

INDIAN NAMES.

By Lydia Huntley Sigourney. How can the Red Man be forgotten, while so many of our states and territories, bays, lakes and rivers, are indelibly stamped by names of their giving?

To say they have all passed away, That noble race and brave; That their light canoes have vanished From off the crested wave;

It is where Ontario's billow Like ocean's surge is curd'd Where strong Niagara's thunders wake The echo of the world.

Where red Missouri bringseth Rich tributaries from the west, And Rappahannock sweetly sleeps On green Virginia's breast.

Ye say their cone-like cabins, That clustered o'er the vale, Have disappeared, as wither'd leaves Before the autumn's gale;

Old Massachusetts wears it Within her lordly crown; And broad Ohio bears it Amid his young renown.

Connecticut hath wreath'd it Where her quiet foliage waves, And bold Kentucky breathes it hoarse Through all her ancient caves.

Wachusett hides its lingering voice Within his rocky heart. And Alleghany graves its tone Throughout his lofty chart.

Monadnock, on his forehead hoar, Doth seal the sacred trust; Your mountains build their monument, Though ye destroy their dust.

GAME TO THE LAST. The Cincinnati Enquirer says: "A friend related to us the following: 'Being at the house of a neighbor a short time since, the crowd concluded to amuse themselves by telling 'yarns.'

"Two years ago last pullin-fodder time, uncle Josh B. had a buck that was sort of brought up in the lot and about the house, and the boys had, by fooling with him, learned him to 'butt' as hard as a mule could kick;

"But here comes buck and maul again, with nearly the same result as before, except that the blow did not seem quite so heavy on the part of the buck. At him again, my hard head! sings out uncle Josh; take your fill of butting; and at him again the little fellow went, and kept repeating until uncle Josh thought the very d— I was in the head of the sheep sure enough.

"Sharp Practice.—A country correspondent of the Concordia, La., Intelligence, gives the following sketch of his method of treating the fevers of his vicinity: 'The worst fever we get here is the Oranmiten: it's putty tight, cause its apt to hang on long, but it aint nothin' like eka! to that digestive fever tha die ov over in them hills.'

"In general, mostly uses it up in a couple of days, I gin a vomic in the first place—then half an hour after that, the short name we've got here for calomy. Well, then, when the case looks right, I gin about a wine-glass of it—and next day the nigger is fitter for quinine—and the next day after, he kin walk into the pork and make the hoe fly—its seldom I has em in longer, than I tells you on—sometimes in the beginnin of the attack I bleeds, but it won't do, stranger! When the eyes look big and glassy, old Sampson in five grain doses every half an hour for about five hours is just the thing, this is more people killed by bleedin at the wrong time, than this is by old death hisself."

Teaching the Piano in one Minute.—A Mr. Jameson, in England, is teaching what is called colored music, by which persons are taught to perform on the piano almost at the first touch of the keys. The pupils play from sight.—The keys of the piano forte are colored to various lengths, to correspond with similar colors in the book; color being octave, and length being time.

PROSPECTUS OF THE "CONGRESSIONAL UNION" AND "APPENDIX," &c.

The undersigned respectfully inform the public, that with the commencement of the approaching session of Congress, they will begin the publication of the "Congressional Union" and "Appendix." The first will contain a full and accurate history of the daily proceedings of both branches of the national legislature. It will be compiled with such care, that every citizen who is interested in the public affairs will find it a complete synopsis of their proceedings, and a ready book of reference upon all questions which come before them.

The second, (the "Appendix,") will contain every speech which is delivered in the House of Representatives and Senate during the session, reported at length by a full and able corps of congressional reporters, and revised before publication by the authors, whenever it is requested. These two works will be strictly impartial, and are intended to be as interesting and useful to the man of business, and to the politician of the one party as the other.

