Superphosphate of Lime.

From an article in the *Boston Cultivator*, on this important fertilizer, we make the following extract:

There is nothing to hinder farmers from preparing superphosphate of lime for themselves. For the guidance of those who wish to do so, and who are unacquainted with the method, we give a few practical hints, chiefly from the writings of Professor Way, and from a paper of the Lock-wood Farmer's Club, drawn up, we presume, by an enlightened agriculturist, Mr. Stewart, of Hillside.

A pair of substantial water-tight tubs may be got by butting a large barrel across the middle. Into these the bones, the more finely ground the better, are put by weight. The tubs may be filled with bones to within fifteen inches of the brim. Moisten the bones with fully one fifth their weight of the water from the rose of a watering can, turning them over carefully so that they may be equally saturated. As soon as this is done add the sulphuric acid, in quantity from 40 to 45 per cent. of the weight of the bones. The acid must be very cautiously put over the bones, to avoid danger to the hands and clothes. As soon as practicable stir up the bones with a fork, to make sure that all the bones come in contact with the acid. In doing this stand to the windward of the tub, to lessen the danger from the effervescing liquid. After the bones have been carefully turned over, the tub may be covered with an old cloth to preserve the heat, and left twenty-four hours, by which time the process should be complete.

If raw bones are used instead of bones that have been boiled for the purpose of extracting the fatty matter and gelatin, ten per cent. less of acid will be sufficient. It is of importance to attend to this as the acid is much the greater ingredient, and when more than enough is used, it is completely lost—its only use being to render the phosphate soluble. Oil of vitriol is commonly used, but brown acid is more economical, though from some reason or other it is not so generally approved of. The strength of the oil of vitriol of brown acid, or, in other words, the amount of pure sulphuric which either of them contains, is known by their specific gravity. In Professor Way's calculations he reckons their weight, as 1.7 compared with 1 water.—If brown acid be used, about a fourth more quantity is required than oil of vitriol.

Unless the bones are moistened with a larger quantity of water than half the weight of acid, they should not be difficult to dry for the purpose of sowing. Any dry absorbent substance which does not contain much carbonate of lime will do for mixing with the superphosphate after it has been a day in the tub. A layer of ashes, or, failing that, dry saw dust, may be laid on the floor beside the tub, six inches deep. Upon this layer place a quantity of dissolved bones with a spade, then another layer of ashes or saw-dust alternating with the bones until the tubs are empty.

The compound heap is now sliced down with a spade, a little at a time, and thoroughly mixed and made small with an iron rake. After having gone over it once, the same process should be repeated immediately, or at any convenient time hereafter, adding more ashes or saw-dust if it is not dry enough, after which it will be in a fit state for sowing.

In calculating the amount to be applied to the crop, if the compound contained, say a ton of bones, it may be regarded as equal to 58 cwt. of Peruvian Guano.—When the bones are prepared for light land, it is advisable to use a rather less proportion of acid. The process is thereby cheapened; and if small fragments of bones remain undissolved, they are highly useful in that state for sustaining the autumn growth of crop.

Dried Pumpkin, for Pies.—Cut a pumpkin in half, lengthwise, take out the seeds, pare off the rind, and cut it in slices about an inch thick. String it on fine twine, and hang it in a dry place. In the winter stew and use it as green pumpkin. The cheese-shaped pumpkin is the best kind for drying.—*National Cook Book.*

FIFTY DOLLARS Reward. *Dr. Hulse* will forfeit \$50 if failing to cure any case of secret disease that may come under his care, no matter how long standing or affecting. Either sex are invited to his Private Rooms, 33 North Seventh Street Philadelphia, without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.

IMPOTENCY.—Through unrestrained indulgence of the passions, an excess of self-stimulation, the evils are numerous. Premature impotency, involuntary seminal discharges, wasting of the organs, loss of memory, a distaste for female society, general debility, or constitutional derangement, are sure to follow. If necessary, consult the Doctor with confidence; he offers a perfect cure.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases their lives, in the hands of Physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.—Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.

YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose, or legs, pains in head, or bones, mercurial rheumatism, stricture, gravel, irregularities, disease arising from youthful excesses, or impurities of the blood, whereby the constitution has become unbalanced, enables the Doctor to offer speedy relief to all who may place themselves under his care.

Medicines forwarded to any part of the United States;—Price five and ten dollars per package. [Nov. 18, 1852-ly.]

OFFICE TO PROCURE Soldiers' Land Warrants.

By a recent Act of Congress it is enacted, that each of the surviving, or the widow or minor children of deceased commissioned and uncommissioned officers, musicians, or private soldiers, who performed military services in any regiment, company or detachment in the service of the United States, in the war with Great Britain, declared by the United States on the eighteenth day of June 1812, or in any of the Indian wars since 1790 and each of the commissioned officers who was engaged in the military service of the United States in the late war with Mexico, and shall be entitled to lands as follows:—

Those who engaged to serve twelve months or during the war, and actually served nine months, shall receive one hundred and sixty acres; and those who engaged to serve six months and actually served four months, shall receive eighty acres; and those who engaged to serve for any or an indefinite period, and actually served one month, shall receive forty acres. Provided, that whenever any officer or soldier was honorably discharged in consequence of disability in the service, he shall receive the amount to which he would have been entitled if he had served the full period for which he was engaged to serve.

