

NEWHOUSE MEETS DEATH ON TRACKS

Former Government Employee Killed by Train.

MIND DISORDERED BY WORK

Several Years at St. Elizabeth's. Leaves Widow and Two Children.

Paul J. Newhouse, fifty-three years old, of 1111 New York avenue northwest, died late yesterday afternoon at Gathersburg, Md. Mr. Newhouse, who, it is said, had been mentally deranged for several weeks, was walking along the railroad tracks of the Baltimore and Ohio road when he was run down by a train and instantly killed.

Yesterday afternoon Mr. Newhouse attended the funeral of Joseph B. Milans, at Congressional Cemetery. His wife says he did not come home last night, but she thought he had stopped with friends.

Finds Mangled Body.

Early morning the station master at Gathersburg found the mangled body on the side of the tracks. No one was able to say how the man got out that far or why he should have gone there. In a book in his pocket, Newhouse had written, "In case of accident, notify Secretary Johnson, of the Grand Lodge of Masons, Washington, D. C."

Mr. Johnson said today that Newhouse was employed in the Congressional Library for some time, and too close application to his work affected his mind about ten years ago. After spending three years in St. Elizabeth's Asylum Newhouse was discharged as cured. He was then appointed librarian in the Masonic Temple.

Old Trouble Again.

About two months ago Mr. Johnson says he noticed a change in Mr. Newhouse's conduct, and was confident that Newhouse was suffering from a mental trouble.

Arrangements for the funeral are in the hands of E. Y. Davidson, master of Hope Lodge.

Mr. Newhouse is survived by a widow and two children.

APPS FOR GENERAL SCHEFFEL SOUND

Body Laid Away With Honors at Arlington.

The late Lieut. Gen. John M. Schofield was buried at Arlington National Cemetery this afternoon with full military honors. President Roosevelt, the members of the Cabinet, the Diplomatic Corps, and representatives of G. A. R., of the Loyal Legion, Army of the Tennessee, Army of the Ohio, and Army and Navy, attended the funeral services which were conducted by Bishop Mackay-Smith, at St. John's Church.

The Honorary Pallbearers.

The honorary pallbearers were: Secretary of War Taft; former Secretaries of War Proctor, Elkins, Alger, and Root; Lieut. Gen. J. C. Bates; Major Gens. G. M. Dodge, Wesley Merritt, and J. P. Sargent; Brig. Gens. J. H. Wilson, W. M. Wheeler, and Thomas V. Vincent.

The navy was represented by Rear Admiral Remy as honorary pall bearer in the absence of Admiral Dewey, who was unable to attend on account of ill health.

Brig. Gen. T. H. Barry, U. S. A., commanded the military escort, which consisted of six companies of coast artillery from Fort Washington, Md., four companies of engineers from Fort Washington Barracks, and a squadron of cavalry and the two batteries of field artillery from Fort Myer, Va.

Salute From Fort Myer.

When the cortege reached Fort Myer, on the way to Arlington, an artillery salute of seventeen guns, the salute reserved for a Secretary of War, which position General Schofield held in 1868, was fired.

Interment was made in a beautiful lot in the eastern section of the cemetery, which had been selected some time ago by General Schofield. It is located near the General Sheridan monument, and just east of the Temple of Fame.

Representatives Societies.

The Society of the Army of the Tennessee was represented at the funeral by Gen. John C. Black, Major William Warner, Major Vespasian Warner, Capt. J. T. Hall, Col. W. F. Henshaw, Col. O. D. Kinsman, Capt. E. H. Parsons, Col. R. H. Tilton, Capt. J. E. White, Gen. Maxwell, Wood, Mrs. John A. Logan, Mrs. John C. Black, and Mrs. C. A. Hovey.

Congress Asked to Fight Tuberculosis

As a preventative to tuberculosis in the District of Columbia, Senator Allee has introduced a bill in the Senate requiring that all cases of pulmonary tuberculosis shall hereafter be reported to the health officer of the District.

