

HUNDRED PRINTERS LOSE THEIR JOBS

G. P. O. Employes Dropped From Rolls This Afternoon.

NO WORK TO KEEP THEM

Several Important Changes in Force Soon to Be Made—Fire Drill For Employes.

When the hour of closing arrives today fifty of the temporary printers employed in the Government Printing Office will receive their discharges...

Public Printer Sillings said this morning that these discharges were not determined until he had ascertained that there would not be sufficient work to warrant the retention of the men on the furlough list.

More Changes on Tap.

Next week there are some changes scheduled to take place in the Printery. It is on the cards that Foreman Ramsay of the Specification division will be sent back to the case...

Fire Drill for Employes.

Within the next week or ten days the Public Printer will inaugurate a fire drill, like the drill used in the public schools...

OMEN OF OPERATORS' STAND

Believed in Anthracite Fields Cassatt Knows Owners Will Let Work Resume in Mines.

SHAMOKIN, Pa., April 7.—The Pennsylvania railroad employes who were suspended last week owing to the coal suspension were ordered to report for duty next Monday.

Operators Conferring On Reply to Mitchell

NEW YORK, April 7.—The representatives of the anthracite coal roads and independent coal companies will meet here in secret conference today to give final consideration to John Mitchell's proposition of arbitration of the differences in the anthracite mining industry and to draft a reply for presentation to the joint meeting of operators and miners on Monday.

While it is generally believed that the operators will refuse the proposal, there is ground for the statement that the refusal to arbitrate will apply only to those questions that were raised before the anthracite strike commenced.

The refusal to arbitrate any of the old questions is a refusal to arbitrate any of the questions which John Mitchell has presented at these conferences.

The great care which both sides are taking not to offend public opinion is the highest hope that there will be a solution of this industrial problem. The operators have given out quiet hints of what may happen for the purpose of feeling the public temper only to deny the statements later.

CONGRESS MAY SPEND FOURTH OF JULY HERE

Constant Objection to Vote on Rate Legislation and Prospects of Canal Debate Promise Sitting in Good Old Summer Time.

"That means that this session will be here to celebrate the Fourth of July," said an oldtime employe of the Senate, after the adjournment of that body yesterday.

Senator Aldrich was again the objector, and Senator Tillman, shortly before adjournment, suggested that he didn't see any reason why a date shouldn't now be set. The debate had continued a number of weeks.

The expert guessers on adjournment at once added from two to four weeks

to their estimates of the length of the session. June 15 had been the most common estimate up to the time of the failure of the effort to fix a voting date for the rate bill.

The possibilities of the canal question as a theme for talk are about as nearly unlimited as of the rate question; and it is becoming plain that a hardly less determined effort is afoot to prevent prompt settlement of the issues involved.

CENTRAL WINS DEBATE WITH WESTERN HIGH

Will Now Contest Championship Honors With Boys of the Eastern School.

Honors were awarded Central High School yesterday in the debate with the Western High School in which they supported the negative of the proposition:

"Resolved, That the Federal Government should supervise and control insurance companies transacting an interstate and international business."

The winning of the debate by the Central school places the championship of the local high schools between it and the Eastern school. Eastern has already defeated Western on the rostrum and the debate between the two victors has been arranged to take place in the latter part of this month.

The proposition has not been selected nor the place chosen. From the manner in which the negative tore down the arguments of the supporters of the proposition it was evident to spectators present that the decision would go to the Central School.

Western was handicapped with having the burden of proof of a subject which may have the support of the people, but as yet its practicability has not been demonstrated.

The board of judges, composed of Charles Lyman, of the Treasury; the Rev. Teunis S. Hamlin, of the Church of the Covenant; and Edgar D. Shaw, of The Times, gave a unanimous decision in favor of the negative.

DOWIE LANDS IN TEXAS TOO ANGRY TO GET UP

Declares Almighty In Three Days Will Have Rebellious on Run From Zion City.

LAREDO, Texas, April 7.—First Apostle John Alexander Dowie arrived here from Mexico City shortly after 6 o'clock this morning and left at once in his private car for San Antonio, where, it is understood, he will remain over Sunday.

