

CHICAGO TRAGEDY FELT KEENLY HERE

Mrs. Tuckerman, Accidentally Killed, Well Known in Washington Society.

Friends in this city of Mrs. Lucius C. Tuckerman were shocked today to learn of her tragic death in Chicago. Mrs. Tuckerman was the sister-in-law of Walcott Tuckerman, who lives at 2221 R street northwest, and was well known in army circles here. She was accidentally shot in the apartments of her father, Brig. Gen. A. C. Girard, retired, at 38 North Clark street.

A pistol in the hands of George Busse, who was in another apartment in the same building, accidentally exploded, the bullet passing across an airway, and through the window of General Girard's apartment, lodging in the heart of Mrs. Tuckerman. She expired shortly afterward. Busse, who is a brother of Mayor Fred A. Busse of Chicago, was prostrated when informed of the fatal outcome of the accident.

To Wire Details. "My brother left Milton for Chicago as soon as news of the tragedy reached him," said Walcott Tuckerman today, "and he promised to wire me the full details as soon as possible. It was undoubtedly an accident. He might have been hunting or engaged in some other winter sport, else he would have been in Chicago with his wife. We are all inexpressibly shocked."

Mayor Busse, who was in the house, heard the shot and the scream of pain immediately following it, and with his brother rushed to the point whence the sound came. When the mayor learned the facts he called the police and asked that his brother be taken into custody. But General Girard refused to make a complaint, feeling assured the shooting was accidental.

George Busse was overcome and fell in collapse. He was placed in a physician's care. Reaches Chicago. Mrs. Tuckerman arrived in Chicago Tuesday to visit her father. He came from Fort Leavenworth, Kans., in response to a telegram that she was in the city. After General Girard, Mrs. Tuckerman and her daughter had taken a walk, Mrs. Tuckerman went to her room to dress for dinner. In half an hour she was dead.

The pistol was bought for use by the maid in protecting the house against possible burglars. Since the recent death of the older Busse there had been fear of burglars. While George Busse was manipulating the revolver it exploded. "Father, I'm shot," gasped Mrs. Tuckerman, and she reeled and fell into the arms of General Girard. He attempted to lower her to a rug, but she was dead before she touched it.

Will Make No Arrest. The police have decided to make no arrest, convinced the shooting was accidental. Mrs. Tuckerman's maiden name was Elizabeth Girard. She was married to Capt. Ross A. Bush, F. S. A., but in August, 1896, she got a divorce from him in Winnebago, Nev., on the charge of mental cruelty. She declared he made her a party to his insubordination.

She was married to Mr. Tuckerman about a year ago in Los Angeles. He is wealthy, being the son of the late Walter C. Tuckerman, an iron manufacturer. He is a Harvard graduate. CHICAGO, Feb. 1.—While admitting that the shooting was accidental, the coroner and police today began a further investigation of the death of Mrs. Lucius Tuckerman, who was killed last night by a bullet from the pistol of George A. Busse, brother of Mayor Busse.

Among the witnesses called was Miss Bertha Lambke, a maid, to whom Busse may be showing the revolver in his room, when the weapon was accidentally discharged. The bullet crashed through the window of the Busse home, and then through the window of the Tuckerman home, piercing the heart of Mrs. Tuckerman, as she stood before a mirror, arranging her hair.

Big Gen. Alfred Girard, father of Mrs. Tuckerman, said today that no warrant would be issued for Busse's arrest. He said that the maid was down in his daughter's room, and that no one on the outside could have possibly known she was in the position she occupied when the bullet killed her. Mayor Busse summoned the police, when the tragedy occurred, and he today reiterated that if the police thought it necessary, the matter should be placed under arrest.

General Girard and the family of Mrs. Tuckerman expressed their sympathy with Busse, and the belief that the shooting was accidental.

What Congress Did

IN THE SENATE.

Annual reports from various franchised corporations, including that of the Washington Gas Light Company, were submitted. The annual report of the Commissioner of Patents was submitted. Senator Knox introduced a joint resolution to enable the secretary of the Senate and the clerk of the House to pay the inaugural expenses incurred at the Capitol.

