TAMMANY LEADERS

Arrested for Alleged Violation of City Charter Affecting Dock Leases.

NEW YORK, July 4.—James E. Gaffney and John J. Murphy, both well-known Tammany leaders, and the latter a brother of the chief of Tammany Hall, were arrested yesterday for alleged violation of the section of the city charter which provides that no city officer shall have an interest in a dock lease.

Murphy and Gaffney are both members of a company, it is alleged, which has a lease of a dumping dock at the foot of West Ninety-sixth Street which was obtained while they were members of the city council. The charges were the result of the investigation of the acts of the former Tammany dock board, which is being conducted by District Attorney Jerome. Gaffney and Murphy heard yesterday morning that warrants were out for their arrest, and both immediately went to Justice Mayer's court and offered to surrender. They were placed under arrest and paroled in the custody of their lawyer. They will have a hearing next Wednesday.

INJECTS ANTITOXIN INTO PATIENT'S BRAIN

CLEVELAND, Ohio, July 4.—Dr. Dudley P. Allen performed, in Lakeside Hospital, yesterday, a remarkable operation for the cure of a young man afflicted with tetanus. The patient was in need of antitoxin treatment, but the physicians doubted whether it would be effective if administered in the usual way—by hypodermic injection. Dr. Allen decided to administer the antitoxin directly into the brain, where it would quickly reach the nerve centers. The skull was trephined, and with a hypodermic needle the antitoxin was introduced into the brain.

SOAKED ASSASSIN WITH KEROSENE; THEN LIT IT

ALGIERS, July 4.—It is reported from the Moroccan frontier that an attempt was recently made to assassinate Muley Mohamed, the Sultan's brother, who is in league with the pretender, Bu Hamara. A Mehassa tribesman fired a revolver at short range. The bullet missed Muley Mohamed and wounded a soldier. The would-be assassin was immediately seized, drenched with kerosene and burned alive.

GERMAN GENERALS RIDE THROUGH LORRAINE

BERLIN, July 4.—The members of the German general staff, under the personal command of General Count von Schlieffen, chief of staff, are engaged in a horseback ride through Lorraine for the purpose of military studies. The party includes ten generals and fifteen staff and seventy-five officers of lower rank. Prince Ernst von Saxe-Altenburg and Prince Karl von Hohenzollern are with the party.

PLAGUE SITUATION GRAVE IN CHILE

VALPARAISO, Chile, via Galveston, Tex., July 4.—A branch of the English firm of Lomax & Co., at Iquique, telegraphs that the plague situation in that port is assuming grave proportions. A majority of the population, disbelieving the existence of the disease, utterly neglects to take necessary precautions to prevent a spread of the malady. In consequence the plague is increasing to an alarming extent. The British freight steamer Bellavona, which arrived Thursday from Iquique, has been held for ten days' observation.

LOCAL MENTION.

Funeral Flowers Arranged Artistically At Shaffer's stores, 14th and I, 1711 1/2 ave. "Her Lover, Father, and Father's Gun." Pastor Hez Swem explains Sunday night.

Children Bitten by Dog. Laura White, aged six years, and her three-year-old brother, Chester, were bitten by a dog yesterday while playing near their home, 455 Maine Avenue southwest. Both were taken to the Emergency Hospital, where the injuries were found not serious.

BULGARIA WARNED AGAINST FIGHTING

LONDON, July 4.—A dispatch from Vienna says that on receiving the Bulgarian note on Wednesday, protesting against the massing of Turkish troops on the Bulgarian frontier and accusing Turkey of seeking an international conflict, Count Goluchowsky, the Austrian chancellor, said emphatically that the powers would never allow Turkey to attack Bulgaria, but warned Bulgaria that should she provoke hostilities she would lose the sympathy and support of all Europe. A similar intimation has been conveyed to Bulgaria from St. Petersburg. A semi-official statement was issued in Sofia as follows: "Contrary to the denials of the portie, the concentration continues on the Bulgarian frontier of strong detachments of Turkish infantry, cavalry and artillery."

"The endeavors of Turkey to deny these authenticated facts, while simultaneously re-enforcing the detachments, which cannot be necessary in fighting revolutionists, tend to show that the objects of these military measures and its misleading Europe by circulating false reports regarding Bulgaria and her intentions."

PORTO RICANS SCARED BY A JULY HAIL STORM

SAN JUAN, Porto Rico, July 4.—The weather bureau reports a fall of hail at Lares, in the center of Porto Rico, sufficiently heavy to damage the crops. A fall of hail is such an extremely rare occurrence here that the natives were frightened and prayed for protection from harm. A similar intimation has been conveyed to Bulgaria from St. Petersburg. A semi-official statement was issued in Sofia as follows: "Contrary to the denials of the portie, the concentration continues on the Bulgarian frontier of strong detachments of Turkish infantry, cavalry and artillery."