By the provisions of the measure all physicians who are called to attend patients afflicted with that disease are required to report, in writing, without delay, a complete report on all cases. Where there is no physician called to attend such sick persons, the patient, or his or her parents or guardians are required to make such report. The reports made shall be the exclusive property of the Health Department, and not accessible to other than the officials of that department.

The bill also provides for disinfection and inspection of the premises in which such sick persons may reside.

CHIEF GOAT OF INSURANCE SCANDAL SURPRISES BY RETURN FROM EUROPE

"JUDGE" ANDREW HAMILTON, Who Was Accused of Operating Most of the Yellow Dog Funds at the Armstrong Hearing.

MASTER PLUMBERS OPERATORS WOULD PLAN FOR PEACE MAKE COAL HIGHER

At Meeting Today Will Consider Settlement. This to Follow Increase in Miners' Wages.

MUCH WORK HELD UP OPPOSED TO THE UNIONS

If Understanding Is Not Reached This Week Statement May Be Issued to the Public. Generally Thought Subcommittee Will Refuse to Officially Recognize Organizations.

The committee representing the master plumbers will hold a meeting this afternoon and consider the situation up to date. They will, it is said, perfect plans for bringing about a settlement of the trouble with the journeymen plumbers who were locked out last Saturday.

Don't Want Outsiders. The master plumbers do not want to bring outsiders into Washington if it can possibly be avoided, and the only way this can be brought about is for the journeymen to agree to abide in good faith by the five-year contract which the masters say, was broken by the journeymen last summer. Large plumbing work is just at this time blocked by reason of the lockout, but necessary and important work, emergency jobs, are taken care of by the master plumbers.

Some half dozen or more apprentices and helpers have quit and joined the journeymen. The apprentices and helpers who quit work will not be taken back by the master plumbers.

Statement May Be Issued. It was said this afternoon that if an understanding between the journeymen and master plumbers is not reached by Saturday morning the master plumbers will then give out a statement setting forth their side of the controversy, so that the public will know who is responsible for the trouble which, if continued any length of time, necessarily delays all building operations now under contract.

DISTRICT ESTIMATES DUE FOR DECIDED TRIMMING

Committee on Appropriations Considering Matter—Police Department May Be Affected.

Now comes the District's turn before the House Committee on Appropriations, whose economy has come to be feared by all.

The District Commissioners began their series of conferences at 2 o'clock this afternoon with the District subcommittee of the Committee on Appropriations, whose duty it is to put the District appropriation bill into final shape.

Although the Secretary of the Treasury has recommended that a reduction of only \$28,422.15 be made by the Appropriations Committee in the Commissioners' total estimates, which amount to \$11,567,620.15, the committee makes no secret of the fact that it will cut down the estimates considerably. It was said in one quarter at the Capitol today that the District appropriation bill will be cut more mercilessly this year than it has ever been in the history of the District.

It is a positive fact that a determined assault will be made on all estimates affecting the police department, and there is a chance that such estimates may be closely trimmed.

As possible, the Speaker, Chairman of the Appropriations Committee, and Chairman Gillett, of the District subcommittee, are strong for economy in Government expenditures this year, and every effort will be made to keep the estimates down wherever possible.

It is thought that the bill will be reported to the House within the next two weeks.

WEBSTER'S REMAINS SENT HOME

After the receipt of a dispatch from the brother of Joseph C. Webster, who ended his life at the Marine Barracks yesterday by cutting his throat from ear to ear with a razor, the officials at the Naval Hospital today sent the remains to the family home at East Northfield, Mass. The body will be given a private burial by the relatives.

HAMILTON COMES TO CLEAR M'CALL

Will Fight for Justice to Dead Friend.

WALDORF ASTOR TAKES HAND

Sends Cable From England Ordering Private Investigation by Attorneys of Affairs of Mutual.

NEW YORK, March 7.—"Judge" Andrew Hamilton, whose return from Paris was totally unexpected, did not take any longer than it required to get to the Grand Central Station, and today is at his home on Thurlow terrace, in Albany.

"Judge" Hamilton refused to make any statement further than that he was here to "face the music."

