commissioned, by the President, Con-
sul at Palermo, the capital of Sicily.

Rev. F. H. Wood organized a body of
Good Templars at Joyner's Depot, on
Friday last. Twenty-one members
were installed. Thomas W. Crowell was
elected W. C. T.

The Greensboro Patriot says: The
cold snap of Friday night was severe
enough to injure the peach crop. It
is said by some old farmers to be the
hardest freeze for the season within
their recollection.

Elder Howell writes the Raleigh Era
that the "Piney Grove Missionary Baptist Church
was organized September 8th, 1872, with
thirty-three members. It now has
eighty-eight, and the Church is in pros-
perous condition."

The Wilson Plauder says: The
steam saw mill of Mr. Peter Eastman
about eight miles from the town of
Fields township, was destroyed by fire
last week. There was a cotton gin
attached to the mill, which was also
destroyed. The loss is estimated at
\$20,000. No insurance.

The Winston Sentinel says: We
learn that a gentleman from Philadel-
phia intends to erect this season in our
city a large fruit factory, which will
run on the Alden process, which will
furnish a ready sale, at remunerative
prices to our citizens, of their green
fruit.

A special to the Raleigh News, dated
Salisbury, May 1st, says: At a meet-
ing of the Directors of the North Caro-
lina Railroad today, at Salisbury,
Holt, of Alamance, was elected Presi-
dent of the Company to fill the vacancy
occasioned by the resignation of
Hon. J. M. W. Caldwell.

The Goldsboro Messenger says: We
learn that a colored boy named Aaron
Coddell, aged about 16 years, was
drowned in a canal on the Goldsboro
River, near the town of Goldsboro,
McKinnis' plantation, in Brogden
township, on the 25th inst. He was
subject to fits, and being taken with
one while fishing in the canal, he
died.

The Raleigh Sentinel says: Two
colored ladies on yesterday caused
John Gating, Esq., to enter into bond
to keep the peace for the county.
The case was heard on Monday next.
Mr. Gating's lands near the Rock
Quarry has been threatened, they
suppose, and hence the case.

The Goldsboro Messenger says: We
learn that a girl house, together with
a number of bales of cotton, upon the
farm of Col. Walter Clark, in Second Neck,
Halifax county, were destroyed by fire
on Monday night, occasioning a loss of
some \$2,000. It is thought that some
thief had entered the house and set
fire to the bales.

The Greensboro Patriot says: We
saw on Wednesday last 10 large sized
and perfectly shaped eggs which had
been taken from a nest of a Turkey
hen. The eggs were of a beautiful
greenish color, and were of a size
which is a question. But they were
stowed away in her somewhere.

The Battleboro Advance says: A
little colored girl, five years old,
was badly injured by a horse on
Rowland last Saturday. The attention
of the mother, who was out at the time,
was attracted by the noise, and when
she reached the house just in time
to save her life. At last accounts the
sufferings of the child were excruciating,
and her condition very precarious.

The Wilson Plauder says: The
side track, we understand, is being
built at the new town this side of
Jonesville, but the people at Jonesville
are using it quite freely, and don't
think of deserting the place. They
probably have their goods hauled a mile
rather than desert the place, and
deserting the place, and deserting the
place, if they stick up in the
matter they may get the best of
the railroad authorities.

The Goldsboro Messenger says: A
new tunnel through the hills of
Baldwin, to be opened in this State.
All the stock is to be owned in North Carolina,
and to consist of 100 shares of
\$1,000 each. Col. Wm. R. Griffith, of
Baltimore, is at the head of this enter-
prise. Our townsmen, Hon. W. T.
Dorsh and John H. Powell, Esq., are
among the stockholders.

A destructive fire is reported at
Stantonsburg, Wilson county, on the
night of the 27th inst. The stores of
John Peacock, Dr. Ward and Mayo
and several others, were burned to-
gether with most of their contents.
The entire block was destroyed. We
learn that Mr. Peacock was insured,
but for what amount we know not, and
did not hear whether any of the re-
maining property was insured.

