

Local and Personal.

Gene or Golus. Everybody with his estimable Lady, has gone or is going to the Nicholson Fair, which it is hoped will prove to be a grand affair.

Church Music Books. Can be found in large variety at the Music Depot of L. B. Powell, Scranton. He furnishes them by the quantity, at lower rates than they can be obtained from New York.

Advice to Democrats. Thrash your buckwheat before the day of election, and then turn out en masse and thrash the Black Republicans.

Going Up. The work on the two churches in town begins to show up to good advantage. Mr. Overfield is now raising the frame work of the Methodist house. The brick work of the Presbyterian has the appearance of being nearly finished.

Salt. Mr. D. Billings has received at his store near the canal, a large consignment of salt, which will be sold in large or small quantities to suit purchasers, and at prices to suit purchasers. Mr. Billings keeps constantly on hand a fine stock of provisions and family Groceries. Housekeepers, and others who live on victuals, will do well to make a note of this.

Loaded up. The editor of the Republican, who it seems rather "overdid" himself, went back to Dr. P. J. H. his fountain head for ammunition, and has returned, no doubt loaded to the muzzle. Look out for some of Dr. John's stale lies in a new garb. The Dr. manufacturers and Yost peddlers. During the Dr.'s short term as Revenue Assessor, he got a perpetual License, for dispensing "new and enlightened views" among us old fogies.

Are you Assessed? The Assessor's Lists of voters are now put up in the respective election districts. Every Democrat should see to it at once, that all new voters, who will vote our ticket, are assessed. Do not neglect this matter. It is well to late, if not attended to this week. Every vote is important. With a full vote, success in the State and County is certain. Look to the Lists.

Just Received. Sherman & Lathrop have just received a large stock of new dress goods, Trimmings, Cloaking, Ladies and Children's Shoes, &c., to which they call the attention of the Ladies with the utmost solicitude in their ability to please them as to style, quality and price. An extensive stock of ready-made clothing, made expressly for this market at a first class New York House—is now being received. Their stock of Gent's furnishing Goods is now complete. Trunks, Valises, Leather and Carpet traveling bags, &c., on hand.

Laws of 1867. The Pamphlet Laws for 1867 have been received by E. J. Keeney, Prothonotary and are now ready for distribution to those entitled to them. Justices of the Peace will send in their orders for them. This document is said to contain some new laws, indeed it is the citizens of Wyoming County. Our black republican law makers of last winter were all great men—especially the one from this County, who, besides making laws, made some singular prayers—so they say.

Fized up. The trunk of the aqueduct, across the creek at this place, was discovered, one day last week, to be giving away. A butt was framed, placed under the weak point, which, it is hoped, will secure it against danger of breaking down for the season. A serious leak in the canal at this season would be a calamity to the country.

Side Walk. Mr. T. B. Wall, owner of the premises, has put down in front of the store occupied by Sherman & Lathrop, the finest piece of sidewalk to be found in the country, indeed it is not excelled in the cities. The flagging for this work came from the splendid quarries of Overfield & Co., at Meshoppen, in this County. These quarries which have been but recently worked, are justly regarded as the finest in the country. Mr. Wall who never does any thing by the halves, contemplates further improvements in the way of walks and step stones.

Borough Bridge. The Bridge at the lower end of town near Marcy's, which has been not only a disgrace, but a constant source of expense to the Borough, is to be replaced by a new one. The contractor for its building, has laid the foundations, deep and strong and seems to be intent upon doing the work in the most substantial manner. When built, if done according to contract, we believe it will be, not only safe and substantial, but decidedly ornamental.

Arrested. Geo. H. Shippey, who is charged with stealing the horse of Mr. James Harris—a notice of which appeared in the Democrat of last week, was arrested by F. M. Crane and John Wiley of this place, at Wilkes Barre, yesterday, and brought here for a hearing. The proofs of guilt are said to be conclusive. No effort has yet been made to recover the horse; but it is known in which direction it was taken and little doubt of its recovery is entertained. Shippey, who it seems has a propensity for stealing, had but a few weeks since finished up a term in the penitentiary for larceny. He will probably have the benefit of a longer term for further reformation.

