

# NAVY YARD WON FROM ENGINEERS

## Long Runs Marked Grueling Contest.

### SUTTON'S SPLENDID SPRINT

#### Got Away for Eighty-five Yards Before Tackled by Lewis, Old West Point Man.

In a fast, clean game the Navy Yard football team defeated the Second Battalion of Engineers at the Coliseum this morning by 18 to 5.

The Engineers kicked off, Mackey receiving the kick and bringing it back fifteen yards. Navy then backed the line for short gains until Jimmy Kerr was sent around left end for twenty-five yards. After this followed a grueling contest, both sides repeatedly losing the ball. Navy got the ball on a fumble and Sutton carried the pigskin twenty-five yards up the field on a quarterback run. Kerr added fifteen yards and another quarterback run netted eight yards more. Kerr then went round left end for a touchdown. Licaroni punted out. Sutton headed the punt and kicked goal. Score 6 to 0.

#### Sutton Scores.

The ball was kept moving back and forth up and down the field until Sutton broke through on a 30-yard quarterback run for a touchdown. He kicked goal. Score, 12 to 0.

The next and last touchdown was gained by steady line bucks. Licaroni and Stratton being good for a few yards each time. Licaroni went through the line for five yards and a touchdown. Sutton kicked goal. Score, 18 to 5. This ended the scoring for Navy.

Just before time was called for the first half, Sutton broke through on a quarterback run, and made eight-five yards. He was good for a touchdown had not Lewis, the Engineer quarter, made a sensational flying tackle, bringing him down on Engineer's 5-yard line. The second half was nothing more than a slow, hard battle, in which the Engineers got the best of it. Kerr was put out in the first few minutes of play, and after that the team seemed to lose heart, although Licaroni and Stratton made some good gains.

#### One for Engineers.

Several times Sutton was tried on quarterback runs in this half, but he failed to gain very much, and was twice thrown for a loss. By steady gains the Engineers pushed the ball to the 5-yard line, where they were held for down. Navy punted out and the Engineers again brought the ball back to within a foot of the goal line. Navy, by the way, carried the ball ten yards, but lost it on a fumble, and the Engineers pushed their doughty little captain over for their only touchdown. Manahan failed to kick goal.

#### The Star Player of the Day

Was done by Sutton, Kerr, Licaroni, and Lewis, the former West Point quarterback, of the Engineers.

## NO ARRANGEMENT WITH M'CURDY

### Justice Peckham Indignant at Suggestion.

### RESIGNATION COINCIDENCE Predicts Great Future for Insurance Companies With Corruption Vindicated.

Indignation and astonishment at the disclosures made by President McCurdy, of the Mutual Life Insurance Company, is given as the reasons for the resignation of Justice Rufus W. Peckham from the Mutual's board of trustees.

In a statement made public today Justice Peckham said that he did not know that President McCurdy had resigned last Monday. That the two resignations came before the board at the same time was merely a coincidence, explained Mr. Peckham, and should not be construed to mean that the two executives stepped down together on a pre-arranged plan.

In discussing his resignation Mr. Peckham said: "I sent my resignation to the board of trustees on last Monday, and the fact that it arrived simultaneously with the resignation of President McCurdy was purely a coincidence. In fact, I did not learn that McCurdy had resigned until this evening. I told the trustees that I appreciated that it would be necessary for the board to hold frequent meetings from now on, in view of the exposures which had taken place before the legislative committee, and that as my duties here

would render it impossible for me to attend those meetings, I felt it my duty to resign.

#### Amazed at McCurdy's Salary.

I told them I had learned with great astonishment and with very great indignation the facts referred to by McCurdy before the legislative committee; that the funds of the company had been used to influence legislation, virtually to corrupt legislatures, and that they had been furnished to political parties as campaign contributions, both of which practices I regarded as beyond the pale of propriety. I expressed my amazement and indignation that Mr. McCurdy's salary had been so enormously increased by a subcommittee of the finance committee without even a report to the finance committee. All of these things had been done without the slightest knowledge of the board of trustees as a board, and I do not know just any individual member of that board was aware of them.

I told the board that I had written to the special committee appointed by the board of trustees to re-establish public confidence in the company; that reduction of his salary would not suffice, and a complete severance of his relations with the company would, in my judgment, prove essential to the re-establishment of that confidence in the public mind which the company has hitherto enjoyed and still craves.

#### Future of Mutual Life.

Speaking of the future of the Mutual Life Insurance Company, Mr. Peckham said that it was unquestionably solvent, and that he thought the public appreciated that fact. The justice declared that the interests of the public, as well as those of the companies, demanded not measures which would pull down the great insurance companies or impair their credit, but merely the removal of corrupt or improper practices in their management and their promotion along lines which would insure to their millions of policyholders the utmost security and benefit.

### QUESTION OF AUTHORITY.

The question whether the authorities of Alexandria city had a right to remove the body of James Richardson, who was shot by Alexandria policemen at Spring Park, from Alexandria county to this city and hold an inquest over them, is still disputed by the authorities of Alexandria county. When the coroner, Ashburn, arrived in this city yesterday he found the remains of Richardson had been buried. He departed, saying he was concerned, but that he would report the circumstances to Mr. Mackey.
