

THE WAY THE TREATY WAS CONSUMMATED.

A correspondent of the New York Sun, writing from Mexico, gives the following account of the negotiations respecting the Treaty with Mexico, which if true, are very disgraceful. We do not believe, however, that Gen. Scott would knowingly lend himself to any such intrigues as are here stated.

When Mr. Trist arrived here, he manifested a disposition, or rather determination, to carry out Mr. Polk's instructions to the letter; which, had he done, the late treaty would have been consummated, but all of Mexico would have remained happily in our possession, a just indemnity for the expense of blood and treasure to which she had put us.

When certain parties, and I need not hesitate in naming McIntosh and Gen. Scott as principals found that Mr. Trist was for once inclined to official integrity, it was determined to assault him at two delicate and tender points, to wit: his vanity and pocket. He was by much arful persuasion, led to believe that by lending himself to a treaty scheme, such as McIntosh & Co. had cut and dried, he would be doing his country and Mexico inexpressible service, and securing to himself, at the same time, immortal honors; while he was given to understand that a princely share of pecuniary profit would fall to his lot. Like Demosthenes—so far only as the bribe was concerned—he could not resist the golden cup, and the result of the matter was a co-partnership with McIntosh, Scott & Co., for the production of such a treaty as would make the parties much money and notoriety at the same time.

The treaty was concocted by these worthies, in conjunction with certain members of the Mexican government, as it was called bought up for the purpose, and the people of the United States were astonished to find themselves packed off with a barren strip of Mexico, for which, besides all the expenses of the war, and their claims, they were saddled with a bond of fifteen millions of dollars. And this brings me to one of the financial operations which had its influence with the treaty makers. The treaty money was arranged to be paid in instalments, the first of which, amounting to three millions of dollars, has been paid. Instead of taking the drafts on the United States, and selling them for the premium of fifteen per cent., which they readily command in Mexico, and saving to the U. S. Treasury four hundred and fifty thousand dollars on three millions, or two millions two hundred and fifty thousand on the whole bond of fifteen millions, the drafts were handed over by Mr. Trist & Co. to Hargous & Co., in consideration of two per cent. or sixty thousand dollars, which Trist & Co. pocketed while Hargous turned the drafts over to a third party for fourteen per cent., making a clean profit of twelve per cent., or three hundred and sixty thousand dollars, without using a dollar of capital in the transaction.

It is needless almost to say that Hargous & Co. are but sharers of this round little sum of one million eight hundred thousand dollars which is to be made by the twelve per cent. dodge on fifteen millions. McIntosh & Co. take the lion's share of the spoils, and those who know how the thing has been worked up to this point, think Scott and Trist will be none the poorer for the operation. The government financiers at Washington may head off the speculation at the next instalment, and save the Treasury a round sum; but they leave let three hundred and sixty thousand dollars slip through Uncle Sam's fingers, past redemption.

THE SHARK CASE AT BALTIMORE.—The Baltimore Sun contains additional particulars of the young man who was attacked by a Shark, while bathing at the mouth of the Falls, on Thursday last.

His name is Wm. Henry Haywood, about seventeen years of age, and was serving as a "hand" before the mast, on board the brig Kingston, of this port. He came aboard of the brig at Montevideo, having, it is said, run away from some English vessel. He came to Baltimore, and has since made a voyage to the West Indies. He is an Englishman by birth, and has no relatives or acquaintances here except his shipmates. On Thursday evening he was taken to the Lombard street Infirmary, where, in consequence of the great agony he experienced, and at his own repeated solicitations, chloroform was administered to him by Dr. Blakiston, and he was kept under its influence for the space of one hour and twenty minutes, without any ill consequence, since which he has been greatly relieved of pain, and up to last evening was doing very well. During the application of chloroform, his friends evil results, requested the doctors to destroy its influence which was no sooner done than he actually shrieked from the insupportable pain which the wound occasioned, and could only be rendered less susceptible of it upon its being again administered.—There are hopes that he may get over the injuries, but it is by no means certain.

