

Watch The Water Snake.

Should the legislature pass the bill now before it giving the right of eminent domain to power companies to build great dams, Governor Tener will veto it. Were such legislation enacted it would enable combinations to monopolize this important source of power, says the Punxsutawney Spirit. The Governor said recently: "I am opposed to granting the right of eminent domain to water or any other companies. The enlarged application of the water policy already begun in the State, is a definite and comprehensive plan to keep control of the only great source left to the people of Pennsylvania, and not only to keep it but to develop it for the permanent benefit of all the people. Hence it is a State conservation problem."

Let us hope that, should the iniquitous bill by any hook or crook ever get up to the Governor, he will promptly squelch it.

Magnificent Forest at Our Door.

It may be that many of our readers do not know that in the counties of Clarion, Jefferson and Forest, within a distance of fifty miles of this city there is one of the most beautiful natural parks in Pennsylvania. It is known as "Cook's Reservation" and comprises between seven and eight thousand acres of virgin forest, containing fine specimens of pine, hemlock, oak and other trees. The scenery about this park is very beautiful. We have seen many photographs taken of some of the beauty spots in and around the park, and they are as fine as anything one can imagine. The Clarion river is very wide at this point, forming something of a lake. There are located within the boundaries of this park springs of several different varieties of mineral water, and for some time past some of the citizens have tried to persuade the Cook brothers to sell this property to the state. They have finally succeeded, and an appropriation is proposed to be made by the Legislature sufficient to purchase this large tract of land and convert it into a public park. It is accessible to all cities such as Erie, Meadville, Corry, Franklin, Oil City, and is not far from Pittsburgh. Railroad accommodations will be established so that persons can easily get to the park for an outing, returning to their homes the same day. What a grand place it would be for an outing for the people of Venango county!

We are heartily in favor of purchasing this land from the Cook brothers and trust that our representatives at Harrisburg will vote in favor of this bill. It is something that everybody in this part of the state would be interested in if they were told of its beauties. We hope that all the papers in northwestern Pennsylvania will take hold of the matter.—Franklin News.

Don't Be Squealers.

Anent the howling and fuming over the fact that the suffragists who entered the big show at Washington last week with their parade and got crowded and jostled a bit in that immense inauguration throng, Br'er White of the Tribune News hits pretty close to the nail-head in the following item:

"With all due respect for the suffering sufferettes who made a parade at Washington Monday and found the road rough, we suggest: It is all right for them to assume man's place in the world, and we are willing they should vote if they want to, but having assumed man's position, stand the man racket, and not fall back in their femininity. When they undertook to march up Pennsylvania Avenue clothed and bedizened out in many and fanciful garbs, they were bound to back trouble. People wanted to see the full show—and there were hundreds of thousands massed on the avenue for that one purpose only—to see. Why, even Tammany Hall, and they're great show people, contented itself Tuesday with silk hats and canes. And now imagine Charles Murphy doing the "herald" act, and he is far from handsome and attractive. Whew! All the police of Washington and the silk stocking 6th U. S. Cavalry in its entirety could not have kept Pennsylvania Avenue open. If the women want to be men, with a man's chance, we're agreed. But be men in all places and at all times, and take the rough chances with the rough, but courteous crowd."

Employers' Liability Legislation.

Speaking of the bill before the legislature providing for the liability of employers in case of injuries to employees the Punxsutawney Spirit points out a number of things that might happen to the small employer of labor should the bill be enacted into law in its present form, and in conclusion says: "The law applies to all servants, and might easily prove disastrous to private employers and small concerns. A workman, we shall say, has saved \$2,000 with which to build a home, and he has no money besides. A carpenter while engaged in shingling the roof of his new house might fall off and break his neck. If the carpenter were a married man, and had, say, three children, and had been receiving \$3 a day, the workman in question would find himself without a home, for \$2 a week for 200 weeks would not only take all his savings, but put him \$700 in the hole. We may not rightly understand the provisions of the bill, but as it appears to us it would make the hazards of employing labor so great that men of ordinary means would be financially ruined by a few accidents, and would hesitate to assume the responsibilities of employers."