The deposed general overseer refused to be seen, being in bed. From reports along the line, however, it is learned that the "prophets" has been in the rage ever since his departure for the North.

He declared that before the sun has three set, the Lord will have shown his own anointed way in which the rebellious members shall be routed and driven into the street.

SHORT OF POLICEMEN FOR ALL NIGHT DUTY

Lieutenant McCathran Replies to Complaint of the Garfield Citizens' Association.

The Garfield Citizens' Association, at its last monthly meeting, received a letter from Lieutenant McCathran, of the Fifth precinct, in reply to a complaint of the association regarding the police service, stating that he had no foot men for the section in question between the hours of midnight and 5 a. m., and that while he would do all he could to better the service, it was impossible to make it what it should be with the men at his disposal.

The committee on postal service reported that it had been advised that an increase in the daily delivery of mail could only be had after certain public improvements had been brought about in the community.

A short address was made by Dr. W. K. Scott, of the Hillsdale Citizens' Association, in which he encouraged the work of the association and suggested certain needed improvements in that section of the District.

TILLMAN PREPARES CHARGES AGAINST MR. BARNES

Next Monday Senator Tillman will offer formal charges, in writing, against the confirmation of B. F. Barnes' appointment as postmaster of Washington.

He will, it was said today, charge Mr. Barnes with conduct unbecoming a gentleman in the expulsion of Mrs. Minor Morris from the executive offices of the White House. This will be the principal charge. Mr. Tillman says that he has other things concerning Mr. Barnes that he may bring to light.

FOREMAN MERRIFIELD WILL BE THE MARSHAL

Senator Carter and Lee Mantle, former Senator from Montana, called upon the President this morning to recommend the appointment of A. W. Merrifield, of Flathead county, Mont., as marshal of that State. The present incumbent is Charles Lloyd, whose term expires in December. Merrifield was formerly employed as foreman of President Roosevelt's ranch, and is an old comrade of the Executive. He assured his callers that Merrifield would get the position when it was vacant.

ALLOW ROGERS TO PAY SUMS BEYOND HIS BOND

In order to facilitate the payments for work on the new municipal building, Secretary of the Treasury Shaw has authorized District Disbursing Officer C. C. Rogers to pay bills up to \$150,000, or \$100,000 in excess of his bond. The usual rule of the Treasury Department for special disbursing agents is to disburse funds only to the amount of their bond. But in this case the District Commissioners thought it desirable to ignore the rule and make request to do so to Secretary Shaw.

BRAKEMAN MANGLED WHILE COUPLING CARS

Daniel Leary Crushed to Death By Being Jammed Between Two Heavy Coaches.

Caught between two passenger cars which he was endeavoring to couple, Daniel Leary, twenty-five years old, of 27 Four-and-a-Half street southwest, was crushed to death about 5 o'clock this morning in the yard at Ninth street and Maryland avenue southwest. His body was removed to the morgue. The coroner is making an investigation.

Leary was a brakeman and had been employed by the Richmond, Fredericksburg and Potomac railroad for several years. He went to work last night about 10 o'clock and assisted in making up a number of freight and passenger trains. About 5 o'clock he was between two cars to join the couplings. The engine attached to one of the cars began backing, and before he could get out of his perilous position he was struck by one of the couplings and jammed against the other.

The train of cars was in charge of Engineer James V. Barrett and Conductor George W. Farmer.

The Kind You Have Always Bought

Bears the Signature of J. C. H. Fletcher

READERS may conjecture the story Charles Dana Gibson intended to tell in his picture "The Matinee Girls." Was it a love scene on the stage at the time he caught their faces with his ready pen? Or was it comedy? Or something even more trivial or even more serious? Be that as it may, The Sunday Times will give a copy of this picture next Sunday, and the public may draw its own conclusions. The drawing will be presented upon art paper, separate sheet, 10x15, in two printings. A perfect reproduction of one of Mr. Gibson's best pictures. This one cost \$1,000, and is one of a series of ten, \$1,000 pictures being given by The Sunday Times.
