STEIN WAS EASY BUT DANGEROUS

Right Swings Knocked Sullivan Down.

INFIGHTING FINALLY WON

Washington Boy Beat Opponent With Jolts in Clinches—Jaw Not Well Protected.

Kid Sullivan stopped Kid Stein in the eighth round of the Eureka Club, in Baltimore, last night, but had a most lively time.

Stein was said to be two pounds heavier than Sullivan, and certainly did not look any more. He also had a reputation for being a vicious swinger and lived up to it. He was one of the earliest proponents Sullivan has had in many moons, but he was also the most dangerous man he has faced this year.

Knocked Sullivan Down.

Stein has a right swing which comes over remarkably fast, and with it he knocked Sullivan off his feet three times. Besides these loving attentions he got that swing full to Sullivan's head several times with such force that if the blow had been planted in the right spot the Washington boy would never have known what happened on the next ten seconds. The fact that Sullivan did not go out anyhow was a tribute to his stamina and ability to take punishment.

Sullivan said before he fought Stein that he knew the Philadelphia had a dangerous swing and that he would prepare his defense especially for that blow. When they came together the proposed defense went to pieces and Sullivan's friends were amazed to receive a comparatively easy manner with which he fell a victim to Stein's style of fighting. If he meets a really tough man who has a sopping swing like Terry McGovern, Washington's pride in her favorite scrapper is likely to receive a sudden jolt that will require a number of new victories to restore. Stein put that would-be hammer to Sullivan's head twice in succession in mikes, and if he had been blessed with more stamina he would have landed the money.

Body Punches Won.

Sullivan won by body punishment. When they got to a clinch he sent in punches to the stomach, which were so severe Stein had to go to the floor to escape them. The Philadelphia had a strong head and neck, but extremely weak legs, and the pile-driver swayed to his midriff curled him up early in the engagement and showed that he had no chance to get up unless he could knock out Sullivan.

The affair came to an end in the eighth round when Stein was on the floor from thumps in the breadbasket. He seconds threw the sponge into the ring to save him from a useless mauling.

Sullivan proved that he is still there with the goods in his hands on a more aggressive, but the Stein with which Stein got his jaw with rather poor boxing. He was a victim of a disappointment, and it is a pity that he is not himself better if he is matched with Terry McGovern. His infighting was his strong point, and if he enters an eighteen-foot ring with Britt in a ten-round bout and is allowed to hit in the clinches, the Celtics would go to have the time of his life, keeping out of trouble.

COACH YOST LIKES FORWARD PASS PLAN

That and Ten-Yard Rule Would Open Up Football Enough at Present.

DETROIT, Dec. 15.—Coach Fielding H. Yost, of the University of Michigan football eleven, has arrived here from Nashville, Tenn. Regarding proposed changes in the rules of football Coach Yost said:

"The ten-yard rule, which will probably be adopted by the football conference, will be a benefit. With five yards to gain in three downs the offensive team had three chances to get away with the ball. With ten yards to gain, in four downs, we get four chances. It will open up the game. And then the forward pass will result in a still faster game.

"If allowed, the rule will permit a quarterback to pass the ball forward to a halfback. The only proviso is that the halfback and player receiving the ball be on the same side of the line of scrimmage. Just think what an increase of speed this will cause; the back can get started before the ball is to the quarterback and the play can be in execution while the quarter passes the ball to the runner.

"The ten-yard rule, which will probably be adopted by the football conference, will be a benefit. With five yards to gain in three downs the offensive team had three chances to get away with the ball. With ten yards to gain, in four downs, we get four chances. It will open up the game. Standing, Left to Right—Miller, McKnew, Cox. Seated—Barclay, Marsh, Roesch

DISTRICT BOWLERS ROLLED TWO GAMES

Fat Men Defeated Bank Clerks and Florists Took Two From Acme.

Dohoney's 222 High.

There were two good games in the District League last night, the Fat Men winning the first set from the Bank Clerks and the Florist quint taking the first and second games, in the second set, from the Acme five.

In the Departmental League the Commissioners took two from Treasury and then dropped the third by three points. Among the Real Estate bowlers City Hall lost the three games to the Harrison & Browning Co. Team scores in this set were all low.

In the Government Printing Office League the Pressmen won two and then lost the third to the Cowboys. Dohoney was high for the evening with 222.

HERRMANN DEFEATED HANLON ON POINTS

LOS ANGELES, CAL., Dec. 15.—Kid Herrmann, of Chicago, made his Coast debut last night before the Pacific Athletic Club, by earning a decision over Eddie Hanlon in a terrific twenty-round battle.

The sturdy little California fighter was always coming and made a whirlwind finish, in which he had the Kid in distress, but Herrmann had gained such a decided advantage between the fifth and seventh rounds that the referee, without hesitation, patted Herrmann on the back at the final gong.

PENN AT BALTIMORE

Risley and Olsen, two of Penn's track athletes, will leave this afternoon for Baltimore, where they will take part in the indoor meet to be held at the Fifth Regiment Armory tonight. Risley will compete in the handicap high jump and Olsen will run in the dashes.

