

NEWS FROM ALL THE WORLD TOLD BRIEFLY FOR BUSY READERS

THE TURKS MALTREAT BULGARIAN PRISONERS

Consuls Protest Against Crowding of Hundreds Together.

LONDON, May 14.—The "Times" correspondent at Vienna says the Bulgarians deserve little sympathy, but the experience in Turkish prisons is probably as unpleasant as their bitterest enemies could wish.

An Uskub dispatch to the "Neue Freie Presse" says that the Austrian and Russian consuls visited a prison and found 72 crowded together. Hilmi promised to consider the consuls' recommendations "as far as possible."

The "Times" correspondent at Sofia says that refugees bring an account of recent fighting between a Bulgarian band of 170 and two Turkish battalions, with two mountain guns. The Bulgarians selected a position in front of the village of Kludorop. On the road between Monastir and Lenin they laid a number of mines connected by electric wires. When the Turks attacked these exploded, almost annihilating the front ranks.

MANY STRIKERS KILLED OR HURT

SANTIAGO, Chile, May 14.—Twenty striking dock laborers were killed in Valparaiso yesterday in fights with the police and two hundred were wounded. The strikers set fire to the quay and offices of the South American Steamship Company, burned several other buildings and destroyed the esplanade. The money loss will be very great. Three thousand troops were sent from here yesterday to quell the disorder and martial law was proclaimed in Valparaiso.

STEEL WORKERS RIOT AT AIX-LA-CHAPELLE

BERLIN, May 14.—The strike of steel workers at Aix-la-Chapelle has resulted in disorder. Several riots occurred on the streets today. The strikers stoned those who had taken their places at the works and the "scabs" replied with shots from revolvers. The police finally took a hand in the disturbance and in the triangular contest that followed many heads were broken. A number of arrests were made.

RANKS ARE SWELLING WITH NEW RECRUITS

Camps and Auxiliaries of Spanish War Veterans Rapidly Increasing.

Renewed activity is evident among the Spanish War Veterans of the District as a result of the rapidly increasing membership both in the organization proper and its auxiliaries. The reception to General and Mrs. Miles at the home of Prof. and Dr. Magee last week is the first in a series of entertainments and social gatherings proposed by the different commands.

Admiral Dewey is to present the command which bears his name with a stand of colors on flag day, June 15. The gift will include a handsome blue banner, with appropriate gilt lettering, and a silk American flag. The Admiral is expected to deliver a short address. The presentation will take place in the new quarters, 716 Ninth Street northwest.

A lawn fete will be held the afternoon of the same day and proceeds from it will be devoted to purchasing the building on Ninth Street. In the course of the evening a military evolution, heretofore seen only in camps of the regular army—the trooping of the colors—will take place. Each command of the veterans will be in distinctive uniform as it passes the reviewing stand. A new staff of officers will be chosen before June and immediately after the election further details, including the site of the fete, will be determined upon. Last year has been the most prosperous in the history of the organization. The roster of the veterans has already 753 names and that of the auxiliaries 248.

WORK PROGRESSING ON FILTRATION PLANT

Work on the new filtration plant is making good progress, according to a report recently submitted by Colonel Miller, engineer in charge of the District water supply system. All contracts and most of the subcontracts have been awarded, and the surveyors have completed the guide lines for the preliminary work.

According to Colonel Miller the water served to the people of the District during the month of April was clear twenty days and turbid ten days. The consumption and waste of water during the twenty-four hours ended at 8 o'clock a. m. May 1 last amounted to 68,030,448 gallons. Grading and paving are under way around the east shaft gatehouse, and a force of men has begun the erection of an iron fence around the Washington city reservoir.

ALLEGED NEW REMEDY FOR CONSUMPTION

BERLIN, May 14.—The announcement made yesterday by the Berlin Medical Society of a new remedy for consumption, called sanosin, has attracted much attention. Dr. Sommerfeld read a paper on the cure before the society. He showed that a number of patients, mostly workmen, had been cured of consumption, and said they were treated without interference with their work. The use of sanosin prevented coughing, fever and night perspirations, and resulted in the patients gaining in weight. Even in severe cases of consumption the progress of the disease had been arrested. The remedy was discovered by Dr. Robert Schneider, in medical circles much importance is attached to this discovery.

