

THE SOUTHERNER. THURSDAY, OCT. 3, 1867. LOCAL AND STATE.

GRAND RALLY OF THE CONSERVATIVES AT RALEIGH. From various portions of the State comes the rallying cry of the Conservatives in the approaching election.

The people everywhere are awakening to the great necessity of presenting a solid platform to the advancing hordes of Radicals, now threatening the future peace and prosperity of the entire country.

The following resolutions were unanimously adopted: Resolved, That the Conservative men of Wake county, claiming to be truly loyal to the Government of the United States...

Resolved, That the will of the people, as expressed in the Constitution of the United States and the laws, we hold to be the supreme law of the land.

Resolved, That we deem it unwise, wicked and unjust for any man to attempt to pass any law, organic or statutory, disfranchising, proscribing, or confiscating the property of any of our citizens for past political offenses...

Resolved, That the unmistakable developments of a vindictive and persecuting spirit in the speeches and doings of a majority of the delegates to the National Convention in this city, towards the body of the white people of this State...

Resolved, That we will support no man for the approaching State Convention, to whom we have no personal acquaintance, and who we deem unworthy to represent us, by any legitimate means, any attempt to separate from the Constitution the proscriptive and vindictive provisions of the same...

Resolved, That we urge upon all Conservative men of all climes and all States, to organize in one State to hold, protect and carry out the principles of the Constitution...

Resolved, That we will support no man for the approaching State Convention, to whom we have no personal acquaintance, and who we deem unworthy to represent us, by any legitimate means...

OVERLOOKED.—The last issue of the Warrenton Intelligencer, published in Florence, Va., for the month of August, has been overlooked by the editors of the Southern States...

WE are glad to see that the Roanoke News has the manliness to expose the "South Western Circles" of Alexander Robinson, recently operating throughout the section of the State...

Our respected contemporary seems to have overlooked the comments of the Southern States in regard to this same "circumference" of Raleigh which drew from the following remarks:

King Frost has made his appearance rather early this season, to the evident disgust, no doubt, of many delicate weeds, fruits, &c.

Westbrook Nurseries, GREENSBORO, N. C. WESTBROOK & CO., Prop'rs. THE ATTENTION OF THE PUBLIC is respectfully called to the large and well selected stock of FRUIT TREES, GRAPE VINES, SMALL FRUITS, Hardy Evergreens and Shrubbery, Cultivated and for sale at these Nurseries and Gardens.

SPECIAL ATTENTION IS INVITED to the very large and well selected stock of Grape Vines for Vineyard Planting. The quality of these vines can be excelled, and they are from strong cuttings and well rooted by thorough cultivation.

The senior Proprietor is the oldest son of the late S. W. WESTBROOK, the pioneer Nurseryman and Fruit Grower of the South Carolina States; and is thoroughly skilled in this department of Rural Enterprise, having been engaged in the nursery business fifteen years.

A large portion of the Old West-Green Nurseries is connected with this establishment, with several large bearing experimental orchards of the best American and European Fruits; therefore the Proprietors are well informed as to the most suitable varieties for general cultivation.

The Fruit Trade is quite profitable this season to many of our citizens who have only small orchards; and domestic Wine Making on the increase.

Who will make a paying investment in a large vineyard, or a small one, or a large Vineyard of the best Wine Grape in the State bearing regular and abundant crops every year?

Send your orders to WESTBROOK & CO., Greensboro, N. C. CATALOGUES with List of Prices, Names of Varieties and a great deal of interesting information will be enclosed a three cent postage stamp.

Orders for Fall and Winter planting, solicited early, as the season for transplanting begins in November. September 19. 41-4f

A Cheap Cotton Press. FARMERS, BEFORE YOU BUY A Press or before you buy a Screw, enquire into the merits of the Godwin Cotton Press. Hear what the following reliable gentlemen say: I have seen Mr. J. H. Godwin's Cotton Press work at P. E. Smith's plantation, and I think it is the best in the State, and I think it is worth twice as much as any other make of pressing cotton, and saves both time and labor. W. R. SMITH. I have used the above mentioned Press, and consider it the best I ever saw for packing Cotton. J. H. VAUGHAN. I have packed about 150 bales of Cotton with Mr. J. H. Godwin's Cotton Press, and I take pleasure in recommending it to the farmers as a great labor saving machine. It does not cost more than half as much as a screw, and is worth twice as much. It is so convenient and takes fewer hands to do as much work as a screw. I would give a man to put a screw on my place for nothing. E. D. BONDON. I have used the above mentioned Cotton Press, and it does better than a screw. Takes less hands, does not waste Cotton, and is much cheaper. J. H. CURRY. Sup'd W. H. Smith's plantation. I have packed 50 bales with Godwin's Cotton Press, and an entire tin is the best, clearest and most compact, and durable press in existence, costing only half as much, and lasting twice as long as a screw. PETER E. SMITH. I have never seen the Cotton Press of Mr. J. H. Godwin at work, but have no doubt from the certificates of the gentlemen who are entitled to credit. RICHD H. SMITH. The last name is one of our most honorable and respectable citizens, well known as a former member of the Legislature. I do not think it is possible to find a better press for packing than any in use; it is adapted to large or small farms, and is so simple and cheap, that any good mechanic can build it. It is well adapted to the following: It is 10 or 11 feet wide, 3 feet and 3 inches thick; top of frame above ground, 15 feet; highest point of Lever, 15 or 16 feet. The platform on which the bale is trussured is 10 feet above ground. Length of box 10 feet in the clear. Length of handle 6 feet, 8 inches, with 2 feet 4 inches. Weight, 500 or 600 lbs. It is put up flat against the lat room, thereby preventing the rotting of Cotton and the need of baskets. The Press is chiefly built of scantlings. The inventor has spared no pains in his experiments to make it a practical, convenient and cheap machine. \$25 FOR A SINGLE BALE.
