**Important to Farmers--Pigeon Weed.**

I wrote you some two years ago, that I thought I had made a discovery whereby pigeon weed, or red root, could be exterminated from the earth, viz: by planting corn two seasons on the same field. I have followed up the plan, and find it to answer the purpose effectually. You can tell my brother farmers, that they can get rid of that pest of the wheat grower by following my plan. Yet, strange as it may appear, no other two summer crops will kill it all. I have tried both barley and oats twice in succession, but Indian corn and potatoes will; the latter crop would not answer to cultivate extensively on our stiff soils, but the former will. John Johnson, Seneca, N. Y.—Cultivator.

**About Milk**

Mr. William P. Fogg has given some valuable knowledge on the chemical properties of milk and butter, which every dairy-man or woman should read. We will give a few extracts from his remarks. "The ordinary temperature of new milk is from 65 to 70 degrees. To the naked eye it seems a pure white liquid; but when viewed through a microscope an infinite number of minute globules, appear, which contain the only part, or butter. When the milk is set away in the dairy, these only particles, being the lightest, gradually rise to the surface and form the cream. But when milk is exposed to the atmosphere, the oxygen absorbed by it slowly changes the milk sugar into what is called lactic acid. This acid causes the casein or curd to coagulate, prevents the further separation of the cream, and the milk becomes sour. The curd of sour milk is always found to contain more or less butter; sometimes as much as two per cent., or one half the whole quantity contained in the milk; (the best milk seldom contains five per cent.) This arises from the fact that the lactic acid is formed before all the butter particles have had time to rise to the surface. Hence, the longer we can keep milk sweet, the more cream we can obtain."

Mr. Fogg gives the following process for preventing milk from becoming sour, passed upon the chemical principle of adding an alkali which shall combine with the acid as fast as it forms, a neutralizer. "Carbonate of soda is the substance which experience has proved best adapted for this purpose. It is perfectly innocuous, and when pure, imparts no disagreeable flavor to the milk or butter.—Half a tea-spoonful dissolved in water and mixed with four quarts of milk, will keep it sweet four or five days. In very warm weather more than the above quantity of soda is required.

**Brushing Tomatoes.**

Those who love good tomatoes will take pains to cultivate them so as to insure them as near as may be in their full perfection. There is no other fruit that delights more in air and sunshine than the tomato. They should have therefore a abundance of room, and the vines be sustained from falling to the earth. I have found stout brush firmly set around the plants, to answer the purpose better than any other method. The branches have room to extend themselves as they like, while the limbs of the brush keep them in their position. By this method the fruit is more fully exposed to the genial influences of the air and sunshine; whereby it attains a more delicious flavor, larger size, and comes quicker to maturity.—Rural New Yorker.

**The Curculion on Fruit Trees.**

Mr. McPherson:—On examining my Apricot trees and the several varieties of the Plum, a few days ago, I found that the curculion had preceded me, and already left its marks upon some of the young apricots. I also found some of the plum trees, ready to commence their work of destruction, so soon as the young fruit shall have shed its blossom, which now affords it a partial protection against their attacks. Of the several remedies which I have employed against the ravages of this wholesale destroyer of our stone fruit, the one recommended by J. Thomas, in his fruit book, only has proved entirely successful. For the information of that portion of your readers who are not in possession of that valuable book, I will state the *modus operandi*—which, after years of ample experience, I have never found to fail in a single instance. It is simply jarring the tree with a wooden mallet, and destroying the insect when you get it into your power. To prevent injury to the bark of the tree, I let the stroke fall on the stump of a limb; if the tree has none, I cut a limb off for that purpose. If this is not advisable, I use a stick of wood shaped like a ball-bat, with two worn-out gums shoes doubled together, nailed to the flat end of it, to receive the stroke. The side of the stick with the gum nailed to it, being held to the bark and the stroke falling on the other, no injury is done to the tree. To secure the curculion, I spread a sheet under the tree, made of cheap muslin about ten feet square, to receive the insect as it drops from the tree. This sheet has a slit from one side to the centre of it, to receive the stem of the tree.

The work is best done in the cool of the morning before sunrise. Being torpid, they are unable to fly and they cling less firmly to their hold upon the tree. Independent Whig.

The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend & prescribe it in their practice. The retail price is 25 cents per vial which brings it within the means of all.

Brooklyn, L. I. January 16, 1847. I do certify that I gave one bottle of B. A. Farnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson st's. JAMES McCAFFREY.

Poughkeepsie, N. Y. March 2, 1844. I certify, that I took two vials of B. A. Farnestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Farnestock's Vermifuge. I therefore recommend it. MARTHA CLIFT.

The public is cautioned against counterfeits and spurious articles, and to put no confidence in statements that 'Kolmstock's,' and 'S. Farnestock's Vermifuge,' are the same or as good as the only genuine article, which is B. A. Farnestock's Vermifuge. For sale in Stroudsburg, by T. Schoel.

**HORSES MADE SOUND**

BY THE **Horse Owner's Secret,** Being a new and certain remedy for the speedy **Cure of Heaves,** By SIR JAMES LYNDONTON, Principal Farrier to his Royal Highness Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling.—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

**LIVER COMPLAINT, Jaundice, Dyspepsia, Chronic or Nervous Debility, Diseases of the Kidneys,**

and all diseases arising from a disordered Liver or Stomach, such as a constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness, or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellowness of the skin & eyes, pain in the side, back, chest, limbs, &c. sudden flushes of heat, burning in the flesh, constant imaginings of evil and great depression of spirits, can be effectually cured by Dr. Hooffland's celebrated German Bitters, PREPARED BY

**Dr. C. H. Jackson,** at the German Medicine Store, 130 Arch st. Philadelphia.

Their power is equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed. These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

**Read and be Convinced.**

From the Boston Bee. The editor said, Dec. 23rd—Dr. Hooffland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use. "SCOTT'S WEEKLY," one of the best literary papers published, said, Aug. 25—

"Dr. Hooffland's German Bitters, manufactured by Dr. Jackson, are now recommended by the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

**More Evidence.**

The Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says: "Hooffland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

"If this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quick approval when presented even in this form. That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time.

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.

For sale Wholesale and Retail at the German Medicine Store, No. 130 Arch street, one door below 6th, Philadelphia; and by respectable dealers generally through the country. Prices reduced—so that all classes of invalids to enjoy the advantages of their great restorative powers. Single Bottle 75 cents. For sale by STARRIRD & WALLACE, Stroudsburg' Pa. Aug. 5, 1852.—1y.
