

REPUBLICAN NOMINATIONS.

NATIONAL.

FOR PRESIDENT, GEN. BENJ. HARRISON, OF INDIANA.

FOR VICE PRESIDENT, WHITEHAW REID, OF NEW YORK.

STATE.

FOR ELECTORS AT-LARGE, F. J. JOSEPH, WILLIAM WOOD, L. F. DUNLAP, WILLIAM H. SAYRE.

FOR CONGRESSMEN AT-LARGE, ALEXANDER McDOWELL, WILLIAM LLOYD.

JUDICIARY.

FOR JUDGE OF THE SUPREME COURT, JOHN DEAN, of Blair County.

COUNTY.

FOR COUNTY, EDWARD SCULL, of Somerset.

FOR ASSEMBLY, FRANK M. MILLER, of Rockwood.

FOR DISTRICT ATTORNEY, J. A. HENCKY, of Somerset.

FOR PROB. DIRECTOR, J. D. WHELFLE, of Somerset township.

It is the field of favorite sons against Cleveland, with long odds in favor of Cleveland.

In 1888 Harrison beat Cleveland in New York 14,374. In 1892 he ought to make it 40,000.

Certainly, make it Cleveland and Boies and a square fight. Republicans will ask nothing better.

Republicans are on the track. Trot out your best movers, br'er Democrat, and the sport will begin.

The Democracy now has to face a party which has its blood up and has already caught its second wind.

It is remarkable how rapidly all Republicans are coming to think everything at Minneapolis was for the best.

It is pleasant to learn that the wife of President Harrison has so far recovered as to be now considered out of danger.

In 1888 Benjamin Harrison received 233 electoral votes and Grover Cleveland 162. In 1892, the 168 will be still shorter.

All over the country Republican ratification meetings are being held, which means that Republicans are united and harmonious.

The harp of one string, which plays "He Can't Carry New York," is about played out. It doesn't charm the people as it once did.

It matters not who the candidate of the Chicago convention will be, Republicans are ready, and never more united and enthusiastic.

Democrats are assembling in Chicago to name a candidate, but the President was nominated a week or more ago. Democrats have a way of being behind-hand.

There are twenty-nine in plain manufactory in the United States and more coming. Tin plate kicks Democrats down stairs, and then kicks them after they are down.

"Look out for Patton" is the cry of the man who thinks the Pennsylvania Governor may be the landing at Chicago. And the politicians are looking out for him, but even the strongest microscope doesn't reveal his boom.

It is pleasant to note the deep sympathy of Democratic organs for ex-Secretary Blaine. But they think nobody in this. Had he been nominated, they would have revamped their old standards and rehearsed them with a relish.

Should Senator Gorman be the Democratic nominee the "force bill" would become the issue. On this reform would be laid on the shelf. On such an issue Democrats would escape one embarrassment—the support of the English free traders.

President Harrison will be re-elected by the people for the same reason that he was nominated by the delegates from the people. The party could not have a better platform than President Harrison's administration has made ready. His wisdom and statesmanship, at home and abroad, are so marked as to need no mention to enemies nor explanation to friends. Able, honest, and energetic, his judgments are words which express current opinion of the Harrison administration.

The Republicans of Des Moines, Ia., Friday night ratified the Minnesota ticket and platform. Hon. S. J. Clarkson was the principal speaker. In his speech he said that "all Republicans to-day are for Harrison men, there will be no talking in the Republican ranks. Those who were for Blaine are now for the man who won in a fair fight and will deliver their votes to the nominee. Where the fight is thickest, there the Blaine men will be found." These utterances were received with tremendous applause.

Philadelphia, some time ago, abolished whipping as a punishment in the public schools. The methods of punishment, however, were left to the discretion of the teachers. In a minority of cases, some teachers are lacking in judgment and sound sense. Recently one of the teachers punished a little 11-year-old girl, by making her walk up and down the Wharton School stairs twenty-five times in rapid succession. The child went home, went to bed in fainting, exhausted condition, and died. The punishment for such a crime should be sure and severe.

