THE SUN.

WEEKLY, SEMI-WEEKLY, & DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have already given it fifty thousand subscribers and which will, we hope, give it many thousands more, are briefly as follows:

It is a first-rate "devotee" paper. All the news of the day will be found in it condensed when unimportant, at full length when of moment, and always presented in a clear, intelligent and interesting manner.

It is a first-rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first-rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no collar. It fights for the election of the best men to office, it especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle-markets, to which it pays particular attention.

Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

There is "shoddy" in glass, as well as in woolen fabrics. Consumers of kerosene are sometimes almost discouraged, so frequently do chimneys break, without any apparent cause, rendering the cost of chimneys about equal to that of oil. Cheapness being the order of the day, a great many manufacturers make chimneys from silicate of lime, instead of from lead. The initiated may tell the different qualities of glass by ringing them; the vibrations of the lead glass have a clear, ringing, bell-like sound, possessing the requisite strength to withstand expansion and contraction, as well as the general pressure of use, and will outlast half a dozen of the lime glass chimneys. Fifteen cents invested in one of the lead chimneys is money well spent, even though it injures the "trade" in the cheaper kind, which it most assuredly ought to, and doubtless will. Stick a pin there, and remember it.

Testimonials of Waters' Pianos and Organs.

"Waters' Concerto Parlor Organ possesses a beautiful and peculiarly soft tone. The Concerto Stop is, without doubt, the best ever placed in any organ. It is produced by an extra set of reeds, peculiarly voiced, from which the effect is most charming, and its imitation of the human voice is superb. For sweetness of tone and orchestral effects it has no equal."—N. Y. Times.

"The Concerto Parlor Organ is something entirely new; it is a beautiful parlor ornament, possesses a sweet and powerful tone, is a most commendable invention and holds a high place in public favor."—N. Y. Evening Post.

"AN ORCHESTRA IN THE PARLOR.—The orchestral organ is the name of a new reed organ recently announced by Horace Waters & Son. The instrument takes this name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full sweet orchestra. Its finest effect is produced when the stops are drawn, so that an orchestral effect is given. The case is unique and makes a handsome article of furniture."—N. Y. Sun.

The Waters' Pianos are known as among the very best. We are enabled to speak of these instruments with confidence, from personal knowledge.—N. Y. Evangelist.
