LOCAL AND MISCELLANEOUS.

Oil market closed yesterday 68 1/2.

Mrs. F. A. Wheeler, of Titusville, is visiting Dr. Siggins' family.

Marienville will celebrate the Fourth in grand style this year.

John Charleston lost a good team horse on Monday night from colic.

Remember the stereopticon exhibition at the school hall next Friday evening.

Mrs. G. W. Zents and son Lewis, of Clarksburg, W. Va., are visiting relatives in this section.

Miss Savilla Keister, of East Hickory, was the guest of Miss Lizzie Randall over last Sabbath.

G. W. Bovard and David Barnett are laying a substantial tile drain from their properties to the river.

Dr. and Mrs. F. T. Nason visited the doctor's parents at Townville, Crawford county, during the week.

Corb. Agnew has a neat little dwelling house nearly completed in the north ward, and will occupy the same shortly.

Wheeler's new mill at Stowtown, is about ready to begin cutting. It is a better mill than the one burnt last winter, so we are told.

J. T. Brennan has had a neat little cellar built to one side of his house in the north ward, and is having an addition to his house built over the same.

Attention is directed to the annual reports of the Auditors of Tionesta and Harmony townships, in this issue, and which are gotten up in comprehensive style.

Charley Butler got the tips of the fingers of his left hand two previously near the slasher saw of Lawrence & Smearbaugh's mill yesterday morning, and now he'll have to carry them around in a sling for a few days.

The annual re-union of the Northwestern Association, Dep't of Pa., G. A. R., will be held in Franklin this year, on Wednesday, August 19th, next. It is likely a large delegation will attend from this section.

Mrs. Emma Whiteman of Kellestville, was down from that place over Sunday and stayed with her sister Mrs. Hagerty. On Monday morning she returned home, Mrs. L. J. Hopkins accompanying her for a week's visit.

Prothonotary Aker's youngest little girl, in some way unknown to the family, hurt her arm so badly at the wrist as to require the attention of a physician, who found the arm considerably bent but thinks none of the bones broken.

Allen L. Maze, son of Jackson Maze, of near Cooksburg, this county, died at his home on the 9th inst., after an illness of but two days. Deceased was a member of Camp 504, P. O. S. of A., and was aged 18 years, 6 months and 13 days.

John Grubbs is drilling a water well on the Robinson property, occupied by J. C. Scowden, and soon Joe will not be at the mercy of his neighbors for his supply of water, which by the way, is running pretty low in some of the wells of the town.

Mrs. Hannah Ittel died at her home near Cooksburg, this county on the 8th inst., aged 52 years, 11 months and 5 days. Mrs. Ittel was the widow of George Ittel, whose tragic death, less than a year ago, by a falling tree, the REPUBLICAN chronicled at the time.

Landers & Bovard started the machinery in their handle factory last week, but have yet considerable "tracing up" to do before they can commence turning out regular work. They will shortly have a practical wood worker employed and then things will hum at the new industry.

Mr. J. A. Shriver has concluded to migrate to the far west, and will next week start for Chehalis, Washington, where he will enter the employ of Messrs. Lacy & Mealy, who have purchased the Russell lumber plant at that place. Add will offer his entire stock of horses, cattle, farming implements, household goods, &c., at public sale next Friday, June 20th, commencing at 1 o'clock p. m. Those wishing anything in that line should be on hand promptly.

Through the county just about now the roads are being "worked" and some very respectable highway is being manufactured as a consequence. And the effect of the big road-scrappers on the roads where used is quite noticeable and in such a way as to make one feel quite friendly toward the machine.

Tionesta base ballists have arranged to go to Tidouto next Friday to play a game, and are trying to get a special train for the purpose. Should they fail, however, they still expect to get half rate fare. A good many are talking of going. Tionesta will send up a good team, and a fine game may be looked for.

The school board of the borough met on Monday evening to elect teachers for the ensuing term, following being the result of the balloting: Room No. 4, Principal, T. E. Armstrong, of Rousseville; No. 3, Miss Ida Paup, of Tionesta; No. 2, Miss Gertrude McElhose, of Clarion county; No. 1, Miss Aggie Kerr.

Under the new revenue bill, known as Treasurer Boyer's bill, the increase of appropriations to schools will be very great, and local taxation will be considerably relieved. Under the old law Forest county received last year \$2,598.66; the new law will give us \$6,496.66, an increase of \$3,898.00, which will not be bad to take, thanks to a Republican legislature.

