SCORE PRESIDENT'S  
CONDOLENCE MESSAGE

Lutherans Think Action on Pope's Death Ill-Advised.

UTICA, Aug. 28.—The New York and New England ministerial conference of the Evangelical Lutheran Synod of Missouri, Ohio, and other States, now meeting here, has adopted these resolutions:

"Whereas the spirit of our American institutions and the very letter of the Constitution of the United States in its amendment demand a clear and clean separation of church and state;

"Whereas the principles always upheld by the Roman Papacy are diametrically opposed to these our governmental principles and were maintained by Leo XIII as consistently as by any of his predecessors, as appears from his encyclicals.

"Resolved, That we, satisfied that in this we are voicing the sentiment of all loyal Americans, do most earnestly and emphatically protest against any action taken by the President and other public officials with reference to the demise of the late Pope, whereby they accorded official recognition to the Papacy."

PLOT TO KILL PRINCE  
UNEARTHED IN SOFIA

VIENNA, Aug. 28.—It is reported from Sofia that the police have discovered a tunnel leading under the konak (palace) of Prince Ferdinand. It is thirty yards long, and it is believed that it was constructed with the intention of blowing up the palace.

EX-JUDGE MORRIS FALLS  
DEAD AT LONG BRANCH

LONG BRANCH, Aug. 28.—Ex-Judge Charles E. Morris, who was lay judge for the Monmouth county courts for many years, fell dead on the street near his home here Wednesday night. Apoplexy was the cause. Ex-Judge Morris was appointed lay judge in 1853, and served as such until he was legislated out of office a few years ago. At the time of his death he was sergeant-at-arms of Monmouth county court. His funeral will be held tomorrow.

ISTHMIAN CANAL NEWS  
TAKES ANOTHER TURN

Appreciation of Sentiment in This Country May Help the Treaty.

Consideration of Isthmian canal matters at the Colombian legation in this city has taken a new turn. The absence of any great amount of definite information from the South American republic and the abundance of American press comment on what Colombia ought or ought not to do, has turned the tide of information southward. The "balance of trade" is now all that way—this country seems to have all the news and that republic wants it.

To meet this demand the press clipping bureaus are called upon for service and keep their sharp lookout for articles which may prove of interest to the high officials in Colombia. As this work has to be handled through the legation here, it imposes added responsibilities upon Dr. Herran, the charge. In addition to his own reports, officially, the clippings from the important newspapers are forwarded to show the trend of public sentiment here and what suggestions are thrown out as to the best way to overcome the difficulties in the way of building an Isthmian canal somewhere or other.

This is one of the features which makes the clippings of particular importance and value to the officials in South America. Many American papers have published strong articles on the President's duty, under the Spooner amendment to the canal bill, to take up the Nicaragua route again. This reflected sentiment may, it is believed, do much, apart from official statements, to convince members of the Colombian congress that public opinion in the United States is strongly favorable to the general proposition of an Isthmian canal, and that the matter of location is entirely a secondary consideration.

VETERANS RECEIVE  
PRESIDENT'S PICTURE

An autograph picture of President Roosevelt was given to the New Hampshire Veterans' Association at the afternoon camp fire held yesterday at the Weirs, N. H. An appropriate speech was made by Henry L. Johnson, of Washington, president of the Sixteenth Regiment Association. The frame for the picture was an original design and represented the United States shield.

SOUND BOAT SENDS  
SIX MEN TO DEATH

NEW HAVEN, Conn., Aug. 28.—The three-masted schooner John Booth, of New London, sank in the Sound off this port at 11 o'clock Wednesday night with five of her crew and a passenger, as the result of a collision with the steamer H. M. Whitney. The blow came without warning, according to the story of a survivor who was brought into Stonington by the steamer Maine. The drowned men are: Mate of the Booth, name unknown; Joseph L. Gorham, paper hanger, Gloucester, Mass., a passenger on the schooner; Frank Saunders, cook; Peter Hilden, seaman; William Fees, seaman; and William Alexander, seaman.

THIEF RESTORES LOOT  
TO BANK BY 'PHONE

CHICAGO, Aug. 28.—After stealing an aggregate of \$55,000, a thief has taken the trouble to restore them to the bank from whose messenger he had taken them. The checks were in a valise which disappeared while George Nelson, messenger for the Milwaukee Avenue State Bank, was riding on a crowded cable car. Apparently the thief thought the valise contained currency, as when he discovered to the contrary he left it with the cashier of a restaurant and sent a telephone message which put the bank on the track of the missing papers. The police have a good description of the thief.

