

the most experienced physician might easily be misled as to the gravity of the patient's condition. He believes, however, that there is no hope for recovery. Some of the windows of the Pope's apartments were opened at 5:45 this morning to give a further access of air to the sick room. Other windows, including that of the bed chamber itself, were opened a quarter of an hour later. The "Popolo Romano" says three of the cardinals now in Rome will be admitted each day to see the Pope.

**Relief Only Temporary.**  
There is always the chance, of course, that the wonderful vitality of the prelate will again assert itself and cause another rally. It is feared, however, that such a rally could not last for over twenty-four hours at the most, and that the serum would then again collect and necessitate another operation.

In such a case the Pope could hardly survive, as each relapse means a further wearing away of his vitality, which is gradually decreasing, and must soon disappear altogether, when the end is bound to come.  
In addition to this gradual wearing away of his strength there is the indomitable will of the Pope to be considered. Whenever he feels slightly stronger he insists on performing some of the duties of his office, and this over-exertion militates strongly against his recovery.

**FAVORABLE DISPATCH AT PAPAL LEGATION**

"Night comparatively calm. Holy Father has successfully undergone second operation for extraction of fluid," was the message received at the Apostolic Legation in Washington this morning, from Cardinal Rampolla.

Monsignor Falconio, the Apostolic delegate, has returned to Washington from Grand Rapids, Mich.

"I hurried back to the legation as soon as the news of the Holy Father's serious condition reached me," he said this morning.

"Though the Pope is a very old man and we have been expecting to hear news of a serious illness, nevertheless I was surprised by the suddenness of the attack.

"His wonderful mind and iron will have so far made a successful stand against his physical weakness, but it is merely a question of time. He may rally from this attack, but he is very old," added Monsignor Falconio.

"The death of the Holy Father would be a great loss to the church. He is a man of great ability, even genius, and for more than twenty-five years he has ruled well and justly.

"He is not only a man of intellect but one of heart, and has been long beloved throughout the Catholic Church and the world in general for his goodness and his kindly disposition. He will be a great loss, but," added his excellency, "the church will go on."

"Who will be the next Pope? That is a question no one can answer. Yes, Cardinal Serafino Vannutelli is a prominent man, and his name has been mentioned in connection with the next election, and so has that of Cardinal Gottl. Beyond that, it is impossible to say how they stand as candidates.

"This is a matter to be decided by the Cardinals alone. They are not young men, and will give each candidate a careful scrutiny before voting."

It is said at the Papal Legation that the news of the death of the Pope will likely be held up at Rome for several hours, or until official notification of the fact can be made by cable to the heads of governments throughout the world. Not until after these messages are all sent, it is stated, will the formal announcement of the demise of the Holy Father be issued to the public at Rome.

**FRENCH SPIES TO BE PLACED IN VATICAN?**

ROME, July 10.—Indignation has been aroused in diplomatic circles by a report that the French ambassador here is arranging to place spies in the Coliseum.

These, it is reported, will consist of six secret men servants, called the scopatori secreti, who will assist Pio Centra, the Pope's chief groom. One of the six will be used constantly as a messenger to and from the French embassy to make reports on the progress of affairs at the Vatican.

**DR. MAZZONI EXPECTS END ABOUT MIDNIGHT**

LONDON July 10.—A late Rome dispatch quotes Prof. Mazzoni as declaring at 2 o'clock this afternoon that the crisis in the Pope's condition is fast approaching.

The pleural cavity he said, was refilling with surprising rapidity. Prof. Mazzoni does not believe the Pope will live beyond midnight tonight.

**GRIFFITH OFFERS \$100 FOR MISSING WILLS**

Deputy Register of Wills Griffith has offered a reward of \$100 for the return of the Shehan wills, which were stolen last Friday from the Register's office. The same amount will be given to any person furnishing information which will lead to the recovery of the wills.

**WILL HAVE TO GIVE BOND.**

For making threats of bodily harm against his wife Ella, Edward Johnson was in the Police Court today. The court ordered Edward placed under \$200 bond. If he cannot procure the bond he will have to spend the next ninety days in jail.

**FOUND GUILTY OF LARCENY.**

In the juvenile court today Lucia Holstead, negro, charged with the larceny of a ring, and chateleine purse, from Gertrude Biven, was fined \$10 or committed to the Board of Children's Guardians, for six months.

**3,000,000 LOGS LOST.**

LEWISTON, July 10.—Eight millions of logs are deserted in Maine rivers because of lack of water. The loss is immense.

