

great enterprise in civil life: there are always workmen who get trampled down or lose heart, and there are always people who listen to their complaints. They amount to nothing one way or the other; so far as achieving results is concerned; and their complaints and outcries need never detain us.

Western Springs Surprise By Defeating Technical

Light Team Outplayed Last Year's Champions for First Time in High Schools' History—Winners Never Endangered.

Surprising her most ardent cohorts by the fierceness of her offense and the stubbornness of her defense Western towned Tech yesterday at National Park by 11 to 0.

When on the offense Western's varied attack gained ground through the line and around the ends, while on the defense the Georgetown forwards broke through, caught the Tech plays and held them until the second line could come through and drive the attack into the grass.

One Woman Wanted To See Real President

JACKSONVILLE, Fla., Oct. 21.—President Roosevelt arose this morning at about 8 o'clock to look out upon the pines and swamps of the Georgia-Florida line just north of the boundary at Folkston, where the engine paused for a drink of water.

There is a quarantine camp at the line, but no attempt was made to detain or stop the special.

Will Enforce New Rule in Maryland Politics

Secretary Bonaparte Not Disposed to Utilize President's Civil Service Order to Further Republicanism.

There will be no use of the Government departments in Washington certainly not of the Navy Department, which has been made the subject of most direct criticism to advance the prospects of Republican success in Maryland.

It indicates fully and definitely what the administration will be on this subject, which at present is receiving a large share of public attention.

WESTERN-TECH NOTES. The next game is on Tuesday, when Central meets Business.

On the offense Duganne played at full-back, but when Western had the ball he was at left tackle.

Western is the only high school whose goal has not been crossed.

Several of Tech's players were forced out of the game because of injuries. Western's changes were made in order to give the subs a chance.

The crowd was the largest of the season. The board of faculty directors had ropes stretched so the spectators could not interfere with the players.

Ellsworth made several pretty tackles when Western tried his end.

President J. Holdsworth Gordon, of the Board of Education, was present, and the Western victory pleased him as his home is in Georgetown.

Whenever Western was forced to punt Gus Worthington's trusty boot sent the leather out of danger.

Crook's flying tackle for Phelan, after the Western captain had cleared Tech's end in the second half, was a little short, but it saved a touchdown.

The whole Western contingent attended the Lafayette Theater last night and enjoyed things by songs and cheers. Miss Fay made a great hit by wearing the Red and White.

Several of the Western players were pretty well tired out after their battle with the heavy Tech forwards, but so happy were they over the victory that they forgot their pains.

ASSESS PRINTERS TO KEEP FIGHTING MONEY NEEDED IN EIGHT-HOUR CONTEST.

Will Ask Each Member to Contribute Fifty Cents a Week.

The International Typographical Union is making preparations to assess every member of the organization an additional 50 cents per week in order to continue the fight for the eight-hour day in all places where the local unions are now on strike.

The circular issued by the International Union has mailed a circular letter to many members giving notice of the contemplated assessment, which will first have to be voted on by the membership. It is contemplated to begin the assessment the first week in November, and from a membership of about 50,000, the amount raised each week will approximate \$25,000.

At the present time some 3,000 members are on strike, and the demands upon the International treasury aggregate \$18,000 per week. While many locals have been successful, there are indications of a stubborn contest in the jurisdiction of all locals where trouble is now on.

The circular issued by the International Union has mailed a circular letter to many members giving notice of the contemplated assessment, which will first have to be voted on by the membership.

The vote on the proposition must be taken by local unions on or before Tuesday, October 21, and the result certified to the International officers.

The eight-hour contest in Washington has not developed anything definite so far, and it is not known whether the local employing printers will decide to fight the issue or agree to the new terms which already have been proposed.

Weak Kidneys

It is of but little use to try to doctor the kidneys themselves. Such treatment is wrong. For the kidneys are not usually to blame for their weakness or irregularities. They have no power—no self-control. They are operated and actuated by a tiny strand of a nerve, which is largely responsible for their condition.

This tender nerve is only one of a great system of nerves. This system controls not only the kidneys, but the heart, the liver, and the stomach. For simplicity's sake Dr. Shoop has called this great nerve system the "Inside Nerves." They are not the nerves of feeling—not the nerves that enable you to walk, to talk, to act, to think. They are the master nerves, and every vital organ is their slave.