"SERVED HIM RIGHT."—We find the following refreshing item in the St. Louis Organ: "Yesterday afternoon, a lady, the keeper of a boarding house on Broadway, was seen to deliberately walk from her house and approach a nice young man, who was standing on the opposite side, talking with a friend.—The unseasonable youngster's first salutation from her was with a cowhide, which was mysteriously produced, and with which he received a severe flogging, much to his own chagrin, but apparently to the pleasure of a large number of persons who were witnesses to the scene. He wanted to resist, but upon being threatened by some of the bystanders in case he did, he stood and took it coolly. The cause was the too free use of his tongue about this lady and her family. Verdict of the crowd, 'served him right.'"

GOOD IDEAS.—On all the genuine notes of the State Bank of Ohio, the number of human figures represented in the vignette corners, ponds with the numbers of dollars represented by the bill. This is a mere protection from fraud by the alteration of bills of small denomination to those of larger.

DEMOCRATIC STATE NOMINATIONS. For Governor, MORRIS LONGSTRETH, of Montgomery County. For Canal Commissioner, ISRAEL PAINTER, of Westmoreland County.

DEMOCRATIC COUNTY NOMINATIONS. CONGRESS. Gen. WM. A. PETRIKEN, SENATOR. EDWARD Y. BRIGHT, ASSEMBLY. GEORGE A. FRICK, SHERIFF. JAMES COVERT, PROTHONOTARY. JOHN FARNSWORTH, REGISTER & RECORDER. JOHN P. PURSEL, COMMISSIONER. CHARLES WEAVER, AUDITOR. DANIEL P. CAUL, CORONER. FRANKLIN A. CLARK.

Some of the paper on which the American is printed, this week, has been too closely clipped to allow a sufficient margin.

We have been requested to state, that Charles R. Buckalew, Esq., will deliver a speech before the Northumberland and Point Township Hickory Club, on Friday the 15th of Sept., at which time and place a Gold Medal will be presented by the Democratic Ladies of Northumberland to William McDonald, one of the forlorn hope at the storming of Chepultepec in Mexico. Democrats are invited to attend. Col. Wm. Brindle of the 2d Pennsylvania Regiment, will receive the Medal for Wm. McDonald, and give a history and description of the battle, &c.

The weather is usually pleasant during the present month. The nights are cool, but the heat during the day is sometimes oppressive. A little rain at present would prove greatly refreshing.

In the Lycoming county Convention, Alexander Jordan, Esq., received sixteen votes for Congress. Gen. Petriken and Mr. Jordan, were the only candidates named. Mr. Jordan stands well with the democracy of Lycoming, and but for the peculiar claims of Gen. Petriken would have received the nomination of that county. Mr. Jordan and his friends will yield to Gen. Petriken, a cordial and hearty support.

The Northumberland and Dauphin Senatorial conferees met at Halifax, on Wednesday last, and on the seventh ballot nominated E. Y. Bright of this place. Mr. Bright will make a strong run in Dauphin. His election is sure, and the only question is what will be the majority. See the proceedings in another column.

We have already informed our readers of the nomination of Judge Longstreth, as the democratic candidate for Governor. Judge Longstreth is now one of the board of Canal Commissioners. He is a practical farmer, residing on a splendid farm, which he cultivates, in Montgomery county. Few men have risen more rapidly in political life. It is but a few years since that he took much part in political affairs. His intelligence and business habits—his excellent character and practical good sense, soon pointed him out as a proper person to fill the responsible office of Canal Commissioner. Since then he has been gaining rapidly in popular favor, and is now before the people as a candidate for the chief magistracy of this Commonwealth. On him the democracy of Pennsylvania can and will most cordially unite, and when united there can be no mistake in regard to victory. As sure as Morris Longstreth lives, he will be the next Governor of the old Keystone State. This county will roll up for him a handsome democratic majority. He will lose no democratic votes, but will, if we mistake not, break in on the whig party in some districts.

SENATORIAL CONFEEES MEETING.

The Conferees appointed to place in nomination a candidate to be supported by the Democracy of the 14th Senatorial district, composed of the counties of Dauphin and Northumberland, met at the house of Mrs. E. Frederick, in Halifax, on Tuesday, the 5th of Sept., 1848, when, on motion, Dr. Mercer Brown, of Dauphin, was elected President, and Wm. M. Auten, of Northumberland, Secretary.

