

pany of America—have been under fire for nearly two weeks, and they have stood a succession of runs that have only served to demonstrate their strength.

Backing to Withdraw. But, it is said, that there has been dissatisfaction with the delay in settling accounts of banks and some of the interests that have been standing back of the companies have determined to withdraw. In consequence of this it was decided to strengthen the boards of directors and in order to accomplish that the all day and night conferences were necessary, at the directors of the two companies were averse to having action taken that seems to thrust them into the background.

The new influences that will control the two institutions are said to be J. Pierpont Morgan and the First National Bank bank of the Trust Company of America and John D. Rockefeller and the men who control the Standard Oil Company, which is the Trust Company of America, which is an institution with strong Morgan affiliations, would take over the subject of discussion, that have been the subject of discussion.

Those at the Meeting. Among the men in Mr. Morgan's gallery were George R. Sheldon, John E. Bourne, W. K. Vanderbilt, Jr., George W. Perkins, Marsden J. Perry, Oakleigh Thorne, the president of the Trust Company of America; Thomas F. Ryan, Grant D. Schieff, Edm. M. Moore, J. A. Vanderbilt, James Stillman, James Sulzberg, G. P. Baker, G. C. Frick, E. H. Gary, Richard Trimble, and Charles Stebbins.

Oakleigh Thorne, president of the Trust Company of America, was manifestly very nervous during the meeting in reply to a question at 3 o'clock this morning, said: "I wish to God I could tell what is going to happen."

### COURT GIVES CHILD TO MRS. WEDDERBURN

Venturing the opinion that if the husband and wife were a thousand miles distant from certain family connections they would be living together instead of being separated, Justice Gould this morning ended the habeas corpus proceedings brought by Alex. Wedderburn, for the possession of little Helen Wedderburn, by awarding the child's custody to the mother.

The father, however, given the privilege of visiting his daughter as often as he likes.

## DEPOSITORS PAID BY THE TRUST COS.; LINES WERE SMALL

### Banks Will Continue Cashing Checks During Week, It is Said.

NEW YORK, Nov. 4.—The Trust Company of America and the Lincoln Trust Company opened their doors promptly at 10 o'clock today and resumed paying off depositors. At the Lincoln Trust Company there were 150 persons in line and at the main office, in Wall street, of the Trust Company of America, there were only sixty, while at the Colonial Trust Company, a branch of the Trust Company of America, there were only thirty.

The first man to be admitted at the main office was a bank messenger, who had sixty checks to be cashed. It was believed that it would take the bank most of the day to pay off this one man. Morgan J. O'Brien, counsel for the Trust Company of America, hurried in to the bank early, after having been up all of yesterday and last night, but neither he or any other officers of the bank would make a statement. The same reticence was apparent at the Lincoln Trust Company, except that the directors had not charged since Saturday. The directors of the suspended Hamilton Bank met early to consider the plan to resume business. The directors have proposed to pay the depositors 10 per cent cash on demand and the balance in sixty and ninety days and six months and a year. Many of the depositors have opposed this plan and it is said to be not favored by the banking department.