The Democratic House on the pension appropriations down to the lowest notch, not leaving sufficient to pay the pensioners at present on the pay rolls. The Republican Senate very promptly put the figures up sufficient to cover those on the roll and leave a margin for estimated increase, but the sum is not yet up to the estimate of the department. There ought not to be any quibbling over this important subject. The money is there and it could not be debited to a better purpose. The Senate should amend the bill so as to bring the sum appropriated up to the departmental estimate.

CLEVELAND SURE. DEMOCRATS IN CHICAGO.

CHICAGO, June 20.—With the best of omens, the Democrats, the crackling of fresh additions to the Democratic forces already assembled in the city, the waving of banners, all the manifestations of exuberant enthusiasm common to a national political campaign, the day immediately preceding the convention opens. The hotel corridors re-echo the incessant hum of conversation and the cheers with which the names of the favorite candidates are greeted by their respective admirers.

The most important development in the situation is the report that, notwithstanding his emphatic declaration to the contrary, Gorman will consent to be a candidate, and that whether he give his consent or not, the anti-Cleveland elements will take advantage of his name as the most formidable one upon which they can unite.

With all this Cleveland's supporters still maintain that he is so far in the lead no one can point out how he is to be defeated. Last night his name was practically conceded in the caucus.

Chicago, June 20.—It cannot be said to be exactly fair, but there is just a trifle of nervousness prevailing the Cleveland camp to-day, and it is all due to the "Gorman" movement. When one man is a candidate, the Gorman wave amounts to anything, and wind up by asking you what you know of the matter, showing an interest that is disconcerting. The Cleveland men continue to talk of their strength, while the opposition are reticent but actively at work. They by no means give up defeating Cleveland, but have practically abandoned securing prizes for Hill. Of course, they maintain their Hill line, but their hope to-day seems to rest on the Gorman combination and a break in the south. It does not look encouraging to them, but they are fighters.

Chicago, June 20.—The Pennsylvania delegation, or rather "How" Hartley and his henchmen, hold the key to the Democratic presidential situation. With 64 uncommitted votes at their back, they can by a desertion of the Cleveland banner at this critical juncture make the nomination of "the man of destiny" an impossibility, and virtually name the nominee from among the dark horses who will stand chaffing in their stalls until Starter Rice gives the word to clear the track for the second heat of the white horse race, which is to be finally decided by a vote on the national course in November next.

Lacey Resigns. WASHINGTON, June 15.—Under the date of June 9th, H. S. Lacey handed to the Secretary of the Treasury for transmittal to the President his resignation of the office of Comptroller of the Currency to take effect on the 30th inst. In his letter to the President he says that considerations of great importance to him personally makes it necessary that he should retire from the official position which he now holds by his appointment.

A Famous Priest Dead. PRINCETON, June 15.—The Rev. Father Joseph Mollinger, priest of the Church of the Most Holy Name, Mount Troy, A. D. D., and for twenty years famous because of the curses wrought by him in the name of St. Anthony, died at 2:15 o'clock this afternoon. His death was the result of a rupture of the stomach, which was aggravated by his exertions on Monday, when 19,000 patients awaited before his chapel to receive the St. Anthony Day blessing.

After he had given the blessing on Monday Father Mollinger fainted. He thought the blessing would be made that he would deliver individual blessings yesterday. But instead of recovering he grew rapidly weaker, and the rupture, which was of years standing, caused intense pain. Himself a skilled physician, Father Mollinger at once realized his danger and summoned three leading surgeons of Pittsburgh to a consultation. They worked with him until this morning, and then decided that only in a radical operation could he be saved. He died at 2:15 o'clock this afternoon.

Awful Bridge Disaster. CINCINNATI, June 15.—One of the most fearful accidents in the history of this vicinity is that of the fall of the new bridge over the river, between Covington and New York, Ky., which occurred this morning. The cause of the accident is surmised to be the weakening of the wooden false work. The high river had washed out the earth around the bridge, and in the opinion of one of the contractors said a day or two ago that he was afraid the structure would not stand under the weight of the heavy material.