Conferees present—Mercer Brown, Lewis Heck, N. Boyer, Dauphin county; Wm. M. Auten, J. D. Raker, J. B. Packer, (N. Boyer substituted for Jeremiah Harner, of Dauphin; J. B. Packer substituted for J. H. Zimmerman, of Northumberland.)

On motion Resolved, That the conferees proceed to nominate candidates to be balloted for. Wm. M. Auten, Esq., nominated Edward Y. Bright, of Northumberland; Dr. Mercer Brown nominated Andrew Patterson, of Dauphin; N. Boyer, Esq., nominated Dr. Lewis Heck.

On motion, Resolved, That the nominations now close, and the conference proceed to ballot. The following resolutions were then offered by Isaac D. Raker, and on motion of Dr. L. Heck, unanimously adopted.

Resolved, That we have entire confidence in the principles and patriotism of LEWIS CASS and WM. O. BUTLER, the Democratic candidates for President and Vice President of the United States.—They have both been tried upon the battle-field and in many important vital stations, and have never been found wanting.

Resolved, That MORRIS LONGSTRETH will receive our cordial support for the office of Governor. He was not the first choice of the Democracy of Dauphin and Northumberland, but the majority of the Convention having decided in his favor, he is entitled to the support of the whole party, and will receive it.

Resolved, That the Democracy of this Senatorial district, in which he has resided all his life, have pride in his character, and the able efficient and independent course of the Hon. SIMON CAMERON as Senator of the United States. He is a Democrat in principle, and is always true to the interests of his constituents.

Resolved, That we have the utmost confidence in the integrity, patriotism, and sound, unflinching Democracy of the candidate this day unanimously nominated by us for Senator; and that, while we pledge ourselves to use all fair and honorable means to secure his election, we feel a just pride in presenting Edward Y. Bright, Esq., of Northumberland county, to the Democracy of this Senatorial district as their standard bearer in the coming contest, and in commending him to them as a Democrat entirely worthy of their confidence and entitled to their firm and united support.

Resolved, That the proceedings of this Conference be signed by the officers and published in the Democratic papers of this Senatorial district.

MERCER BROWN, Secretary. WM. M. AUTEN, Secretary.

[Correspondence of the Public Ledger.] FROM WASHINGTON. WASHINGTON, Sept. 5th, 1848. To calm the public apprehension, I will state that Senator Benton has written ten pages full of reasons why he should not now fight Judge Butler of South Carolina. They are addressed in form of a letter to the Hon. Reverdy Johnson, of Maryland, the party who carried the challenge, and will no doubt, be made known substantially at the proper time. The principal reason is, that Col. Benton's honor has been impugned, by the charge that he has revealed what was done in secret session, and he must first refute that charge before he can be called upon to fight for a character.

Instead of politicians, various toments and other unwholesome beings are now promulgating Pennsylvania Avenue "by the light of the moon;" but I am no Asmodeus to draw the veil from these mysteries. OBSERVER.

[From the Evening Bulletin, of the 1st inst.] THE FREE SOIL MEETING. The "free-soil" meeting was most numerous attended last evening, for two reasons. One, because ninety-nine out of one hundred of both Whigs and Democrats are utterly opposed to the introduction of slavery into territory now free—and the other to hear Mr. Van Buren, who has the reputation of an able debater and eloquent speaker, and who has of late rendered himself prominent by the vigorous efforts which he is putting forth to arouse public attention to the further extension of slavery in this country. His speech made last evening well sustained the reputation which had preceded him, and notwithstanding the frequent interruptions which were made by the noise and vociferations of a few backguards who evidently intended to put him down, showed him to be a man of talents, energy and enthusiasm, destined ere long to fill a large space in the public eye. For the credit of our city we most sincerely regret the disorderly conduct of the few voters who attended the meeting last evening, determined neither to harm themselves, nor to let others hear this gentleman. Such disgraceful conduct will meet the decided reprobation of every good citizen, and will surely not be permitted to occur again. Some arrests were made, and we hope most sincerely that the rioters will be severely dealt with.

A NATIONAL CONVENTION of "colored citizens" is to be held at Cleveland, Ohio, on the 6th inst., the object, as stated in the call, to "take action upon measures of vital interests, and to debate upon subjects in which the colored people are interested.