This is the season of the year when the rose slug fastens itself on the rose bushes and devours the leaves. This pest can be destroyed by the use of the following simple remedy: Take one tablespoonful of hellebore, scald it, and add one gallon of water. Sprinkle the bushes with the aid of a sprinkling can or whisk broom. One or two applications will effectually destroy the rose slugs.

The silver cornet band will hereafter give a concert every Friday evening under the street lamp in front of the Bank. While these concerts are free a contribution box will be erected that all who feel so disposed may patronize. The boys hope in this way to get enough to at least keep them in new music, and as they have never been in the least stogy of their music, we hope our citizens will be liberal with their dimes, in return for the delightful music they have been listening to in the past, and which will be forthcoming in the future. Give the boys a show.

The legal bass fishing went in on Memorial Day, May 30, and will continue the remainder of the year. It should not begin until the 4th of July, as June is the spawning month for this game fish. Strange that our lawmakers don't bite at this fact.—New Castle Graphic. We don't know just how it is with the bass over in New Castle, but up in this country the editor who would assert that June is the spawning month for them, would be informed that he was considerably "off his eggs," as bass commence nesting about May 20th and by the 30th are through with the business and ready for their babies.

The observance of Children's Day in the Presbyterian church was an occasion long to be remembered by all who were so fortunate as to be present, and the church was filled to overflowing. The program consisted of singing, recitations and responsive readings, including the beautiful service of the "Arch of Character." The church was never before so lovely with happy children, flowers and plants, and the hour and a half required in which to complete the exercises, will long remain a green spot in the memory of all. Children's Day will be observed in the M. E. church next Sabbath, to which all are cordially invited.

Government work on the dyke at Pitohole Rifle has begun, under the direction of Chief Engineer Arris. Assistants Craig and Elder were here Saturday arranging for teams and laborers to assist in the construction of the dam, which we understand is to extend from the left bank, at a point where much of the water shoots through back of the bar, down to nearly opposite the mouth of Pitohole Creek, thus throwing all the water into the main channel, and making it navigable in the lowest stages. This rifle has for years been a great and about the only hindrance to lumbermen in low water. Work on a similar dam at Green Island at East Hickory will also begin shortly.

The following from an exchange, is a pen picture of the career of many a man: "It is easy enough to get rich. All that is necessary to do is to trust nobody, befriend none, get it all you can and save all you get; to stait yourself and everybody that belongs to you, and to be the friend of no man and have no man for your friend; to heap interest cent upon cent; to be mean, miserable and despised for some twenty or thirty years, and riches will come as sure as disease, disappointment and death. And when pretty nearly

enough wealth is collected by a disregard of all charities of the human heart, and at the expense of every enjoyment, death will finish the work. The body is buried, the heirs dance and fight over what you have left, and the spirit will go—where? By all means get rich. It will pay—the devil."

Saw Mill Plant Burned.

The lumbering plant of John and Robert Wade, located in Kingsley township, and formerly owned by E. Russell & Co., was totally destroyed by fire at an early hour on Friday morning last. The watchman had left the mill only a few minutes before, and as the mill had not been running for a few days past, the origin of the fire is shrouded in mystery. Around the mill was piled between four and five hundred thousand feet of manufactured pine lumber, considerable hardwood, and much of the past winter's stock of logs, &c., all of which was consumed. In fact, the flames licked up about everything in reach. The loss at a low estimate will reach \$5000. We are not informed as to whether or not there was any insurance on the property. The Messrs. Wade, owners of the plant, were former residents of Edinboro, Erie county.

Kellestville Items.

BY A TRAVELER.

Kellestville is doing a quiet steady business or seems to be. There is no "boom" about the town, but it is doing its share of business just the same. The Kribbs block, across on the other side of the creek, smiles out serenely and pleasantly from among the little birches and other bushes; and the other block, its neighbor, looks no less good-humored.

Back of the town the brush and woods is being cleared up and the effect is to disclose a very pretty effect in the way of a small landscape. Without joking a bit you will go a longer distance many a time and see not half nor fourth so fine a natural scenery as can be seen from any of the hills around the mouth of Salmon Creek. But there's more money in tanning—even for a school teacher, or in peeling bark or wrestling with splintery boards than in landscapes in this country.