**PROMOTIONS ORDERED IN LOCAL POSTOFFICE**

Number Cut in Two in Order to Comply With Law.

The long-expected promotions in the Washington Postoffice were made public today and many heartburnings were caused by the omission of half the names first recommended. A reduction in the number of promotions became necessary because the salaries and allowance division had recommended more increases than were authorized by law. The promotions follow:

\$1,500 to \$1,600—E. J. Burch, C. E. Horton, Alfred Irvine.

**END OF PLASTERERS' STRIKE NOT IN SIGHT**

Masters and Journeymen Both Firm in Their Respective Attitudes.

There seems to be no prospect of an agreement within the near future between the master plasterers and the striking journeymen. Each side is waiting for the other to make the next move. The journeymen expected the masters would open negotiations with them yesterday, but the bosses took no action whatsoever toward the settlement of the strike.

After the strikers' committee, which held a conference with several representatives of the bosses' association, several days ago, failed to come to an agreement with them, the strikers dissolved it, and excused the conference committee from further duty. Since then nothing has been done.

The plasterer journeymen are to hold their next regular meeting Monday evening, and will talk the matter over then. There are about 250 plasterers in Washington, but because of the fact that several of the firms which employ the majority of them, have granted the increase in wages from \$4 to \$4.50, only a few men are out of work.

It is said the masters are willing to arbitrate the difficulties for the present, and pay the new scale of wages after November 1. The strikers will not listen to that. They say the masters must sign the agreement immediately or they will not return. Plastering work in the District has not been crippled to any appreciable extent because of the strike, which is now about five days old.

**ENDLESS CHAIN SCHEME IS NIPPED IN THE BUD**

Postoffice Authorities Issue Fraud Order Against Brooklyn Concern.

The Postoffice Department today issued a fraud order against the American Street Car Transportation Company, of Brooklyn, of which Thomas W. Bollen, Jr., is president; M. Newman, treasurer, and Adam Kesser, Jr., secretary.

The company advertised to sell for one cent each, tickets good on any electric or elevated street car in the United States. This they proposed to do by an "endless chain" scheme whereby, in order to obtain 25 cents worth of the one-cent tickets, it would be necessary for the applicant to sell three "introductions" at 25 cents each, to his friends, and for each of the three friends to return their "introductions" to the company with 75 cents with which to supply in turn three of their friends with "introductions."

**MINISTER'S SON DROWNS.**

LAUREL, Del., July 10.—While bathing in Laurel river yesterday, Robert, the eighteen-year-old son of the Rev. F. J. Cochran, was drowned. The drowning youth's companions became frightened when he cried for help. Cochran's mother died about three months ago.

**CHINESE GOVERNOR DEGRADED.**

Consul General McWade cables the State Department that Pantia Ting, governor of the province of Kwang Si, China, has been degraded and succeeded by Wing Chikhan.

**OMINOUS RUMORS PERTURB POSTOFFICE**

Hints of Dismissals Alarm Officials and Clerks.

Postmaster General Payne was at his desk this morning and declared that he was feeling in excellent health. He said there was nothing new in the investigations and that he had no intention of anything important to take place in the near future.

There was a wild rumor around the department this morning that several important heads of divisions were to be suspended or dismissed, but both Mr. Payne and J. L. Bristol, Fourth Assistant Postmaster General, denied that there was any truth in it. Another rumor was that the clerical force of the rural free delivery division was to be reduced by wholesale dismissals, but that was also denied.

Mr. Payne said this morning that the report on the General Manifold Company, of Franklin, Pa., which has the contract for printing carbon papers for the registry division, has not been completed. A son of Superintendent Landvoigt, of the registry division, is employed by the company, and there is some anxiety to know how this fact will affect the father.

Although Mr. Payne is in fairly good health, his physician thinks that he should take a sea trip to still further recuperate, and he expects to start in a few days on a sea trip to Boston. He will be gone about ten days.

**BIDS INVITED FOR INSULAR CERTIFICATES**

Three Millions to Provide Philippines Coinage.

The Bureau of Insular Affairs of the War Department has invited bids for \$3,000,000 of the certificates of indebtedness of the government of the Philippine Islands, authorized by the act of Congress providing a coinage system in the Philippines.

The certificates will be issued in coupon form, in the denomination of \$1,000; they will be dated September 1, 1932, bearing interest at the rate of 4 per cent per annum, payable quarterly, and will be redeemable in one year after date of issue in gold coin of the United States at the office of the Guaranty Trust Company of New York, depository of the funds of the Philippines in the city of New York.

