

G. P. O. AGAIN CUTS WAGES OF PRINTERS

Leech Abolishes Arbitrary High Rating That Benefited Compositors.

Public Printer Leech has issued an order abolishing an arbitrary rating that has been in practice for some time in the job composition division of the office, by which the compositors were paid the wages of imposers, make-ups, and proofreaders, although not regularly performing these duties.

COLLEGE BOYS LOSE JOBS IN THE FIELDS

Western Farmers Now May Employ Hands Through New Government Bureau.

The reign of the r-r-r boy, who heretofore has been a necessary evil with which the much abused Western farmer has had to contend in order to reap his wheat and hay, soon will be a thing of the past.

Secretary Straus, of the Department of Commerce and Labor, is the person to whom credit of this action is due. He has had printed 1,500,000 postal cards which will be distributed among Western farmers who will return them to a bureau on Ellis Island, telling of the number of hands wanted, and for what class of work.

This bureau in turn will spread the rews of positions paying good wages to the immigrants who comply with the laws regarding their admission to the United States.

PUPILS PRESENT TWO PLAYLETS

Students of St. Dominic's school gave an entertainment last night at which more than 1,500 of their friends and relatives were present. The opening scene was acted by little children of the school, who sang "Little Bo Peep," "Children in the other grades took part in dancing and singing acts, and an operetta, "The Cadet's Picnic," was also given.

Travel Made Comfortable in Hot Weather

Weather, Baltimore & Ohio Railroad. The midnight sleepers from Washington to New York ready for occupancy at Union Station at 10 p. m. are provided with electric fans, making the atmosphere cool and comfortable for those who wish to retire early.

Watch Us Grow.

The Electric Line. Cars for Baltimore every half hour on the "lot." No walking or running of cars necessary in Washington or Annapolis.

How to Keep Cool, Despite Heat, Is Not Difficult for Dr. Wiley

Lets Suffering Humanity Into Secret of Being Comfortable.

DR. HARVEY W. WILEY, Government's Chief Chemist, Who Expresses Some Ideas About Heat.

To Keep Cool.

Eat in moderation. Select light meats. Do not drink alcoholic beverages. Eat largely of cooked fruits and vegetables. Don't fret; don't worry. Seek the society of cheerful persons. Take open air exercise in moderation. Eat one-fourth less in summer than in winter.

"Tell the public to be cheerful; it might be worse." This was the advice given today by Dr. Harvey W. Wiley, chief chemist of the Department of Agriculture, who looks at things as squarely in the summer time as in the dead of winter.

The fact that the thermometer played hide and seek with the century mark today, yesterday, and the day before, in no way disturbed the calm of Dr. Wiley's office, for, happily, he will not permit the heat to baffle him, and in order that it may not disturb others, he has sent out a few hints as to how to keep comfortable.

Dr. Wiley does not look the least bit "het up" as he pursues the duties of his office. "Why get excited over the heat?" he asks. "It only becomes twice as great then, and the first thing people know, they have exhausted themselves worrying about it. Forget it. Make up your mind that it isn't so hot, after all, and you'll find that it isn't, in reality. No, that isn't Christian Science. It's common sense.

"Now, there are certain rules which persons should observe in their summer diet. Overheating is bad at any time, but in the summer time it is almost fatal. Eat very lightly, and if you must have meat, then eat the lighter meals. Do not load your stomachs with heavy meals. One should eat one-fourth less in the summer than in winter.

"And by all means, be cheerful. Make up your mind that you will not be the one in the crowd to say the first gloomy thing or to complain first about the heat. Seek the society of cheerful people.

"Another thing which should be rigidly avoided is alcoholic drinks. Summer time is not the time to indulge in these things. They heat the blood, and, if taken excessively, or even in a little more than moderate manner, they will upset the entire system. It is dangerous to drink in the summer time, and my advice would be to forget all about the high ball and the stein."

Dr. Wiley further suggests that open air exercise these days should be taken in moderation, and that cooked fruits, rather than raw, make a good hot weather diet. But, above all, Dr. Wiley urges that a clear, quiet, undisturbed mind is the best antidote for heat that he knows.

Reading Students "Do" Washington, But Old Sol Gets Best of Them

Some one, probably with the kindest of intentions, convinced the graduating class of the Reading, Pa., high schools that the best way to rid themselves of a troublesome surplus of coin, was to "do" Washington and see the beautiful City of Magnificent Distances, temperatures, etc.

The class has arrived, but it's a good thing for the kind friend that he is not within reach. The mercury was flirting with the 97 mark when a train bringing 173 young lads and lassies from Reading pulled into the Union Station yesterday. The humidity was doing its very best to smash all records, and the residents of the city were in a pitiful plight.

In the enthusiasm and inspiration of a rapturous gaze at the dome of the Capitol, however, the graduates took no heed of the heat, and under the guidance of a score of chaperons and teachers, started out to see the home of Congress and the Library.

