We learn from the Norfolk Journal that Ex-President Davis passed Weldon and Portsmouth, on Friday, en route for Baltimore.

The Journal of Commerce says that the revival still continues in the Methodist Church, in Newbern. Thus far there have been 90 conversions, about 80 of whom have entered the church.

The Charlotte Observer understands that the laying of the track on the Atlantic, Tennessee and Ohio Railroad will be completed from Charlotte to Davidson College within ten days or two weeks.

The Raleigh Telegraph says: A detachment of United States soldiers moved up the North Carolina Railroad last night, to report to Deputy Marshal Hester, at Salisbury, for operations in Rutherford county.

The medical fraternity of Warren county have organized a medical society. Dr. Geo. Field was elected President, and Dr. J. A. Foy, Secretary. The society will meet again on the 17th inst., to perfect its organization.

C. C. Stille, Esq., has changed the name of his paper, the Greenville Express, and now calls it the Greenville Conservative. If anything political heretofore, Mr. Stille's paper was Republican. Now, however, he boldly announces his adhesion to the Democratic Conservative Party, State and National, and for Conway. One of the results already is that Mr. Stille has added to his subscription list, in four days 113 subscribers. That will do, and so long as his efforts go to the promotion of the cause of our distressed State and people we wish him all success.

An unfortunate shooting affray occurred at Carristuck C. H., last Thursday, as we learn from the Norfolk Virginian. The parties were Mr. John Bennett, and Dr. J. A. Foy, and the dispute arose in consequence of a bill presented by Baxter to Bennett, which the latter refused to pay, saying that it was too large. Baxter was badly beaten about the face, and Bennett received a dangerous pistol shot in the body.

FEDERAL OUTRAGE.—On Saturday evening last, three young men, apparently not more than nineteen years old, were brought into the town of Chatham, in seven or eight company of ten or twelve U. S. soldiers, commanded by Maj. Cashing, charged with running off from the railroad works a contractor named Howe and firing into a house of prostitution. These young men were at once locked up in the common jail, without any investigation, to await the pleasure of Mr. Commissioner Shaffer.

We are in possession of some facts connected with this military display which should sink the Federal civil authorities of this city and their aiders and abettors into the same ignominy as that of the common crowd of ten or twelve U. S. soldiers, commanded by Maj. Cashing, charged with running off from the railroad works a contractor named Howe and firing into a house of prostitution. These young men were at once locked up in the common jail, without any investigation, to await the pleasure of Mr. Commissioner Shaffer.

THE NORTH CAROLINA JUDICIARY.—A North Carolina correspondent of the New York Sun complains that the Ku-Klux bill was forced through the Senate under stress of a letter from Judge Logan, of the 9th district of that State, detailing some horrible Ku-Klux violence in Rutherford county, which had no foundation in fact. He gives a lively picture of the North Carolina judiciary:

Once the (the North Carolinians) had a system of justice administered better than any other in the country, but that splendid temple in which a Gaston and a Ruffin ministered as high priests is a melancholy ruin desecrated by the drunken rillidry of a Pearson, a Jones, a Watts, a Henry, and their no less reprehensible compeers. Consider the judiciary of North Carolina! Witness the Chief Justice (Pearson) reeling into the house of God, too drunk to sit upright! Think of him on the bench, before the most enlightened bar of the State, growing in a maudlin way over fancied disrespect to the court. Think of a Judge (Jones) resigning to escape impeachment, after the most unbecomingly unbecomingly preferred against him. Think of another Judge (Watts) openly charged with having taken a \$5,000 bribe, and now undergoing examination by a legislative committee. Think of another Judge (Toungre) being publicly attacked in the street and knocked down by the mob, and actually being placed in a cage, for offences against good manners and morals. Think of a Judge (Henry) to drunk for days to bear a habeas corpus case. Think of a Judge (Cannon) issuing a separate judgment in the same case for the same amount, one against the defendant and the other against the securities. Think of Judge Cloud and pause.