Wheeler & Co. are peeling some timber on their tract here where the fire came along last, or, rather, this spring. John Watson built and lives in a new house near the end of the bridge. In one part of it he keeps a meat market. A young man by the name of Shaw was brought in from the woods Thursday evening with a badly cut foot.

Kellestville is to have a new school house this summer. We have no doubt but that it will be a good one. It should be. Kingsley generally keeps step along with the best of them in school matters. The Newtown mill is running. And, by-the-way, it is about the only upright mill in this section, or along with the one at Stowtown, the only two mills of the kind. Both are owned by the same firm.

The grading of the railroad up Beaver is completed as far as to the old shingle mill on the old plank road, or as far as to where the old mill used to be, 'cause it's been and been burned recently. Richards & Co. are still seeking the oleaginous on the wilds of Whig Hill. Here's success to a pluck that surely deserves it.

Stewarts Run.

Stewart & Co. finished their No. 7, on the Wiley, this morning. Good for about 25 barrels. Shaddock's well just across the line, which we spoke of last week, is not cased yet. They got a crooked hole at about 150 feet that delayed them. Mr. Watts, Mr. J. A. Dawson's nephew, is the guest of Mr. Dick's family. Rufus Copeland is quite sick with some kind of swelling on the side of his neck. Jas. Hogg has a sinker bit and rope socket stuck in No. 6, on the Jocelyn. He was trying to drive a plug down below the Quinn sand with the bull wheels, when he got stuck and is having to put up a beam to get them out. H. M. Zahniser and J. G. Bromley start for Mercer county Wednesday morning to attend the Zahniser reunion. U. S. Zahniser was at Marienville last week and stopped over night with his nephew, J. J. Zahniser, of Nebraska.

Rev. Brennan will preach at the White Church next Sabbath morning and at the Jackson school house at 3 o'clock p. m. Alex Berry was over to Stewarts Run one day last week and traded horses with U. S. Zahniser. June 16. CITIZEN.

Oranges, lemons, coconuts, and fruits of all kind are now handled by Lawrence & Smearbaugh. 11.

East Hickory.

Derrick correspondence.]

Wheeler & Dusenbury have their mill running at last, and the first bill they will cut is a government bill of 150,000 feet for two wing dams at Pitohole and Green's Island above Hickory. Their mill is a first class mill of the kind, and is equipped with the latest improvements. They will build another mill at the foot of their pond in the near future.

Guy Hilliard was struck by a slab on the eyeball and sustained a serious injury to the eye, but with care will make a complete recovery. Lewis Keister is rafting the timber for the Pitohole dam above the bridge. Henderson & Collins utilized the raise in the creek to run in a stock of logs.

Ed and Smith Sutley are home from Poverty Hill. David Feustemaker is home from Salmon Creek. Mrs. James Connelly is on the sick list. Grant Fiek, after a nine months' sojourn to the lower oil regions, returned home Saturday. Richards & Co.'s No. 4 is drilling on Whig Hill. I. N. Patterson brought in a nice well on the furnace tract a few days ago.

Hague & Co.'s well in Beaver Valley is down and dry, although quite a quantity of gas was found. Clyde Boyle, a student of the Western Pennsylvania Medical College, stopped over Sunday with friends here. Warren Whitton is out of the bark woods for a few days, also Fenton and Sed Kiffer. Miss Edie Kiffer is visiting friends at Mayburg.

Hilton Church is hunting up a location for livery stable. Mrs. Henry Church is able to be up and around after a month's illness. A. B. Hoyt has purchased a fine pony and cart from Al. Lusher.

Excursion to Rock City.

The first excursion this season, under the management of the W. N. Y. & P. Railroad, will be their annual ride to Rock City, taking in Olean and Bradford, on Sunday, June 28th. A special train will leave Titusville at 7:30 a. m., passing Tionesta at 8:56, Hickory 9:08, and stopping at intermediate stations along the route as far as Warren, after which no stops will be made till the party arrives at its destination. Fare for the round trip from here and Hickory is placed at the low rate of \$1.50. At Olean the party will take Narrow Gauge trains for a ride through Western New York and Pennsylvania's most picturesque scenery. A stop of thirty minutes will be made at Rock City, giving ample time to view the City of Rocks and all its strange rock formations. Those who wish can spend the day at Rock City, or continue with the party to Bradford, where they arrive at 1:30 p. m. Three and one-half hours will be allowed at Bradford for dinner, sight-seeing, visiting friends, renewing old acquaintances, etc. Returning, the trains will leave Bradford at 5:00 p. m., enabling all to reach home at a reasonable hour.