"It was the death of John A. McCall that brought Hamilton back to this country," said a New York Life official. "He believes that certain men who should have borne their share of the responsibility have shirked their duty, and I believe he is determined that justice shall be done to the McCall family by doing what he can to clear the name of John A. McCall and restore his estate, even though others should suffer."

Will Raise Lid Again.

It was said he would make full disclosures of his operations as legislative agent for the New York Life. Such disclosures, said one of the company's officials today, would do more damage to reputations than all of the exposures made since the opening of the insurance scandal in February a year ago.

"Mr. Hamilton," said one of the judge's friends, "has come home with clear conscience and a clean conscience. He not only has the courage and ability to meet every condition which confronts him, but he feels that he is absolutely in the right. He assured me some time ago that when his health was sufficiently restored he would be home, ready and able to take up his own interests, and that those interests in every particular easily defensible."

William Waldorf Astor, after a conference in London with Lord Northcliffe, sent a cable message to a prominent lawyer here asking for an impartial report on the situation in the Mutual.

Lord Northcliffe, it was learned, had gone to Mr. Astor after receiving Mr. Fish's response to his message urging Mr. Fish to keep the lid tight for the cleansing of the Mutual Life.

OPERATORS WILL NOT GO ON STRIKE

Report of Trouble in Southern Denied. RELATIONS ARE AGREEABLE

Alleged Interview With President Perham Pronounced a Fake by That Official.

There will be no strike of the telegraphers and station agents of the Southern Railway Company on Friday, as has been reported. At the office of the Southern Railway Company this morning, the officials said they had no comment to make.

H. B. Perham, president of the Order of Railroad Telegraphers of the United States and Canada, said to a Times reporter this morning that the statement printed this morning as coming from him was not authorized.

"I have not seen any newspaper reporters since my arrival here Monday," said he, "and was surprised when I read the alleged interview with me printed this morning. It is true the telegraphers employed by the Southern have petitioned for an advance in the wage scale, and many of the Western men have organized the increase asked for. The officials of the Southern have treated us with every consideration, and our relations have been most pleasant. We hope and believe that the request of the men will be granted."

Negotiations in Progress. The negotiations for an increase of pay of the telegraphers and station agents employed by the Southern have been in progress since last December, and the officials of the railroad have from time to time, conferred with the officials of the Telegraphers' Union, making suggestions and modifications in the new agreement which the men want the officials of the Southern to sign.

The average pay of the men varies from \$30 to \$50 per month, and the men ask that the minimum wage be placed at \$40 and the maximum \$85 per month. The men are hopeful that an amicable agreement will soon be reached.

PRESIDENT LEARNS DEEDS OF DOGFISH

That Species and Sharks Playing Havoc—Eating Marketable Kinds.

The ravages of the dogfish and shark among the fisheries of Massachusetts was discussed by the President today with a committee appointed by the governor of Massachusetts. The sharks and dogfish are destroying great numbers of other fish, the ravages being so extensive as to affect the fishing industry.

There is a bill before Congress to promote certain industries, which make use of the shark and the dogfish. The wholesale capture of these destroying fish would soon kill them off.

The matter is of so much importance to the fishing interests of Massachusetts that the governor appointed a special committee, composed of Dr. George W. Field, of Boston, chairman, of the Massachusetts Fish and Game Association; Representative E. C. McIntire, of Gloucester; and Senator H. H. Harding, of Cape District, to come to Washington and advocate the bill before Congress.

They were introduced to the President this morning by Representative Gardner of Massachusetts.

FORAKER WISHES ENGLAND TO HELP GUARD NIAGARA

When the Senate met today Mr. Foraker asked immediate consideration for a resolution, authorizing the President to invite Great Britain to join in the appointment of an international commission having for its object the preservation of the natural beauties of Niagara Falls. It carried an appropriation of \$20,000.

Mr. Teller said he thought that the question was one with which New York State should deal. He objected and the resolution went over.

Our Seeds or Your Seat, Warning to Congress

House Action Arouses Man With Hoe and Plow.