The Kinston Gazette says: We saw
on exhibition here last Monday, a cotton
planter, the invention of two young
men of this county, and we don't think
of deserting the place. They

The Raleigh News says: We learn
from Mr. B. Percy, agent of the Under-
writers, that the Steamer Henry Lee,
commanded by Captain Antonio Veroles,
from Bull River, S. C., bound for
London, sprung a leak on the morning
of the 29th ult., and was beached near
Cedar Inlet, about 20 miles north of
Beaufort harbor, and within 10 miles of
Cape Lookout Light House. When
run ashore, the Veroles had about
three feet of water in her hold. The
cargo consisted of phosphates. We
did not learn what amount of damage
was sustained.

The Raleigh News says: Messrs.
Guiley & Green are making arrange-
ments for the construction of a new
enterprise in this city. They are hav-
ing enclosed, with a substantial 7 ft
foot fence, an eleven acre lot in the
southeastern portion of the city, for
the purpose of establishing a "chicken
ranch," and will at once place therein
more than 1,000 hens, with a view of
supplying in part the requirements
of the city. They will invest some \$2,000
in this enterprise.

The Raleigh News says: Doc Hol-
land, a colored man, being very ill at
his residence on the Lenoir street,
near the Central Depot, sent for his
brother, King Holland, and his wife
to attend to his case. The doctor
said the horse became frightened
and ran off with the buggy that con-
tained him and his wife. Both were
thrown out of the buggy, and King
Holland was fatally injured and taken
to the house for dying brother—
both died within a few minutes of
each other, and were buried together
yesterday.

The Salem Press says: On Friday
and Saturday morning last, the weather
was very cold and frosty, for the
season, destroying vegetables in the
gardens, and we fear the prospect for
the fruit crop is being materially af-
fected. In low places the destruction
seems to have been general, but on
ridges, we are pleased to learn, the
damage has not been so great, in some
sections, apparently not much injured.

The wheat crop in this section has
improved considerably, but the harvest
is not yet begun, and the prospect for
the season is not yet decided. The
amount of loss not covered by insur-
ance was about \$2,500. On the same
night, in Old Fields township, the
saw and grist mill, and grist house
belonging to Mr. Peter Eastman, was
destroyed by fire. The loss is estimated
at \$20,000. No insurance.

The Greensboro Patriot says: The
Newbern Times says: Messrs.
Sweep over occasionally the land in-
tended for Slips, to keep down grass
and weeds and to prevent the land
from drying out too rapidly. Groat
the ground with a thick mat of cow
dung and clay, drop them along the top
of the bed and with "shiny" stick pins
placed in rows, and the grass will
grow very rapidly with great saving to
the back.

ANNUAL MEETING OF STOCK-

CHARLESTON, May 1—Noon.—The
Chamber of Commerce has passed a
resolution declaring it due to the
credit and good faith of the people
and to the honor of the State, that
the tax payers should be represented
in the bond suits. A committee
was appointed to procure counsel
and carry out the resolution.

COLUMBIA, S. C., May 1—Night.—
The annual meeting of the stock-
holders of the Greenville & Columbia
R. R., was held to-day. The reports
of the President and Superintendent
were satisfactory to the stockholders.

DRILLED CORN AND MILLET.

It is not already done, the first part
of the present month is an excellent
time to plant these excellent crops. Drilled
corn planted on uplands late in the
summer, is apt to fail. For both corn
and millet, a thoroughly prepared
soil is essential. Sow both in drills and
three feet apart. It will take about
three bushels of corn and one of
millet seed for each acre. The soil
should be well plowed, and the seed
should be sown in rows, and the
rows should be well spaced.

DRILLED CORN AND MILLET.

It is not already done, the first part
of the present month is an excellent
time to plant these excellent crops. Drilled
corn planted on uplands late in the
summer, is apt to fail. For both corn
and millet, a thoroughly prepared
soil is essential. Sow both in drills and
three feet apart. It will take about
three bushels of corn and one of
millet seed for each acre. The soil
should be well plowed, and the seed
should be sown in rows, and the
rows should be well spaced.