Barns Burned. The two large barns, with the extensive sheds and stabling, attached, belonging to Mr. Perry Marcy at the lower end of town, were, with their contents, entirely destroyed by fire on Monday evening last. The fire, which is thought to have been the work of an incendiary, when first discovered was on the north end of the buildings, farthest from the house, and appeared to have been but recently kindled. Mr. Oscar Goodwin, who first saw it and gave the alarm, thinks he heard a person running from the barns, and everything else connected with the stables, and sheds was lost. Both barns were well filled with grain and hay. One with a large quantity of wheat yet in the sheaf.

Our New Gordon Jobber. The swagging sense of satisfaction and self-importance which a boy feels on first fobbing his long-coveted bulls-eye "time keeper," and the waving dignity which a young Miss, on the sweetest side of sweet sixteen, feels when a long skirt to her latest calico, is akin to the pleasure we feel in speaking of our new Gordon Jobber. We're proud. We're a little stuck-up. We begin to think we're a mammoth pumpkin—(our pocket-book though, feels, and looks very squatty)—No matter, we've got the press. A new Gordon Jobber—the first ever brought into this Co., with which we are prepared to do the most and most expeditious work in our line, ever done in this region. It is a most perfect and admirable piece of machinery. Mr. Geo. P. Gordon the Inventor, Patentee and Manufacturer of the Gordon Presses, is one of the very few men of real genius in this or any other age who has lived to secure the rewards of his genius. Through receiving a snuff-fortune, annually for his presses, Mr. Gordon's mind is in no danger of rusting out, nor becoming dulled by satiety. Knowing that he has a "good thing," he is not content to sit down under the hallucination that it could not be made better. He has spent mind and money in making, from time to time, new and important changes in his presses, until now, it would seem, the *plus ultra* of the press has been attained. Perhaps he may still improve them, but other men need hardly attempt the task. Call and see our new Jobber, and bring along your job work, such as envelopes, bill heads, letter heads, posters and blank work of every description.

Mercurio said of his wound. "It was not as deep as a well or as wide as a gate, but it would do." Plantation Bitters will not raise the dead. But they cure the sick, exalt the Depressed, and render life a thing To be enjoyed.

CHILDREN'S LIVES SAVED FOR 50 CENT. THOUSANDS OF CHILDREN DIE ANNUALLY OF Cramp. Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Linctus in the house, you never need fear losing your little one when attacked with this complaint. It is now 19 years since I have put up my Linctus, and never heard of a child dying of Cramp when this Linctus was used; but hundreds of cases of cramp have been reported to me, and many of them it was \$10 per bottle they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throat, Swellings, Mumps, Colic, Diarrhea, Dysentery, Spasms, Old Sores, and pains in the back and chest. No one tries it who is ever without it. It is warranted perfectly safe to take, and is sold by all Directions with every bottle. Sold by the Druggists Depot, 56 Cortlandt Street, New York. v74z-7wks.

DYSPEPSIA. There is no disease which experience has so amply proved to be remediable by the PERUVIAN SYRUP. (a protected solution of the Protoxide of Iron), as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, medicine, as ample testimony of some of our first citizens prove.

FROM THE VENERABLE ARCHDEACON, SCOTT, D. D. DUNHAM, Canada East. "I am an inveterate Dyspeptic of more than 25 years standing." "I have been so wonderfully benefited in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

ANOTHER CLERGYMAN WRITES AS FOLLOWS "My voyage to Europe is indefinitely postponed. I have discovered the 'Fountain of Health' on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the fangs of the fiend Dyspepsia."

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on "Iron as a medicine," will be sent free to any address. The genuine has "PERUVIAN SYRUP" blown in the glass. J. P. DINSMORE, Proprietor, 36 Dey Street, New York. Sold by all Druggists.

ALLOCO'S POROUS PLASTERS. Hartford, Conn., Nov. 11, 1864. Messrs. T. M. ALLOCO & Co.—Please send, with dispatch, twelve dozen Alloco's Porous Plasters.—Our daily experience confirms their very superior excellence. At this moment of writing a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay \$5 for a single Plaster if they could not be had at a lower rate. I am surprised that surgeons do not make use of the perforated plasters to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them rendered them greatly superior to all others for ordinary surgical uses.—Knowing that the plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D. Agency, Brandt House, New York. Sold by all Druggists in the United States and Canada.

