JERSEY CITY, Sept. 18.—Paymaster William H. Doherty, of the cruiser Chicago, together with a crew of five men, narrowly escaped drowning during the height of the gale through the foundering of a steam launch in which they were endeavoring to reach the Chicago, then lying off St. George, Staten Island. FRANCE DOES NOT SEEK CONQUEST OF MOROCCO

JOYNER'S FEAT WITH CHAMPION WATERBOY

From a Hopeless Cripple to King of the Turf.

ALL DONE IN TEN MONTHS

Southern Trainer Is One of the Most Successful Men on the American Turf.

From a hopeless cripple to champion race horse of the year—that is the record of Waterboy, the big black four-year-old colt by Watercress—Zealandia, in twelve months. A year ago this great horse was in slings, convalescing from a broken pelvis bone. In less than six months he was galloping; in ten he was hailed "king of the turf."

It takes much to make a champion race horse—nervous force, speed, courage and endurance. It is also necessary that the horse possessing these most essential points should fall into the hands of a capable trainer. Fortunately, Waterboy, who carried inside of his hind all of the good points of a great race horse, was taken in the hour of his trouble to "Jack" Joyner.

All Due to Joyner. A record of this horse would not be complete without a word about his trainer. Waterboy and Joyner are practically inseparable—the reputation of each is intertwined with that of the other.

Although Joyner is a man of flesh and comes from that part of the South where labor is considered a hardship and concentration of thought work, he is a man of great activity. Toil of the incessant kind until the task is accomplished is to him a joy. To him eighteen hours a day is not too much to put in labor if he has something particularly good to accomplish. In a little house—a combination of office and bedroom—twenty feet from his stable, he spends the greater part of his time during light months of the year. Here he has direct supervision over his thoroughbreds, and is always on hand should anything occur that needs his attention.—Sporting News.

A NEW PIGEON RECORD. BIRDSBORO, Pa., Sept. 15.—David H. Baird, of Hamburg, has received word from W. A. Wiercraft, of Cambridge, Pa., that a homing pigeon secured from Dr. Baird has lowered the world's record on a 1,000-mile fly. The bird, which several others, was liberated at "Light" Kas, and arrived at Cambridge five days, two hours and thirty minutes, thus breaking the world's record.

SOLDIERS TREATED TO 31 GALLONS OF CIDER

MIDDLETOWN, Md., Sept. 18.—The Fourth Battery, United States Field Artillery, who marched from Fort Myer to attend the unveiling of the New Jersey monument at Antietam, were treated to a barrel of new cider when they reached the War Correspondents' monument at Gapland, the summer home of George Alfred Townsend, on South Mountain, Wednesday morning. The cider, thirty-one gallons, was made especially for the soldiers by order of Mr. Townsend. The 120 men drank every drop of it. On the way to Gapland the battery became lost in the mountain road near Catoctin, and had to ford the Catoctin Creek, near where it empties into the Potomac. The six guns, weighing 2,600 pounds each, took the ford at a 20-degree angle.

OYSTER COMMISSION MAY FAVOR CHANGES

RICHMOND, Va., Sept. 18.—The Legislative oyster commission, appointed especially to make an investigation to determine whether the "Baylor survey" should be broken, returned yesterday, after spending three weeks on the Eastern Shore and on the oyster waters of the State. The commission will make a full report to the next Legislature, but the members are reticent as to what recommendations will probably be made. It is pretty certain, however, that the commission will recommend that the "Baylor survey" be broken.

ANNAPOLIS, Md., Sept. 18.—Coach Burr Chamberlain, of Yale, has arrived here to assist in coaching the Naval Academy football team this season. Charles E. Gould, who will be head coach, is not expected until the end of the month. This is the first time for several years that Yale coaches have been employed, and it goes to show that the navy athletic authorities have not been entirely satisfied with the "Princeton" style of playing the game which has been taught here for the last few years.

HAZING OF CADETS AGAIN IN FULL SWING

Dullards of Upper Classes Oppress New Men.

ANNAPOLIS, Md., Sept. 18.—The investigation into the hazing of Midshipman Richard S. Galloway has given official recognition to the fact, which is commonly known here, that hazing is still going on in full force at the Naval Academy. The midshipmen themselves deny that there is any hazing whatever, but that is simply because they have changed the name of the practice to "running." As a matter of fact hazing in an extremely severe form is going on and it has driven several fourth classmen to the hospital.

Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.