Senator Knox presented a favorable report from the Judiciary Committee on the resolution providing for the succession in case of the death of a President-elect before March 4. Secretary Newberry explained his reorganization plan of the Naval Affairs Committee. Senator Gallinger introduced a bill to extend Park place northwest.

The related messengers in charge of the electoral vote of South Carolina and Montana reached the Capitol. Grant B. Schley, of Moore & Schley, New York, has been summoned to appear before the Judiciary Committee tomorrow in the Tennessee Coal and Iron case. Senator Bacon introduced a resolution calling on the Secretary of the Treasury for information as to the currency associations formed under the Aldrich-Vreeland law, and currency issued under that law.

IN THE HOUSE. The House convened at noon. A bill prohibiting the importation of opium was passed after spirited debate. A similar bill passed by the Senate was laid on the table on the claim that legislation of this kind should originate in the House.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. W. W. GROVE'S Signature is on each box, 25c.

GAS MONOXIDE ROW TO BLOCK ALL BILLS

Sims Thinks Latest Inquiry Will Mean Putting Off Reduction in Price—Senate Subcommittee Said to Favor Delay Now—Gives His Reasons.

The friends of gas legislation in Washington are discouraged about the situation, and disposed to adopt extreme tactics, if necessary, to force action. Representative Sims of Tennessee, who has taken the lead in the fight in the House committee, feels that the investigation of the use of water gas is likely to prevent all legislation at this session.

The House investigation, it is conceded, has left the water gas question in a very unsatisfactory condition from the standpoint of the demand for safer gas. The committee has heard the experts who represent water gas making and who insist that it is as safe, properly made and used, as any other. It will require money to get experts to investigate on the other side, and Mr. Sims thinks there is little encouragement to hope that funds will be forthcoming to secure them.

But this is not the worst aspect of the situation. He believes if the fight against water gas goes to the floors of the houses, there will be vigorous opposition from representatives of communities where water gas is used. "A Congressional decision against water gas in Washington," Mr. Sims points out, "would be a blow to that process all over the country, and many millions are invested in it. Therefore it could be expected that the utmost efforts would be put forth to prevent adoption of such legislation. Water gas is used in hundreds of cities, and we are assured that it is the cheapest gas made."

It is feared by the friends of Washington that there will be small chance to get action on the bills reducing the price of gas here and preventing inflation of capital, until this investigation of water gas is ended and it is known what the decision will be.

If the decision should be in favor of requiring coal gas, then the Gas monopoly would come forward with a fearful appeal to save it from legislation reducing its price, for it would immediately produce experts to show that coal gas would cost more than water gas, and that reduction of the price would be very injurious.

More than that, it would insist that its plant must be converted into a coal gas plant, millions must be spent in the changes, and a new limitation on its capitalization would make it difficult to raise the money.

That the Gas monopoly has taken advantage of the water gas-monoxide substitution in charge of the Senate subcommittee to make things beautifully, is the firm belief of Mr. Sims. Report comes from the Senate subcommittee in charge of the anti-inflation bills, that it is availing itself of the excuse afforded by the monoxide war to postpone action on these bills. It is a good enough excuse for the purposes of people who only want an excuse, and the impression is stronger than ever, as a result of some developments in the last few days, that a very moderate sort of excuse will serve the purposes of the Senate subcommittee.

EXPERTS ARE NAMED BY COMMISSIONERS

Names of Monroe and Bemis Sent to the House Committee Today.

The Commissioners today approved the recommendation of Corporation Counsel Thomas that the names of Prof. Charles E. Monroe, of Washington, Ohio, and Alton D. Adams, of Worcester, Mass., be given the House Committee on the District of Columbia as experts qualified to testify in respect to carbon monoxide, and the price of gas and valuation of gas property.

The Commissioners forwarded also the letter of the Corporation Counsel in which he says it will be necessary for the committee to engage the services of these experts, as the District of Columbia has no appropriation which can be used for that purpose.

While willing to furnish all the information and assist in their power, the Commissioners say they are without money to pay witnesses, and the committee, therefore, must provide the necessary means.