It may be said, without exaggeration, that the next session of Congress is destined to be one of the most important which has taken place since the foundation of the government. It is the long session. It is the session which will develop the general plan of the present administration. Its measures will stamp the character of our institutions for years to come. Some of the most important questions which are connected with our foreign relations, or our domestic concerns, will be presented for their consideration. The final measure of ratifying the constitution of Texas, which is to consummate her admission into our Union, and the admission of her members into our public councils—every measure which affects the Oregon question—our relations with Mexico—as well as the final decision on the revived Zoll-Verein treaty—these, and other measures which are more or less connected with our foreign relations, will come under the review of the approaching Congress.

Most of the eminently important questions which relate to our internal concerns—the revision of the tariff—the adoption of the best mode for preserving the public moneys—a variety of commercial measures—perhaps the best system for regulating the important interests of Texas—the Indian question—the land question—the best system for our navy—these and others will constitute a mass of business which is calculated to command much of the time of Congress, and much of the attention of the people. They will all be reported by the "Congressional Union."

The Daily Semi-Weekly, and Weekly Union, will, as usual, embrace an interesting variety of matter on political, scientific, and literary subjects, along with the current news of the day. The editor will continue to devote all his energies to the improvement of "The Union." He finds many accomplished men in this city. The administration has brought with it a considerable accession of talents. Several tried and distinguished members of the democratic party have accepted office under it. Some of them have liberally contributed their literary labors to our benefit; and we hope to enlist others in our service. Besides, the time is not far distant when the editor intends to call on other talents to his assistance. His ambition is, to make his paper worthy of the metropolis of the Union. He is persuaded that, with the facilities which his position enables him to employ; with the official and other materials placed within his reach; and with the aid of the correspondents which he is attempting to establish in foreign countries, a paper may be published, which is not unworthy of the support of his country. In undertaking the task, he knew he had many difficulties to overcome, many lessons to learn, many sacrifices to encounter. He knew that, amid the arduous cares of a new theatre, he could not at first do justice even to himself; but his zeal has never flagged. What enthusiasm and industry can never effect, will be fully accomplished. Some errors he may have already committed. But upon one point, he can speak with great pleasure and with equal freedom. The men who are administering this government are working men, anxious, as he believes, to do their duty, to serve their country, to carry out the pledges under which the President was elected, and the great principles of the party. So long as the administration is conducted in this spirit, and upon those principles, he is prepared to co-operate with them in the public service; and to give them, as he proposed in his prospectus, and to give them, as he proposed in his prospectus, a fair, liberal, and efficient support."

We feel a deep sense of gratitude for the prompt manner in which our political friends, in every section of the country, have already come forward to sustain the "Union." May we not hope that our friends throughout the United States will continue to assist our labors, and prevail upon their friends to take some edition of the "Union?"

As this will be the long session of Congress, and will probably last eight months, we have concluded to publish the CONGRESSIONAL UNION and APPENDIX on the following TERMS.

For The Congressional Union, \$15 per copy. For The Appendix, \$15 per copy. Clubs will be furnished with Ten copies of either the above works for \$12; Twenty-five copies for \$25.

THE UNION Will be furnished hereafter to yearly subscribers, as follows: DAILY, per year, for One copy \$10 Five copies 40 One copy 5 Ten copies 20 Twenty copies 35 SEMI-WEEKLY, " One copy 2 Five copies 8 Ten copies 15 WEEKLY, " One copy 1 Five copies 4 Ten copies 8 Twenty copies 15

HONOR TO WHOM HONOR IS DUE.

It may truly be said, that no one has ever been so successful in compounding a medicine, which has done so much to relieve the human family, to rob disease of its terrors, and restore the Invalid to Health and comfort, as the Inventor and Proprietor of that most deservedly popular family medicine, Dr. Swayne's Compound Syrup of Wild Cherry, and none has been so generally patronized by the Profession and others, both in this country and in Europe, nor has there ever been so great an effort in the short space of six or seven years, to deceive the credulous and unthinking, by putting up Nostrums of various kinds, by various individuals, affixing the name of Wild Cherry, and as such of the name of the original preparation as will screen them from the lash of the law, and one of the impostors who put out the common name of the shops and calls it the Balsam of Wild Cherry, has had the impudence to caution the public against the original preparation, Dr. Swayne's Compound Syrup of Wild Cherry, which is doing so much good in the world.