Four understanding of the measure is correct it would ultimately work to the injury of all laboring men. We are in favor of proper workingmen's compensation act, like those, for instance, in operation in Great Britain. But one that would compel you to pay a large sum in case a house servant fell down stairs and killed herself, or a man who was holed over for you was struck by lightning, does not seem reasonable."

ALTHOUGH no recent insurrectionary movements have broken out in Mexico, the whole country is a smouldering volcano, and a violent eruption is likely to take place at any moment.—Punxsutawney Spirit. We think, now that Mutt and Jeff have got back into Mexico, all trouble will subside.

Farmers' Institute at Clarington.

Opened Monday, March 11, two o'clock p. m., with a good attendance. Exercises opened with music by choir and prayer by Rev. D. O. May; address of welcome, Hon. A. R. Meachling; response, J. A. Runk. The need of lime on the soil was then taken up by E. L. Phillips, showing the need. L. W. Lighty then took up the subject of soil crops, recommending among other things Canada field peas and oats. Mr. Runk took up the subject of alfalfa, emphasizing the benefits of the crop. Charles E. Matthews also gave some valuable experience along that line.

Evening session opened with an anthem by the choir. Mr. Phillips then gave a talk on the beginning of the poultry business. Solo by Miss Christine Hessley. Mrs. Jennie E. Potter then read an excellent essay on attractive country school grounds, recommending shrubbery, flowers and other things to make grounds attractive. A solo by Miss Gladys Braden was nicely rendered. Mr. Runk then explained the benefits of central township high school. A song by the girls was nicely rendered and received the applause of the large audience. Rural schools as they should be were then discussed by Mr. Lighty. Session closed with song by the choir.

Tuesday morning session opened with song by choir, "America." Soil management was then taken up by Mr. Runk, after which Mr. Phillips instructed in how to buy commercial fertilizers. Mr. Lighty's talk on improving the fertility of the soil was then given. Session closed with song by the choir, "Four Leaf Clover."

Tuesday afternoon session opened with music, "We Come to Greet." Question box. Mr. Runk then spoke on lime, followed by Mr. Phillips on good roads, recommending the split log or King scraper. Culture and feeding of the corn crop was then taken up by Mr. Lighty. Session closed with the "Twilight Song."

Evening session opened with song by choir, "Longing for Home." Question box. Mr. Runk then discussed home sanitation, followed by a solo by Miss Marie Cassatt, which was nicely rendered. An essay prepared by Mrs. A. R. Meachling was nicely read by Mrs. A. R. Slaughter. Mrs. Meachling being away from home. The subject was "Our Boys and Girls," and it was full of good suggestions as to educating and training our boys and girls for useful citizens. Music by choir, "Pumpkin Pie," which was followed by a reading by Miss Sophia Meachling, which was well executed and received the applause of the audience. Mr. Phillips then took up the subject of constructing a poultry house. A solo was then rendered by Miss Mary Fulknecker, who responded to an encore in a happy way, which was greatly enjoyed by the audience. Mr. A. R. Braden read an excellent essay on sanitary arrangements of country homes, which was full of bright thoughts and good suggestions. The farm home as it should be was then discussed by Mr. Lighty. Institute closed with a song by the choir, "Good Bye," all feeling that it was well to have been there. The music throughout the institute was one of the features and enjoyed by all. The organist, Miss Hazel Hessley, rendered splendid music throughout all the sessions.

The following resolutions were unanimously adopted: Believing Farmers' Institutes as conducted in the past have been of great value, and desiring the continuance, extension and improvement of the same, Resolved, That we urge our Representative and Senator to use their influence and instruct them to vote for the appropriation asked for by the Director of Farmers' Institutes and approved by the State Board of Agriculture, namely, \$50,000 for Institutes and \$40,000 for demonstration and extension work. Resolved, That a copy of this be sent to our local papers for publication, a copy to our Representative and Senator, and a copy to the Director of Institutes, Hon. A. L. Martin, Harrisburg, Pa.

