

GORMAN TO HELP AS KEEN CENSOR

Depended on to Bottle Up Irregular Orators.

FREE TALK HURTS PARKER

Judge Cullen Speaks His Mind—Bryan's New Theory—Carter Harrison's Queer Harmony Plan.

Preliminary contests in the political arena, preparatory to the final contest in November, are rapidly clearing the atmosphere, but it must be admitted that the process of removing disturbing factors proceeds much more laboriously on the Democratic side than among their opponents.

Candidate Parker's busy day in New York yesterday brought the astute Gorman into line, and the Marylander's influence is now looked to in dispelling the gloom which has intermittently enveloped the situation.

This may properly be regarded as the most important incident of the conference, undoubtedly, for it will surely inaugurate a censorship of unlicensed "pleaders and arguers," who have been insisting on telling all they think and a good deal more than anyone else knows, without the least regard for the effect it may have on the national campaign. It may now be taken for granted that if Senator Gorman is to have anything to do with the work at headquarters, it will be most especially and vigorously along this line.

Not a Bid For Labor Vote.

"I am an earnest supporter of Judge Parker and ardently hope for his election. I am unqualifiedly opposed to imperialism, as it is termed, and to protection, and desire the success of the Democratic party."

This interesting declaration of views is attributed to the Hon. Edgar M. Cullen, Judge Parker's successor as chief judge of the New York court of appeals, whose name has been recently mentioned in connection with the Democratic nomination for governor in his State. Fortunately, perhaps, for the party, he says he will not be a candidate under any circumstances.

This seems only another occasion on which Judge Parker may well call out to be delivered from his friends. Should he choose to run upon such a haul-down-the-flag and free trade platform as his judicial successor advocates, he could estimate much closer than now the probable depth of the November 8 snowstorm. He is indeed to be pitied if all his own political astuteness is to be neutralized by the bold utterances of

leading members of his party who insist they yearn zealously for his success, and yet assert their "unqualified opposition" to policies which some of the party leaders either vigorously favor or at least "squint at" with one eye toward.

Opposes Davis' Views.

The statement quoted is strong evidence that Judge Cullen has either not

Purchase of the Famous Sampter Clothing at Least Prices Ever Known.

A Sale of Timeliest Interest to Every One With School Suits to Buy.

The M. Sampter & Sons clothing is noted for its superior excellence, most of the garments being hand-tailored in all the vital parts, same as the best ready-to-wear clothing for men. This fact is worth emphasizing—for such suits naturally give longer wear and more satisfaction than the ordinary sort of boys' clothing.

The entire stock of clothing of the well-known house of M. Sampter & Sons was closed out last week in New York city at public sale. This firm after a long career in the wholesale trade decided to retire from business—and we secured some of the choicest lots of clothing offered for sale at about 60 cents on the dollar.

HUNDREDS OF EAGLES ALREADY IN THE CITY

Convention Ends in Baltimore This Afternoon and Then the Heavy Rustle of Wings Will Be Heard.

Can you hear the Eagles scream? If you do not you are hard of hearing. There are hundreds already in the city and more are arriving hourly, and with them are their wives and daughters. The visitors are the guests of Washington Aerie, F. O. E., No. 125, who sent out a general invitation to out-of-town birds, and as a result it is expected that nearly all of the delegates to the convention of the order, called by the members of the Grand Aerie are expected to come to the Capital City this afternoon or tomorrow.

The convention ends this afternoon in Baltimore, and then the heavy rustle of wings will be heard.

Enjoying Capital's Beauties.

Eagles from Buffalo, Chicago, Brooklyn and New York arrived in Washington last night, and today they are enjoying the beauties of the Capital.

Bryan has taken his stand under their banner. He says he is for peace. He told the Colorado Democrats something of his new gospel last night at the opening of their campaign in Denver.

"You ask me to believe in free silver," said the Nebraskan, "how I can bring myself to support a man who favors the gold standard? I say that I love peace and the gospel of peace infinitely more than I love either gold or silver."

It is good news from Bryan, and as resulting as his subsequent comment that if Parker is elected peace will reign in this country for the next four years. There might be some discussion as to just what he means by this, but so long as most good-citizens are likely to be satisfied with the result, other little details may be passed over.

What's the Army For.

Another statement attributed to the erstwhile peerless leader may well cause comment. He is quoted as talking the somewhat unusual stand that imperialism is not back of the increase of the army so much as was organized capital. Sending soldiers to the Philippines is all a bluff, he intimated, and the real reason is to have sharpshooters ready to dispose of laboring men in case of a conflict between industrial interests.