ONLY INTERCLASS GAMES AT COLLEGE

Such Restriction Might Reform Football—Would Abolish Intercollegiate Contests Altogether.

Restriction of football to interclass games seems to be gaining in favor, though much of the present talk will be forgotten by the time another season rolls around.

Enemies of the game at Yale have forced the calling of a faculty meeting, which will discuss the abolition of intercollegiate contests. Northwestern has declared in favor of such a move, and Lombard has gone both institutions one better, having abolished the game, excepting among the students themselves.

The association is now in its most flourishing condition and the prospects are that the coming regatta will be the most successful in the list since the "American Henley" was initiated.

PERSONAL COMMENT ON MEN AND THINGS IN THE FIELD OF SPORTS

BOXING.

Gus Bezenah is to fight Jimmy Carroll in New Orleans on December 21.

Jack Butler, of Brooklyn, had Kid Carter all but out in a three-round bout at Brooklyn Tuesday.

Charley O'Rourke and Tommy Sullivan, the New England welterweights, have been matched to box on twelve Monday night.

Tommy Tracy was practically knocked out by Warren Zubrick, of Los Angeles, in the eighth round of a scheduled twenty-round fight before the Vancouver (Wash.) Athletic Club last week. It was the third round of a scheduled twenty-round fight before the Vancouver (Wash.) Athletic Club last week. It was the third round of a scheduled twenty-round fight before the Vancouver (Wash.) Athletic Club last week.

EASTERN LOST GAME TO TECHNICAL HIGH

Northwest School Defeated Capitol Hill High in Uninteresting Contest—Exhibition Game Will Be Played.

The Technical High School girls' basketball team defeated the second Eastern High school at the Yale Street Church gymnasium yesterday afternoon by 8 to 5.

The game was uninteresting, neither side putting up the sort of ball it is capable of. At the Yale Street Church Eastern forwards did good passing, but the Technical guards prevented the best blue and white goal throwers from scoring.

It is thought that the Eastern and Central teams will play an exhibition game in the Business High School gymnasium some time before or during the holidays as an example of what the young ladies are doing in athletics. The game will not be a championship contest, but simply a special game played in connection with the District school exhibition, which is to be held next week.

AUTOMOBILING.

In Russia, where the roads are in such condition that strength and simplicity are essential to success. The trouble-some land of the Czar is one of distances, and the motor car is found exactly suited for the purpose of going from country estates to the nearest town or railway station. It is surprising to note that in many of the German cars have monopolized the market in Russia.

The automobile is to come into great prominence in the life of Asbury Park next summer, if rumors are well founded. The hoteliers in order to serve next refreshments to guests who come to the no-ho-ho-ho town, have hit upon the plan of maintaining a centrally located parking bureau just beyond the mile limit to which fast autos will run at all hours with signed commissions from the guests' respective hotels. The time required to get a drink in this way is expected to make thirst all the greater and incidentally prove a boon to business.

The Motor Car says: "The life of a motor depends to a surprising extent upon the treatment it receives. Its failure, except as regards worn bearings, is almost invariably due to carelessness in handling in some way rather than to legitimate use. There is little or no choice between the two evils of racing and laboring, both bringing about a great deal of wear and tear, and endangering the working parts. Another evil to be studiously avoided at all times is that of running with too early ignition, as this racks the parts and at the same time detracts from the power."

Novel inventions are all the time cropping up in the line of motor-driven vehicles. A man in Toledo, Ohio, has perfected an automobile street sweeper driven by a five horsepower electric motor. It has been tested and found very successful, and a company is now being formed to manufacture the machine in two sizes. Another Westerner, this time from Grand Rapids, Mich., has invented and patented an automobile which will run on ice and snow as well as the ordinary road. The car is placed on runners or shoes and driven by spur wheels located beneath the body which comes in contact with the road, which are hung so as to conform to changes in grade.

AMERICAN HENLEY STEWARDS' MEETING

Regatta Will Probably Be Held May 26.

LOOK FOR MORE CREWS

Yale and Harvard Expected to Be Represented Next Spring—Authorities Present.

The annual meeting of the board of stewards of the American Rowing association is being held in New York city today and at it the stewards will make their plans for the annual regatta in May. Although action has not yet been taken it is probable that the regatta will be held on May 26, the Saturday preceding Memorial Day. It is certain that it will be held in Philadelphia as it is now a permanent fixture for the Schuylkill course.

One of the features of the meeting is the presence of college rowing authorities. There will be representatives present from the leading universities of the East including Pennsylvania, Harvard, Yale, Cornell, and Columbia. Pennsylvania will be represented by William Innes Forbes, Dr. J. William White and Thomas Reath, while C. B. Wood will represent the Schuylkill Navy. Italian club to be in charge of Yale's interest while Prof. Ira Hollis will represent Harvard.

The stewards hope to have a larger number of college crews present than on hand last year. Crews are expected from Pennsylvania and Cornell and there is every likelihood that both Harvard and Yale will send at least their second crews. Every effort is being made also to have Columbia, Syracuse, and Georgetown represented for the first time.

