Dr. J. J. Lawrence—Dear Sir:—I have sent me immediately, per express to Tarboro, two dozen one bottle of your Rosadalis. I have carefully examined the formula, and have used it in my practice in a number of cases. I am well pleased with it. I think I would call the BEST ALTERNATIVE I ever used. I have tried it in several cases of Scrofula and Scrofulous Affections, &c., with much satisfaction to myself and patients. I have also used it in Secondary and Tertiary Syphilis, (one a terrible case of eight years standing) in which it acted with surprising and satisfactory effect—making a quick and thorough cure. I have, therefore, no hesitation in recommending it to Physicians and others as the most reliable ALTERNATIVE now known.

Respectfully yours, &c., A. E. NOELLES, M. D. I Wonderful Cure of Scrofulous White Swelling. Home Certificate. I hereby certify, that last September I was attacked with White Swelling of the left knee—and also with an enlargement of the glands of the neck—one tumor reaching a large size. The swelling of the knee was enormous, and was attended with the most excruciating pain. I was so reduced that I was confined to my room over three months. My leg was so completely drawn up, that I could not bend it at all. I tried various remedies, and they failed to give me any relief. I was in this condition when I commenced taking Dr. LAWRENCE'S ROSADALIS. The swelling in both knee and neck began to subside before I took all of the first bottle. By the time I took the second bottle, the swelling of the neck entirely disappeared, and that of the knee nearly so. After taking three bottles I found myself completely well—able to walk as well as ever, &c.

MEDICAL.

PHILADELPHIA UNIVERSITY OF MEDICINE AND SURGERY.

THE PHILADELPHIA UNIVERSITY OF MEDICINE AND SURGERY was organized in 1818. Chartered by the Legislature, February 25, 1853. Name changed by a legislative enactment to the Eclectic Medical College of Philadelphia in 1859. In 1863 it purchased the Pennsylvania Medical College, established in 1842, and the Philadelphia Medical College, which had previously been merged into the Pennsylvania Medical College. In 1864 it purchased the Penn Medical University. The Trustees of the separate schools united, petitioned, and obtained a special act of the Legislature, consolidating these institutions and changing their names to that of the Philadelphia University of Medicine and Surgery, March 15, 1865.

All these various acts are published in the statutes of Pennsylvania. The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four medical colleges that it has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teachings everything of value to the profession.

Session.—It has two full sessions each year, commencing on the 1st of October, and continuing until the 1st of January, as its first session, and from the 1st of January to the 1st of April as its second; the two constituting one full course of lectures. It has also a summer session, commencing on the 1st of April and continuing until August, for the preparatory branches, such as Latin, Greek, Mathematics, Botany, Zoology, Chemistry, Anatomy, Physiology, &c.

Tickets.—Tickets to the full course of lectures \$120, or \$80 for each session. For the summer or preparatory course \$25. Graduating fee \$20. To all young men of moderate means, the University has issued free hundred scholarships, which are sold to first-course students, for \$75, and to second-course students, for \$50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and anatomizing ticket, each of which is \$5.

The Advantages of Scholarships.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the institution as frequently as desired. It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved. Students, by holding scholarships, can prosecute other business a part of the time. The candidate for graduation can present himself at any time, and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians, or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorable graduation.

The Faculty embraces seventeen eminent physicians and surgeons. The University has associated with it a large hospital clinic, where every form of medical and surgical disease is operated on and treated in the presence of the class.

College Building.—The College Building, located in Ninth Street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with emblematic and ornamental, presenting a novel, bold, and beautiful appearance. The facade is of heavy stone, ornamented by two towers, rising to the elevation of eighty feet, and crowned with an embattled parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience that facilitate modern or other convenience to facilitate modern instruction. Only five hundred scholarships will be issued, and as two hundred and fifty are now sold, those who wish to secure one should do so at once. Many can be readily by express, or a draft or check sent to any National bank in the United States, when the scholarship will be returned by mail, signed by the President of the Board of Trustees, Jos. S. Fisher, Esq., and the Dean of the Faculty, W. Payne, M. D. All orders for scholarships or other business of the University, should be addressed to Professor W. Payne, M. D., Philadelphia, Pa.

NEW BOOKS. PAINE'S PRACTICE OF MEDICINE. A new work just issued by W. Payne, M. D., Professor of the Principles and Practice of Medicine and Pathology in the Philadelphia University of Medicine and Surgery; author of Paine's Practice of Surgery; a work on Obstetric and Maternity Medicine; author of New School Medicine; an Epitome of Eberle's Practice of Medicine; a Review of Homeopathy; a work on the History of Medicine; Editor of the University Medical and Surgical Journal, &c. &c. It is a reprint of over 900 pages, and contains a full description of all diseases known in medicine and surgery, including those of women and children, together with their pathology and treatment by all the new and improved methods. Price \$7; postage 50 cents. Address the author, 933 Arch Street, Philadelphia, Pa.

UNIVERSITY JOURNAL OF MEDICINE AND SURGERY. A Semi-Monthly Journal of Medicine, Surgery, Hygiene, Agriculture, and General Literature, devoted to the Profession and the People. The cheapest medical paper in the world, published every two weeks, at the University Building, Ninth Street, south of Walnut. Single copies, \$1 00. Five copies to one address, 4 50. Ten " " " " 8 50. Fifteen " " " " 12 50. Twenty " " " " 16 00. The getter-up of the club shall have one copy gratis. Address, W. PAYNE, M. D., Editor, Philadelphia, Pa. June 13, 1867.

MISCELLANEOUS.

FARMERS' HEADQUARTERS. AS wheat is now commanding an extra high price, it will be the wish of farmers to procure such machines as will more speedily and effectually prepare their crops for the market. To this end I desire all interested to examine the following list of machines. Before enumerating I wish only to say that none shall have excuse for going further North for FARMING MACHINES, as I guarantee in every case to furnish as cheaply as they can be had from any part of the United States. If they wish any machine other than those named below, my arrangements are such that their orders to me will be promptly filled!

Grant's and Sinclair's Grain Cradles, Buckeye, McCormick and Monitor Reapers, Emery's Celebrated Improved Railway Power, Peon's, Sinclair and Baldwin Lever Powers, Sinclair, Whitman, and the Dingo Threshers, Emery Combined Thrashers and Winnowers, Montgomery Rockaway Fanning Mills, Sinclair's and the Excelsior Fanning Mills.

The Emory Railway Power is of such superior merit that none can justly lay claim to equality. It has all the good qualities contained in any other, and possesses advantages which no others have. I have the exclusive agency for this machine, and recommend it to all who are weary of team and a Railway Power. Most farmers have their settled ideas as the best Reapers, so that I do not care to enter this point with them. It has been repeatedly decided at the various fairs held North and South, that each and every one is the best. Order what you prefer, and I will think it best to obey your instructions.

In making the foregoing machines particularly, I wish none to forget that I am manufacturing and dealing largely in all kinds of Farming Tools, Seeds, Bar Iron, &c., &c., and am Agents for the Star Cotton Gin, C. BARKER, No. 11 Wide Water Street, Norfolk, Va. July 18, 1867.