Under the above act, and the acts of Congress generally, the subscriber offers his services as agent to procure Land Warrants for those entitled to receive them, as above specified. He may be found at his office in Stroudsburg. S. C. BURNETT.

STAGE LINES.

The Stroudsburg and Easton mail line of stages, consists of excellent four horse coaches, and leaves J. J. Postens' Indian Queen Hotel, Stroudsburg, Pa. every day (except Sundays) at 7 o'clock A. M. arriving in Easton before the departure of the cars for New York, or stages to Bethlehem and Allentown.

The following lines leave Postens' Indian Queen Hotel, Stroudsburg, Pa. every Monday, Wednesday and Friday, returning on alternate days:

A line to Port Jervis, leaving at 7 o'clock A. M. via Bushkill, Dingman's Choice and Milford. Returning, leaves Port Jervis immediately after the arrival of the morning train of cars to New York, at about 8 o'clock A. M.

A line to Mauch Chunk, leaving at 7 o'clock A. M. via Brodheadville, where it connects with lines to Wilkes-Barre and Wheat Haven.

A line to Scranton, leaving at 1 o'clock A. M. via Bartonville, Tannersville, where it connects with a line to Honesdale, and connecting at Scranton with the cars for the west.

These lines hold out strong inducements to the traveling public—passing through sections of the country which are as magnificent and picturesque as any in the Union.

Having provided themselves with excellent coaches, good horses, and careful drivers, they feel confident that they will be enabled to give entire satisfaction to all who will patronize them.

Hobensack's Worm Syrup.
An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, & can be given to the most tender infant with decided beneficial effect, where *Bowel Complaints and Dysentery* have made them weak and debilitated. The Tonic properties of my Worm Syrup are such, that it stands with an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with Dysentery, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm!
This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and entangled in the Intestines and Stomach, affecting the health so badly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued. It would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm which must be taken in doses of 2 Table spoons full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills.
No part of man is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of Roots and Plants furnished by nature to heal the sick; namely 1st. An *Expectorant*, which augments the secretion from the Pulmonary mucous membrane, or promotes the discharge of secreted matter. 2d. An *Antispasmodic*, which changes in some explicable and inestimable manner, the certain morbid action of the system. 3d. A *Tonic*, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th. A *Cathartic*, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females.
You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.

None genuine unless signed J. N. Hobensack, all others being base imitations.—Agents wishing new supplies, and Store Keepers wishing to become Agents, must address the Proprietor J. N. Hobensack, No 120 N. Second st., Phila., Pa.

Cure of Consumption,
Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The *Worm Syrup* prescribed in this work without the expensive aid of physicians or injurious use of patent medicines. In adopting this *System of Cure* the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to *Relieve* but never *Cure*. He knows when using this *Life saving Balsam*, that he is taking mild, pleasant, efficacious remedies, such as *Nature prescribes* for his ill children suffer. The ingredients composing this *Lung Balsam* are obtainable (cheaply too) wherever consumption exists, proving that *Every ill has its antidote*. Consumptive patients may *Relay on this receipt*—(all Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Receipt to making the Balsam, as it enables people to *Make their own Medicine at a Trifling Cost*. I will impart the secret of making the Balsam, and the *Family right* to use it, for \$1, but in no case will I sell it for speculating purposes.

Proof of its Goodness.
JACKSON, Mich. March 21, 1851.

Doct. S. TOUSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 2lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev. Mr. Blanchard will write you for a recipe. Respectfully yours, O. F. POOL.

B. A. FAHNESTOCK'S VERMIFUGE.

The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend & prescribe it in their practice.

The retail price is 25 cents per vial which brings it within the means of all.

Brooklyn, L. I. January 16, 1847. I do certify that I gave one bottle of B. A. Fahnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson st's. JAMES McCARTREY.

Poughkeepsie, N. Y. March 2, 1844. I certify, that I took two vials of B. A. Fahnestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Fahnestock's Vermifuge. I therefore recommend it.

Dr. Hoopland's celebrated German Bitters
PREPARED BY
Dr. C. M. JACKSON,

at the German Medicine Store, 120 Arch st., Philadelphia. Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the relief of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are vital, safe, certain and pleasant.

Read and be Convinced.
From the Boston Bee.

The editor said, Dec. 23rd—*Dr. Hoopland's celebrated German Bitters* for the cure of liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant to taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use. "Scott's Weekly," one of the best literary papers published, said, Aug. 25—*"Dr. Hoopland's German Bitters,"* manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

More Evidence.
The Hon. C. D. Hineine, Mayor of the City of Camden, N. J. says:

"Hoopland's German Bitters."—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

"It is this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented with in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time.

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.