Beware of such impostors. Do not purchase one but the original and only genuine article as prepared by Dr. Swayne, which is the only one compounded by a regular Physician, and arose from many years close attention to the practice of the profession, and which led to this great discovery. Thousands and tens of thousands of the best testimonials of the unparalleled success of Dr. Swayne's Compound Syrup of Wild Cherry for the cure of consumption, coughs, colds, spitting blood, liver complaint, tickling or rising in the throat, nervous debility, weakness of voice, palpitation or disease of the heart, pain in the side or breast, broken constitution from various causes, the abuse of calomel, &c., bronchitis, asthma, whooping cough, &c., were declared to the world years before any other preparation of Wild Cherry came out. The most skeptical may satisfy themselves as to the truth of the above, by a little enquiry in Philadelphia. The genuine article is prepared only by Dr. Swayne, whose office has been removed to N. W. corner of 8th and Race streets, Philad'a.

The Balsam and other spurious articles of Wild Cherry has been sold out, and the proprietors are obliged to resort to falsehood and stratagem to make their own out of it. The genuine article is put up in plain style in square bottles covered with a blue wrapper, with a yellow label with the proprietor's signature attached. To get the genuine in Wilmington, you must go to the only appointed agent, WM. SHAW. The public are requested to remember that it is Dr. Swayne's Compound Syrup of Wild Cherry, that has and is repeatedly performing such miraculous cures of diseases which have baffled the skill of the profession and set at defiance the whole catalogue of Patent Medicines, which are daily pulled through the organs of the press. Therefore ask for Dr. Swayne's Compound Syrup of Wild Cherry, and purchase no other. April 11th, 1845.

Save your Corn Cobs and Shucks. TO THE PLANTERS AND MILLERS OF NORTH CAROLINA. THE undersigned has obtained Letters Patent, to enable common Mill stones (or rocks) now in use, to grind CORN, COB and SHUCK, into meal, for Horses, Mules, Cattle, Hogs, &c., thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stone, to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Threshing Machines, Gins, or any given power known. The same Mill will grind one-third more of Corn Meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds. Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constituting in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce the necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs, but Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. Read the subjoined certificate. The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent. W. F. COLLINS, 26-ly. March 14, 1845.

CERTIFICATE. Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 90 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby. WM. BOYLAN. March 14, 1845.—[26-ly

This Machine is of simple construction, and easy to be kept in order; and can be used either by hand, horse, water, or steam power. Two good hands can easily make from the blocks, from 4000 to 5000 Shingles per day, readily jointed, and nearly as smooth as if planed, and any width desired, from 4 to 10 inches. They could also easily move the machine from place to place, to be convenient to the lumber. The cost of the machine, ready made, will be \$50. The price of the right to use it, will vary according to the extent of the purchase. He will have a machine here in a few days, as a sample, and invites the public to call and see it operate. He will endeavor to obtain a suitable person to carry a Machine into all of these counties, to show its value. A. J. BATTLE, Ag't. May 23, 1845. 36-1f

PROSPECTUS For the publication of a splendid Full Length Mechanical Engraving of WASHINGTON. FROM THE ORIGINAL PICTURE BY COL. J. TRUMBULL. (his aid de camp.) THIS picture, representing Gen. Washington on the battle field at Trenton, was painted in the year 1793, for the city of Charleston, but the inhabitants of that place preferring to have a view of their own city in the background, Col. Trumbull painted another, according to their request, (which is now in the City Hall). The original picture was purchased by the Cincinnati Society of Connecticut, who afterwards presented it to Yale College. It is considered by judges, a Gem of American Art, and is one of the best likenesses of the incomparable patriot in existence, and the only picture representing him in the prime of life. The Engraving will be 25 by 18 inches, and finished in the highest style of Mezzotint, by W. Warner, Esq., and printed on the finest quality of paper. It will be ready for delivery about the middle of October next. Price \$3 per copy for prints—for proof \$5. JOHN DAINTRY 46 1/2 Wall St. Phil. SAM'L TILLER, 39 Carters Alley.
