

EMMITSBURG, May 1871.

MR. EDITOR: The three days wonder of this place within the past week was the fire in the mountain. On Monday last came the "run boys, run," and run they did with a will, so that our streets presented an unusually quiet appearance during their absence. It is astonishing what the combined efforts of a few willing and determined persons can effect on such occasions. But shame on the craven spirits of would-be men, who stand aloof at such times, careless and indifferent, whilst disinterested persons work even to the saving of the property of those same sordid, selfish, surly ones! The working men truly have their reward. They are public benefactors, their consciousness of this fact is worth more to them than perishable gain; the recollection of their usefulness will continue whilst they live, and the influence thereof will live after them.

It is high time, Mr. Editor, that you should visit our town; our new Burgess and the Commissioners too are progressing at a wonderful rate; the old town never looked more spruce and inviting than it does at this time. Order reigns. The Burgess being a man of business and decision, and without possessed of a remarkably polite manner, thus at once commanding respect, and winning consideration, will, beyond doubt, take pleasure in showing you around among the scenes once familiar to your boyhood; even to the locality where "William Mellon, A. No. 1" used to exercise his gifts in training your youthful aspirations in the way they should go, if any impressions are correct, you will find that place still devoted to disciplinary ends, and whilst fond memories of the past will not doubt arise up to your remembrance thick and fast, the surroundings will still bid you be careful in conduct, and considerate in your words, for you will at once behold before you the grim walls and the grated windows and the great iron door of the village jail.

The Burgess keeps his council and his things right on the public square. The fire company has revived and promises to go forward with new energy and in a spirit determined upon excellence in the way of discipline and effectiveness that will completely eclipse all the efforts of the past. May they be successful. This being Ascension Day, religious services were held in some of our churches.

I must not forget to tell you that Messrs. J. Hess and Lewis M. Mutter are extensively growing the *strawberry* (*strawberry*) (water cross). It is estimated that by allowing the present crop that covers some acres of ground, more or less, to go to seed this year, and the Railroad being in good running order next spring, they can employ about 10 hands to pick the agreeable relish, and will be able to meet fully the demands of the Baltimore market by breakfast time, the season through.

The next time the M. E. Church awakes to action on its walls, it is expected a steeple or a cupola will rise aloft, and the praise of a bell will proceed from that only silent quarter of the town where good men congregate.

[We are obliged to omit a portion of the above letter. We will publish it in our next.]

**LOCAL AFFAIRS.**

The coupons of postpaid bonds—bills.

A patient genius describes ladies' fashions as the "glowing gateway of pork and potatoes."

"Case" hardened people—Printers.

If you wish to know how many friends you have, get into office; if you wish to know how many friends you have, get into trouble.

Locust blossoms are emitting a fragrant odor.

The fishing on Ascension Day didn't amount to much.

The nights and mornings are cool, but the days are warm and pleasant.

Gov. Bowie has appointed A. J. McKenna, Notary Public at New Windsor, vice E. J. Stouffer, resigned.

Locust blossoms are emitting a fragrant odor.

The fishing on Ascension Day didn't amount to much.

The nights and mornings are cool, but the days are warm and pleasant.

There are now fourteen hours between sun rise and sun set in this latitude.

**Hauver's District.**

**DESTRUCTIVE FIRE.**—A fire occurred in the mountain on the land of Mr. Samuel Bussard, Hauver's District, not far from Wolf's old tavern, on Sunday morning, 14th inst., and burnt up wood cut for charcoal to the amount of \$500 or \$600. Mr. Michael Green living in a shanty near by had his coat burnt up also and \$2.50 in fractional currency. He was a collier burning a coal pit for Catoctin Furnace. The fire is supposed to be the work of some incendiary character. This is the second loss Mr. Bussard has sustained by fire in the course of the past two years.

Supervisor Little is busy working on the road leading to Fulton's saw mill.

John Wolf of P., near Hauver's old tavern, has built a new barn.

Ephraim Nash, the Hermit of the mountain, is seriously ill. He is an excellent and veteran worker in cooper stuff.

The corn and potatoes are all planted. Whortleberry and Blackberry bushes hang full.

The mornings and nights so far this spring have been unusually cool.

Bark peeling in this locality has been active, but the harvest is about over.

