

Third Annual Automobile Show.

Washington Light Infantry Armory, March 23 to 28.

AT THE **Auto Show.**

All Lanes Lead to the Exhibit of the

Columbia BICYCLE SALESROOMS.

We Occupy the Southeast Corner of the W. L. I. Armory. Spaces 12 to 30. You See Them on Every Street, Our Time Tried and Tested

MOTOR CARS.

The new models are luxurious. Every art of the expert, all the resources of the greatest Automobile Factories have been exhausted to improve every detail of construction.

Expert chauffeurs will delight in the practical improvements, and recent converts to Automobiling will find our 1903 machines a source of unbounded delight for easy running and range of operation.

Splendid New Models of the

Toledo Touring Cars.

12 Horsepower, \$2,000.

The Toledo Steam and Gasoline Machines are the very acme of perfection in touring cars. Some of the new models seat five persons. Built on improved French and German patterns. Speed thirty-five miles an hour.

The **WAVERLY ELECTRIC** is the favorite Electric Automobile in Washington. The new models are simple, noiseless, and efficient, besides being built with a longer wheel base and in luxurious Victoria and other new styles.

Waverley

The "Cardillac"

The sensation of the year. Runabout, \$750. Tonneau (seats four), \$850.

We sell all kinds of Automobiles and are in a position to give you an unbiased opinion.

Send for Catalogue and Let Us Demonstrate the Machine.

Columbia BICYCLE SALESROOMS,

Pope Building, 817-819 Fourteenth Street.

The most beautiful and commodious salesroom in the city devoted to Automobiles and Bicycles.

Washington Motor Car Company

ANNOUNCEMENT:

We have entered the local automobile field realizing it is a lucrative one, and yet one wherein much that has gone to make bad automobile history in Washington must be lived down. We make our bow determined that every word spoken by us in relation to the respective cars we shall handle shall be as near the absolute truth as we are able to get, and being backed up by an intimate knowledge of the entire industry for the past nine years, we are modest in believing we are qualified to advise. We will handle only reliable cars. "The Northern," 5-horsepower, built by the man who made the Oldsmobile famous—don't forget that—and he knows NOW wherein to put to use his vast experience. "One look will convince you if you do now or have owned an automobile. "The Waterless Knox," 8-horse 4-place car, built by the man who tried for three years to interest capital to build an 8-horse AIR-COOLED motor. Men said it could not be done, for the French people had tried it and failed; in fact, all but two men laughed at him. These two listened. Now these two men and Mr. Knox are reaping the benefits of their convictions. The magnificent factory at Springfield is turning out about forty cars per week. In sixty days this output will be doubled. 350 sold in New York and 263 in Chicago. This car carries no water whatever, never gets hot, never freezes, never leaks, has fewest working parts, simplest in operation—in fact, must be seen, critically examined, and ridden in to enable one to believe that an automobile could be built that was at once so perfectly free from vibration, so comfortable, and so beautifully handled. LISTEN: This year there are five air-cooled automobiles on the market; next year there will be fifteen. MARK THE PRE-DICTION.

The "Orient" line—8-horsepower 4-place car, 4-horsepower buckboard, 3-horsepower motor cycle—built by the Waltham Manufacturing Company, than whom no bicycle and gas engine factory in the world in the past ten years has such an enviable reputation for detailed workmanship, finish, and reliability.

The 8-horsepower car HAS NO EQUAL ON ANY MARKET AT ANYTHING NEAR THE PRICE, and is absolutely guaranteed to give PERFECT SATISFACTION IN EVERY DETAIL.

The little "Buckboard" has been the sensation at five automobile shows this year. So it will certainly be here. In 64 days the factory has taken over 1,700 orders for it. They not only sell on sight, but are selling at a premium, for it is the very essence of all automobilism. You will talk about the "Buckboard" after the show.

The 3-horsepower motor cycle stands alone and holds all the world's records on any kind of a track or road. Its supremacy is unquestioned even by the "show-me" men.

We shall represent also the "Pierce," \$2,500; the "Stearns," \$3,000, and the "Ward Leonard," \$5,000. Commodious quarters will soon be ready for our occupancy, of which we shall give due notice through the news columns, and we will be in shape to store your car and care for it as it SHOULD be cared for, and we will jealously guard the reputation we are going out to get.

We shall be especially pleased to see you at the show and tell you more. We will demonstrate any car any moment, day or night, to anyone.

Respectfully yours,
THE WASHINGTON MOTOR CAR COMPANY,
D. L. WHITFORD, Manager.

Don't Fail to See Our Exhibit

The Oldsmobile

The Little Olds

The Autocar

The Packard

The Peerless

—When you visit the Automobile Show. The different types of vehicles handled by us comprise the very best of their class, ranging from the lightest of "Runabouts" to the heaviest of "Road Cars," thus affording the widest possible range for meeting individual requirements.

Each type of machine handled by us represents all the VERY LATEST IMPROVEMENTS in equipments and construction—all 1903 models. Some are fashioned along French lines—ALL are built in American shops.