Subscription will be payable at the office of the Guaranty Trust Company of New York. They will be accepted by the Treasury Department as security for deposits of the public money of the United States in national banks whenever further deposits of the public money may be made, and may at any time be substituted for the United States bonds now held as security for deposit, on condition that the Government bonds thus released be used as security for additional bank note circulation.

Bids will be opened August 25, 1932. An important announcement was made by Secretary Shaw today in connection with the plan of the War Department to ask for bids on \$3,000,000 of Philippine government certificates of indebtedness.

The Secretary has authorized the announcement that the Philippine certificates will be received as security for public deposits, and also as substitutes for United States bonds now used as security for deposits, provided the bonds thus withdrawn are used as the basis for additional national bank note circulation.

The Secretary's action will have the effect of increasing the bids upon the Philippine certificates of indebtedness.

(Continued from First Page.)

patent medicines, automobile storage establishment, gum coats, or bucket shop," and never knew that he had some of the interests, notably the last two and the lunch room, and as a matter of fact he did not ask me to become interested in any of these matters, knowing that I had no money for such purposes.

"The amount of money which it has been stated that Watson lost in the 'News' has been grossly exaggerated. I have not the figures at hand, but do not think the amount he has invested above \$2,500. The entire plant was appraised May 31 by two experts, looking to a consolidation with another plant, for mutual benefit, and the appraisers' valuation of our plant was but \$2,576, upon which an indebtedness of \$650 (for the cylinder press) still exists, as well as some current bills not paid.

"The auditor is in error as to my social relations with Mr. Watson. It was my custom to reach our office each day at 5 o'clock p. m., and he was rarely there after 6 o'clock.

"After 6 of my calls at his residence, which were very few indeed, were of a business nature, as were his visits to me, and this fact accounts for my failing to suspect the difference between his income and his outgo, as I never saw any evidence of any extravagance except the automobile, which he accounted to me for by saying that his father-in-law had given it to his wife, and my hearing upon all sides of Colonel Bryant's great wealth, and seeing actual evidence at all times of ample means which came to him through the most legitimate channels such as checks from his father-in-law and the Title Company, etc., were the causes which led me to have no sus-

**TEACHERS' CONVENTION ESTABLISHES A RECORD**

Largest Gathering of Educators Ever Held in America.

BOSTON, July 10.—This is the last day of the great convention of the National Educational Association, which has established a record as the largest gathering of teachers ever assembled in one place on this continent. Officials estimate the attendance thus far as between 25,000 and 30,000.

With the election of the new president out of the way and the question of the next meeting place left to the executive committee, which will decide between St. Louis and Seattle, the "business" of the convention is at an end.

Today's program included morning meetings of the art, business, kindergarten, library, physical training, secondary education, science, and special education sections, and the national council, and an excursion to Plymouth, followed in the afternoon by a visit of the physical training teachers to the penal institutions in Boston Harbor, a lawn party at the Quincy Mansion school, Wollaston, at which Mrs. Mary A. Livermore and President Benjamin Ide Wheeler, of the University of California, received; Massachusetts day reception at the Rogers building, a reception by the Women's Press Club to Margaret A. Haley, of Chicago, at the Vendome, as well as numerous club and society receptions and an organ recital at the Church of the Immaculate Conception.

**INDIAN TERRITORY AND ALASKA EXHIBITS**

Judge Ryan Expects Two Territories to Make Good Showing.

Secretary Hitchcock of the Interior Department has appointed Judge Thomas Ryan, Assistant Secretary of the Interior, chairman of the committees on Alaskan and Indian Territory exhibits at the St. Louis Exposition. Mr. Ryan will enter at once upon the duties of his new position and said this morning that he expects the two territories to make a most creditable showing at the exposition.

F. C. Hubbard, of Muskogee, Indian Territory, was called to Washington by Judge Ryan to talk over the Indian Territory exhibit and was with the judge this morning. Mr. Hubbard has been appointed the executive chairman for his Territory. He has another engagement to meet the assistant secretary this afternoon at 3 o'clock.

Judge Ryan has talked with several of the most progressive men of Alaska about the exhibit from that section, and has received assurances of support. He thinks that if properly handled the showing of Alaskan trade and enterprises will be one of the most interesting at the exposition.

He has sent a telegram to the governor of Alaska saying that if the people of the Territory are desirous of talking over the matter he will meet representative citizens from there at Seattle any time between August 7 and 15. No answer to the telegram has yet been received.

