Before proceeding with a list of the different kinds and grades of Lumber which we propose to offer to the public, a few remarks may be applicable, if necessary.

In the first place, we feel it our right to request our share of public patronage; more than our share we do not ask.

Secondly—We do not profess to undersell any one, or to sell a better quality for the same money, but we rely entirely upon our own merits, and leave the comparative worth of our merchandise subject to the judgment of the public.

Thirdly—That we have ONE AND BUT ONE PRICE for the same kind and quality of Lumber may be depended upon, excepting of course when larger bills are purchased a reduction will be made.

The following is a list of our stock, and it may be relied upon with absolute certainty that at all times each kind and quality below mentioned can be found in our
