in the eyes of the average small boy.

A Bunch of Firecrackers, a box of Torpedoes, a Devil-chaser, a black eye and burned fingers and young America has had the best time of his life. We can furnish him the first three. The other two he'll get for himself.

Children's day exercises, in charge of Miss Ida Paup and Mrs. W. P. Murray, were conducted at the M. E. church last Sabbath evening. The little tots did nicely, and the large congregation was well entertained.

Handsome screens have been hung on the front doors of the Central House. They add to the appearance of the hotel's front, besides showing to good advantage the artistic work turned out by the Tionesta mantle works.

Ernest Seton-Thomson, whose latest short story in the Ladies' Home Journal for July is illustrated by one of his finest drawings, painted his first picture within a year after beginning his art studies in Paris. It represented a sleeping wolf, and was admitted to the salon and hung in a place of honor on the line.

Winfield Scott, a former citizen many years ago of Tionesta and vicinity, and well remembered by the older class of inhabitants of this neighborhood, died at his home in Cincinnati, on the 23d inst. He was aged about 90 years, and followed the oil business principally from the first developments in this section. His wife and two daughters survive him.

The local editor cannot report all happenings of a community. Some things he does not find out until the paper is issued. They would be stale before the next issue. Other things, if published, might endanger his head. Often people wonder that their guests are not named in the local column. To them the local editor is at fault. They never seem to think of giving these items of news to the printers. Help the man whom you expect to entertain you. Mutual benefit will result.

In Bradford and Lycoming counties, Pa., the grand jury meets one week in advance of the regular court. From both counties come words of recommendation of the new order of business. It is said to greatly facilitate the work of the court, besides saving much expense to the counties. The District Attorney is able to have his work completely in hand. Witnesses are not held so long to await the action of the grand jury, and the jury meets without any of the attendant confusion of court week.

Ex-Sheriff C. A. Wheelock, one of Clarion county's best known and very popular citizens, died on the 21st inst., in a hospital at Philadelphia, where he was undergoing treatment for cancer by a specialist in that line. Last winter he was examined by physicians in Pittsburgh and told that he had not more than from two to three months to live. Yet it was thought for a time the treatment he was receiving would bring him through. Sheriff Wheelock was noted all over this section as one of the most genial of men, and his friends were legion.

Robert L. Gerow, son of Mr. and Mrs. John L. Gerow, died at the home of his parents in this place on Sunday morning last of typhoid fever, with which he had suffered about four weeks. He was aged 17 years and 4 months. The young man was of a quiet disposition and popular with his young friends and acquaintances, by whom he will be much missed. The funeral took place from the family residence at 5 o'clock Monday afternoon, the interment being in Riverside cemetery. The family has the sympathy of all in this bereavement.

Strange to say that while in this vicinity, and in fact nearly everywhere in this section the country has been soaked with rain, a strip of country lying four or five miles south of here, in Tionesta Twp., is suffering from drouth, and farmers are unable to plow or prepare their buckwheat land on account of the extreme dryness of the soil. Charles and Jacob Corb and other farmers in that vicinity have been compelled to water their gardens to save their vegetables. It would seem from this that it does not always "rain alike on the just as well as the unjust," at least these people might claim it didn't.

Margaret J., wife of Daniel Rustier of Hickory township died at the home of her daughter, Mrs. David Platner, in this place on Sabbath afternoon at 4 o'clock. She had made her home with Mr. Platner's family since their residence in Tionesta, which has been about three months, where she was well cared for. Her disease was in the nature of dropsy, complicated with heart trouble. She was aged about 69 years, and leaves a husband and a family of grown children. Mrs. Rustier was a kind-hearted, good woman, highly esteemed by all who knew her. The funeral was held on Monday and the remains were laid to rest in the cemetery at East Hickory, in the vicinity of which place she had spent most of her long life.

The late P. K. George, brief mention of whose death was made in the REPUBLICAN last week, was one of the most prominent and highly esteemed business men of the city of Franklin, where he spent the most of his busy life of 58 years. Not long ago he retired from active business to take needed rest which ill health required, and had gone east hoping to get relief by a sojourn at the seashore. He was obliged to return home, however, little improved, and grew weaker gradually until death relieved him of his suffering. With him in his last illness were his wife and daughter, Mrs. J. B. Muse of Tionesta, who lovingly administered to the devoted husband and father to the end. Mrs. George came home with her daughter last Friday and will remain with her for a time.

Tidoute Won.

About 150 fans boarded the special train which was run to Tidoute last Saturday afternoon where a good game was pulled off between Tionesta and Tidoute. A bad case of rattles at the start allowed Tidoute to score 4 runs in the first inning, three of which were gotten by errors or wild throwing on the part of our team. There was no more run-getting till the beginning of the 4th inning when Tionesta piled up four, tying the score and were pouncing the life out of the home pitcher. With two men on bases the umpire called the game on account of rain, and it looked as though the sport was over, but with a liberal sprinkling of sand the game was again put in motion and played to a finish. Tidoute scored two more runs, but the visitors were unable to get any and the game ended with the score standing 4 to 6 in favor of the home team. It was a nice game from start to finish with the teams very well matched. The Tionesta boys were well treated and liberally applauded when they made a brilliant play. Should a return game be played it was hoped the visitors can say as much for their reception here.

Miss Emma Klinefister has been elected as teacher in Room 8 of Sheffield school, which is next in grade to the principal's position. Miss Emma has taught two terms in Warren county and this advancement would indicate that her work is quite satisfactory. The Michigan Christian Advocate of the 8th inst., publishes very good half-tone cuts of the late "Auntie Perceval," and the venerable J. C. Preival, former residents of this county. The latter is still living at the age of 85 years and aside from the shock sustained by the recent death of his beloved wife, is enjoying remarkably good health. Rev. F. E. Glass and wife have moved from Ridgway to a farm near Bradford, where Mr. Glass will put in a year in outdoor exercises that he may regain his former health and return if possible to the ministry. Their post office address will be Tuna Creek, Pa. Miss Bessie Glass, the only child of the family, will finish teaching her present class in stenography and typewriting and then go to her parents. Many of our people will regret the necessity of this excellent family leaving Ridgway, but they will sturdily hope for the early restoration to health of Rev. Glass. His compulsory retirement will be a great blow to the denomination.

As To Sunday Fishing.

Discussion is going on in some of the interior counties as to whether the new fish law permits fishing on Sunday. It has been discovered that it does not prohibit it, so there are many who think the law is open for it. This discussion is quite elaborate, but the conclusion generally reached is that it won't be settled outside the courts. It would hardly be advisable for any body to undertake Sunday fishing if there was any danger they would be caught at it.—Phila. Press. Since there is nothing said in the new law concerning Sunday fishing would it not naturally follow that the old law on that point would still be in vogue? New laws generally provide that "all acts or parts of acts inconsistent herewith be and the same are hereby repealed." There being nothing in the new law "inconsistent" with the old on the Sunday question why would the old not stand? We are not a lawyer, but this seems to us like fair reasoning.