Tired of City Water. The Western Water Company, recently chartered at Harrisburg, Pa., has just completed the survey for a water line between Pittsburgh and Indian Creek, the largest mountain stream in the Fayette county mountains. The idea is to carry the waters of Indian Creek to Pittsburgh, and thence to the city.

Paid His Life For A Life. YORK, Pa., June 16.—William H. Panton, who murdered Mr. Michael Strouminger, was hanged in the jail yard in this city this morning shortly after 9 o'clock. He spent the night reading, and in the morning he kept up his spirits in good humor, and walked to the scaffold unaided.

Worse Times for Russia. St. Petersburg, June 15.—Official reports as to the latest prospects show that the general outlook is much worse than it was in the early summer of 1891. Locusts have destroyed the crops in the Caucasus, the present crops in the Crimea are saved, the situation is desperate. It is impossible to hope much from Southern Russia, where the crops have been ravaged by worms and by the field marmot. The position is made worse by the fact that at the beginning of the late famine a stock of grain was in store, while now there is none.

Blaine's Again Beheaded. CHICAGO, June 15.—Emmons Beane, son of ex-Secretary of State James G. Blaine, died at his residence in this city at 11:15 o'clock this morning. Mr. Blaine had been ill several days. His death was the result of blood poisoning, originating in a disorder of the bowels. The death scene took place in the great brown stone mansion of the McCormick family. The wife, Mrs. Emmons Beane, and the couple's 2-year-old son, McCormick Blaine, were the only persons present besides Mrs. Cyrus McCormick, young Mrs. Blaine's mother. Death came so swiftly that there was not time to summon the other members of the McCormick family, who were in the house at the time.

The Town Under Water. FAIRBANKS, Ill., June 15.—A cloud burst is reported to have taken place at Chatham this county. The entire place is under water. The water was over two feet deep on the Toledo, Peoria & Western and Illinois Central railroad tracks. A high wind prevailed which leveled small structures to the ground and twisted staves from out of place. At Forest the Washak trail is under water, but the wind did not blow as strong.

No Democrat Can. Cleveland booster, "Senator Hill can not carry the West that is the fact that Hill cannot." The people believe both of them, and, so, no Democrat can.

Cleveland booster, "Senator Hill can not carry the West that is the fact that Hill cannot." The people believe both of them, and, so, no Democrat can.

CAN HARRISON WIN? Figures Which Show That the Chances Favor Him.

WASHINGTON, June 14.—The unanimity with which the ticket nominated at Minneapolis has been accepted inaugurates the Republican campaign of 1892 with every prospect of success.

The twenty-two certain Republican states: California; Idaho; 3; Illinois; 24; Iowa; 18; Kansas; 10; Maine; 6; Massachusetts; 15; Michigan; 14; Minnesota; 8; Montana; 2; Nebraska; 5; New Hampshire; 4; North Dakota; 3; Ohio; 23; Oregon; 4; Pennsylvania; 23; Rhode Island; 4; Utah; 3; Vermont; 4; Washington; 4; Wisconsin; 12; and Wyoming; 3, will cast 211 Republican electoral votes, or but 12 less than a majority of the electoral college necessary to elect, the total being 538.

To meet this narrow margin the President is reasonably sure of again carrying his own state of Indiana with 15 votes, which will give him 10 votes to spare. But should he fail in that state of Connecticut with 6 electoral votes, which he has within a margin of carrying in 1888 against Cleveland, will give him one to spare, or West Virginia, with 6 electoral votes, which he carried in 1888 against Cleveland, would give him 31 votes to spare.

Out of the seven votes of Colorado and Nevada, the states of Connecticut and West Virginia, or the state of Indiana, or the state of Virginia, or the state of New York, or the state of Missouri, seventeen votes, which is claimed as doubtful, or the state of Tennessee, twelve votes, which is also claimed as doubtful, would safely land Cleveland in the White House.