JOHN COOS,  
A. R. SLAGENHAUPT,  
Committee.

THE TIONESTA INSTITUTE.

The institute held at the court house in Tionesta, Wednesday and Thursday last, was very largely attended at all the sessions and without doubt was the best ever held here. The attendance of farmers was particularly good, indicating that they are wide awake and desirous of improving their farms and conditions. In so far as the speakers from the department of agriculture were concerned the program as outlined above was practically repeated here, and there were many contributions from local talent which helped to make the sessions interesting to all. Not the least of these was the fine singing and instrumental music furnished by the members of The Mozart Club and the singing by the male quartet, composed of J. N. Bankhead, Rev. H. A. Bailey, Wm. Dickraeger and Dr. F. J. Boyd. Their numbers were liberally applauded and they graciously responded to numerous encores. Good speeches and essays were also given by Prof. L. P. White on "Agriculture in the Public Schools," Mrs. E. Myria Huling on "The Real Factors of a Country Home," Dr. F. J. Boyd on "What Are Some of the Benefits of Medical Inspection of Schools," Miss Blanche Pease on "Appreciation and Protection of Bird Life," and Rev. H. A. Bailey on "The Women of Our Day—Their Opportunity."

Cherry Grove.

Dr. Hyer of Clarion was called to see Clarence Vandenberg, Friday. He says a very bad cold is the malady.

Mrs. Leslie Gibson spent Sunday of last week at the old home, returning to Warren Monday morning.

Harry Sweet went to Clarion Friday and brought the mail for Cherry Grove residents. Our post master, Grant Sutton, resigned the office the last of February and since that date we have been compelled to get our mail at the Clarion or Sheffield office. At the time of the resignation there was no one willing to take the office but since then Miss Bertha Farnsworth has been circulating among friends and neighbors with a petition for the post office. However, two petitions had previously gone to government headquarters for a rural route. The proposed route is to start at Sheffield and proceed by way of Saybrook, Tiona and Weidbank, to Cherry Grove and from there back to Sheffield, by way of Austin Hill. We are in hopes that one of the two petitions will be considered immediately, though it is doubtful if much

will be done for a while, as there is a change in administration at present. But it is decidedly inconvenient to go from seven to nine miles for one's mail.

While putting several head of cattle in the barn Friday morning, Mrs. James Johnson was struck in the eye by the horns of an angry cow. She was immediately taken to Clarion and placed under the care of Dr. Hyer, where she still remains. It is not possible to state at present whether her sight will be saved or not. This family have rather a hard luck story. In the spring the eldest daughter, Pat line, was for several days low with typhoid fever, so low that it was impossible to move her to a hospital, where expenses would have been lighter. A short while later lightning set fire to the barn and burned it, with all farming implements, hay, some cattle, chickens and a pig. These things fall heavily on the shoulders of a single wage earner with a large family.

Hartley Nelson is home from Clarion a few days.

Myrtle Johnson returned to her work in Warren this Saturday.

Mrs. S. A. Allaire is on the sick list. Dr. Russell of Sheffield was called Monday.

Misses Emma and Lillian Christenson were Warren shoppers Saturday.

Miss Bertha Farnsworth is suffering with neuralgia.

N. A. Christenson spent Thursday and Friday at Miller's Camp, shooting horses.

Dr. Hyer of Clarion was called to the home of Mr. Plattner, Sunday. Although there was plenty of snow for good sleighing, Dr. Hyer brought his auto and seemed to experience no difficulty in getting along our country roads.

Henry Sorenson was in Clarion Thursday.

Mr. and Mrs. G. W. Gifford were in Sheffield, Saturday.

The Embroidery Circle met with Mrs. N. L. Howard this Saturday.

John Christenson was a Clarion visitor Saturday.

E. M. Farnsworth went to Clarion Wednesday to get a load of seed oats, shipped to him from Kane. After arriving home he was emptying the oats when he found a valuable watch fob among them. Supposing it belonged to one of the employes of the firm from which he purchased the oats, Mr. Farnsworth returned the fob to the firm. He is in hopes the rightful owner may recover it. At any rate he has certainly done his share toward restoring it.

