PRINCESS VIROQUA, M.D.

Practising Physician and Lecturer, Sister of Ornyatekhar, Head of the Order of Forrester of the World, Endorses Lydia E. Pinkham's Vegetable Compound After Following Its Record For Years.

From time to time we have been publishing in the newspapers of this country our statements and claims of the superiority of Lydia E. Pinkham's Vegetable Compound as a remedy for all the ills peculiar to women, but it seldom happens that the proprietor of a valuable medicine is able to produce such unquestionable expert testimony as we are permitted to publish in this article.

It is unnecessary for us to devote much space by way of introduction of Dr. Viroqua, as both she and her family are of international fame. Her brother Ornyatekhar, was second in rank of the Good Templars of the world when John B. Finch was chief. Now at the head of the Independent Order of Forresters of the world, having headquarters at Toronto, Can. Princess Viroqua, the subject of our portrait, has been a practising physician and lecturer in the United States for the past twenty-five years; her standing in her profession and eloquence as a speaker is well known, especially throughout the West. She writes a letter to Mrs. Pinkham of interest to all women.

PRINCESS VIROQUA, M. D.

"DEAR MRS. PINKHAM:—Health is the greatest boon bestowed on humanity and therefore anything that can restore lost health is a blessing. I consider Lydia E. Pinkham's Vegetable Compound as a blessing to State and Nation. It cures her mothers and daughters and makes them well and strong.

"For fifteen years I have noted the effect of your Vegetable Compound in curing special diseases of women. "I know of nothing superior for ovarian trouble, barrenness, and it has prevented hundreds of dangerous operations where physicians claimed it was the only chance to get well. Ulceration and inflammation of the womb has been cured in two or three weeks through its use, and as I find it purely an herbal remedy, I unhesitatingly give it my highest endorsement.—Fraternally yours, Dr. P. Viroqua, Lansing, Mich."

After a thorough consideration of such a testimonial as this we are perfectly sure that the women of America will consider that we are amply justified in making our strong claims for the superiority of Lydia E. Pinkham's Vegetable Compound. Every one, of course, knows that Dr. Viroqua would not allow such a statement to be made over her signature unless it was absolutely true, and that her faith in the remedy must be great or she would not allow her portrait to be published in connection with her recommendation.

If you are ill do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham at Lynn, Mass. for special advice; it is entirely free.

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find the above testimonial letter is not genuine, or was published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Too Late. As illustrating the "instantaneous" knowledge needed in the profession of medicine, the following story is told of Dean Smith, of the Yale Medical school: On one occasion he cited a hypothetical case and asked a student how much of a certain medicine should be administered to the sufferer. "A teaspoonful," answered the young man. In about a minute, however, he raised his hand and said: "Professor, I would like to change my answer to that question." The dean took out his watch. "My young friend," he remarked, "your patient has been dead forty seconds."—New York Times.
