

POETRY.
From the Wayne County Standard.
MISS MARY.
Miss Mary is a charming maid,
A comely lass is she;
She every morning coffee drinks,
At evening, sips her tea.
She's never gadding in the street,
But loves to stay at home,
Her eyes are parted by her nose—
Her ringlets by a comb.
She has a very pretty foot,
And sometimes wears primella;
On sunny days she sports a shawl—
On rainy, an umbrella.
She's virtue's self-personified—
She scorns to do a wrong;
She keeps her tongue between her teeth,
Where people's tongues belong.
The poor have always found her kind;
She weeps for other's woe;
On Sunday eve she sits alone,
Unless she has a beau!!
Each leisure moment she employs,
To cultivate her mind;
She ties her apron on before—
Her bustle on behind.
Whenever she a shopping went,
She paid for what she bought;
In sleep she always shuts her mouth,
As every body ought.
Small faults she has—and who has not!
She strives them to reform;
When her toes are tramped upon—
She says "get off my corn!"
Accomplishments like these would make
A match for Count or Earl;
And all the neighbors say she is
A pattern of a girl.

AGRICULTURAL.
The Farmer's Creed.—We believe in small farms and thorough cultivation. The soil loves to eat as well as its owners, and ought therefore to be nurtured.
We believe in large crops, which leave the land better than they found it—making both the farm and the farmer rich at once.
We believe in going to the bottom of things, and therefore in deep ploughing, and enough of it—all the better if with a subsoil plough.
We believe that the best fertility of any soil is the spirit of industry, enterprise, and intelligence; without this, lime and gypsum, bones and green manure, marl or plaster, will be of little use.
We believe in good fences, good barns, good farm-houses, good stock, and good orchards.
We believe in a clean kitchen, a neat wife in it, a spinning-piano, a clean cupboard, dairy, and conscience.
We firmly disbelieve in farmers that will not improve; in farms that grow poor every year, in starved cattle; in farmers' boys turning into clerks and merchants; in farmers' daughters unwilling to work; and in all farmers who are ashamed of their vocation.
Antidote to Prussic Acid.—Recent experiments in France, seem to prove that instant immersion in cold water, is an effectual cure in the event of persons swallowing prussic acid.

HONOR TO WHOM HONOR IS DUE.
IT may truly be said, that no one has ever been so successful in compounding a medicine, which has done so much to relieve the human family, to rob disease of its terrors, and restore the invalid to Health and comfort, as the *Inventor and Proprietor* of that most deservedly popular family medicine, **Dr. Swayne's Compound Syrup of Wild Cherry,** and none has been so generally patronized by the Profession and others, both in this country and in Europe, nor has there ever been so great an effort in the short space of six or seven years, to deceive the credulous and unthinking, by putting up Nostrums of various kinds, by various individuals, affixing the name of Wild Cherry, and as much of the name of the original preparation as will screen them from the lash of the law, and one of the impostors who puts out the common name of the shops and calls it the Balsam of Wild Cherry, has had the impudence to caution the public against the original preparation, Dr. Swayne's Compound Syrup of Wild Cherry, which is doing so much good in the world.
Beware of such impostors.
And purchase none but the original and only genuine article as prepared by Dr. Swayne, which is the only one compounded by a regular Physician, and arose from many years' close attention to the practice of the profession, and which led to this great discovery. Thousands and tens of thousands of the best testimonials of the unparalleled success of Dr. Swayne's Compound Syrup of Wild Cherry for the cure of *consumption, coughs, colds, spitting blood, liver complaint, tickling or rising in the throat, nervous debility, weakness of voice, palpitation or disease of the heart, pain in the side or breast, broken constitution from various causes, the abuse of calomel, &c., bronchitis, asthma, whooping cough, &c.,* were declared to the world years before any other preparation of Wild Cherry came out. The most skeptical may satisfy themselves as to the truth of the above, by a little enquiry in Philadelphia. The genuine article is prepared only by Dr. Swayne, whose office has been removed to N. W. corner of 8th and Race streets, Philadelphia. The Balsam and other spurious articles of Wild Cherry has been sold out, and the proprietors are obliged to resort to falsehood and stratagem, to make their own out of it. The genuine article is put up in plain style in square bottles covered with a blue wrapper, with a yellow label with the proprietor's signature attached. To get the genuine in Wilmington, you must go to the only appointed agent,
WM. SHAW.
The public are requested to remember that it is Dr. Swayne's Compound Syrup of Wild Cherry, that has and is repeatedly performing such marvellous cures of diseases which have baffled the skill of the profession and set at defiance the whole catalogue of Patent Medicines, which are daily pulled through the organs of the press. Therefore ask for Dr. Swayne's Compound Syrup of Wild Cherry, and purchase no other.

Save your Corn Cobs and Shucks.
TO THE PLANTERS and MILLERS OF NORTH CAROLINA.
THE undersigned has obtained Letters Patent, to the common Mill stones (or rocks) now in use, to grind **CORN, COB and SHUCKS,** into meal for Horses, Mules, Cattle, Hogs, &c., thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stone to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Thrashing Machines, &c., or any given power known. The same Mill will grind one-third more of Corn Meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds. Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constituting in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious ills above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of digestion (so necessary to the proper health of animals) by their being unable to chew a sufficient bulk to produce distention before the animal consumes the necessary distention, without any danger of disease arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs, But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. Read the subjoined certificate.
The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent.
W. F. COLLINS,
March 14, 1845. 26-ly
CERTIFICATE.
Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am glad to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watching the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.

TO SHINGLE GETTERS.
THE undersigned has been appointed agent for selling the Patent Right to use Kinney's Shingle Machine, in the counties of Halifax, Nash, Johnson, Cumberland, Richmond, and all the counties lying east and south of these, in the State of North Carolina, except the county of Edgecombe, the right of which, has been sold to another. He has also received the agency for the whole state of South Carolina. He is authorized to sell to individuals or to companies, for a single right, the right for a county, or for all that part of North Carolina mentioned, in one sale; and likewise in the same way for the districts in South Carolina.
He has made an arrangement with Mr. U. Wells, of Petersburg, Va., to make the Machine to order, to be delivered at any Depot on the Wilmington and Raleigh Rail Road, the freight to be paid by the buyer, but he will procure its delivery without charge for his trouble. This Machine is of simple construction, and easy to be kept in order, and can be used either by hand, horse, water, or steam power. Two good hands can easily make from the blocks, from 4000 to 5000 Shingles per day, ready jointed, and nearly as smooth as if planed, and any width desired, from 4 to 10 inches. They could also easily move the machine from place to place, to be convenient to their timber. The cost of the machine, ready made, will be \$50. The price of the right to use it, will vary according to the extent of the purchase. He will have a machine here in a few days, as a sample, and invites the public to call and see it operate.
He will endeavor to obtain a suitable person to carry a Machine into all of these counties, to show its value.

INFORMATION WANTED.—FRANCIS JONES, recently died in the Parish of Iberville, Louisiana, leaving no heirs of his body in that State. He left considerable property, and the object of this publication is to ascertain who are entitled to the succession fund: who are his heirs. It is supposed that Mr. Jones was a native of Wilmington, N. C., and that he removed from this place in his youth, leaving behind him parents, and brothers and sisters. He died at an advanced age, and of course must have been a long while absent from this place. This is a matter of importance to the heirs of the deceased Mr. Jones, as he left considerable property. Those who may possess any information on the subject will please call on the subscriber,