COUNT AND MARQUIS TO PAY CASTELLANE BILLS

PARIS, July 4.—The first civil tribunal yesterday heard the arguments in the suit brought against Count Boni de Castellane by a holder of bills to the amount of \$16,000 drawn by Count Boni to the order of the Marquis de Dion. The latter had previously explained to the court that he lent Count Boni \$80,000 to meet debts of honor and received the bills in exchange. The claim was for a portion of these bills, which is outstanding. Count Boni contended that a technical irregularity in drawing them up invalidated the bills. The tribunal adjudged that Count Boni and the Marquis de Dion must conjointly pay the \$16,000.

WYOMING MASSACRE FITTINGLY OBSERVED

WILKESBARRE, Pa., July 4.—The 125th anniversary of the massacre of Wyoming was observed at the monument in Wyoming yesterday morning. The principal address was delivered by William Ellis Griffiths, of Ithaca, N. Y.

ONE BATHER DROWNS; TWO ARE HAULED OUT

ATLANTIC CITY, N. J., July 4.—One drowning and two thrilling rescues was the record of yesterday's bathing here. Thomas Dagny, thirty-five years old, a member of the firm of printers of W. B. Saunders & Co., Philadelphia, became exhausted while bathing with Henry Parsons, a friend. As Parsons was heroically trying to save him a breaker hurled them apart, and Dagny did not reappear. The body was not recovered. Miss Guerr, of New York, who refused her full name, was saved from the surf in the afternoon by E. Hampton Hirsch, a broker, of 1307 Market Street, Philadelphia. While swimming in the afternoon, Horace Liveright, an employe of H. P. Bachman & Co., was seized with cramp and sank. He was rescued by other bathers who were near him.

PARKER PROPHECIES MORE STATES' RIGHTS

New Yorker Tells of Fourteenth Amendment's Meaning.

TALLULAH FALLS, Ga., July 4.—The members of the Georgia State Bar Association yesterday listened to an address on "Due Process of Law," by Chief Justice Alton B. Parker, of the New York State court of appeals, who is mentioned as the next Democratic Presidential nominee. In conclusion, Mr. Parker referred to the Fourteenth Amendment as follows: "More and more every year is due process of law invoked, by reason of its place in the Fourteenth Amendment, to challenge the action of State governments, and the time cannot be predicted when such efforts will cease. "It may be safely asserted that the restraining power of the Fourteenth Amendment as against the States will be exercised far more conservatively by that court, of which every citizen is justly proud, than it would be were the exercise of it confined to the other departments of the National Government. "I feel warranted in saying that, valuable as has been the service of the Supreme Court of the United States to the people, it never has been charged with a greater responsibility than that placed upon it by the adoption of the Fourteenth Amendment—a responsibility to the meeting of which its individual members have practically devoted their supreme energies, great abilities, and broad scholarship, keeping ever in mind—as appears from the many opinions written—the danger expressed by Mr. Justice Miller of so far extending the Fourteenth Amendment as to fetter and degrade the State governments."

THEORY OF SUICIDE IN PITTSBURG MAYOR'S CASE

PITTSBURG, July 4.—At the inquest in the case of the late J. O. Brown, city recorder, Susan McLean, who was his stenographer, testified yesterday that she made several attempts to commit suicide. Miss McLean said that Dr. McKelvy told her that she should remove all medicines over the destroyed \$50,000 Brown's revolver. Among the things taken was a box labeled "15 grains trional powder." The box was empty.

AFRO-AMERICAN COUNCIL ISSUES AN ADDRESS

LOUISVILLE, July 4.—The closing day of the Afro-American Council was marked chiefly by the presentation of resolutions embodying an address to the country on the race problem. After its adoption the convention adjourned. The address in part is as follows: "As to mob violence, it is gratifying to note that for the past year or two the number of victims shows a decided decrease; while all these were not members of our race, the vast majority was. Notwithstanding this fact, we should not feel called upon to discuss the matter at this time, were it not that while the number of victims is decreasing, the variety of provocations which lead up to this act of violence is growing more and more insignificant and numerous. It is not an unusual thing to read of negroes being lynched for impudence refusing to obey, striking a white man, and so forth."