CARDINAL'S HAT PLACED  
ON SICK PRELATE'S HEAD

ROME, Aug. 28.—Cardinal Herrero y Espinosa, Archbishop of Valencia, who was at the point of death in the convalescent home of Pope Pius X, but who has recovered, though still in delicate health, drove yesterday from the Spanish College, where he has been staying, to the Vatican, to have the red hat privately conferred on him. Except in unusual cases the cardinal's hat is presented at consistories. The Pope, assisted by Cardinal Deacons Oreglia, Macchi, and Moran, performed the function.

TOO MANY CUES  
FOR ACTOR'S NERVES

NEW YORK, Aug. 28.—Ernest Hastings, an actor, is under treatment at the Lambs' Club here for nervous breakdown. He recently completed an engagement of two years and a half with the Alcazar stock company, in San Francisco, in which he time he learned eighty-five different parts.

ITEMS OF INTEREST  
FROM NEARBY STATES

MARYLAND.

Word has been received at Cumberland of the drowning of Thomas Warner, Claude Loughry, and Noel Moore, boys, aged ten to twelve years, twelve miles below Parsons, W. Va., in Cheat River. Their bodies were recovered Wednesday. One of them was in eighteen feet of water and was not found until dynamite was used.

Organizer Robert Salmond, United Mine Workers, who has returned to Lenoconing, says the strike is general among the coal miners from Barnum to Elk Garden. The superintendent of the region met organizers Salmond, McCulloch, and Morgan at Blaine, but nothing came of the conference.

Thomas Johnson, who assaulted his neighbor, John T. Beall, near Cumberland, with a rock, fracturing his skull, met Mr. Beall before Justice Martin yesterday, and friendship was renewed. Mr. Beall appeared with his head plastered and bandaged. Johnson was fined \$25 and costs.

Yesterday was a big day at the Harford County Fair, and some difficulty was experienced in handling the crowds. The trains from Baltimore and Delta, Pa., brought large numbers of excursionists, representing not only nearly every section of Harford county, but also Baltimore county and Baltimore city.

The body of Albert D. Tunis, who was drowned in Miles River, off Tilghman's Point, Wednesday evening, has not been recovered. The oyster police schooner Frolic, Capt. Alexander Thompson, several other sailboats and several launches fruitlessly dragged the locality all day.

Samuel Albright, aged fifty-two years, of Ocean Mines, dropped dead yesterday. He was on his way to Frostburg to arrange to have a house built. He had sought shelter from the rain in a house on the roadside when he expired. He is survived by a widow and six children.

CHINA WOULD SAVE  
LIVES OF JOURNALISTS

Proposes Imprisonment Instead, to Foreign Consuls.

LONDON, Aug. 28.—Prince Chang-Chi-Tung has telegraphed the taotai at Shanghai that if the foreign consuls will hand over the journalist prisoners, the Chinese government will undertake to make their sentence imprisonment, says the Shanghai correspondent of the "Times." It is hoped this will not be done, as imprisonment would mean a lingering death.

The "Wokwangtao" suggests to the taotai that the consuls hold a joint trial and agree beforehand on life sentence.

Four students released on security of American missionaries were ordered re-arrested. Officials everywhere are repressing the expression of liberal ideas. The Empress Dowager's portrait is being painted by an American woman, who is taking pains to convey the impression that this amiable woman is not connected with the reactionary policy and not responsible for the barbarous tortures recently inflicted upon a native journalist.

TO THE NORTH POLE  
BY AIRSHIP ROUTE

INDIANAPOLIS, Ind., Aug. 28.—"If Sergeant Julius R. Frederick recovers from his present illness we will sail to the North Pole next year," said P. T. McDonnell, of Chicago, who is at the Frederick home in this city. Sergeant Frederick, who is a survivor of the Greeley North Pole expedition, is in a critical condition. Mr. McDonnell has been working with Frederick. The latter plans to make a dash for the North Pole by using an airship.

CHINA'S EMPRESS'  
WAR ON REFORMERS

SHANGHAI, Aug. 28.—Chinese reports from Peking assert that the banished Prince Tuan is there incognito, and that he has had several secret interviews with the Dowager Empress while the Emperor was asleep. It is further reported that the literary chancellors, who are being sent to all the provinces, are all reactionaries, with orders to report what prospect there is of inciting the people against foreigners and foreign reformers.

TOOK PRETTY WIFE  
ON HOLD-UP TRIPS

SEATTLE, Wash., Aug. 28.—H. W. Haynie and Grace Haynie, his wife, have been arrested by city detectives. Haynie has confessed to three highway robberies, none of which was profitable, but the police believe that he and his wife have been working together, the latter in man's attire. In such guise she might answer the description of a proverbial short man with the tall man who admits operating here lately. Haynie admits taking his wife with him on several excursions, but denies that she took part in the hold-ups. Mrs. Haynie is a pretty woman and well known in Oregon.