Rev. J. Duce Moore, the former Pastor at this place and Emmitsburg of the M. E. Church, has written a very interesting letter to the Editor of the *Frederick Republican*, concerning the prosperity of Mechanicstown, its beautiful scenery and location, and the inducements it holds out to strangers to come and tarry with us. He thinks a Big Hotel or Boarding House to accommodate families and pleasure seekers is the one thing lacking. We think so too.

**NEW CAR FOR THE WESTERN MARYLAND RAILROAD.**—A magnificent passenger car to run on the Western Maryland Railroad is now building at Union Bridge, in Carroll county. It will be manufactured of costly materials, and will be a model car in elegance, comfort and neatness.

**IMPROVEMENTS.**—William Cover is enclosing his house in North Carolina pine, and when painted white, will present a very neat appearance.

Dr. William White and John Rozzer are having their houses painted up. Mr. Bragonier of Woodsboro' has superintended the job.

**COPPER ORE.**—We have been picked up with two fine specimens of copper ore found on the farm of Mr. George Harbaugh, son of Elie, near Sabillasville, in Harbansburg Valley. One of the pieces is of almost pure virgin copper; and the other is deeply impregnated with this valuable mineral.

These specimens were found on the surface and it is believed a rich lead of this ore is embedded in the earth. Copper of this quality found at Conowingo, in Chile, and worked by English and Welsh miners has proven highly productive, and when shipped to Swansea is rolled out for ship bottoms. There is a fortune in this mineral if only some capitalist or company with scientific ideas in their head would look it up and put up a Copper Furnace in full blast. Capital and elbow grease is all that is wanting. Call at our office and examine these specimens.

It is proposed to institute in this town a lodge of the "Knights of Pythias" order.

The wheat binders will have something to do this year at harvest time. The wheat stands four feet high and leaning against the fence.

The "silken tie that binds two willing hearts" is now quivering in the wind.

We understand that a number of the Odd Fellows of Mechanicstown, on Whitsuntide Monday, when the New Hall of that place will be dedicated.

Dr. Robert Johnston, a well known frugalist of Frederick, died recently in that city. He was a native of Hagerstown and in the 55th year of his age.

Mr. Peter Rozzer, who has just returned from a flying visit to Rocky Ridge, reports things in that locality to be in a flourishing condition. The new bridge over Beaver Dam is an elegant structure; the cars will over it with electric force without creating the slightest jar.

Several communications omitted.—Correspondents will oblige us by sending in their favors at an early day in the week.

In anticipation of the heavy summer travel, many of the Railroad companies are refitting their cars; and a step is being taken here as yet, to accommodate the "birds of passage" who desire to come up to the mountains and spend the hot days of July and August with us. "How do you do you do you do the cow and how do you do you do the ass?"

Mr. Albert Foreman is the Worthy Chief Templar of the Temperance organization of this town. The Society meets at Odd Fellows' Hall every Tuesday evening.

**DECEASED OF GRAVES.**—The graves of the Confederate dead in Mt. Olivet Cemetery are to be decorated with flowers on Thursday, the 25th of the present month. [Frederick Republican.]

**TOMBSTONES ERECTED.**—The Committee of the Confederate Memorial Association, Messrs. R. Brown Henderson, A. S. D. Ward and Augustus L. Eader, have recently completed the erection of tombstones over the graves of the Confederate dead in Mt. Olivet Cemetery. The contract was awarded to Mr. John E. Sifford, of this city, and was executed in a very creditable manner.—*Id.*

**CHANGE OF LOCATION.**—Dr. Jos. B. Garrett having purchased the business of Messrs. Passmore & Co., has removed to the corner of Market and Patrick Streets, where he is now doing business under the name of J. B. Garrett & Co.—*Id.*

We understand that a terrible concussion and "blow up" occurred at the Continental station near the Engine House, on Tuesday evening, whereby Mr. William O'Neil was badly injured. It was lucky that the powder was more than half wet or the blast might have been fatal.

**PUBLIC SALE.**—A sale of the personal property of the late John Firor, deceased, will take place at his late residence near Eicholz's mill, on Saturday, the 3rd of June, at 1 o'clock, P. M. O. T. Zimmerman, Auctioneer.