Old Sol, aroused by their neglect to pay him homage and hike for the shade, then began to do things to the shade. The helpful hand of patriots, and aided and abetted by his old pal General Humidity, soon had that erstwhile fresh and cool aggregation of students looking like something that had been through the wash, but was not yet hung out to dry.

At their headquarters at the Hotel Oxford they quaffed iced tea, swathed their heated brows in cracked ice, and wished for that dear old Reading, where there is at least a breeze to disturb the monotony of the thing, and in desperation chartered a squad of trolley cars.

Wish for Reading, Dear. \$55-15 Denver, Col., and Return, Baltimore & Ohio R. R. account Democratic National Convention, July 1 to 4, valid for return until 21st. Variable routes. Only two nights out. Consult agents.—Adv.

lighter meals. Do not load your stomachs with heavy meals. One should eat one-fourth less in the summer than in winter. "And by all means, be cheerful. Make up your mind that you will not be the one in the crowd to say the first gloomy thing or to complain first about the heat. Seek the society of cheerful people.

DEMANDS ACCOUNTS OF POSTAL FUNDS

Acting Postmaster General Orders Monthly Report From Disbursing Clerk.

C. P. Grandfield, First Assistant and Acting Postmaster General, has issued an order amending section ninety-nine of the postal laws and regulations, and providing for a more strict accounting of postal finances.

The order requires that promptly after the close of each month the disbursing clerk shall make a report to the Postmaster General showing the fiscal transactions of his office during the month, including a statement of the amount deposited with the Treasurer of the United States, the amounts received from the sale of post route maps, old documents and other sources; the amount disbursed for salaries and other purposes, the balance on deposit with the Treasurer of the United States subject to check, and the amount on hand at the close of business on the last day of the month.

It also is provided that on or before the fourth day of each calendar month a committee appointed by the Postmaster General shall examine the accounts, count the cash on hand, verify the amounts with the cash balances on hand subject to check and certify the result to the Postmaster General.

COUNTESS' ROMANCE HAS BITTER ENDING

In Man's Garb, She Flew on Freight Trains With Man She Loved, to Be Deserted.

LOS ANGELES, Cal., June 24.—A police court here was the scene yesterday of the end of a romance of less than a year, including a honeymoon spent on brakebeams and in box cars, from New York to the western coast.

The characters in the drama were William Koprivich, member of a wealthy Hungarian family, who fled his native land to escape army service, and his wife, Albin, sister of Count Kaban, of Austria-Hungary. They were married in New York city, where she was visiting. He told her of a fine job he had in the West, and to save expenses she donned a man's clothes, and they beat their way to Los Angeles. The trip was made in snow and cold weather, and the woman suffered much.

The husband deserted her here, and she was forced to ask the aid of the police. Koprivich was ordered to pay her \$70 at once and \$4 a week until the divorce action she started is tried in August.

A baby, born less than a month ago, while the young woman was in privation, lived only a few days.

MAN ENDS LIFE; HIS HEALTH BAD

John Loeffler Drinks Carboic Acid and Dies an Hour After Reaching Hospital.

John Loeffler, a tailor, forty-seven years old, living at 58 Twelfth street northwest, died at the Emergency Hospital late yesterday afternoon as the result of taking carboic acid.

Loeffler lived with his oldest son, Louis, age seventeen years. He had been separated from his wife for several years. For several months Loeffler has been despondent because of ill health. He returned home yesterday complaining that he was ill. He was found unconscious, lying in a hallway by his son a few minutes later. A physician was hastily summoned, and after a brief examination he sent for the Emergency Hospital ambulance. Loeffler died an hour after reaching the hospital. An empty bottle labeled carboic acid was found near Loeffler when he was discovered. This had been procured more than a week before.

KNIGHTS ON EXCURSION.

Keane Council, 33, Knights of Columbus, celebrated its anniversary last night with an excursion down the river on the steamer Jamestown. Robert E. Doyle, jr., was in charge.

PENALTY ENVELOPES FOR THE PENSIONERS

Change in Plan Will Mean Saving of \$80,000 to the Veterans.

Pensioners of the Government, about 1,000,000 in round numbers, will mail vouchers to the pension agencies in penalty envelopes, commencing with the next payment.

This will mean a loss to the postal service in reduced revenues of about \$80,000 a year, and a corresponding saving to the old veterans. There are four payments a year, requiring the transmission of four vouchers, or about 3 cents postage for each pensioner. The return of corrected vouchers will increase this amount some.

This new boon to the pensioners is the result of an act passed by the last session of Congress, which requires the pension agents to send with each voucher which the pensioner is required to fill out and return, a "penalty envelope." As the August payments have already been sent out by most of the pension agents, the order will go into effect with the November payments.

To the Particular Housewife no other Elgin butter proves so satisfactory as James F. Oyster's noted "Four-Leaf Clover" Creamery. 5-lb. boxes, \$3.9. Depot, 9th & Pa. ave.—Adv.