MINNESOTA INDIANS  
READY FOR WARPATH

ST. PAUL, Minn., Aug. 28.—Reliable advice from the Leech Lake reserve say that an outbreak of the Pillagers and Bear Island tribes is imminent, and that agency officials have begun to remove their household effects and families to Wilker, the nearest railroad town. War dances are in progress. The tribal King of the Pillagers, who has just been released from jail, is inciting the young bucks against the whites, and is actively supported by the younger element among the chiefs, who are anxious for a fight. The Pillagers have been sullen and ugly for two months, and the situation has just been brought to a head by the tribal troubles.

MISSOURI AND KAW  
AGAIN ON RAMPAGE

KANSAS CITY, Mo., Aug. 28.—Heavy rains north and west of Kansas City have caused the Kansas and Missouri Rivers to rise suddenly to unusual heights, and the results may prove grave. A bulletin issued yesterday by the local weather bureau announced that the Kansas (or Kaw) River would rise from five to seven feet at Kansas City in the next forty-eight hours, and a rise of equal magnitude, it is said, is coming this way down the Missouri. The Kansas River here yesterday rose three feet in ten hours and is still rising rapidly. At Lawrence this stream rose four feet in the night, and at Topeka it is also up four feet.

CIRCUS TRAIN WRECKED.

PITTSBURG, Aug. 28.—The third section of the Barnum & Bailey circus train, composed of sleeping cars, was wrecked yesterday at Wildwood, on the Pittsburg and Western Railroad. A freight train crashed into the rear sleeper, in which were forty persons. No one was hurt.

MEXICAN ARMY OFFICER  
ON CANADIAN MILITIA

Lieutenant Colonel Altamira Returns to Embassy.

Lieutenant Colonel of Engineers Altamira, military attache of the Mexican embassy, returned last night from his tour of inspection of the Canadian militia. This was one of the duties especially entrusted to the new attache by his government in accrediting him to Washington several months ago. Official observations of a similar sort have been made of the militia of this country at some of the National Guard encampments.

It is President Diaz's wish, it is understood, to put the Mexican national forces on the most up-to-date military footing possible, in accord with the view taken officially also in this country that completeness of equipment and effectiveness of internal and international disturbances. The recent legislation by Congress here looking to a close alliance between the regular establishment and the State militia has proved an interesting part of the investigations by Mexico's representative.

Lieutenant Colonel Altamira purposes making an elaborate report to his government on his observations in Canada. Because of the extent of the work and other official plans at the present time, this report will not be submitted probably until the early fall.

AS WISE AS HE IS OLD.

BERLIN, Aug. 28.—Prof. Theodor Mommsen, the historian (who was born in 1817), read a paper yesterday before the Royal Academy of Science on the inscriptions found among the ruins of Basileus, Syria. This was regarded as remarkable and as showing the professor's mental powers and unimpaired analytical faculties.

THE ZIONISTS' PATH  
SMOOTHED BY BRITAIN

Every Facility for Careful Scrutiny to Be Given.

LONDON, Aug. 28.—It is the intention of the foreign office to instruct the British commissioner in the East African protectorate to facilitate in every way the work of the committee appointed by the Zionist congress at Basel, Switzerland, Wednesday, to investigate the offer of the British government of a site for a Hebrew colony.

It is not believed that the committee will find difficulty in selecting a site, and if the colony is established it will be under the general control of the commissioner as the representative of King Edward's government, but this control will be nominal, the idea being to give the Hebrews practically free local government under their own officials and to enable them to observe their national customs with freedom in municipal legislation.

The foreign office officials say they regard the experiment as important both for the government and for the Hebrews, as it will determine the ability of the latter to maintain an autonomous government. If it is a success the colony will undoubtedly grow, and should a failure result the government reserves the right to reoccupy the land.

AUSTRIA'S SUBJECTS  
CHEER ITALY'S KING

ROME, Aug. 28.—The King and Queen yesterday arrived at Udine, the chief town on the eastern frontier, sixty miles northeast of Venice, for the grand army maneuvers. They met with an enthusiastic reception, the significance of which was heightened by a demonstration by many inhabitants of the Italian provinces still subject to Austria. These, with flags, flowers and leaflets, demonstrated in favor of a union of the Trieste province with Italy. Cries were raised of "Long live Italian Trieste," while a number of women from the Austrian town came specially to Udine and, surrounding the carriage of the King, cried "Long live Victor, the lord of Trieste," and "Long live our Liberator King."

CANCEROUS ULCERS  
ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warranty

A small pimple came on my jaw, but gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and itch; it was on the body almost from birth and before very long are large eating ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it. No charge for medical advice.
