Boy Scouts Coming.

Will Camp Here Week Of August 24th.

The delightful locations for camping purposes at the foot of the mountains at this place are evidently becoming known and are attracting attention of persons interested in camp life in nearby cities.

In last Saturday's issue of the Waynesboro Daily Herald, appeared the following item:

Boys Will Spend Week in Mountain Gorge.

"The Boy Scouts met at the Y. M. C. A. yesterday evening and furthered plans for their camping trip to Thurmont from August 24 to August 31.

"The meeting was called chiefly for the purpose of ascertaining how many of the scouts contemplated going. Twenty-seven names were handed in and now Scout Master Brumbach will lay his plans accordingly in regard to the equipment and food that will be needed on the week's outing.

"The scouts will go to Thurmont by train, leaving on the 6.50 car Thursday morning of the 24th."

We are glad to know the boys of Waynesboro have decided to come to Thurmont, and hope they will have a most delightful week while in camp here.

Some Hot Weather.

Tuesday of this week, in many places, proved to be the warmest day of the year, the mercury rising to 96 degrees. About eight o'clock in the evening a good breeze started and relieved conditions somewhat, but the night was warm. On Tuesday the mercury rose to 98 degrees. Flashes of lightning were seen in the southeast Monday night. This storm possibly was central on the eastern shore, reports from Caroline county stating that a severe electrical storm accompanied by hail passed over Federalsburg. Lightning burned considerable property and hail somewhat injured the tomato crop.

Due to the extreme heat ten laborers on the State road were compelled to quit work Monday afternoon, and carpenters working on Sam'l Long's new house also quit because of the heat. The same thing occurred Tuesday afternoon when the heat was much greater.

The above readings were taken from a thermometer in our office. The mercury in tubes more exposed to direct and reflected heat at various places about town Tuesday afternoon rose to 102 degrees. So far as we know there were no prostrations because of precautions taken.

Sun Stops.

Last week a letter was received from the A. S. Abell Co., of Baltimore, stating that "owing to the extreme seriousness of the news print paper situation" the company would discontinue to exchange with other newspapers. The Sun, therefore, stopped coming through the mail, as it has for about fifty years, to The Clarion Monday of this week. Of course if we pay cash it will be sent as heretofore. We presume this applies to hundreds of newspapers in this and adjoining States.

According to reports from various sources the supply of printing paper is very scarce, and the price advancing steadily. Many of the large city dailies have decided to decrease the size of their editions, and it is thought many publications will be forced out of business by high prices and scarcity of paper.

Hogs Up To \$11.40 A Hundred.

Pittsburg, Pa., Aug. 22.—Hogs reached \$11.40 a 100 in the market here today, \$3 higher than for the corresponding day of last year.

Increased consumption and decreased production were assigned by packing companies as the cause of the high prices. Indianapolis, Ind., Aug. 22.—Soon after the opening of the local stock market today, hogs sold at \$11.30 a 100, the highest in the history of the yards.

The previous high quotations was made March 25, 1910, when hogs sold at \$11.20. Last week hogs sold in Thurmont for \$10.75 a 100. Many farmers however think it does not pay to raise hogs.

Camp Boys Arrested.

Last Wednesday night while on their way from town to camp at the foot of the mountains, a number of boys took to throwing stones at the street lights, the result being that a number were broken. Mayor Martin and Deputy Sheriff Lidie got busy Thursday, five of the boys being arrested and brought to town before the Mayor. After a hearing the Mayor said \$2.00 each. The boys untied up and were let go.

Lawn Fete.

The Ladies of St. Stephen's Episcopal church, this place, will hold a lawn fete at the church Saturday evening, September 2nd. Everybody is cordially invited to attend.

Villainous Conduct.

Night Raids Made On Property About Town.

Whether due to the heat, the drinking of too much, or the desire to get even with the past week some persons inclined to do harm, have made a raid on property about town, principally porch furniture.

Last Sunday morning a number of persons found chairs, etc., from their porches carried away and lying in the street broken. Again on Tuesday morning the same condition existed. Blinds were taken from houses and carried away, and in two instances where these night villains were attempting to secure property they were disturbed by folks in the house. Three young men it is stated were seen, one of them accidentally throwing a flashlight on the others.

It is to be hoped that the effect of the warm weather will soon wear off these persons and that they will become normal in body and mind.

So be sure that your son is not implicated in the above or future similar occurrences, it might be well to visit his room along about one or two o'clock at night.

Gunther, Miss Elizabeth Protzman.

Grubbers' Picnic.

On Tuesday, August 29th, a Grubbers' Picnic will be held at Apples Church. The object of this picnic is to have the cemetery cleaned—that is, to have the bushes, briars and weeds removed from this old burying ground. Persons having friends and relatives buried at Apples Church are invited to the church on the above date, bring a scythe, mattock, fork or other weapon for removing and destroying bushes and help in this work. Grub for the Grubbers who do not bring a lunch with them will be furnished by the ladies of the church. Get interested and lend a helping hand.