Kellettville.

Mrs. M. D. Spencer went to Oil City Saturday. She was accompanied by her two grandsons, Wayne and Clitus Cunningham, who were returning home after a month's visit with their grandparents. The boys did not enjoy their visit as they had anticipated for they were both taken with the measles while here, which handed them pretty roughly.

Mrs. James Welsh of Sheffield visited her father, Jacob Wolfe, and other relatives and friends in town during the week.

Dr. C. Y. Detar was a business visitor in Kane last Monday.

Ivan Carbaugh got his leg somewhat bruised by being caught between the cars while working on the freight, and while the injury was not a serious one it laid him off for the week.

John Kinch of Strobleton was the guest of his sister, Mrs. H. B. Watson, and brother, W. A. Kinch, for a few days during the week.

The laboratory supplies to replace the ones destroyed by the fire, were received by the high school and will be placed in one of the cloak rooms, which will serve them as a laboratory for the rest of the school year.

The Juniors and sophomores are arranging for a home-talent play to be given at the last of the school year, the proceeds to be used for the benefit of the athletic club.

Prof. and Mrs. J. L. Simmons were Warren visitors Friday and Saturday.

Rev. Wm. Bryenton, district elder of the F. M. church, was here and conducted quarterly meeting services over the Sabbath. Meetings will continue all week.

Mrs. Wallace of Newmansville was the guest of her brother, Wm. Fitzgerald, over Sunday.

Joe Weiler is suffering with the measles.

Margaret Loron came home from the Warren business college to take charge of the books at the kindling wood factory, her father not being able to attend to all the work.

Mrs. E. E. Daubenspeck and grandson, Ralph, have been victims of the grippe for the past week.

Mr. and Mrs. W. A. Kinch drove to Wolfe's Corners Sunday and spent the day with the latter's mother.

Prof. Keister entertained an old school friend from Grove City Wednesday evening.

Wm. Merchant expects to move his family from town this month. He has not fully decided where he will locate but may go to Oil City.

Mrs. McCullough, Mrs. Wm. Desher and Roy Berlin were down from Mayburg over Sunday and took in the quarterly meeting services. A number of the men were down also and attended services Sunday morning.

Mr. and Mrs. John Shuck drove down from Whig Hill and attended service Sunday.

Mrs. Charles Price has been unable to speak in an audible voice for the most of the winter, on account of a hoarseness following an attack of the grippe.

Mrs. Miller and daughter of Fisher were guests of the former's son, Frank Miller, the last of the week.

Two large loads of baled hay passed through town during the week, being some of the hay raised on the Kribbs farm, and was on its way to Mayburg, where W. A. Kribbs has a contract for his entire crop with F. K. Brown. Mr. Kribbs estimates that his hay will net him about \$1,000 when all has been delivered.

Chronic Stomach Trouble Cured.

There is nothing more discouraging than a chronic disorder of the stomach. It is not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifling "About one year ago," says P. H. Beck, of Wakarusa, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by all dealers. Adv.

Recent Deaths.

Mrs. Harry Snyder died Tuesday, March 11, 1913, at her home at West Hickory, Pa., aged 19 years. She had been ill for some time with a complication of diseases. Previous to her marriage two years ago she was a Miss Baker of Enterprise, Pa., but her parents and family now reside in Missouri. Her husband survives her. The funeral services will be held Friday at 10 a. m. in the M. E. church at East Hickory, Rev. W. W. Dale officiating. Interment will be made in the cemetery there.