A Child Given Slow Poison. GREENSBURG, June 17.—About two years ago Joseph A. Guthrie, a wealthy middle aged farmer on the Greensburg place, between Greensburg and Latrobe, was stricken with typhoid fever and died without a will. The deceased left a wife and one child, a son, Joseph, Jr., who, at the time of his father's death, was 2 years of age. Mrs. Guthrie continued living on the farm. About three months ago, however, she was stricken with typhoid fever and died without a will. The attending doctors were baffled, but the child was finally given relief. In a short time a relapse took place.

Another Dam Burst. MAHONNY CITY, June 18.—The dam at this place burst at about 10 o'clock last night and the water rushed over the dam, rendering the streets impassable on account of the wreckage which the torrent of water carried with it. The first alarm was given by a man in a carriage who drove through Main street calling on the people to fly for their lives, as the water on the factories also aided in spreading the news.

The people managed to escape for the most part to the mountains before the water reached them, but the residents of the north side were imprisoned in their homes. The water took a westerly course after reaching the corner of Court street, and the eastern end of town was not damaged. It will take a long time to remove the immense piles of trees, telegraph poles, stumps, fragments of houses and other rubbish that now fill the streets. Wild rumors are current of loss of life, but are not verified. Two persons are reported missing.

Stole 100 Horses. WILKESBARRE, Pa., June 17.—Abe Whipple, the horse thief who was shot and killed at Lock Haven, has been credited with a stealing, and nothing was added to it to-day. He remains here tied to his mother who lives at Sonestown, Sullivan County.

This Breaks the Record. CARSON, Nev., June 16.—A pair of infants has been presented to Harrison Breedlove, who is 79 years old, by his wife, who is 63. They are believed to be the oldest couple on record who have been united in this way. It is supposed to be the father, mother and children to the World's Fair as samples of what it is possible to do in the far West.

Bullet-Proof Train Robbers. SAN FRANCISCO, June 12.—No clue has been found to the identity of the two men who so boldly robbed Secretary Glean, of the Jackson Manufacturing Company in on the Barkly train yesterday. The robbers got away with \$15,000 in gold and silver coin.

The buggy in which they drove away after committing the robbery has been found. It is now in the hands of the police and is being formed to fit over the breast and two fatal robber bags such as bear ball catchers wear to protect the abdomen. The robbers were thus made bullet proof in front, and, as they backed out of the car after getting the coin, no shots could have taken effect upon them.

In the buggy were also found the clothes which the men wore on the train. They had been hurriedly ripped off with a sharp knife.

Another Western Cloudburst. MANASSAS, Ill., June 13.—The section road which was recently washed out by a cloudburst yesterday afternoon and is on a hour West Mill creek road, sweeping away bridges and fences and destroying hundreds of acres of corn and wheat. The storm was accompanied by the most terrific electrical display ever witnessed in this section. It is reported that two men were killed by lightning at Walnut prairie.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Riot And Murder. A riot and probable double murder occurred on a Light House Valley train on Wednesday evening. Some thirty odd employees of the Booth & Flyn quarries were on the train. Soon after it pulled out, it was found that two of the quarries, John Higgins and Patrick Diamond, had not returned.

Wool Wanted. —AT THE— Somerset Clothing & Carpet House. ALL I CAN GET FOR CASH! OR IN EXCHANGE FOR ANY KIND OF GOODS USUALLY KEPT IN A GENERAL STORE, VIZ: Clothing, Carpets, Oil Cloths, Mats, Linoleums, Rugs, Dry Goods, Notions, Shoes, Hats, Caps, Trunks, Valises, Furnishing Goods, Etc., Etc.

J. M. HOLDERBAUM. MRS. A. E. UHL. Summer is here! Summer shopping has begun! Where can a good line of Summer Dress Fabrics be found? I answer, right here. We have a complete line to show in Silk, Wool and Wash Goods. Best guaranteed Black Silks, Black India Silks, Bengaline, Fallaine, Gloriosa, Beautiful Florina in colors also Surahs.