The minor leaguers decided to call off the meet scheduled to take place in January at San Francisco. Most of the delegates objected to the long journey and as a compromise it was decided to hold the meeting at Chicago in January.

DONOVAN ACTIVE IN TRADING LINE

Swapped Sheckard for Four Chicago Players.

HOW DOES PATSY STAND

Maybe Washington Still Has Hold on Him But Won't Kick.

NEW YORK, Dec. 16.—One of the first acts of Pat Donovan as manager of the Brooklyn baseball club was to approve a trade which had already been agreed upon by the Brooklyn and Chicago clubs.

Captain Jimmy Sheckard, of the Trolley Dodgers, has been exchanged for Outfielders Billy Matoney and Jack McCarthy, Third Baseman Jimmy Casey and Pitcher Bert Briggs, of the Chicago Nationals.

Donovan himself will play right field for Brooklyn and Lundy will be shifted to center or left. McCarthy and Matoney will alternate in the other outfield position.

KICK ON PROFESSIONALISM

Demand It Be Abolished Both Among Students and Coaches—Strong Resolution.

CHICAGO, Dec. 16.—Presidents of sixteen Western colleges, members of the Presbyrian Union of Colleges of the Middle West at their semi-annual meeting yesterday, took drastic action regarding football as it is now played.

They adopted resolutions to the effect that unless radical reforms were inaugurated at once and the professional element eliminated from the game altogether, not only among players, but coaches and trainers as well, they would vote to drop the game entirely.

At the conference of colleges to be held in New York, December 28, the national meeting, the following resolution will be presented.

"It is the judgment of this union that intercollegiate athletics are now claiming entirely too large a place in our American college and university life; that athletics should be so managed as to make them strictly subservient to the highest intellectual and spiritual ends of education; that in view of the serious abuses attending the game of football, as now played, we demand that the rules and regulations be radically reformed, or else that the game be abolished. This reform must not only eliminate the unnecessarily dangerous features of the game itself, but must reach the far more serious moral evils growing out of professionalism, which now our college sport.

President James Wallace, of McAllister University, Minnesota, started the movement by an address in which he strongly advocated the unconditional abolition of the game in all schools. He doubted if there would be any reform in playing rules, and considered it the best plan to drop the game altogether. Other presidents were less radical in their views, but all agreed that public sentiment demanded immediate reforms.

At a special meeting of the Automobile Club of America, held at the Manhattan House last evening, the membership of the organization was raised from 700 to 1,000. There are now about 100 names on the waiting list. These will be considered at the next meeting of the board of governors. Six years ago only about 200 members. The growth since that time has been remarkable and most encouraging to those who have the interests of the body at heart.

Reduce Your Fat

Rengo Fruit Rapidly Reduces Excess Fat Without the Aid of Tiresome Exercises or Starvation Diet.

COSTS NOTHING TO TRY.

Rengo Fruit is a product of South America and it has been recently discovered that it contains some very remarkable properties which will reduce the fat and build up the strength and health for anyone who eats it regularly.

Bobby Walthour, champion bike rider, is going to the Florida races this winter. Walthour says he can do a mile in a minute with his motor cycle, if paced.

Tom Sullivan, of Yale, says the reforming want to make football an old maid's game. Tom can talk that way now since all arrangements have been made for him to be "hitched up."

Marc Catling, Chicago hurdler and captain of this year's football team, is coming East to compete in college at the close of school in June. It is also doubtful whether he will run on the track team.

Capt. Tom Shevlin, of Yale, is out after his fourth "Y." He has one for baseball, one for football, and one for track work. Now he wants to make good on the hockey team and break all records.

James Lightbody, the crack long-distance runner of the Chicago University, is coming East to compete in a mile in the third round. Then, was sold to be held under the auspices of Columbia University.

MISCELLANEOUS.

In a hockey game at Detroit Tuesday night two men were carried off the field from injuries. The reform movement has not yet started.

Percy Hills, an erstwhile Columbus bowler, who of late has been calling Cleveland his home, a responsible some phenomenal scores in bowling. In two games in a few weeks he has established a mark of 30, which is about the limit of perfection.

Dispatches state that the "six-day" racers cannot eat enough. "Six-day" mean that they are financially unable to buy the way Eddie Rocco grabbed the prize money, with his wife protecting him by use of a six-shooter.

WESTERN COLLEGES WAIT BIG REFORMS

Football Must Be Entirely Changed.

KICK ON PROFESSIONALISM

Demand It Be Abolished Both Among Students and Coaches—Strong Resolution.

Neckwear—if properly bought—would be a most acceptable gift to any man, and the best place we know of to do proper buying is here.

When we say "proper" we mean satisfactory. Bieber-Kaufman neckwear embodies all the style and exclusiveness of good neckwear—but is sold lower than usual.

In equal completeness with the neckwear array is the clothing, other haberdashery, and shoe displays, all uniting to make this the shop for useful gifts for men.

Open late this evening. Come down.

W. E. DEER KAUFMAN CO.