NORTHUMBERLAND & POINT TOWNSHIP HICKORY CLUB.

Pursuant to notice given, the Northumberland and Point Township Hickory Club—met in the Town Hall, Sept. 1st, 1848. The club was called to order by the President Capt. WM. FORSYTH—and

On motion of Dr. R. B. McCay, the reading of the minutes of the meeting was dispensed with—

Capt. Wm. Forsyth the Senatorial delegate to the State Convention arose and prefaced by some well timed remarks, announced to the Club the nomination of the Hon. Morris Longstreth as the democratic candidate for Governor by the Convention. John W. Miles, Esq., one of the Congressional conferees announced the nomination of Gen. Wm. A. Petriken, as the democratic candidate for Congress, in the 13th Congressional District.

On motion of Geo. A. Frick, Esq. Resolved, That we have heard with satisfaction and pleasure, the nomination of the Hon. Morris Longstreth as the Democratic Candidate for Governor—that in him as our candidate, we recognize those sterling, sound and radical Democratic principles, which actuated the administrations of Shunk and Snyder, and which gives good earnest and insures to the party that he will carry out those sound and wholesome doctrines of political economy and national ability, which so eminently characterized the messages of our much lamented Gov. Francis R. Shunk.

On motion of Dr. R. B. McCay. Resolved, That we view with unalloyed gratification the complete union of the party in Lycoming county, hail with joy the nomination of Gen. Wm. A. Petriken, as the Democratic Candidate for Congress, in the 13th Congressional District. That as he has always proven himself a sound consistent and radical Democrat—devoted in his attachment to the principles and success of the democratic party—and known as a man of high moral character, admired by all who know him for his honesty, patriotism and integrity—we will give him our individual and unanimous support.

James Dieffenbacher, Esq., then submitted the following preamble and resolution: Whereas, This 13th Congressional District has been misrepresented by federal misrule for the last six years, and whereas, it is highly important to the interests of the country—the Democratic party, and to the people of this District that the 13th district should be represented by a sound, radical and reliable democrat in the next Congress, and whereas, We have the strongest assurance, the most undoubted evidence that the Democracy of Lycoming, Sullivan and Clinton Counties, are firmly united, and are determined to act in perfect harmony and unanimity, and are willing and anxious to go into the contest with an unbroken front and a full determination to support and elect Gen. Wm. A. Petriken, as our next Congressman, therefore—

Resolved, That relying upon these assurances, we will once more renew our elections and pledge our individual and unanimous support for the election of Gen. Wm. A. Petriken, to Congress. And that we will here all fair and honorable means to insure his election, and that Northumberland county, will give him its whole democratic majority.

The Club was then addressed in a few remarks by Wm. Forsyth, John W. Miles, John H. Morrison, James Dieffenbacher, Dr. R. B. McCay and Geo. A. Frick.

WM. FORSYTH, President. JOHN H. MORRISON, } Secretaries. HENRY S. THOMAS, }

FOOD ABRAND.—The late accounts from England appear to confirm the apprehensions which have been entertained as to the existence of disease in the crop of potatoes, while the continuance of unfavorable weather has excited some alarm in reference to the grain crops. Under such circumstances, therefore, it seems quite probable that a deficiency to some extent in the supply of the necessaries of life will exist, and that we may in the course of the winter become exporters of considerable quantities of at least the lower descriptions of bread-stuffs, if not not of the more valuable.

MINISTER DISMISSED.—At the late Annual Episcopal Convention, for the Diocese of Western New York, held in Geneva, Bishop Deland announced that Rev. Washington Van Zandt had been displaced from the ministry. No cause assigned.

THE DROUGHT IN NEW JERSEY had destroyed late planted corn, buckwheat and turnips. Wheat and rye have been harvest in excellent condition, both yielding unusually heavy crops.

THE CALIFORNIA EXPEDITION.—We understand that the troops now at Jefferson Barracks, destined for California, composed of the second infantry, two companies of artillery, and a squadron of dragoons, under the command of Gen. Benet Riley, have been ordered to New York, and will embark by sea for their destination about the 1st of October. The season is now so far advanced, that the march across the country could not be made without great risk and expense; and it is thought by those best acquainted with the route, that, under the most favorable circumstances, they would have been compelled to winter in Santa Fe. Going by sea, they will arrive in California in February.