The Indian Territory had \$25,000 granted by Congress for its exhibit on condition that the Territory raise another \$25,000. This has been done and there is nothing now to keep the committee from going ahead. In the opinion of many of the leading men of the Territory the Indian feature should be minimized and a commercial, agricultural, and manufacturing exhibit be offered, as is done by the various States.

They say that the Indian has now gone into the various occupations of the white man and that there is nothing to distinguish the Territory from contiguous States, and that for that reason the display should be eminently practical instead of a collection of Indian relics.

**STOCK FULLY PAID UP.**

A certificate was filed in the office of the Record of Deeds today by William Gordon Crawford, president, and the directors of the Crawford Commission Company, stating that the capital stock of the corporation, \$5,000, is wholly paid.

**DISASTER TO BE PROBED.**

JEANNETTE, Pa., July 10.—Almost \$30,000 has been collected for the Oakland Park flood relief. Fully \$60,000 more will be needed. Coroner Wynne has set next Wednesday for the inquest.

**GIVES RUSSIA ANSWER TO KISHINEV PETITION**

"Catholic Herald" Wants Negro Outrages Suppressed.

LONDON, July 10.—The "Catholic Herald" has requested the Russian ambassador at London to forward to St. Petersburg a statement calling attention to the continuous and increasing number of outrages on negroes in the United States, which are usually accompanied by the most appalling brutality.

The paper wishes the Russian government to make representations to Washington to have the evil suppressed. The ambassador, in reply to the request, said that such action was outside of his office and that he could not deal with it. The communication will, therefore, be sent direct to St. Petersburg.

**PHILIPPINES REJOICE OVER COMPLETED CABLE**

The American Chamber of Commerce of the Philippine Islands, under date of Manila, July 9, has sent the following cablegram to President Roosevelt:

"We congratulate you and the American people upon the completion of the Pacific cable, which is truly a monument to American industry and enterprise. May your Administration speedily accomplish abolition of tariff and temporary admission of competent labor, without which the Philippines cannot prosper. GREEN, President."

**GIRLS RESCUED FROM GYPSY BAND**

Caught After Moonlight Chase Over Hills by Sheriff.

FRANKLIN, Pa., July 10.—After a furious moonlight chase over the hills, Sheriff McCullom and a deputy, both heavily armed, this morning overtook the band of gypsies who fled from here yesterday, taking with them two girls, Mary and Anna Baker, and compelled them, at the pistol point, to surrender the young women.

Learning late last night that the band had moved toward the town of East Sandy, the sheriff and his man took up the pursuit.

Two of the gypsies met the officers in front of a rudely-constructed tent, and demanded their business. When told, they refused to give up the girls, saying they were willing to remain with them.

Promptly the sheriff and his deputy met this response by presenting a six-shooter in either hand, whereupon the gypsies called out the girls and handed them over. One of the leaders of the band was then compelled to hitch up a team and take the deputy and one of the girls back to Franklin, while Sheriff McCullom took the other.

At the request of the elder girl, no charge was made against the gypsies, but they were ordered to leave the county forthwith.

**HIS FLIGHT TO 'FRISCO STOPPED BY DETECTIVE**

Charles Brank, Aged Nineteen, Arrested Just as He Was Boarding Train.

As Charles Brank, a nineteen-year-old youth of Newcastle, Del., was about to board a train for the West at the Pennsylvania Railroad station shortly after 10 o'clock this morning, he was suddenly halted by Detective Harrison.

"What's your name, boy?" asked the sleuth.

"Brank," replied the youth.

"And address?"

"Newcastle, Del."

"On your way to San Francisco, eh?"

"Yes; how did you know?" asked the boy.

Without answering the question Harrison placed him under arrest. He was then taken to headquarters, where a search of his clothing revealed \$200 and transportation for San Francisco. He was held on the charge of being a runaway from home. His flight to the West was stopped by means of a dispatch from his father.

**STREET RAILWAY MEN ON ANNUAL OUTING**

Ten Thousand Excursionists at River View.

More than 10,000 people are expected to be at River View today. The excursionists are members of the Washington Railway and Electric Company Employees' Relief Association, and their relatives and friends.

The association is giving its annual outing, and the affair is one of the largest ever arranged in Washington.

Three boats were necessary to get the first rush of people down to the river resort, and additional boat loads were taken down later.

The committee in charge of the program have been at work on the plans for a day's enjoyment for nearly two months, and it arranged an elaborate program of games, sports, theatricals, and a concert.