QUESTION RAISED IN \$6,000,000 ENDOWMENT

CHICAGO, July 4.—Whether John D. Rockefeller will approve certain items in the \$1,000,000 fund which the trustees of Rush Medical College have just completed is the question on which hinges not only the admission of Rush as a department of the University of Chicago, but the gift of \$6,000,000 offered by Mr. Rockefeller. The items of the fund concerning which questions are raised are certain gifts connected with the work of Rush, but not definite cash contributions. It was intended that the entire \$1,000,000 should be in cash. One of the donations is the offer made by Mr. and Mrs. Harold F. McCormick to support for an indefinite period the new "Journal of Infectious Diseases."

CANCER CURED BY RADIUM RAYS

VIENNA, July 4.—Medical circles here are greatly interested in a report read at a recent meeting of the Imperial Academy of Science to the effect that a long-standing case of cancer was cured by radium rays at the clinic of the late Prof. Gussenbauer. The patient, who was sixty-one years of age, had long suffered from cancer of the palate and lip, and had repeatedly been operated upon fruitlessly, until the autumn of 1902, when the physicians of the Viennese Hospital declared it was absolutely useless to operate again.

AMERICAN RABBIS STAND BY SABBATH

Declare it a Fundamental Institution of Judaism.

DETROIT, Mich., July 4.—The Central Conference of American Rabbis went on record on the Sabbath question yesterday by adopting this amendment to the report of the Sabbath commission: "This conference declares itself in favor of maintaining the historical Sabbath as a fundamental institution of Judaism, and of exerting every effort to improve its observance, and instruct the executive committee to appoint a special committee to study methods of carrying this into effect."

In its report the commission had this to say: "This conference decides that a transfer of Sabbath to Sunday, however much opposed by sentiment, presents to the student of history no element of danger that the fundamental truths of the Jewish faith might be affected by such a transfer or that the solidarity of the people of Israel might be disturbed. "At the same time, this conference feels that it has no right to make an authoritative decision as to the facts, but would prefer reference of this all important question to an authority as heretofore defined."

GOVERNOR REFUSED TIP FOR \$100,000

ST. LOUIS, Mo., July 4.—Evidence gathered by Circuit Attorney Folk in the boodle inquiry yesterday showed that while governor of Missouri Lon V. Stephens, now vice president of the Missouri Trust Company of St. Louis, was offered an opportunity to make \$100,000 on transit stock after he signed the bill which legalized the consolidation of all St. Louis street railroads with the exception of the Suburban, and to make the further sum of \$20,000 if he would appoint James J. Butler, son of "Col." Ed. Butler, excise commissioner of St. Louis. The second proposition, the former governor says, came direct from "Colonel" Butler.

GOVERNOR REFUSED TIP FOR \$100,000

"I answered," said the ex-governor, "that under no circumstances would I accept the proposition, and that I would have nothing to do, directly or indirectly, with the transit properties."

NEWS OF RAILROADS AND OF RAILROAD MEN

Court in the Mountains. Judge Emery Spear, of the United States Circuit Court, has devised a seasonable way of holding court. He is to listen to complainants and defendants and yet enjoy the cool breezes at Mount Airy, up on the old Richmond and Danville branch of the Southern Railroad.

Judge Spear has a country place up in the "Adirondacks of the South," and he has been there for several weeks. And while he has thus been enjoying himself, the lumbermen of some of the Southern States decided to make war on certain railroads because of a rate recently established by which they are compelled to pay the roads 2 cents a hundred pounds on lumber shipped to certain Central Western cities.

The lumbermen vociferously assert that such a rate is going to put them out of business, and they have determined that they shall not be compelled to pay it until the courts decide the matter. Hence they demand an injunction against the railroads.

Judge Spear—away up among the deep forests, out of which mocking birds laden the cool breezes with their melody, and from where myriads of cold brooks laughingly take their way down into the sweltering valleys, and where it is certainly good to be—thought of the long hot trip down to the court house and of the stuffy rooms. Then he dreamed of Mohammed, and concluded that it would not be bad for Mohammed, in the shape of a delegation of angry lumbermen, to come to the mountain. He sent out an invitation and the lumbermen accepted, so now next Thursday the injunction proceedings are to be argued in the cool and damp shade under the great trees on the lawn of Judge Spear's home at Mount Airy. Of course the railroads are to be represented, and there is not a man in the stilling local offices of the lines interested who would not like to have some part of the business to attend to.

Pennsylvania Certificates. It is announced that certificates for the new Pennsylvania stock are to be ready July 15, and that they are to be turned over to the holders of the full paid allotment receipts on that date.

New Train. It is announced that the Southern is to increase the train service between Norfolk and Lawnsville July 8. Two new trains are to be put into operation.

Mexican Plans. The desire of the Mexican government to have a railroad built along the Rio Grande is about to be satisfied by the National Railroad Company of Mexico, which has been given the exclusive right to occupy for twenty years a strip of ground on the Mexican side of the river from Matamoros to a point opposite Del Rio.