PLATT GIVES WAY TO TIM WOODRUFF

Triumph of the unbroken Odell slate, after the graceful withdrawal of "Tim" Woodruff, caused most harrowing suspense to flood the Republican State convention at Saratoga yesterday afternoon.

The local birds have determined to give the visitors cause to remember the visit, and they have obtained the Washington Light Infantry Hall, which is to be used as a general gathering place.

The committee in charge is composed of C. Beveridge, Charles Stohmann, August Brill, Edward Neumeier, Myer Fisher, F. F. Carr, Edward Kinney, and Charles S. Adams.

Entertained Informally.

The first arrivals last night were entertained informally at the armory with songs and the impromptu vaudeville program. This evening the performance is to be repeated on a much larger scale. There are to be songs and a number of interesting acts. The visitors are expected to remain several days, and tomorrow night a wrestling match between Joe Grant and Ray Buckley is to take place in the hall. For the vaudeville entertainment talent has been obtained from all of the local theaters, and after the show the birds will give up the evening to merry-making.

noon, dispelling the mistiness of the morning. But it must be chronicled that there was no beautiful rainbow of promise that there will be no flood of popular wrath after the November election is safely carried, to sweep away the present party machine, if Platt and Woodruff can rally enough dissatisfied party leaders to do it.

The most significant incident of the convention was not, of course, the naming of Higgins for governor. Chairman Odell claimed the votes all along and showed that he had them in his vest pocket. As soon as Woodruff saw the futility of putting in a hole his real friends among the delegates by recording the individual votes in accordance with the resolution agreed upon, it was all easy traveling for the machine. The ticket was named and the news went forth. But there's going to be a "tomorrow" after election, it is whispered, and then the Woodruff bandwagon will be ready for trial.

As opposed to the routine work, therefore, was the development of the feeling that "Easy Boss" Platt had at last given up the remnants of his leadership to the young Brooklyn leader, and that after the election he will turn all his strength to the latter. Platt's remaining influence may be judged at by Odell's men, but Woodruff is popular and his action yesterday has strengthened his machine. He has gotten the friendship of those who admire a fighter but will not follow a bolter, so that while the victory is wholly with Odell, the Woodruffites are satisfied with the outlook.

MUST STAND THIRD TRIAL.

MINNEAPOLIS, Sept. 16.—Judge Harrison has denied the motion made by County Attorney Boardman to not proceed the ten indictments standing against former Mayor A. A. Ames for bribery and extortion.

Negro Families Driven Out of Western Town

Twenty Families of Carlisle, Ind., Forced to Flee From Mob on Penalty of Having Their Houses Burned.

INDIANAPOLIS, Sept. 16.—Twenty negro families in the town of Carlisle were driven out last night by a mob of white men. When one of the number returned and requested that the negroes be permitted to live in the town he was ordered to notify them that their goods must be removed in twenty-four hours on penalty of having their houses burned.

James Hammond, a negro farmer, living near the town, had a quarrel with some members of his race. He flourished a large knife, and dared the colored people to come out of their houses. Constable Johnson attempted to arrest

Hammond, but he resisted, and was shot by Johnson in the leg. The wounded man fled, but was afterward arrested at his home, and hurried to Sullivan to prevent a mob, which was rapidly forming, from hanging him. When it was learned that Hammond had been taken away the mob turned upon the other negroes in the town, broke open their doors, smashed the windows, and put the occupants to flight. By midnight the town had been completely depopulated of negroes, and several of them had been badly hurt as they ran from the mob. The whites say they are determined that no negroes shall live in the town, and Hammond shall not return to his farm.

LIBRARY WILL BE OPENED SATURDAY AFTERNOONS

In the early summer it was announced that the Public Library would close on Saturday afternoons at 1 o'clock until October 1. This was considered necessary partly on account of the many absences from the library staff during the vacation season and partly by reason of the fact that the regulations of the District Commissioners making the working day for District employees end at 1 o'clock during July, August, and September, apply to the library staff. Even though this rule still applies to the library, yet in response to many demands on the part of the public it has been decided to keep the library open in the afternoon and evening of the two remaining Saturdays of September.

The library hours until October 1 are as follows: 10 a. m. to 9 p. m. for the reading room, on every week day. The circulation department closes at 5 p. m. After October 1 the hours are 10 a. m. to 10 p. m. for the reading room, with the circulation department closing at 5 p. m. It has been found possible to extend the hours for keeping open the children's room. Beginning Monday, September 19, the room will be kept open on school days from 1 to 8 p. m. and on Saturdays from 10 a. m. to 8 p. m. A trained children's librarian is always in attendance in this room to aid children in selecting books. Assistance is also constantly being given to parents and teachers in choosing books for their children.

One feature recently introduced into the library service is the attempt more fully to assist all persons who find any difficulty in using the card catalogue.