The Weldon News says: We learn from an experienced horticulturist in this section that the apple crop throughout this country will be almost a total failure this year. But we also learn that the peach crop yields every prospect of a most beautiful yield.

The Newbern Times says that an attempt was made on Tuesday last to throw the rails of the A. & N. C. R. R. from the track, by the placing of an iron bar across the rails, but that, fortunately, the obstruction was seen in season to avert a terrible accident.

From the Raleigh Sentinel, we learn that Dr. W. W. Gailher, of Caldwell, Principal Clerk of the House of Representatives, says that the signs of the times in the West indicate that nearly, if not quite every county in that section will go for Convention. "How is that for high!"

The Raleigh Sentinel hears of the recent hail storm in Chatham, Warren, Halifax and other counties. In Chatham county the storm is described as being particularly severe, and working great damage to fruit trees, crops, and moulting large numbers of wintering pees.

SCHEMERS' COURT.—This tribunal assembled in this city, on the first Monday (5th day) of June next. The cause from the several Judicial Districts will be called in the order heretofore adopted, viz: First week, 1st and 2nd districts. Second week, 3rd and 5th districts. Third week, 4th and 7th districts. Fourth week, 8th and 9th districts. Fifth week, 10th and 11th districts. Sixth week, 12th and 6th districts.

On Monday of the first week applicants for license to practice law will be examined in the Rights of Property. On Tuesday they will be examined on Pleading, Practice and the Code of Civil Procedure. The appeals from the First District will be taken up on Wednesday.—Ral. Sentinel.

Judge Clark, in his charge to the Grand Jury, at Halifax court, last Monday made a very strange and decidedly untruthful assertion. Said he: The bones of the men who have been murdered at the pyramid as large as this Court-house—there was not an election held without some four or five persons being killed.

In plain and positive contradiction of this ascription, the Weldon News says that there has been no election in the common election in Halifax county in seventy years. The News calls upon Judge Clark to retract or explain.

The Board of Directors of the Insane Asylum, of North Carolina, appointed by act of the General Assembly at its recent session, met at the Asylum yesterday, and organized. Dr. Chas. E. Johnston, of this city, who came first appears in the act appointing the Board, is a member of the Board, and President. Dr. E. Burke Hayward, P. F. Percend, and C. Dewey, Esqs., were elected as an Executive committee, to take immediate supervision of the institution in the intervals between the regular meetings of the Board. On the regular meeting of the Board, on the 25th of April, the Board were unanimous that they had not the authority, by law, to interfere, so the present officers retain positions until the regular time of election.

Raleigh Sentinel. THE LUTHERAN CHURCH.—A committee of Ministers and Laymen of the Synods of Tennessee and North Carolina, Lutheran church, met at Mount Pleasant, Cabarrus county, N. C., on the 25th of April, for the purpose of forming and proposing terms of union between the Synods or branches of the same church.

The Synod was on the part of the N. C. Synod was Rev. S. C. Groscole, S. Scherer and N. Aldrich, and Capt. J. A. Fisher and Dr. P. A. Sifford. On the part of the Tennessee Synod: Rev. Dr. A. J. Fox, J. M. Smith and T. Moser, and A. Costner Esq. were elected President, and Rev. N. Aldrich, Secretary.

The committee remained in session three days, and agreed on terms of union, which will be submitted to the Synods for their ratification or rejection. It is thought that the agreement will be cordially endorsed by both parties.—Charlotte Democrat.

Meeting at Kenansville. We are authorized to state that there will be a meeting of the friends of Convention, at Kenansville, on Saturday, the 20th inst., for the purpose of consulting as to the proper steps to be taken for the organization of the party for the summer campaign on the question of Convention.

FIRE! FIRE!! FIRE!!!

The fire last night. Two fine residences destroyed.—Exciting scenes.—Heavy losses.—Origin of fire unknown.