MAIL FALLS AS SNOWFLAKES

Representatives Who Voted Against Distribution Have Already Ordered Sackcloth Suits and Asked Jobs.

Members of Congress are worried and forlorn. It is a bad situation—for Congressmen. From the top of the tallest pine tree in Maine to the furthest bull frog in the Everglades the cries of wrath arise. From the glitter of the Golden Gate to the "shanghaied" victims on the

Writing to Their Congressman.

oyster boats in Chesapeake Bay, the resolutions for speedy vengeance come. Farmers the country over are in a state of indignation bordering on hysteria. Letters that in numbers put the snowflakes of the Arctic regions into a minor class are being received every day by the members of Congress.

Seeds Voted Down. It is all on account of the fact that the House Committee on Agriculture has voted, 8 to 7, not to recommend an appropriation this year to buy seeds for free distribution among the people of the United States. Annually, for a long time, Congress has appropriated \$10,000, which allowed each Congressman to send to his constituents 1200 packages of vegetable seeds and 500 packages of flower seeds.

Now the Committee on Agriculture votes to change the time-honored custom. Constituents, however, are a wild lot, and they know the change cannot

WAR DEPARTMENT SAYS HALE'S WRONG

Taft Started Preparation Against China. MANY WAR PLANS ON HAND

President Asked That for Far East to Help Discussion With Cabinet About Situation.

Senator Hale's criticism in the Senate yesterday of the general staff of the army for alleged undue activity in preparing plans for possible operations in China is the subject of much discussion today by Senators and officials. The members of the general staff feel that they have been misrepresented, but by the ethics of the service are precluded from making a direct defense.

The War Department view is that the Senator from Maine was wrong, either in his premises or deductions. When he absolved Secretary Taft from all responsibility in the sending of troops to Manila for possible Chinese service he seemed unaware that four months ago it was Secretary Taft himself who publicly announced that two brigade posts were to be established in the Philippines, and that the forces in the field would be increased to meet Chinese contingencies. This followed Secretary Taft's trip to the Orient and his personal visit to Canton.

Secretary Root had a part in the deliberations leading Secretary Taft to his purpose to send troops, but Mr. Root presented the views of the State Department agents in China and his own opinion that there might be an outbreak. The whole proposition was thrashed out in Cabinet meeting, and the President and his secretaries were unanimous in supporting the preparations.

"It is true," said a high ranking officer of the general staff this morning, "that we have drawn up a scheme for an attack on China, should such a remote contingency arise, but we have also prepared plans for possible wars with many other countries, including Venezuela, with which power it seems probable at one time, that this country might be involved in serious difficulties. It is also true that the President called upon the general staff for his Chinese plans, in order to see just what the United States could do should it become necessary to use armed interference in China. It is not true, however, that the general staff is trying to force a large military establishment on the country."

"It is only doing its utmost to place the country in the best possible position for war with the forces available should hostilities occur."

CONCESSIONS TO FRANCE ANNOUNCED BY GERMANY

Foreign Office at Berlin Admits Having Sent Conciliatory Instruction to Algerias Delegates.

BERLIN, March 7.—The foreign office today announced that the German government has sent new conciliatory instructions to the German delegates to the international conference on Moroccan affairs now in session at Algiers. These new instructions are intended to facilitate the reaching of a satisfactory agreement at the conference.

FIRE DESTROYS PAPER PLANT.

NEPNAH, Wis., March 7.—The large manufacturing plant of the Neenah Paper Company, owned by John A. Kimberly, was almost totally destroyed by fire early today. The loss is estimated at \$300,000.

Waiting for the Congressman's Return From Washington.

be made unless the whole House votes it. As the first of the spring comes the desolate wastes of their flower gardens and the ravens and hawks pick their way among the weeds and the weeds take away the means of beautifying the flower borders and vegetating the gardens as a desecration of ancient rights and perfectly reasonable privileges. They are in rage, and they will have vengeance.