The grant is interpreted to mean that no other road is to occupy this land with a track extending up and down the river. It is not taken to mean that other companies cannot cross the strip.

Jobbers' Excursions. At the meeting of the Western Passenger Association at Mackinac Island July 15 one of the subjects to be discussed is the treatment of jobbers' excursions.

A proposal to refer all applications for these excursions to the chairman of the association with directions to him to quote the rules governing special trains will be presented.

KNELL SOUNDED FOR APPLE MOTH

University of California Men Score a Triumph Against the Insect.

SAN FRANCISCO, July 4.—The entomologists of the College of Agriculture of the University of California have triumphed over the codlin moth, that pest of California apples last year and countless dollars' worth in the years before. The fruit in the orchards has progressed far enough in its growth for Prof. C. W. Woodworth and Warren T. Clark, who fought the moth at Watsonville, to know that it has been practically obliterated.

The codlin moth destroyed from one to five bushels of apples on every tree at Watsonville last year. This year there will not be that much loss in thirty acres of trees.

The apples are now about half grown, and there is no sign of a worm within those that have been examined. This is proof that the first brood of the insects was destroyed by the timely efforts of the entomologists. The only thing to be on guard against now is a second brood, which, if unchecked, may bore its way into the apples as its relatives used to do.

The entomologists have taught the farmers one valuable lesson—that the trees should not be sprayed in the winter time, as then the spray is valueless. The proper time to spray is when the calyx lobes of the young fruit are spread and open, for it is then that the tiny worm begins burrowing into the apple and the fruit is in this condition only late in the spring. A solution of paris green is found to be the most effective agency for killing the moth.

WORKMEN SERVE NOTICE. HARRISBURG, Pa., July 4.—Four hundred and fifty employes of the foundry and machine works informed their bosses at the noon hour yesterday that they were going to the Athletic-Harrisburg ball game and would not be back to work. This practically made operations at the plant impossible.

ITEMS OF INTEREST FROM NEARBY STATES

MARYLAND. ANNAPOLIS. The following additional candidates for the Naval Academy passed their physical examination and were admitted as midshipmen: H. G. Martin, Ohio; W. H. Walsh, New York; B. R. Ware, Massachusetts; R. H. Watson, Michigan; E. H. Williams, Mississippi; C. C. Windsor, Michigan.

THROUGHOUT THE STATE. Two severe thunderstorms passed over Hagerstown last evening. Lightning struck the flagpole on the Blue Ridge Knitting factory, hurled a fragment through the Troy Steam Laundry adjoining, ripped up the tin roof and knocked down the engineer, John Edwards.

Over twenty years ago, on May 12, 1883, about midnight the house of Daniel and John Callahan, near Hyndman, was robbed by masked men. The men were murderously assaulted. Suspicion pointed to three neighbors, who were arrested, but never tried. A few days ago A. V. Musser wrote to Daniel Callahan from Meyersdale confessing the crime. Musser confessed to having served fifteen years for some of his crimes and now has fully repented.

Monday last the St. Mary county commissioners met and signed the levy, fixing the county tax rate at 96 cents on the \$100.

Francis Beal, an expert telephone constructor, is on a prospecting tour over the route of the proposed telephone line in St. Mary county.

It is estimated that the wheat crop in St. Mary county this year is not more than one-half the average.

George E. Smith, ten years old, son of Mr. Samuel P. Smith, of Cason's neck, Dorchester county, was drowned on Monday while out crabbing.

William G. Powell, of Cambridge, was married Wednesday to Mary E. Dean, of East New Market, at the bride's house the Rev. G. E. Wood officiating.

SUNSTROKE INSURANCE

When the summer's heat gets about 90 degrees, you are liable to be sunstruck any time you are out in the sun, unless you take the proper precautions. Several years ago, the writer of this, who has spent much of his life in the tropics, thought he was safe from sunstroke. One day he collapsed, remained unconscious for five hours, and at times his life was despaired of. As a matter of fact, any person whose stomach and bowels are in bad shape in the summer time, is liable to be sunstruck in temperature that would be harmless under normal conditions. That's all there is to it. Stomach and bowels full of festering, fermenting refuse that forms acids and gases, raise the heat of the body and blood many degrees. Scientists have found that natives of the South Sea Islands, living on laxative fruit, bananas, coconuts, bread-fruit, have a temperature 20 degrees lower than that of white men who are careless about their food or their bowels. It has been found in years of experience, that a CASCARET Candy Cathartic taken at bed-time every night will keep the body clean and cool inside all day, and forms a safe and thoroughly reliable form of sunstroke insurance.
