

CURRENT EVENTS IN HIGH SCHOOLS

Tech and Western Football Game.

EXCITEMENT IS NOW HIGH

Track Meets Will Bring Out Some Good Athletes—Grade Scholars to Compete.

Excitement in the high schools is now at boiling point over the coming game between Western and Tech. Up to the present time the teams have played about the same sort of game. Tech winning by means of superior weight, while Western has won because of the ability of her players to get started in a hurry and to keep going.

This contest will bring out the largest crowd that has attended a football game between any of the high schools this year. Both Captains Church of Western, and Backus, of Technical, will graduate this year. Each is anxious to turn out a winning team before leaving the school.

Both Captains Church of Western, and Backus, of Technical, will graduate this year. Each is anxious to turn out a winning team before leaving the school. This combined with the showing that both teams have heretofore made gives the general impression that this game will be the game of the season.

Superior Team Work. Tech has a line many pounds heavier than Western's. That is more than balanced by Western's superior team work. The heavy weight of Backus and Du Ganne, Tech's two giant tackles, is made up for by the swift and sure playing of Worthington and Farrington of the Georgetown team.

At quarterback, the most important position on a football team, Western has the better of the argument. While Parsons is a very good quarterback, it is a well-known fact that Morse is the best in the scholastic leagues, and a great deal better than any other. His "signal callers" on many of the best high and prep schools. He shows fine judgment and insight in running his team. His own long end runs are a feature of every game. He can easily out punt any other player in the high schools. His dro-kicking is also a feature.

It is generally conceded that Morse has a good future before him as a quarterback if he ever goes to college. Good Ends. Although Hunt is a good left end it is doubtful if he will have a very easy time handling Phelan, Western's right end. Although Brown, Tech's other end, is many pounds heavier than Phelan, he is not nearly so agile and swift.

When it comes to bucking the line the teams will be about even. When one of Tech's big tackles gets started on a tackle back formation it will take a good deal of the hardest kind of work to stop it. It is Western's hope that her lighter men will be able to dive over, under, or around her heavier opponents and stop these plays before they get started.

On the other hand when Church gets the ball it seems as if he needs no start, but with his quick, writhing, motion goes through anyhow, and, as he does not try to buck the line squarely, but twists through, Tech's men will have to rely on their tackling ability and alone on brute strength. Even if Tech does have the advantage on line bucking, she will be unable to stop the end runs, which are Western's specialty. Both teams are as tough as pine knots from long and hard training.

Track Meets. With the close of the football season all interests will be devoted to study until the track meets begin to come to the front, not such a great time away. Already arrangements are going forward for the coming meet in Convention Hall on the evening of Saturday, January 21.

These events will be entered not only by the students of the high schools of the District but by pupils from all the various prep schools in this city, Baltimore, Philadelphia, Wilmington, and several smaller nearby towns. Much interest has been excited among the boys and many letters of inquiry have already been received by the directors of the meet.

Physical Director W. H. Foley, of the high schools, has completely recovered from a severe attack of pleurisy, and has already mapped out a plan of training for the boys under his charge. A great many boys are already training over the Georgetown track, the long-distance runners are taking cross-country runs, while the shot-putters are making the buildings shake with the thuds of their long throws.

For First Time. The boys of the grade schools will be given an opportunity to compete in these games for the first time in the history of the meets. A special fifty-yard dash is being arranged exclusively for the graded school runners.

This will be a scratch event, and the heats will be arranged so that the boys in any particular division will not compete against each other, thus making the event as much in the nature of a championship, as is possible. There will be no age limit to the entries from the graded schools, and it is thought that each of the nine divisions will be represented.

A great many letters of inquiry have been received by Mr. Foley, asking for special relay races, for the Baltimore team can run against the preparatory school teams in the District. The race between the four local high school teams will be the closest of the meet.

Eastern's Successes. Eastern has closed the most successful football season since the days, many years ago, when she used to battle with Central for the championship honors. Her team this year has been the best that has been turned out for a great many years. It is predicted that it will next year make a strong bid for the football championship.

As to the material for the track events it is not known definitely just how they stand, and so no one need be surprised if they spring a surprise and win a good little bundle of points. The girls' basketball team has been organized and has played and won the first game of the season against the strong team from across the creek by a score of 16 to 6.