CONGRESSIONAL PAY AND MILEAGE.—A Washington correspondent of the New York Herald says he often hears members complaining of the sacrifices which they make in coming to Congress. Some idea of the "sacrifices," he thinks, may be inferred from the fact, that computing a Congress, a long and short session, to be fifty weeks, at \$8 a day, a member receives, in per diem, \$2,800. If he comes from Texas or Louisiana, he gets about \$5,000 mileage, a sum for which he might make a tour of a year in Europe—his mileage and pay amount to \$7,800. Annual travelling fees, \$500—leaving \$6,000 clear gain. New members receive besides, \$750 worth of books; \$25 are allowed for stationery for a long session. These are awful "sacrifices," no doubt, but we fancy they are all on the part of Uncle Sam.

For the "Sunbury American." LIZZIE.

The song that you sang on that calm summer eve'n, Still rests on my soul like a bright dream of Heaven, And the rapturous swell of the softly breathed notes, With lingering sweetness through memory floats;

For love lend a charm to each silvery tone, The love still is here, though the charmer has flown, But the magic is woven—it will not depart, Its spell has too deeply encircled my heart.

Thy voice in the whispering zephyrs I hear, No music ere fell half so sweet on my ear, No silence of midnight its melody swells Like the echoes that play in the fairies' own dells,

The wandering brook, dancing merrily by, Seems to murmur thy name in its soft lullaby; For my thoughts are all thine—every bright thing I see, Presents to my heart but the image of thee. SUNBURY, Sept. 6, 1848. H. C.

WEARY OF LIFE.—A Valuable Lesson.—In a letter dated Trenton Falls, Aug. 14, Mr. N. P. Willis relates the following curious anecdote: Among our fellow passengers up the Mohawk we had, in two adjoining seats, a very impressive contrast, an insane youth, on his way to an asylum, and the mind that had achieved the greatest triumph of intellect in our time, Morse of the electric telegraph, on an errand connected with the conveyance of thought by lightning. In the course of a brief argument on the expediency of some provision for putting and end to a defeated and hopeless existence, Mr. Morse said that, ten years ago, under ill-health and discouragement, he would gladly have availed himself of any divine authorization for terminating a life of which the possessor was weary—the loss of priceless discovery to the world, and the loss of fame and fortune to himself, which would have followed a death thus prematurely self chosen—is valuable enough, I think, to justify the invasion of the sacredness of private conversation which I commit by thus giving it to print. May some one, weary of the world, read it to his profit.

REMOVAL OF BENJ. F. BUTLER.—Benj. F. Butler, Esq., United States Attorney for the Southern District of New York, has been removed, and John McVean, Esq., appointed in his place.

THE MURDERER OF MR. SCHOOLCRAFT.—Letters, says that Cleveland Times, received from Sault St. Marie, state that disclosures have been recently made at Fort Brady, indicating that the assassination of the late J. L. Schoolcraft, near that Fort, on the 6th of July, 1846, was directly or indirectly, the act of Lieut. Tilden, the officer who was subsequently convicted of robbery and murder in the city of Mexico, and sentenced to be hanged.

A PROVIDENT INVESTMENT.—Mr. Aaron Clarke, of Portland, Me., who was unfortunately crowded from the wharf into the river and drowned, at late conflagration at Albany, took out a policy on his life for \$5,000 in N. York, about two months since; also one for \$2,500 at Boston office, thus securing to his family, consisting of a wife and four children the comfortable sum of \$7,500, at a cost less than \$2000!

WHO BUYS AN AMERICAN BOOK? The publishers of Webster's Unabridged Dictionary, in crown quarto, received an order for twelve copies of that work lately from Ceylon. Only think of that!

THE ALBANY WHIGS are not satisfied with letting the matter of the Charleson nomination of General Taylor drop for fear of endangering the coming State election. Ciculators have been issued for calling the ward representatives together to nominate Clay and Fillmore. The call is headed with the motto: "Do right and trust to Providence for results." When politicians trust to Providence for winning an election, it must be considered a marvellous sign and a very great improvement upon former practices.—Phila. Ledger.