The program committee is composed of William De La Neale, chairman; F. J. Mersheimer, William H. Hitchcock, J. T. Moffett, R. B. Patterson, William H. Schaffer, E. L. Loveless, T. W. Everett, Henry Wenzell, and E. W. Perrill.

The program began with a game of baseball between the Eleventh Street Division nine and the East Barn nine. This game began at 11 o'clock. Two more games were played later. A tug of war is to take place at 3 o'clock and two others at 3:30 and 4 o'clock respectively.

The next feature is to be pigeon shooting, the contest being open to all comers, fifteen birds to a man. A fat man's race, boys' races, girls' races, potato races, a monkey race for men, a three-legged race for men, and a hurdle race are to follow. The last race is to end the festivities for the afternoon.

In the evening there is to be a vaudeville entertainment under the direction of Prof. Joyce. Cora Shreves' pupils are to sing and dance and a one-act comedy "Sly Musette" is to be performed.

The committee in charge of the whole affair is composed of Fred J. Mersheimer, chairman; C. E. Brown, secretary; J. T. Moffett, treasurer; G. Frank Hallman, chairman dancing; William S. Ballinger, chairman boat and order committee, and E. F. MacCarthy, chairman printing.

The judges of the races are Gen. George H. Harries, Prof. Maurice Joyce, and H. W. Fuller.

The festivities are expected to last until after midnight, when the last boat is to return to the city.

Handsome prizes are to be awarded to the winners of all the contests, and in some of the races there are to be second and third prizes. These trophies include everything from a box of cigars and a penknife to handsome vases and negligee shirts. This evening's program in detail is as follows:

5 p. m., a tight rope walking and contortionist exhibition.

5:30 p. m., song by Adrienne Shreves and Master Berens; song and dance by Henriette Berens; jockey dance by Mamie Schuyler; solo dance by Alma Nelson.

8 p. m., "Sly Musette," by Ida Wynne, Elsie Worth, Bessie Saffell, Annie Kings, Mabel Cudlipp, and Catherine McGraw; sword dance by Ritta Addison, Helen Berens, and Madolin Smithson.

9 p. m., Prof. Maurice Joyce, "Little Glady's."

**COLORED BRETHREN "VIEW WITH ALARM"**

"Money Grabbing and Greed for Filthy Lucre" Alarm Philadelphia Conference.

READING, Pa., July 10.—At the West Philadelphia conference of negro Methodists, in session here today, a special committee reported:

"It appears at times as if the world would choke out the spiritual life of the church and even swallow it up. Worldliness has crept into the church, together with political scheming, money grabbing and greed for filthy lucre to alarming extent, and it might cause anxiety for the existence of the church if it were not for the promises of the Master.

"Prejudice, selfishness, and powerful opposition lie in the way of the spiritual progress of the church."

This report was merely received, not adopted.

**THRILLING RESCUE OF FIREMEN IN CHICAGO**

Roof Collapses, Throwing Fire-Fighters Into a Furnace.

CHICAGO, July 10.—A bolt of lightning which struck the building 912 and 914 West Madison Street in last night's storm prostrated three persons and caused a fire which destroyed the structure.

A few minutes after the arrival of the fire apparatus the roof collapsed, throwing five firemen into a veritable furnace. Comrades, imperiling their own lives effected a thrilling rescue. Plunging in the flames, they fought their way to the endangered men, some of whom were plighted in the burning timbers and of whom were stunned by the fall. An choking, blinding smoke, with fire surrounding them, they carried all to safety.

The five men who went down with the roof were injured, two seriously. They were hemmed in by a burning wall in the rear and blazing timbers in front and on the sides. Streams were played on the imprisoned men to prevent their incineration. The place was blazing on all sides when apertures large enough for the men to be dragged through were hacked in the fallen ceiling.

The building which was destroyed was occupied by the Empire Mattress Company and the damage was about \$35,000.

**BANK CLERKS TO HAVE A DAY DOWN THE RIVER**

The first annual excursion and outing of the Washington Chapter, American Institute of Bank Clerks, will be given at River View tomorrow afternoon. The pen welders and money counters will run but two boats to the resort—one at 3 o'clock in the afternoon and the other at 6:45 o'clock in the evening.

Special arrangements have been made for this outing. The Marine Band will furnish music on the boat both on the way down and the return trip, as well as on the grounds. Athletic games of all sorts will be indulged in, and a grand "spread" will be in order at the hotel after the last boat lands at the grounds.