The rural element is aroused. It is on the move. It is irresistibly outraged. Congressmen who were applauded by city people for their economy in managing the Government's money are being cried down by those who foregather by the brookside or within the shadow of the forest. Those legislators who laughed pleasantly to themselves at the realization of their success are now donning the sackcloth and the ashes in preparation for the swan song which they may have to sing.

In Congress' Mail. Swineford, Pa., March 1. Congressmen Muchmore and Hester. No seed, no seat. Yours truly, THE GRANGERS' CLUB, Burr Oak, Kan., Feb. 28.

"Bill" Ferguson, the Capitol, Washington, D. C. You didn't send me a Government mule; you didn't get my boy in the navy; now you're going to stop giving seeds. What in — are you in Congress for anyway?

EZEKIEL LITTLEJOHN, Hester St., N. Y., March 2. Dear Bill: Say, what's the matter with youse guys down there? That last speech you made you says "fill the east side with flowers and make the plain people happy." Say, that's all to good when you're talkin', but when it comes to deliverin' the goods it's only three for us. Kin we get seeds with mule? Kin we get seeds with navy? into them blokes and put that new game on the blink. EDDIE MAGINN, (Jimmy the Mouse).

TYPOS WIN FIRST POINT OF TRIAL

Numerous Typothetae Affidavits to Be Stricken Out. EIGHT-HOUR BATTLE ON

Legal Phase of Fight Is Begun Through Equity Proceedings Before Justice Staffed.

The legal fight of the members of Typographical Union, No. 101, for an eight-hour day in the District was compared today before Justice Stafford, presiding in Equity Court, No. 2.

The matter was brought to the attention of the court by the members of the local Typothetae, who asked that the union printers be restrained from interfering with them in the conduct of their business by picketing their workshops and otherwise harassing them.

Denied by the Typos. In their answer Columbia Typographical Union and its members denied that they in any way interfered with the members of the Typothetae or that they had interfered with their employees. They also filed a large number of affidavits in support of the position they assumed in the premises.

When the matter came on for hearing the union men won first blood. Their counsel, Attorneys Eakston and Siddons, moved to strike from the record a large number of affidavits filed in behalf of the complainants. The affidavits referred to were of three classes, sixteen relating to events which occurred before the Typothetae commenced proceedings for an injunction, seven to events which occurred, some after and some before the proceedings were begun, and twelve which related to events which took place after the litigation was commenced.

Affidavits Ruled Out. After hearing argument on the motion by Messrs. McKenny and Flannery, opposing it, Justice Stafford ruled out the affidavits of the first class and part of those of the second class.

The matter then was considered on the complaint and answer and the affidavits filed by the contending parties. It is probable the hearing will occupy the attention of the court all of today and part of tomorrow.

BILL TO ALLOW BANKS TO LOAN ON REAL ESTATE

The House Committee on Banking and Currency reported a bill this morning to authorize national banks to loan on unincumbered property. At present national banks are not permitted to loan on real estate.

The bill as reported provides that the loans shall not exceed 99 per cent of the sale value of the property, and shall be made for a term not exceeding one year; it must be approved by a majority of the board of directors, and no loan of this character shall exceed 25 per cent of the bank's capital.

INJURE GUARDSMAN MAY GET PENSION

Bill Introduced in Senate to Aid Dietz.

WOUNDED ON RIFLE RANGE

District Militia Interested in Result Which Will Establish Precedent.

A bill granting a pension of \$30 a month to George L. Dietz, late of company D, Sixth Battalion, National Guard of the District of Columbia, was introduced in the Senate yesterday afternoon by Senator Dick of Ohio.

The bill is of great interest to members of the District National Guard in that if it becomes a law, it will establish a precedent in allowing pensions to members who have become disabled by virtue of unavoidable accidents while participating in military practice authorized by competent authority.

Wounded During Target Practice. Private Dietz was wounded in the head while participating in target practice on the Ordway rifle range some years ago. He has not fully recovered from the effects of the wound, and physicians who have attended him claim that his affliction is permanent. The case was brought to the attention of Senator Dick last Congress. He introduced a bill providing for a pension for the unfortunate guardsman, but it died in committee.