The alarm of fire was sounded last night at about 11:30 o'clock. It came from a kitchen on the premises of Mr. W. T. Huggins, on Fourth street, between Dock and Orange, which, when we arrived on the scene, was completely enveloped in flames. From the kitchen it rapidly communicated to a similar building just north of it and attached to the residence of Mr. W. R. French, and soon both Mr. Huggins' and Mr. French's houses were in flames.

The fire department, both white and colored, were on the spot as promptly as circumstances would admit, and labored earnestly to save the houses which were burning. All that was possible, was done to save the buildings, but this could not be accomplished, as the fire had gained too great headway, and the result was the loss of the two fine residences, with all of their immediate outbuildings.

A large number of citizens gathered promptly on the spot, and these, among whom were prominent several colored men, at once entered the houses and removed the furniture, &c., contained therein, to the opposite side of the street. Much of the furniture was badly burned and damaged in its removal, but this was unavoidable, as the fire spread so rapidly that those engaged in the work were often in danger from the flames and smoke. When Mr. Huggins first awoke, his kitchen was in a full blaze, and he at once hurried his family, as they were, to a place of safety, and Mr. French's wife and children were not aware of their danger until the flames had approached the house.

The origin of the fire is enveloped in some mystery. The alarm was only given when the flames were bursting from the roof of Mr. Huggins' kitchen and that gentleman says that, when he awoke, the kitchen was in a blaze. The colored woman who slept there was at church last night and says that, when on her way home, she first heard the alarm. There was, therefore, no one in the kitchen at the time the alarm was given.

The loss has been estimated at \$6,000, each, for Mr. French and Mr. Huggins.—They were both insured to the extent of \$4,000.—Mr. French with Messrs. Wm. L. Smith & Co., Agents, and Mr. Huggins with Messrs. George & Manning, Agents. Daily Journal 11th.

STARTLING FROM ROBESON.

The Jail Broken Open.—Tom Lowrey and Pop Oxendine Released.—Henry Berry, Lowrey, George Applewhite, Stephen Lowrey and Ross Strong the operators.—The U. S. Troops there serene and Peaceful.

For the Journal. LUMBERTON, N. C., May 10th, 1871. EDITOR JOURNAL.

Dear Sir:—Our jail was broken into last night and the prisoners, Tom Lowrey and Pop Oxendine, released.

A negro, who was confined in the same room with Pop Oxendine, reports that the breaking occurred about midnight, and was effected by a large crowd of armed men, who entered the enclosure by means of a key which unlocked the gate. The jail doors were then forced open by the aid of augers and other tools with which the adventurers were well supplied; the irons were struck from the limbs of the prisoners, and all retired together through the gate, which they locked securely behind them. Only the apartments occupied by Tom Lowrey and Pop Oxendine were entered. Another room containing other prisoners was not disturbed. The negro McKoy says he didn't know any of the party, but the three who entered the apartment in which he was confined, gave their names as Henry B. Lowrey, George Applewhite and Stephen Lowrey. Another, whom he describes as a rather low, thick-set bright mulatto, (thought to be Boss Strong) stood in the passage, and a large crowd remained about the gate of the enclosure.

Very truly, Home Cotton Consumption this Year. We extract the following from the New York Chronicle, of the 22d ult.:

Just at the moment, when the market appears to be in quite a stagnant condition, it becomes useful to see the actual taking for consumption and export thus far, in order that we may know low the balance of the crop is to be distributed. Last year (1869-70), up to April 13, our own spinners had taken about 553,200 bales—more than for 1870-71, during the same period, the mills have taken about 650,918 bales, as may be seen in the following for the two seasons:

Table with 3 columns: Date, Receipts at all ports, Receipts overland direct. Rows for April 13, 1870-71 and April 13, 1869-70.