TO INTERNATIONALIZE BAGDAD RAILWAY

PARIS, May 14.—The Bagdad Railroad project, the financial arrangements of which were recently under consideration of the powers, when Great Britain refused a government guarantee, is likely to be revived in an important new form. It is now proposed to internationalize the railway as a part of a new route to India, giving it a status somewhat similar to that of the Suez Canal. It is learned in authoritative quarters that the recent negotiations on the subject were stopped because of the objections of France and Great Britain to accede to Germany's wish to have preponderant control over the route and also because Russia intimated her unwillingness to have her French ally co-operate in a project having German predominance.

FOLDING BED CLOSED ON BIG GOLDEN EAGLE

JOHNSTOWN, Pa., May 14.—The Grand Castle meetings of the Knights of the Golden Eagle were all work and no fun yesterday. Past Grand Chief A. C. Lytle, of Philadelphia, was the object of a rather peculiar demonstration in the morning, when he was presented with flowers and expressions of sorrow from a special committee from the Eagles and the women of the order. Mr. Lytle was caught in a folding bed at his hotel early this morning, and he was hurt so badly that he could not attend to business.

LAWN FETE AND DANCE AT MARINE BARRACKS

Enlisted Men Actively Preparing for the Entertainment.

The several hundred enlisted men stationed at the Marine Barracks, Eighth and O Streets southeast, are making elaborate preparations for the second hop and entertainment of the season which is to be held in the hall and on the spacious lawns at the post tomorrow evening. The large hall will be appropriately decorated with flags, bunting and multi-colored electric bulbs, and the Marine Band will furnish the music. The first hop was held last February and proved a great success, when General Heywood, commandant of the Marine Corps, led the dance and everyone had a most enjoyable time. General Heywood is absent from Washington at the present time, but Colonel Elliott, commander of the Marine Barracks, will be requested to lead the dance tomorrow evening. Colonel Elliott went to Norfolk Tuesday evening. He originally planned to go tomorrow night, but made the trip earlier in order to be at the local post Friday night.

Although the hop tomorrow night will be given by the enlisted men, it is believed a number of officers will participate. The men in the barracks are privileged to invite as many of their friends as they choose, and it is believed there will be more than a hundred couples at the dance. The lawns will be decorated with hundreds of Japanese lanterns and decorated with flags and bunting also. The dancing will begin at 8:30 o'clock. At 11 o'clock refreshments will be served, and after that the dancing will begin again and last until the dancers grow weary.

Cherry's Bad Heart

Put him "down and out" so far as working was concerned, but Dr. Agnew's Cure for the Heart made a man of him again.

Heart weakness and fainting spells were so acute that Ben Cherry, of Owen Sound, Ontario, had to quit work. His sufferings were very great. One day a druggist said: "Cherry, try Dr. Agnew's Cure for the Heart; it must be a good thing, for it has a large sale." He did so, and took five bottles. Today he takes his place beside the other workmen, and does as big a day's work as any of them, thanks to this great remedy.

Sold by F. R. Richardson & Co., Pennsylvania Avenue and Third Street northwest.

WATCH! LISTEN! SATURDAY.

ROMAN CITIZENS SPURN THE KAISER'S STATUE

Do Not Like His Selection of a Site.

PARIS, May 14.—"The Temps" publishes a dispatch announcing that Emperor William, on the last day of his visit to Rome, inspected the proposed site for the Goethe monument in the Pincian Gardens and expressed his thanks to the municipality for the fine position selected.

Prof. Eberlein, however, has just informed the Emperor that the erection of the statue is indefinitely postponed. The true inwardness of the matter is that the project of erecting a statue to a foreigner upon the most magnificent spot in the Eternal City in a garden devoted exclusively to the memory of eminent Italians has provoked an outcry not only in the capital, but all over Italy. The mayor of Rome has been compelled to make his excuses to Prof. Eberlein for the postponement.

William II, who hoped to lay the cornerstone of the monument, is said to be much irritated by this unexpected incident, whereby he finds himself with a statue of Goethe as well as one of Frederick the Great on his hands.