Eastern's Girls Winners. Although Western put up a fine game the Eastern girls had the best of the argument from the start. This was all due to superior team work, too, which all goes to show the importance of having a team that will play as one person. There were one or two fouls made, but otherwise the game was clean and prettily played from start to finish.

In the first half not very much was done, the score standing 4 to 2 in favor of the Capitol Hill girls. In the second half the girls of both sides came on the field with the determination to win or know the reason why. In the first few minutes play it was demonstrated that the Western girls would not win

EARL AND COUNTESS GREY

The Earl Will Also Perform the Duties of Governor. Figured in the Jameson "Raid."

and the reason was that they were outplayed in every stage of the game. The features of the game were the center play of Miss McKnight of the long throws of Miss McCoy. When the whistle blew for the end of the second half the score stood 16 to 6 in favor of the fair warriors of Capitol Hill.

Eastern had the best team in the scholastic league and is trying her best to get the cup back to that school, and with a good deal of success, too.

Company Dance. Preparations are now being hurried forward for the company dance, which promises from present indications to be in keeping of the existing successes of the school. Now that the football team has disbanded, the "knights of the gridiron" are turning their attention to the company and have relinquished the padded uniform and rubber and leather armor to get into the neat blue uniform of the company and take up the armament of the soldier.

Business, weak, broken, and discouraged, has turned her attention from an unsuccess to the other pursuits in which she has hopes of making a better showing.

Hope to Win. In the coming meet at Convention Hall the students have hopes of winning a few events. The trouble with the people of Business is the lack of school spirit. This was shown at the championship games for the past season. At these games the girls and a few faithful boys would do their best to outcheer the hundreds of spectators from the other schools.

The students of Western High School are all getting ready to cheer their team on to victory in the coming game with Tech. If the boys play as they have been heretofore they will stand a fine chance of coming out victorious. The team this year is better than the team that was put on the field last year. Although it is not quite so heavy it is faster and in better training. It will be no surprise if Western should win this decisive game.

The girls' basketball team after its defeat at the hands of the Eastern girls are now practicing hard in order that the same performance may not be repeated. The team this year is unusually strong and has some of the best players in the high schools. But the girls need more team work.

Debating Society. Besides the coming football game and the coming games of the basketball team a great deal of interest is shown in the debating society which has every prospect of having a very successful season. After practicing behind closed doors for the past few weeks it will soon make its first appearance in the course of a short time before the scholars of the school, who will be assembled in the hall for the present, everyone connected with the society has been doing good work.

In the coming track events Western expects to share the spoils of victory, and already has several of her best runners out training hard. In the relay team, especially will Western show up strong and make a high bid for that race.

Central has now closed her football season and did so in great style, winning the last game of her series from

SUCCEEDS LORD MINTO AS GOVERNOR-GENERAL

Earl and Countess Grey Will Sail From England About December 1 for New Home in Canada.

LONDON, Nov. 19.—Earl Grey, who has been chosen to succeed the Earl of Minto as governor-general of the Dominion of Canada, sails from England about December 1. He opens his experience of colonial to South Africa, where he acted as British administrator in Rhodesia for two years.

His connection with Dr. Jameson of "Raid" fame, and his agreement with the employment of Chinese labor in the mines, have put him out of favor with certain parties, but on the whole his appointment seems to meet with the approval not only of the majority of people in England, but, even more important still, of the Canadians themselves.

The new governor-general, who is fifty-three, is a grandson of the late Earl Grey, and the brother-in-law of the retiring governor. He is probably best known by his work as a social reformer—as the pioneer of the temperance public house and garden cities.

form, and drill together like veterans, and have completely overcome the awkwardness that they showed at first on account of the new tactics.

The girls are very enthusiastic over the prospects of their basketball team, and think that they will win the championship. They are working hard, and already have developed a great deal of fine team work.

Will Introduce Pastor Charles Wagner at Next Tuesday's Lecture—Notable Array of Patrons.

Among the patrons will be Secretary Hay, Secretary Wilson, Secretary Hitchcock, John W. Foster, Justice Brewer, Gifford Pinchot, Admiral Cressley, Admiral Walker, Lieutenant General Chaffee, Gen. A. E. Bates, S. W. Woodward, John A. Kasson, Rev. Dr. Wallace Riedel, Rev. Dr. Tunis, S. Hamlin, Frederic C. Allen, Wayne MacVane, Henry A. Herbert, Herbert Putnam, Henry B. F. Wood, and others.