Mrs. Sarah A. Lusher, of East Hickory, Pa., died at 11:10 o'clock last Wednesday night, March 5, 1913, at the home of her daughter, Mrs. Clyde B. Shriver, Oil City, Pa., where she had gone a short time previous on a visit. She was in her 77th year, having been born at Hagerty's Corners, Clearfield county, Pa., April 20, 1836. Mrs. Lusher was the widow of the late John P. Lusher, and was the mother of sixteen children, eleven of whom survive, as follows: Mrs. John Graham and John P. Lusher, of Titusville, Mrs. S. T. Beckett and Harry Lusher, of East Hickory, Henry Lusher, of Mont Alto, Pa., Albert Lusher, of New Martinsville, W. V., S. H. Lusher, of Tionesta, Mrs. John Noble, of Warren, Mrs. John McDonald, of Endover, Mrs. Cordie VanCamp, of Buffalo, N. Y., and Mrs. C. B. Shriver, of Oil City. She is also survived by twenty-five grandchildren and five great-grandchildren. The deceased had been a member of the Free Methodist church of East Hickory for many years, and it was there her funeral was held Saturday last, the service being conducted by Rev. F. A. Reese, a large concourse of neighbors and friends attending the obsequies.

Mrs. Judith Rudolph, widow of the late Rudolph Rudolph, died at her home at Newtown Mills, Kingsley township, Sunday evening, March 9, 1913, after an illness of about a week from pneumonia. The deceased was born in Wittenberg, Germany, Sept. 13, 1844. In the spring of 1864, at the age of 19 years, she came to the United States with a colony and on arrival in this country was united in marriage with Mr. Rudolph, and came direct with her husband to Newtown Mills, where the latter was employed with the lumbering firm of H. Stow & Co., afterwards Wheeler, Dusenbury & Co. They continued their residence at that place down to the present date, Mr. Rudolph passing away some years ago, since which the subject of this notice had remained with her son Henry on the farm. She is survived by eight sons and four daughters, namely: Otis, Frederick, Edward, Harry, Frank, Arthur, Albert and Henry Rudolph, all residents of this section; John Weller of Endover, Mrs. W. J. Hunter of Penn Station, Pa., Miss Emma Rudolph at home, and Mrs. William Watson of Kellettville. Mrs. Rudolph was a woman of a quiet amiable disposition, greatly devoted to her family, and beloved and respected by all who knew her. The funeral will be held today, Rev. J. E. Schaefer officiating, conducting the services at the Zuendal church, German Hill, where her remains will be laid to rest beside those of her husband.

Chamberlain's Tablets for Constipation.

For constipation, Chamberlain's Tablets are excellent. Easy to take, mild and gentle in effect. Give them a trial. For sale by all dealers. Adv.

Orphans' Court Sale of Valuable Real Estate.

In re Estate of Herman Blum, deceased, No. 1 May Term, 1913.

SATURDAY, APRIL 12, 1913, at 1:00 o'clock p. m. at the Court House, Tionesta, Pa., there will be exposed to public sale the following described real estate, to-wit:

The undivided one-third interest in that tract of land situated in Green Township, Forest County, Pa., described as follows: Beginning at a post and stone in the north-east line of said Warrant 5184, 33 rods southeast from the north corner of said warrant, and being the most easterly corner of land conveyed by said party of the first part to G. Zuendal, by a deed dated Dec. 24th, 1892, and running thence south 41 degrees and 35 minutes east along said warrant line 163.65 rods to a post and stone; thence south 49 degrees and 45 minutes west 104.2 rods to post and stone; thence north 41 degrees 40 minutes west 6 rods to a post and stone; thence south 49 degrees 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G. Zuendal; thence south 41 degrees 40 minutes east along land conveyed to said Zuendal 63 rods to a post and stone; thence along same north 49 degrees 45 minutes east 54.6 rods to a post and stone; thence north 41 degrees 40 minutes west 8 rods to post and stone; thence north 41 degrees 40 minutes west 49 degrees 45 minutes east 45 minutes west 150.25 rods to post and stone; thence north 42 degrees 30 minutes west 17.2 rods to a post and stone; thence north 83 degrees 41 minutes west 180.5 rods to post and stone in the northwest line of said warrant; thence north 49 degrees 45 minutes east along said warrant line 199.1 rods to a post and stone, the most westerly corner of land conveyed to G.