Handsome Black Silk Lace Flouncings, all qualities. A beautiful line of plain and novelty Bedford Corsets, prices low, all wool at 80, 85, \$1.00, \$1.40. The best Black Silk Warp Henriettes ever shown for the price, \$1.00 to \$1.50 per yard. 46-inch Wool Henriettes in black and colors from 75 to \$1.15. 40-inch Wool Henriettes from 60 to 75 yards, black and colors. 40-inch all wool Serge, 40 to 65 yards, Black and colors. 46-inch all wool Serges, from 75 to 100 yards black and colors. Beautiful 36-inch fancy striped cashmere, 25 to 30c. A large line of summer cloths and homespun cheap.

C. ARMO. The Celebrated English Hackney Stallion. CARMO is undoubtedly the finest blooded Hackney Horse ever imported into this country. EXPORT CERTIFICATE. Hackney Horse Society. This is to certify that the transfer of the Stallion hereinafter described has been DULY REGISTERED in the books of the Society, the NAME—CARMO. COLOR—Bay or Brown. BREEDER—Thomas Cook, Tintabunga, Vermont. TRANSFERRED FROM THOMAS COOK to GALENATH HENRY P. STURGEON, Secretary of Hackney Stallion Society, Office: 11, Chancery St., London, W.

BLACK AUSTER. CARMO was the price at the Royal Manx show in 1888, when he was only two years old. Queen Bess. Dam of Carmo, came in direct line from the wonderful stallion, the Duke of Devonshire's stallion, who was bred in 1800. She was mated in 1801 and produced a foal in 1802, which was mated in 1803 and produced a foal in 1804, which was mated in 1805 and produced a foal in 1806, which was mated in 1807 and produced a foal in 1808, which was mated in 1809 and produced a foal in 1810, which was mated in 1811 and produced a foal in 1812, which was mated in 1813 and produced a foal in 1814, which was mated in 1815 and produced a foal in 1816, which was mated in 1817 and produced a foal in 1818, which was mated in 1819 and produced a foal in 1820, which was mated in 1821 and produced a foal in 1822, which was mated in 1823 and produced a foal in 1824, which was mated in 1825 and produced a foal in 1826, which was mated in 1827 and produced a foal in 1828, which was mated in 1829 and produced a foal in 1830, which was mated in 1831 and produced a foal in 1832, which was mated in 1833 and produced a foal in 1834, which was mated in 1835 and produced a foal in 1836, which was mated in 1837 and produced a foal in 1838, which was mated in 1839 and produced a foal in 1840, which was mated in 1841 and produced a foal in 1842, which was mated in 1843 and produced a foal in 1844, which was mated in 1845 and produced a foal in 1846, which was mated in 1847 and produced a foal in 1848, which was mated in 1849 and produced a foal in 1850, which was mated in 1851 and produced a foal in 1852, which was mated in 1853 and produced a foal in 1854, which was mated in 1855 and produced a foal in 1856, which was mated in 1857 and produced a foal in 1858, which was mated in 1859 and produced a foal in 1860, which was mated in 1861 and produced a foal in 1862, which was mated in 1863 and produced a foal in 1864, which was mated in 1865 and produced a foal in 1866, which was mated in 1867 and produced a foal in 1868, which was mated in 1869 and produced a foal in 1870, which was mated in 1871 and produced a foal in 1872, which was mated in 1873 and produced a foal in 1874, which was mated in 1875 and produced a foal in 1876, which was mated in 1877 and produced a foal in 1878, which was mated in 1879 and produced a foal in 1880, which was mated in 1881 and produced a foal in 1882, which was mated in 1883 and produced a foal in 1884, which was mated in 1885 and produced a foal in 1886, which was mated in 1887 and produced a foal in 1888, which was mated in 1889 and produced a foal in 1890, which was mated in 1891 and produced a foal in 1892.