PHIL SHRIDAN POST HOLDS A CAMPFIRE. The spirit of '01 prevailed last night at a campfire given by Phil Sheridan Post, G. A. R., at the post hall, 1412 Pennsylvania Avenue. Fun and mirth reigned all the evening, from the opening of the exercises with a song by John Kelly to the winding up, when all the members joined in singing "Auld Lang Syne."

Next Dance in December. Tech will give her next dance on December 2, and precautions have been taken to be sure that it will be more successful than the last one, which was given a short time ago. The last dance was a disappointment. Invitations were not printed when expected, and many who otherwise would have been there did not get invitations. Besides this, there was confusion about the music.

Besides this, there was confusion about the music.

Nine Nations

Now Use Liquozone. Won't You Try It—Free?

Liquozone is now used almost the world over. Peoples half-the-world away from you are curing their ills by it. And so are people next door to you—your neighbors, your friends. Won't you ask some of them what Liquozone is doing? Then ask us for a bottle to try?

Liquozone is so new that few people realize how many millions are using it. One year ago it was almost unknown in America. Now nearly half the people you meet—wherever you are—know some one whom Liquozone has cured.

Don't you realize that a product which has spread like this must have remarkable merit? We have never asked a soul to buy Liquozone. We have published no testimonials, no evidence of cures. We have only asked the sick to let us buy the first bottle—to let the product itself show what it could do. Those sick ones told others, and the others told others. That is how it has spread.

Won't you do as those millions have done? If you are still using medicine for what medicine cannot cure, won't you learn what others know about Liquozone? Won't you let us pay the cost of your test?

Not Medicine. Liquozone is not a medicine. It is not made by compounding acids or drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 48 days' time. Each cubic inch of Liquozone requires the use of 1,250 cubic inches of the gas.

Liquozone is the result of a process, which, for more than 20 years, has been the constant subject of scientific and chemical research. The main result is to get into a liquid, and thus into the blood, a powerful, yet harmless, germicide. Another result is to create a vitalizing tonic with which no other known product can compare.

Acts Like Oxygen. The great value of Liquozone lies in the fact that it does what oxygen does. Oxygen is the vital part of air, the very source of vitality, the most essen-

tial element of life. It is the blood food, the nerve food, the scavenger of the blood. It is oxygen that turns the blood to red in the lungs; that eliminates the waste tissue and builds up the new. Too little oxygen always causes lack of vitality. An excess of it gives strength to every function of Nature.

Oxygen is also a germicide. The reason is that germs are vegetables; and an excess of oxygen—the very life of an animal—is deadly to vegetable matter. Liquozone acts like oxygen. But it does more than oxygen, because it is stable. It carries its virtues into the blood to go wherever the blood goes. It is a remarkable tonic—the best thing in the world for you. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The discoverer of Liquozone has solved the great problem of killing germs in the body, without killing the tissues, too. And there is no other way. Any drug that kills germs is a poison, and it cannot be taken internally. Liquozone is the only way that any man knows to end the cause of any germ disease.

We Paid \$100,000. For the American rights to Liquozone, and the British rights sold for a like sum. That is the highest price ever paid for similar rights on any scientific discovery.

Before making this purchase, we tested the product for two years, through physicians and hospitals, in this country and others. We employed it in all germ diseases; in thousands of the most difficult cases obtainable. We proved that in germ troubles it did what all the skill in the world could not accomplish without it.

Now Liquozone is more widely employed than any other medicine ever was.

All diseases that begin with fever—all inflammation—all catarrhs—all contagious dis-

eases—all the results of impure or poisonous blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

If you need Liquozone, and have never used it, please send us the coupon below. We will then send you an order on a local druggist for a full-sized bottle—a 50c bottle—and will pay the freight ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge for yourself as to whether you wish to continue.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle and give it to you, if there was any doubt of results. You want these results; you want to be well and to keep well. That is the fair thing to yourself to accept our offer today. Let us show you, at our expense, what this wonderful product means to you.

Liquozone costs 50c and \$1.

CUT OUT THIS COUPON. For this offer may not appear again. Fill out the blanks and mail it to the Liquid Oxygen Co., 483-484 Wabash Ave., Chicago.

My disease is..... I have never tried Liquozone, but if you supply me a 50c bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.