POPE CONFERS TITLE OF MARQUIS ON PHILADELPHIAN

ROME, May 14.—Cardinal Satolli recently applied to the Pope to confer a title of nobility on Martin Maloney, of Philadelphia, because of his large church offerings and his efforts in constructing a parochial church at Trenton, N. J., and the Pontiff, after receiving satisfactory information from the Archbishop of Philadelphia and the Bishop of Trenton, has issued a brief creating Mr. Maloney a marquis.

CROWD CLAMORS FOR S. H. DOUGAL'S LIFE

SAFFRON WALDON, England May 14.—Samuel Herbert Dougal, who is held on a charge of murdering Camille Holland, whose body was recently found in the grounds of the Mount Grange here, was again charged with the crime this morning. A large and hostile crowd gathered outside the courtroom, and the police had great difficulty in protecting their prisoner.

SAYS CHURCH IS TOO BUSY TO CHANGE NAME

BOSTON, Mass., May 14.—In opening the 118th annual convention of the Protestant Episcopal Church of the Diocese of Massachusetts in the chapel of Trinity Church here yesterday, Bishop William Lawrence said: "Sport and amusement have made great inroads on our Sunday congregations. The power of strong drink has its clutch upon our cities; gambling is unsettling habits of industry; many forms of temptation are undermining the characters of youth. Now, with such conditions about us, what is the church doing? We are discussing whether we shall change the name of the church. If our church keeps at her work of saving men and giving spiritual life to the people the time may come when she may take another name. Meanwhile I do not think it expedient."

CANADA'S BAN ON AUTOMOBILISTS HERE

BUFFALO, N. Y., May 14.—As a result of an order just issued by the Canadian customs officials no more American automobilists will be permitted to go into Canada with their automobiles without paying full duty on the machines. The duty is 25 per cent of the assessed valuation of the machine, and the duty will be collected each time a machine is taken into Canada. The duty is placed not only on machines of American make, but on all makes that are in use in this country and that may be taken into Canada by their owners for any purpose whatsoever.

FIRES THREATEN ALL ADIRONDACKS

PLATTSBURG, N. Y., May 14.—Forest fires, which have been burning intermittently for several days, started with renewed vigor yesterday around Colby Pond, near Saranac Lake. Paul Smith's, on St. Regis Lake, and Ayers' Hotel, on Lake Duane in the Adirondacks, a telegram from Paul Smith's states that the woods for ten miles in every direction seem to be on fire. The fire has approached within three miles of the hotel and is spreading fast. At Lake Duane, William J. Ayers, who has been fighting the flames with a large force of men for four days, lost control of the flames and wired to Malone and Chasm Falls for help. The fires have reached within half a mile of the hotel.

PRESIDENT VISITS THE GOLDEN GATE

Reviews Soldiers of Presidio Under General MacArthur.

SAN FRANCISCO, May 14.—President Roosevelt arose early yesterday morning, and at 9 o'clock he was in his carriage on his way to Native Sons' Hall on Mason Street. As on Tuesday, the streets were thronged with people, and the President's approach was the signal for hearty cheers. At the hall the President was presented with a souvenir of solid gold, which he accepted with a few words of thanks.

The school children of the city had assembled by thousands on the broad sidewalks of Van Ness Avenue. Each boy carried an American flag, and they lined the thoroughfare for many blocks. The President was driven slowly through the files of children, who cheered and waved their banners as they noted his approving smile.

The President then proceeded to the Presidio Military Reservation facing the Golden Gate, where he reviewed the United States troops stationed at this point. The soldiers were under command of Major General MacArthur.

SCHOOL BOYS ATTACK CONTRACTOR'S FORCE

PITTSBURG, May 14.—Lively scenes were enacted yesterday near the Shady Side Academy in the progress of a class fight. Two hundred students and a gang of workmen in charge of James H. McQuade, a contractor, became involved in the scrimmage, and a pitched battle ensued. McQuade was roughly handled, and was obliged to call upon his workmen for assistance. After a vigorous contest the students were driven off. The fight started owing to McQuade's efforts to stop the boys parading on the lot where his men were working.

VICTORY NOT FINAL

BERLIN, May 14.—The "Tageblatt" today asserts that the recent victory of the officials of the North German Lloyd Steamship Company, in quelling the strike of their men, was not by any means final. The workers at Bremen are resolved to renew the struggle and a strike of 10,000 men is imminent. This would paralyze the shipping interests at Bremen.