NEW TRIAL GRANTED WILLIAM CRAWFORD

(Continued from First Page.)

Previously the satchels were of leather, but inserted in the specifications was a vague paragraph which said that proposals to furnish satchels of other materials than those specified in the specifications would be considered. Sims bids were received, all but one for leather goods as advertised. This paragraph, which did not attract the attention of any one but Crawford, was manipulated by the lawyer to the specifications, and was doubtless placed there for a purpose.

Crawford, it developed, represented the Postal Lock and Device Company of New York, which submitted a proposal to furnish satchels made of "pegmatite" or "fabrioid." The contract was awarded to the company, and was to last for a period of four years. Later it was found that the company had received a contract to furnish these satchels at a rate which was considerably more than \$1 in excess of what other makers would have asked for satchels of the same materials.

Three days before the bids were opened Crawford and George E. Lorenz, whereby Lorenz was to receive all profits of the proposed contract, made a contract to furnish these satchels to the Postal Device Company with all of the bags.

IN COURT TO HAVE FATHER REMOVED

(Continued from First Page.)

coronial relations existed between the children and the stepmother. Long List of Checks. One of the interesting papers offered in the case is a list of checks executed by Mr. Sands from the time shortly before his wife's death until the suit was filed. This list counts up to something like \$2,000 and Mrs. Anderson will attempt to prove that, although her father has listed these expenditures as covering certain necessary expenses of herself and children, these are not the checks to show for what they were drawn. In some cases they are credited to "household expenses," "groceries," etc.

In his argument today Mr. Clephane declared that the second Mrs. Sands had always extended her own money for herself and her own child and that the estate of the three daughters of Mr. Sands and not been drawn on father at any time.

Mr. Sands will endeavor to prove that the long list of checks which figures in the case were expended entirely for the benefit of the children by his first wife and that he can tell nothing further about the specific causes for which they were drawn except for his notes, made at the time and preserved for his own reference and for the benefit of the estate.

One of the facts brought out this morning was that between the years 1884 and the end of 1904 Mr. Sands paid out \$12,000 in checks as servant hire to employees of the house, and \$7,000 in money to negro servants. The auditor to whom the accounts in the case were submitted allowed the \$12,000 paid in checks, but refused to allow the \$7,000 paid in money to the colored help.

Mr. Clephane will finish his argument tomorrow morning, and will be followed by R. Ross Perry, also of counsel for Mr. Sands. Frank J. Hogan, counsel for Mrs. Anderson, will close the case.

DIDN'T KNOW Coffee Was the Cause.

Many daily habits, particularly of eating and drinking, are formed by following our elders. In this way ill health is often fastened upon children. A Ga. lady says: "I had been allowed to drink coffee ever since I can remember, but even as a child I had a weak stomach which frequently refused to retain food. The taste of coffee was in my mouth all the time, and when I found out later, the cause of the stomach rebelling against food."

"I now see that it was only from following the example of my elders that I formed and continued the miserable habit of drinking coffee. My digestion remained poor, nerves unstrung, frequent headaches, and yet I did not suspect the truth."

"Another trouble was a bad, mummy complexion for which I spent time and money for creams, massaging, etc., without any results."

"After I was married I was asked to try Postum, and would you believe it, I so old coffee lover, took Postum from the very first. We made it right—according to directions on the pkg. and in a few days my complexion cleared and once quit coffee, with the happiest results."

"I now have a perfectly clear, smooth skin, fine digestion and haven't had a headache in over two years."

"There's a Reason. My digestion remained poor, nerves unstrung, frequent headaches, and yet I did not suspect the truth."

BRACING WEATHER TO DWELL AWHILE

Plenty of Skating Promised With No Snow or Rain.

(Continued from First Page.)

NEW YORKERS SHIVER DURING COLDEST DAY

Poor and Homeless Suffer Greatly As the Mercury Goes Down.

NEW YORK, Feb. 1.—The coldest day of the winter in New York is here, and it multiplied the suffering caused by the snow yesterday and Saturday. The temperature is hovering around 8 degrees above zero, and the weather bureau promises even lower mercury indications later in the day.

