U. S. 7-30 Loan.
THIRD SERIES,
\$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent Gold-Bearing Bonds.

These bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon the other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to
One cent per day on a \$50 note.
Two cents " " " \$100 "
Ten " " " " \$500 "
Twenty " " " " \$1000 "
\$1 " " " " \$5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privilege to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7 3/10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the condition of this THIRD SERIES affects only the matter of the interest. The payment in gold, if made, will be equivalent to currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is

The Only Loan in Market
Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than \$230,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will be subscribed for within two months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
Subscription Agent, Philadelphia.

Subscriptions will be received by the Stroudsburg Bank, and the First National Bank of Scranton Pa.

Manhood: how Lost, how Restored.

Just published, a new edition of
Dr. Culverwell's Celebrated
Essay on the radical cure
(without medicine) of SPERMATORRHOEA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also CONSUMPTION, EPILEPSY, and FRS; induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only six cents.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years' successful practice, that the alarming consequence of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter his condition may be, may cure himself cheaply, privately, and radically.

This Lecture should be in the hands of every youth and every man in the land. Sent, under seal, in a plain envelope, to any address, post-paid, on receipt of six cents, or two post stamps. Address the publishers.

PROSPECTUS OF THE
JACKSON OIL COMPANY,
OF PHILADELPHIA.

CAPITAL, 400,000.

Divided into 80,000 Shares at \$5 per share

SUBSCRIPTION PRICE \$2 PER SHARE.
With a reserved Working capital of \$50,000

E. W. DAVIS, President.
L. W. BRODHEAD, Sec. & Treas.

DIRECTORS.
E. W. DAVIS, THOS. M. McILHANEY,
JAS. M. SEELERS, GEO. E. PAINTER,
GEO. S. JONES, A. REEVES JACKSON,
L. W. BRODHEAD.

This Company owns in fee simple seventy-seven and three-tenths acres on the East side of the Allegheny River, in Rockland township, Venango County, Pennsylvania. It is situated five miles below the town of Franklin, opposite the mouth of the West Sandy Creek, and has a frontage of 110 rods on the river. It is but a short distance below the celebrated Hoover well which is yielding 200 barrels of oil daily. Other yielding wells surround it in every direction, and within the past few weeks two new wells have been struck in the immediate neighborhood, one of which is producing daily 30 barrels of heavy lubricating oil worth at the well \$80 per barrel.

A fine vein of Bituminous coal, easily accessible, is on part of the land, and in view of the enormously high price of coal in that region, is an important consideration, and will enable the company not only to supply its own wants in that respect, but to derive an income from its sale to others.

The adjoining properties are in the hands of good and prosperous companies, all in successful operation, and it is believed that no oil company has started out with better prospects for paying large and regular monthly dividends.

This Company intend developing their land without the least delay, and for this purpose have arranged for the necessary engines, tools, tubing, &c., all of which will be put upon the ground and in operation as soon as the season will permit.

In addition to their own wells, the Company also propose to lease to responsible parties portions of their land divided into lots of 10 square rods each, at a rent of one half the oil, the Company to be at no expense whatever. They will have at least fifty such lots to lease, all of which can be leased at once if deemed expedient, with covenants binding lessees to sink wells with all possible despatch to the depth of five hundred or more feet. Estimating, only one well to each lot, fifty wells, at the very moderate average of ten barrels each, would make a daily product of 500 barrels. Of this the Company's share would be 250 barrels.

Value of daily yield to the Company at \$30 per Barrel, \$7,500.

Allowing 250 working days to the year, the Company's annual net receipts from leases alone would be \$1,875,000.

The Company also intend sinking on their own account, at least five wells. Should they be successful with only one, it would produce, estimating as above, a yearly income of \$75,000.

From which deduct for expenses (a large estimate) 15,000

And it leaves an annual net income of 60,000 To which add income from leases 1,875,000

Making a yearly income of \$1,935,000

This is thought by those who are acquainted with this locality, to be a moderate estimate, and yet it is easy to see that even this amount of success would make the property of the Company in value, almost surpass belief.

The durability of this immediate oil section is illustrated by the fact that wells above and below this property have been pumping over four years, with a steady yield, and without any diminution.