Will Make Strong Effort. Friends of Dietz again took up the issue, both with the Commissioner of Pensions and the Senator, and have been given assurance that a final effort would be made this Congress to legislate in favor of the soldier.

NEWS OF GEORGETOWN

The board of directors of the Washington Boys' Club, whose headquarters are at 220 N street, has made arrangements to remain there until the regular summer closing time in June. The club's lease will expire March 15. The club has been unable to secure other quarters.

CITIZENS MEET TONIGHT. The Georgetown Citizens' Association will meet this evening at Co-operative Hall, 1235 Wisconsin avenue, at which the president, Smith Thompson, will announce the committees appointed by him last month to assist in the city's work.

LENEN SERVICES TONIGHT. The Rev. Caleb H. Stetson will preach the sermon this evening at St. John's Episcopal Church at the regular Lenten Wednesday evening service, under the auspices of the Brotherhood of St. Andrew. The services will be conducted by the pastor, the Rev. Frederick H. Howden, the music being under the direction of the Rev. George G. Daland, assistant pastor.

DID NOT GET RIDE. Bids are being received for the work on the last mile and a half of the Great Falls and Old Dominion Electric Railroad. The line is now completed to a point known as Difficult Run, and it is said, within a few weeks the road will be complete.

Last Sunday a crowd of Georgetown folk went to the Rosslyn terminus of the line, with the expectation of taking in the trip to the Falls. They were disappointed, as the company will not be ready for business for business for at least a week.

CANAL OPENS SOON. Traffic on the Chesapeake and Ohio Canal will be resumed this year the latter part of this month. Last year over 300,000 tons of soft coal were shipped here from Cumberland, and about 75 per cent of this amount was shipped in barges to New England ports from Georgetown.

During the winter months the water has been drawn from the upper levels of the waterway, in order that certain improvements could be made.

DEATH BY INDIGESTION

A Long Train of Fatal Ills: Is the Direct Result of Undigested Food.

Undigested food, by fermenting, forms a poison in the stomach and this is absorbed in the blood. If this goes on very long, and your heart happens to be weak, you'll be found some morning dead in bed, or you may fall back down the stairs about an hour and a half after dinner, and the doctor will say heart disease. Yes, that may be the result, but not the cause. The cause is indigestion. Indigestion is a simple, common word, but it has a fearful import.

And so you may get apoplectic, and die suddenly while you're standing. If you have a weak liver, the poison of undigested food will attack it and you will get jaundice. If you have weak kidneys you will get Bright's disease or diabetes, from which there is no rescue for any man.

It was a learned physician who said that the progress of a race depended upon the stomachs of its members.

And you have at some time in your life eaten a heavy meal, or eaten in a hurry, and felt that "hump of lead" immediately afterward. That lump of lead is a hard ball of undigested food. The stomach can't digest it, and finds it hard to throw it out. And so it sours, and it makes you sour and everybody sour who talks with you. Frederick H. Howden, the doctor who gives you a bad breath and is building for you the road to dyspepsia and death, unless you stop it.

It is with Stuart's Dyspepsia Tablets. Just think, these little tablets are every bit as powerful as the gastric juice in your stomach. One grain will digest 2,000 grains of food. Isn't that wonderful? And it is true, just try it, and you'll prove it.

If you have any brash, gas on the stomach, fermentation, burning, bloated feeling, indigestion, dyspepsia, or heartburn, Stuart's Dyspepsia Tablets will make it disappear before it can do any harm to your heart or other organs.

They will invigorate the stomach, relieve the stomach of two-thirds of its work and give it a chance to rest. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good hearty meal, and taken one of these little tablets immediately afterward.

You'll just feel finer organs. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good hearty meal, and taken one of these little tablets immediately afterward.

You'll just feel finer organs. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good hearty meal, and taken one of these little tablets immediately afterward.

You'll just feel finer organs. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good hearty meal, and taken one of these little tablets immediately afterward.

You'll just feel finer organs. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good hearty meal, and taken one of these little tablets immediately afterward.