Exchange Properties.

Latest reports in real estate deals in this vicinity is that Mr. Arnold Withde, now residing on the old Harbaugh property near Graceham, has made an exchange of properties with Mr. Samuel Remsburg, of Loys. Mr. Remsburg's property is located near Mt. Airy and contains 102 acres; the buildings thereon being a concrete block house, bank barn, and other substantial structures. A change of residence will not be made before April 1st next. Mr. Remsburg was formerly from Frederick, but at present is residing near Loys station.

Just the Thing for Diarrhoea. "About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

Personal.

Mr. and Mrs. Thomas Jones and three sons, of Ridgely, Md., spent several days the past week with Mrs. John Landers.

Mrs. Carl Cassell and daughter, of York, are visiting friends in Thurmont at this time.

Miss Marion P. Firor, of Sabillasville, this county, on Sunday last started on her journey to China, leaving Thurmont on the 12.31 p. m. express. With her were her mother, Mrs. A. P. Firor, her sister, Miss Ruth, and brother, Whitmer. Miss Firor goes to China as a missionary.

Rev. Harry Wissler, of Everett, Pa., and Mr. George Wissler, of Chicago, Ill., are visiting their mother.

Miss Olive Martin, of Richmond, Va., is visiting her parents, Rev. and Mrs. W. L. Martin.

Water Mains Laid.

For several weeks past Mr. Jas. T. Waesche, Superintendent of the Mechanicaltown Water Co. has had a force of men excavating for a water main on Summit Ave, a distance of about 1500 feet. The trench has been finished, and almost a thousand feet of 4-inch pipe put in and covered.

Owing to delays in shipping of material the laying of the remainder of the pipe will likely be held up some time. However water has been turned into the main, a tap made, and water is being supplied Contractor Weddle for use on the walls of the new house being erected for Senator J. P. T. Mathias on the "Hill Crest" addition on the east side of Summit Ave.

The laying of this water main is the first piece of work done by the Water Company under direction and authority of the Public Service Commission of Maryland. Numerous laws must be complied with now before this company can extend its lines, and many contracts, agreements, rights of way, etc. were required before the laying of this pipe line was made possible. If the Company wants to do work it is a question now of getting a permit from the Commission before anything can be done.

Tonsils Operation Blamed.

The present epidemic of infantile paralysis is probably due in a considerable degree to the cutting out of children's tonsils, which has been going on in New York for a decade, says Dr. Max Talmey, surgeon to the Harlem Eye, Ear and Throat Infirmary.

The shock of this operation breaks down children's nerves and predisposes them to paralysis, he asserts.

"The campaign to exterminate the tonsils, started 10 or 12 years ago," he says in the New York Medical Journal, "has been carried on relentlessly ever since."

"The fear and anxiety," he says, extends for months before the operation, and the pain, due in many cases to bungling surgery, lasts months afterward.

There is another danger, due to removing the tonsils, Dr. Talmey states. That is the elimination from the system of a valuable protective substance the nature of which is unknown.

"This substance," he adds, "may either be directly contained in the tonsils or else produced from the blood or other organs by the mere presence in the body of the tonsils. The latter may act in the manner of ferments, so that even minute quantities of their tissue suffice to keep up the continued production of this valuable protective substance."

Dr. Talmey says he has called his theory to the attention of the Health Department and has received assurance that an inquiry will be made.

Liver Trouble.

"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." Obtainable everywhere.

P. O. Has \$5,200,000 Profit.

Washington, Aug. 18.—Due to Representative David Lewis, parcel post, the Postoffice Department, for the third time in the Wilson Administration, has been operated with a profit to the Government. Postmaster-General Burleson transferred to the Treasury of the United States the sum of \$5,200,000, representing the surplus in postal revenues for the fiscal year of 1915-16.

In the first year of Mr. Burleson's management of the department the surplus was \$3,800,000. This was the year the parcel post was put into operation. In 1914 the surplus totalled \$3,500,000.

It is estimated that the parcel post brings into the postal coffers between \$20,000,000 and \$25,000,000 annually. Before the Lewis "pony express" went into operation the Postoffice Department ran from \$15,000,000 to \$20,000,000 in arrears. In fact, the departments revenues have not exceeded the expenditures since 1836, when Andrew Jackson was President.

To Celebrate Birthday.

The Lafayette Anniversary Committee of New York, is making an effort to have the anniversary of the birth of General Lafayette celebrated by the States of the Union generally on September 6th. A number of States and Patriotic organizations have already arranged a program for the occasion. It is also hoped this date will be made permanent and that "Lafayette Day" will always be celebrated in the future.