Taken by spinners up to April 13, 1870-71. These figures indicate that our spinners have already taken about 90,000 bales more than for the same period last season, the larger portion of which must have gone to increase their stocks, since their actual consumption up to this time has not been much, if any, in excess of (and some part less than) last year. The reason for this small consumption may be found in the fact that the drought of last summer and autumn enforced a reduction in hours of many mills, which, by reason of the small rain fall during the winter, was continued, except for a few weeks, until early spring.

Not until March really was full mill power restored. This fact will prevent the total consumption of our spinners for the entire year from being much, if any, in excess of last year, when for the North it was about 806,000 bales.

REVIEW OF THE WILMINGTON MARKETS.

FOR THE WEEK ENDING THURSDAY, MAY 11, 1871.

TURPENTINE.—Has been in steady enquiry from districts throughout the week just ended, and the market has been showing an advance of 10 cents on yellow dip, while other qualities are without change;—at the close, however, there is a tendency to a decline. Receipts continue small, and since our last report only 751 bbls, which sold as follows:

Table of Turpentine prices for different grades and quantities.

FRUIT.—Since the close of our review on Thursday last the market for this article has shown some dullness, and the price has advanced a few cents. We quote as follows: 41 cents for Southern packages. To-day (Thursday) there is a firmer feeling manifest, and all offered has been taken at above figures—the market being in a moderate state of enquiry. The sales are as follows:

Table of Fruit prices for various types of produce.

PREVENTIVE MEDICATION.—A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and purgatives, once the favorite resources of the faculty, and now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local diseases. Hence it is that Hostetter's Stomach Bitters, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that the thousands and tens of thousands of human beings are alive and well to-day who would undoubtedly be mouldering in their graves, had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of; but now it is considered of paramount importance, and the old belief of the standard invigorant, alterative and restorative of the age (a title which Hostetter's Bitters have fairly earned by their long career of success), is mainly due to its efficiency as a protective preparation.

A course of the Bitters is urgently recommended as a safe and certain antidote to intermittent and remittent fevers, diarrhoea, dysentery and other malarial affections.

I beg leave to call the attention of the reader to testimony in favor of the Schnapps: I feel bound to say that I regard your Schnapps as being in every respect pre-eminently pure. My knowledge of medicine, and the fact that all events it is the purest possible article of Holland gin, heretofore unobtainable, and as such may be safely procured by physicians.

DAVID L. MOTT, M. D., Pharmaceutical Chemist, New York. LOUISVILLE, Ky., Sept. 1.—I feel that we have now an article of gin suitable for such cases as that remedy is adapted to. D. J. W. BRIGET.

"Schnapps" is a remedy in chronic catarrhal complaints, etc. I take a great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surface, with a slight degree of stimulation, I regard your "Schnapps" with much interest, and in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant, CHAS. A. SEELY, Chemist.

26 FINE STREET, NEW YORK, Nov. 21, 1867.—UDOLPHO WOLFE, Esq., Present: DEAR SIR: I have made a chemical examination of a sample of your "Schnapps" with much interest, and of determining if any foreign or injurious substance had been added to the simple distillate spirit. The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substance which are sometimes employed in the adulteration of liquors. I would not hesitate to use my own name, nor to recommend to others, for medicinal purposes, the "Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours, (Signed) ALEX. TRIPPEL, Chemist. FRANCIS E. ENGELHARD, M. D.

They print their lowest prices, which are, therefore, alike to all, invariable. The following are illustrations: Four-Octave Organs, \$50. Six-Octave Organs, \$75. Eight-Octave Organs, \$100. Carved and Ornamented, \$125. The same, Double Beed, \$150. Forty Other Styles, up to \$1,000.

All in solid Black Walnut. All the Organs used by this Company are thoroughly first-class in every respect. They will not make the so-called cheap Organs any price. The comparative superiority of their instruments is now greater than ever before, as every competent judge who will carefully examine and compare must perceive.

ILLUSTRATED CATALOGUE, with Wood Cuts from Photographs of the different styles, full information and lowest prices; Testimonial Circular will be sent free for any address.