THE CHARLESTON TAYLORITES have called a meeting to strengthen their determination to support him, because the Albany Whigs have denounced him. The Charleston Mercury, alluding to the fact, says two wings of the party will be kept in a state of considerable enthusiasm by flapping each other's faces.

BE CAUTIONS!—Some of the notes of the broken Lewistown Bank and the Northampton Bank, of this State, are still palmed on the unwary by dishonest people.—Notes on the Tenth Ward Bank, New York, are also in circulation. These are a fraud, as no such bank ever existed. Be cautious.—Miners' Journal.

CONSIDERABLE STORE-ROOM.—A man in Providence, R. I., bet five dollars that he could eat a large basket of peaches in one hour. He was successful, having despatched one hundred and fifty-two good sized peaches in fifty-two minutes.

Another fellow ate a basket without betting and died in consequence—of the eating and not the bet.

APPOINTMENT BY THE PRESIDENT.—Thomas C. McDowell of Pennsylvania, to be Consul of the United States for the port of Bahia or San Salvador, in Brazil, in the place of Alexander H. Tyler, recalled.

IN A SUIT FOR BREACH OF MARRIAGE PROMISE, in Chataque county, N. Y., Miss Phylloskey Smith recovered five hundred dollars from Mr. C. Johnson.

A man that will deceive a woman with such a name deserves to be made pay for it.

PROFESSOR GRANT is about to attack the yellow fever at Staten Island, with his disinfecting agent with which he so completely purified some National vessels that had the fever on board.

To the Voters of Northumberland County.

FELLOW CITIZENS.—Having been encouraged by a large number of friends, the subscriber is induced to offer himself as a candidate at the approaching election for the office of REGISTER & RECORDER AND Clerk of the Orphan's Court.

If he should be deemed worthy of that office, and be favored with a majority of votes, no effort will be spared to perform the duties thereof with fidelity, and to be true to the interest and general satisfaction of the people.

Respectfully your fellow citizen. JOHN H. BROWN. Milton, Sep. 9, 1848.

THE BEST MECHANICAL PAPER in the World. NEW VOLUME OF THE SCIENTIFIC AMERICAN.

THE Publishers of the Scientific American respectfully give notice that the FOURTH YEARLY VOLUME of their Journal will be commenced on Saturday, Sept. 22d. This publication differs entirely from the many magazines and papers which abound in the country. It is a Weekly Journal of Art, Science and Mechanics having for its object the advancement of the INTERESTS of MECHANICS, MANUFACTURERS and INVENTORS. Each number is illustrated with fine engravings of the latest INVENTIONS of NEW MECHANICAL INVENTIONS, nearly all of the best inventions which are patented at Washington being illustrated in the Scientific American. It also contains a Weekly List of American Patents; notices of the progress of Art, Mechanical and Scientific Improvements; practical directions on the construction management and use of all kinds of MACHINERY, TOOLS, &c. Essays upon Mechanics, Chemistry and Architecture; accounts of foreign inventions, and notices of Inventors; Rail Road Intelligence together with a vast amount of other interesting, valuable and useful information. THE SCIENTIFIC AMERICAN is the most popular journal of the kind ever published, and of more importance to the interest of MECHANICAL INVENTORS than anything that could possibly obtain! CAUTIONS. NOTICE is hereby given, that my wife Susan N. Axtell, has with my consent and in full view of me, and with my approval, and without my consent, procured a loan of \$1000 from the Tenth Ward Bank, New York, and has used the same for her own purposes, and has not repaid the same, and I am determined to pay no debts contracted by her from that time. ALLEN AUCHMUTY, Sept. 9, 1848.—3t

TO THE ELECTORS OF NORTHUMBERLAND COUNTY. FELLOW CITIZENS.—Encouraged by many of my friends throughout our county, I offer myself to your consideration as a candidate for the office of REGISTER AND RECORDER, and Clerk of the Orphan's Court, at the next general Election. Should my fellow citizens favor me with a majority of their votes, I should spare no effort, and the court direct the duties of said office with fidelity and to the satisfaction of all. Sunbury, 8 p.m. 2, 1848.