Mr. S. B. Newton, Excursion Agent of the Road, will give his personal attention to the comfort and safety of passengers, which is ample guarantee in that direction that all will enjoy a pleasant trip.

A Beautiful Journey.

Mr. L. F. Gehr, of Chicago, will present his marvelous scientific exhibition of views, representing a trip around the world, under the auspices of the Presbyterian Sunday School, in School Hall, on Friday evening, June 19. This entertainment comes highly endorsed by the press and clergy, and will no doubt be a rare treat, such as has never been tendered to the people of Tionesta, in this line of select entertainments, and is greeted by large and enthusiastic crowds in neighboring towns. At Renovo, over 100 people were turned away owing to lack of space in the hall, and if the people of Tionesta could conceive of the merits of this beautiful exhibition in its real significance, there would not remain even standing room in the hall. Views of famous places and subjects will be made to stand out on a large screen like solid objects and with marvelous beauty, and no one will regret the small amount it will cost to see them. The only ones to regret will be those who fail to avail themselves of the opportunity and hear afterward of their unspeakable grandeur. Watch for posters and dodgers. Admission 25c. Children under 12 years, 10c. 2t.

—An elegant line of Shallas and other dress goods, just suited for the present hot summer weather, at David Barnett's. Call and look over the stock; you are bound to be suited, especially when you see the prices. Come quickly before the finest are gone. 2t.

Of Interest to Old Soldiers.

The following taken from General Orders No. 23, by Commander-in-Chief Vezeley, will explain itself: Congress provided in the last census law that a separate enumeration should be made of all ex-Union soldiers, sailors and marines and the widows of those deceased living on June 1st, 1890, said enumeration to cover the name, length of service and present address. It is estimated that there will be in round numbers about 1,600,000 names, and the results, when published as provided for by law, will make eight large quarto volumes of 1000 pages each, or about 200,000 names, records of service and addresses, to each volume.

The Superintendent of census, the Hon. Robert P. Porter, has taken a deep interest in this matter, and realizes that this great compilation is to make the largest set of text books in the world. Their great value now to all the comrades and their place in the Nation's history demand the nearest possible correctness, and no deserving veteran's name should be omitted.

The Superintendent of Census has received numerous complaints from comrades in different parts of the country, saying that when the Census was taken they did not realize its importance and that their record of service was not reported as fully as they wish, while others claim they were absent from home and were not taken at all, as veterans.

All posts of the order are requested to give this matter attention, and each Post is authorized to send to the Census Office, Washington, D. C., for blank cards to be used for obtaining the names and service of those incorrectly taken and those who believe they were not enumerated at all. These cards contain instructions for filling in the desired information and are re-directed and "franked" costing no postage or return.

When it can be done without expense to the Posts it would be well to have this order inserted in your local papers, as all veterans are interested. The publication heretofore known as the G. A. R. Directory or National Roster of the Grand Army of the Republic, authorized and commended by our order, will be issued separately owing to the enumeration made under the present census law, as above explained. Comrade W. R. Austin compiler of the G. A. R. Directory, will assist in the Government work, which will be completed under the same general classification as was proposed for the National Roster.

Resolutions of Respect.

At a regular meeting of Washington Camp No. 10, G. A. R., of Clarion, Pa., held May 29, 1891, the following resolutions were adopted: WHEREAS, An all-wise providence has seen proper that the angel of death should visit our camp, for the third time, and suddenly remove from our midst our beloved Brother, Jacob Maze. RESOLVED, That while bowing in humble submission to the divine will, we sincerely mourn the loss of our friend and brother. RESOLVED, That the sincere and heartfelt sympathy of our Camp be extended to the wife and family in their bereavement. RESOLVED, That as a tribute of respect to the memory of our departed Brother, the members of the Camp be draped in mourning for a period of thirty days, that these resolutions be recorded on the minutes of our Camp, published in the Camp News and County papers, and a copy be presented to the family of our deceased Brother.