**PURCHASE.**—Mrs. J. Henry Routhman has sold her house and lot and a vacant building lot adjoining in the village of Myrtleville, in this Valley, to Mr. John T. Hill, of brand, for the sum of \$2,000. [Valley Register.]

To the Voters of Frederick County. In response to a call through the public prints, and at the urgent solicitation of numerous friends, I offer myself as a candidate for Sheriff, subject to the decision of the next County Convention of the Democratic Conservative Party, and respectfully solicit the aid of my friends in obtaining the nomination. DAVID G. CRISE

**COMMUNION SERVICE AT CREAGERSTOWN.**

A communion service was held by the Reformed congregation at Creagerstown, on the 14th inst., which was largely attended, and of a very interesting character. The pastor, Rev. N. E. Gibbs, preached the sacramental sermon from the text: "Whoso eateth my flesh and drinketh my blood, hath eternal life; and I will raise him up at the last day." St. John, 6th chap, 54 v. The Holy Communion was administered which was solemnly and interestingly participated in by a very large number of communicants, not only of the same church, but also a considerable number of other branches of the church.

Services were also held at Apple's Church in the afternoon at 2 P. M., where marked attention was given to a discourse on Christ's saving ability.

**RAILROAD ACCIDENT.**—The 3:30 afternoon freight train, on Friday last, met with an accident, near Gorsch's Station, by the breaking of a car wheel, which threw the train from the track and broke up four of the Northern Central cars pretty badly.—David Sten, brakeman, of Union Bridge, received severe contusions about the forehead and mouth, and was severely bruised about the shoulders, but is recovering. The tract was obstructed till 11:30 at night, when the trains proceeded over the road again, after a detention of seven hours. [Westminster Advocate.]

**F. & P. L. R. R.**—The grading of this road as far as the State Line, is completed, and about a half mile of the track laid, and the work is still progressing. Last week the iron horse crossed the turnpike at this place, "snorting" along in the direction of Taneytown, where he expects to turn up about the fourth of July next. The laying of track from Littlestown to the State line will be completed by the 1st of June.

Last week the first train on the extension of the Littlestown Railroad started South "Southward, ho," is now the motto. The work will now be pushed along with all the celerity imaginable.—*Littlestown Press.*

**TALL TALE.**—A gentleman brought to our office last Wednesday a half dozen stalks of rice, which measured 7 feet 8 inches.—The stalks were stout and the rice well headed. It was grown on the farm of Mr. William C. Landers, near Franklinville, and as a specimen of what this section of country is capable of producing in the rice line, it speaks for itself.

**FARMERS WHO WANT A GOOD MOWER AND REAPER.**—Cut all conditions of Grass and Grain, Ledged or Standing, wet or dry, without interruption to the machine, or loss of time to the operator, and light draft to the horses, buy a Valley Chief, a machine destined to become one of the most popular in the country. Additional improvements for 1871, keeping time with the progress of the art. STEWART & PRICE are the Agents in Frederick, Md.

**SPECIAL NOTICES.**

SOME time since His Grace, the Archbishop of Baltimore, commanded the wealthy ladies of his flock to sell their costly articles of jewelry, and send the proceeds to Pope Pio Nono, as a memento of their regard for His Holiness, and their grief at his affliction in being despoiled of temporalities, as well as a proof of their undying attachment to Holy Mother Church. Without doubt the heart of His Holiness would have rejoiced, and he would have daily appreciated such a proof of the devotion of his faithful children in this section of his Me's of A. Venerable. An opportunity now offers whereby these pious ladies may testify their affection for the Holy Father, and that, too, without the loss of those articles of adornment which every fondling heart prizes so highly. The establishment of the world-renowned

MELTON GOLD JEWELRY COMPANY, at 127 and 129 West Baltimore street, presents an opportunity for these fair daughters of the Church to adorn and beautify their charming persons with articles equally rich and handsome, and that, too, in heretofore unknown profusion, at but a mere trifle of the cost of the precious gem now worn by them.

How it is done is, as yet, an unsolved problem, but that it is done is daily demonstrated, to admiring thousands by this wonderful Company at 127 and 129 West Baltimore street.

Brooch, Wood and Lace Shawls, a splendid assortment and at low prices, at J. Yingling & Son's of Westminster. It
