

We have repeatedly refused to publish items of news which we knew would be interesting to our readers...

A Peace Party North.—So far as we have been able to learn, there is no party in the North that has any particular Southern sympathies.

The correspondent of the Chicago Tribune proposes the question, "Can the rebel Gen. Johnston raise the siege of Vicksburg?"

Between that river and Vicksburg the approaches are crisscrossed and every description of obstacles.

There is certainly much reliance on our side, relative to military affairs about Vicksburg.

The following from the Memphis Appeal of the 17th inst., now published at Atlanta, Ga., is the latest we have from that quarter.

We give to-day several items from the Mississippi, of the 14th, concerning the progress of events in Mississippi.

The movement of the river is becoming significant.

Our forces have destroyed the New Orleans, Jackson, north, and the Jacksons were engaged regularly.

P. S.—Since the above was put in type we have received dispatches from Vicksburg, up to the 16th.

The news from Milliken's Bend is not so encouraging as we had been led to believe.

From Fort Hudson the accounts continue cheering.

Our fine companies.—Honor to whom honor is due, is a just and fair maxim.

The alarm of the yesterday afternoon, about 3 o'clock, was caused by the burning of cotton on board the Steamer Banaba.

The news by telegraph to-day is very meagre, but what we have is favourable.

The Wheat Crop.—The Harvest.—The Weather.

Eight per cent.—The papers of the Confederacy are discussing the policy or propriety of the government relative to issuing Treasury notes.

Many have apprehended that the Vicksburg would have to surrender if not speedily relieved.

At present we have only to say that all persons owing to the establishment, need have no hesitation in offering us Confederate notes dated prior to December, 1862.

Gov. Vance has issued his proclamation calling for seven hundred volunteers for the militia for local defence.

Misses. Editors.—I am greatly surprised at the hue and cry raised by many people against the law of Congress passed for the purpose of inducing, or preferred, coercing, the holders of Confederate Treasury Notes issued prior to April 6th, 1863, to fund them.

It was a matter of doubt with many of the most conscientious and sagacious men of the land, whether it was either wise or expedient for the Government, with respect to the debt of the parties holding its notes, to enter into the contract of a currency of this kind.

Let us look into the matter a little. By the act of August last Treasury notes were fundable till 1st April in six per cent. bonds—after that in seven per cent.

Resolved, That the holders of the notes issued prior to the 1st of April, 1863, be and they are hereby authorized to receive in full the amount of their notes, in gold or in its equivalent, six months after the date of their issue.

Resolved, That the holders of the notes issued after the 1st of April, 1863, be and they are hereby authorized to receive in full the amount of their notes, in gold or in its equivalent, six months after the date of their issue.

From the Augusta (Ga.) Constitutionalist. Discrediting Confederate Treasury Notes.

As we predicted some time since, the speculators, in collusion with the banks and paid or stupid newspapers, are attempting to create a panic about the coming scarcity of money.

Peace Convention at New York.—Speech of Fernando Wood.

FELLOW-CITIZENS: We have fallen upon evil times. We have lived too long, if we have outlived our country; for, disengage it as we may, the American Union has been severed, and perhaps forever.

I regret that of the many of this character of which America has boasted, who have honored us in the several years of our progress, none were written at this time for this occasion.

City of New York their General Burnside, (hissed) and here, in the name of this assembly, I demand and demand that you should be removed from your command.

One day he was walking with his faithful servant by his side, and in these times, my friends, it was the practice to go over these large areas, comprising thousands of acres, with an armed servant.

Even lying history aside, the history of this two years' war is a history of brave and determined men, who have thrown out their lives for their country, and an unlimited amount of treasure into this contest.