LONG DARNING NEEDLE FOUND IN BABY'S LEG

Parents Have No Idea How or When the Steel Became Imbedded.

DOVER, Del., May 14.—Baby Phillips, eighteen months old, son of Mr. and Mrs. Robert Phillips, who reside near Lewes, Del., was seized with severe pains yesterday and all efforts of the mother to quiet the child were in vain.

Mrs. Phillips finally discovered a large lump on the baby's leg near the knee. The lightest touch of her fingers appeared to cause the little one intense pain. A physician was summoned, the lump was opened and a darning needle three inches long was removed. The child was instantly relieved from suffering. The parents have no idea how or when the needle became imbedded in the tiny leg.

AUTOMOBILE USED TO PLOW A FIELD

SPRINGFIELD, Oio, May 14.—An automobile was used yesterday at East Ashtabula in place of a team of horses as the motive power to plow a field. H. T. Powers, of Erie, Pa., visited Ashtabula in his heavy motor car yesterday. The grass beside the Nickel Plate Railroad was burning, and to keep the blaze from spreading over the meadow a plow was hitched to the rear of the machine. Mr. Raser ran the automobile while his brother stood behind the plow handles. The latter was compelled to run to keep up with the machine. The work was done faster than if horses had been used, and the meadow was saved from flames.

GOVERNOR MURPHY THROWN FROM HORSE AND INJURED

NEWARK, N. J., May 14.—Governor Murphy is confined to his bed at his Broad Street residence, having been bruised and shaken up by being thrown from a saddle horse. The accident occurred on Elizabeth Avenue, just below the almshouse. The governor started out as usual yesterday to take a ride before breakfast. After riding some time, he touched the animal lightly with his spur. The horse reared high in the air. The governor was taken by surprise, but kept his seat, but in descending the horse's hoof struck a stone and the animal fell.

The Times Camera Contest.

Open to Amateur Photographers in the District of Columbia

For the encouragement of amateur photographers in Washington, The Times will offer each week three prizes for the best photographs submitted to it.

It is designed that the field of competition be as broad as possible, that the amateur shall be altogether free in his choice of subject. His pictures may depict landscapes, seascapes, portraits, paintings, groups of statuary, or studies in genre. The measure of merit will be correspondingly broad and the award of the prizes will depend on many things—originality in composition, naturalness of effect, ingenuity in development and printing, beauty, the expression of sentiment, the relation of a story, or any of the general qualities which distinguish the photograph made by the lover of beautiful pictures from that made by those who use the camera only mechanically.

Out of the whole number of photographs submitted, The Times will choose each week a group of about six and reproduce them in its Sunday issue.

Three of These Will Be Awarded Money Prizes of \$5, \$3, and \$2, Respectively...

Washington and its environments offer the amateur photographer a field as picturesque as old Mexico and as beautiful as any countryside in old England. In illustration of this a distinguished lecturer once interpolated into a discourse on the Rhine half a dozen views of the Chesapeake and Ohio Canal, and his audience, entirely unconscious of the subterfuge, applauded these American views rapturously. It is the hope of The Times that this competition may serve the double purpose, therefore, of arousing an interest among local photographers in pictures which have art value and of indicating to readers of The Times the comparatively undiscovered beauties of the countryside about Washington.

CONDITIONS—The conditions governing the awarding of prizes are as follows:

The prints submitted must be made by amateurs from negatives made by themselves and the result of their own work through all processes, and must be for the exclusive use of The Times in any way that it desires. Previous publication elsewhere will bar the print, and subsequent publication of a prize-winning print will not be allowed except by special permission of The Times. The print must bear the name and address of the sender, and it is safer to have prints mounted. No print will be returned.

Where possible, descriptive text may be sent, but this will not be considered in awarding the prize. The composition, artistic execution, and general attractiveness of the photograph will be taken into consideration in naming the prize-winner. Title of picture and name of sender should be written on the back of the print, and not sent separately.

Prints for the first competition should be delivered to The Times office not later than Saturday, May 16.

The successful competitors for this week will be announced and their photographs will be reproduced Sunday, May 24.

AMUSEMENTS.

NEW NATIONAL.

The only theater in Washington offering exclusively American and foreign stars of the first rank. Evenings at 8:15. Mat Sat at 2.