DR. SCHEENK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. SCHENK, the Proprietor, of Pulmonary Consumption, and he has assumed its most formidable aspect, and when speedily applied appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has since appeared, and all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. SCHEENK makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in few months healthy, robust persons. Dr. SCHEENK'S PULMONIC SYRUP, SEAWED TONIC, and MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each so that any one can take them without seeing Dr. SCHEENK, but when it is convenient it is best to see him. He gives advice free but for a thorough examination with his Respirator he fees is three dollars.

Please observe, when purchasing, that the likeness of the Doctor—now when in the last stage of Consumption, and the other as he now is, in 'pep health—are on the Government stamp. Sold by all Druggists and Dealers. Price \$1.50 per bottle, or \$7.50 the half dozen. Letters for advice should always be directed to Dr. Schenk's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

SCROFULA—CONSUMPTION. Dr. L'UOGL of Paris, one of the most eminent Chemists of Europe, says: "The most astounding results may be anticipated when Iodine can be dissolved in pure water." Dr. H. Anders, after fifteen years of scientific research and experiment, has succeeded in dissolving one and one quarter grains of Iodine to each fluid ounce of water, and the most astounding results have followed its use, particularly in Scrofula and kindred diseases. New Advertisements.

SIGNIFICANT. The new system of Advertising adopted by Geo. P. Rowell & Co., Advertising Agents, No. 40 Park Row, New York, is attracting a good deal of attention. The following extract from a speech delivered before the N. Y. State Editorial Convention, (lately held at Penn Yan,) by a prominent Advertising Agent of N. Y. city, goes to show that he at least acknowledges its advantages.

"Mr. Pettinigli spoke in opposition to that plan from the publisher's stand point alone. He contended that the publishers, by this system of contracting they were giving lower rates than they gave their own best customers, or others equally as prompt and good customers; that they were selling one portion of their paper to be used to compete with and underbid the other columns; and that the owner of the space thus sold could come right in and beat the publisher's price and take his business away from him; that the publishers, fully understanding this, still wish to continue an irregular and business-like a system he (Pettinigli & Co.) should of course cease trying to get advertising for the papers at their regular rates and go into the other system of contracting—which he could stand if by the printers could."

The anxiety on the account of newspapers is unequalled. There is not one in twenty which would not prefer to receive all their foreign patronage on this plan, when it is fully understood. It is too generally recognized as thoroughly beneficial to all parties concerned to be injured in the least by anything which may be said against it by interested parties.

Advertisers should send for a circular giving full explanations.

JUST PUBLISHED NEW WORK ON SINGING, BASSINIS TWENTY MELODIC EXERCISES, IN FORM OF OLEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES, INTRODUCED Studies to acquire the Art of Singing.

"These exercises were composed to be used simultaneously with his system, 'The Art of Singing,' or with any other method for the cultivation of the voice, and will take the place of CONCOES'S SOLETTI; being more melodious and better adapted for teaching.

Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile* which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them valuable in an educational point of view, as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation.—Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasions or slurring in these respects is time and effort utterly wasted, while, on the other hand, a close and patient investigation, and a minute and faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound effects."—*Watson's Art Journal.*

Lay it upon you table by the side of the Bible—it is a better expounder than many of our claim to be expounders. It is a great labor-saver; it has saved us time enough to in one year's use to pay for itself; and that most desired good property which will clear itself once a year. THE UNION PACIFIC RAILROAD CO. THEIR FIRST MORTGAGE BONDS As an Investment.

The rapid progress of the Union Pacific Railroad now building west from Omaha, Nebraska, and forming with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?"—Next, "are they a profitable investment?" To reply in brief:

1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day. 2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be laid with a profit consisting of the tolls on the Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depot, locomotives, cars, &c., and trains are daily running each way. The materials for the remaining 131 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September. 4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built the net earnings completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only by the road progress, and therefore can never be in the market unless they represent a bona fide property. 6th. Their amount is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien on its security. This amount upon the first 517 miles west from Omaha is only \$15,000 per mile. 7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to be paid in third lien), may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Governments, there are parties who will consider a first mortgage upon such property as this the very best security in the world, and who sell their Governments to re-invest in these bonds—thus securing a greater interest. 9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being over 15 per cent. less than U. S. Stock. 10th. At the current rate of 6 per cent. on gold, they pay