The poor and homeless are suffering greatly from the cold. The public lodging houses and charitable institutions throughout the city, are crowded with the destitute, among them many women and children.

Among the pitiable features of the day is that many of the hundreds of homeless men who have been earning money shoveling snow in the streets have been forced to quit because of the intense cold, and their insufficient clothing. The bread line at the Bowery Mission this morning fed 2,100. Several families are today driving thirty families out into the bleak streets.

HARVARD MEN MEET TOMORROW EVENING

A meeting of the Washington Harvard Club will be held tomorrow evening at 8 o'clock at the University Club, Sixteenth and K streets.

Frank K. Bigelow, '73, will give a talk on "Snowfall and Evaporation in the Rocky Mountain Districts."

INFATUATION IS COSTLY.

BOSTON, Feb. 1.—The infatuation of Henry S. Heustis, Cornell graduate and member of one of Ithaca's wealthiest families, for a chorus girl, wound up today in his arrest here on a charge of embezzling \$250.

M'CARN OPPOSES REMOVAL OF JUROR

Prosecutor Openly Asserts That Defense Is "Afraid of Whitworth."

NASHVILLE, Tenn., Feb. 1.—With a hint that the sensational is about to begin in the Cooper-Sharp murder trial, Prosecuting Attorney Joff McCarn today opposed the removal of Jurymen J. M. Whitworth from the jury because of illness.

McCarn made no pretense of disguising his belief that the attempt to have Whitworth removed from the jury originated with the lawyers for the defense. He openly asserted they were "afraid of Whitworth," and intimated a belief that "other means than evidence" are being requisitioned to influence the jury.

By order of Judge Hart, the early portion of the day's proceedings were devoted to examining the physicians who have been attending Whitworth, and who certified that he is suffering from Bright's disease.

Whitworth's wife, who innocently started the proceedings to have him removed because she was alarmed by rumors that he was on the verge of complete collapse, was in court with several of his neighbors, plainly anxious. She and Judge Hart did not discuss Whitworth excused unless he wanted to be.

Wide and sensational rumors, given wide circulation since court adjourned Saturday, added to the interest in the case. Vernon Sharp, brother of one the accused, is clerk of the criminal court. Detectives employed by the prosecution have, it is alleged, been making him an object of constant espionage.

This gave rise to a report that he had shot one of them. The rumor was untrue. Whitworth matter, deputy sheriffs were scouring the country in zero weather serving a venire of 600 to be present in court tomorrow, when it is hoped to complete the jury.

TRY THIS FOR YOUR COUGH

Mix two ounces of Glycerine with a half-ounce of Virgin Oil of Pine compound pure and a half pint of straight Whisky. Shake well, and take in doses of a teaspoonful every four hours. This mixture possesses the healing, healthful properties of the Pines, and will break a cold in twenty-four hours and cure any cough that is curable. In having this formula put up, be sure that your druggist uses the genuine Virgin Oil of Pine compound pure, prepared and guaranteed only by the Leach Chemical Co., Cincinnati, O.

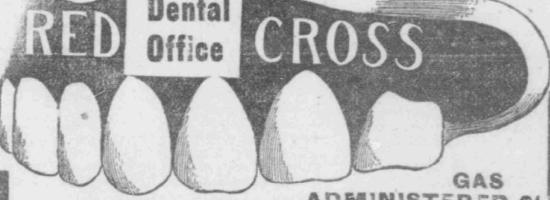

BOY FALLS FROM CAR.

While on his way to school this morning, George Maher, sixteen years old, of 1347 Monroe street northwest, fell from a Fourteenth street car at the corner of V street, and was painfully injured on the head. The boy was taken to the Emergency Hospital, and after treatment was able to go to school.

HELD UP AND BEATEN.

SHENANDOAH, Pa., Feb. 1.—While Charles Chesnovitz, aged nineteen, was on his way home late last night he was held up and robbed of a small amount of money and then so brutally beaten that his life is despaired of. Joseph Zelinsky, Joseph Perza, and Charles Gavanus, the alleged assailants, were committed without bail by Justice Ramanot.
