street to the foot of the hill.

Director Roche says that this is the first genuine piece of macadam put in the city, and is especially pleased over the fact that the work cost the city comparatively little. "Why," he said, "it would cost us \$100 a load to cart dirt over for the job, and this pressed stone is only going to cost us \$120." Work will be started early this week.

LEADERS ARE RESTING NOW

KELLERMAN ONLY ONE OF THE FIRST TWENTY TO SCORE.

Henry E. Collins, of Kizers, Made His Debut in The Tribune's Educational Contest Yesterday—Hendrick Adams, of Chinchilla, One Step Nearer the Top—John Mackie, of Providence, Adds to His Score. A Good Time to Start In.

Standing of Contestants

Table listing names and points of contestants: Charles Burns, Vandling, 439; Oscar H. Kipp, Elmhurst, 328; A. J. Kellerman, Scranton, 327; Fred K. Gunster, Green Ridge, 297; W. E. T. S. Rodrigues, Scranton, 261; Albert Freedman, Bellevue, 220; Herbert Thompson, Carbondale, 207; Maxwell Shepherd, Carbondale, 160; L. E. Stetson, Scranton, 160; Wm. Sherwood, Harford, 79; Harry Madden, Scranton, 58; Homer Kresge, Hyde Park, 55; J. A. Havenstrite, Moscow, 55; Frank B. McCreary, Hall, 50; William Cooper, Priceburg, 38; Miss Beatrice Harpur, Thompson, 38; Grant M. Decker, Hallstead, 37; Chas. W. Dorsey, Scranton, 36; Leo Galtzer, Springville, 33; Hendrick Adams, Chinchilla, 33; Walter Hallstead, Scranton, 27; Harry Danvers, Providence, 25; Louis McCusker, Park Place, 23; Hugh Johnson, Forest City, 19; Miss Jane Matthewson, Factoryville, 19; C. Edna Coleman, Scranton, 12; Don C. Capwell, Scranton, 11.

A. J. Kellerman, of Scranton, was the only one of the first twenty leaders in The Tribune's Educational Contest to add to his score yesterday, and he had only one point. Had he returned two he would have been tied with Oscar Kipp, of Elmhurst, for second place.

Hendrick Adams, of Chinchilla, added six points and took twentieth place away from Walter Hallstead, of Scranton. With another six points Mr. Adams would have gone up beyond six more contestants.

John Mackie, of Providence, added to his score, but retained the place he has held for some days. Henry Collins, of Keyser, is the latest aspirant for an advanced education to begin. He started yesterday with four points and is in fourth place this morning. Only a few more points will give him a position in the table that is published daily of the standing of the first thirty-three contestants.

A contestant starting now will have over three months and a half in which to work. In that time he should succeed in making his way well up toward the top of the list, if he is really sincere in his ambition to work for his own advancement. Some of those who have entered have seemed to fall to keep that aim in view and got discouraged early. Conard Doner tells a story of a man who was replying because he was unfortunate. A listener stood it as long as he could and then spoke out: "I was lying in bed one night when fortune knocked on my door and whispered to me very low, but I heard her, and opened the door and she gave me a chance, and I am well off now. But, beaded, she would have to break down your door with a sledge-hammer and drag you out of bed by the hair of your head, before you would stop snoring."

Perhaps that is the case with some of those who have failed to grasp the great opportunities offered them in The Tribune's Educational Contest. It is not too late to begin now. A postal addressed to "Contest Editor," Tribune, Scranton, Pa., will be followed by full information. Better write for postal at once.

The following is the standing of the ten contestants who have scored the largest number of points since July 1.

SCHOOL BOARD MEETS MONDAY.

Will Probably Consider Adoption of Year's Text Books.

Next Monday's meeting of the school board promises to be an interesting session, as a large amount of important business is scheduled to come up before the members of the board. It is expected that the text book committee will make a definite report regarding the matter of text books for the ensuing school year, either recommending the adoption of the present books in use, or awarding the contracts to some of the other companies, which have made strenuous efforts recently to secure the orders.

The school board law provides that the committee must first confer with a committee of public school teachers on the matter, and this has already been done. It is likely that the committee will also meet with Superintendent of Schools George W. Phillips, before making the report. As yet, nothing is definitely known as to the committee's intentions in the matter.
