

thor E. Birney and Capt. Thomas Brown, his counsel. After the officers of the court had taken their oaths on the bench, standing erect with clanking swords, Major Henry Leonard, judge advocate general, announced that the department had decided to permit Mrs. Sutton's attorneys to cross-examine witnesses and the same privilege would be extended to Lieutenant Adams.

**Mrs. Sutton on Time.**  
Mrs. Sutton and Mrs. Parker, accompanied by their attorneys, reached the administration building promptly at 10 o'clock. Both of the women smiled resignedly as they passed through a group of more than a score of newspaper men, and faced a dozen photographers at the steps.

Mrs. Parker was snatched with attorneys Henry E. Davis and E. W. Vanduyke. Mrs. Sutton was escorted by H. W. Vanduyke, the third lawyer. It has been noticed that since the two women reached Annapolis last night they have been enjoined not to discuss the case further, and have not appeared in public except in company with one or more of their attorneys. This holds good even in the hotel dining room. Lieut. Robert E. Adams and his attorneys, Arthur A. Birney, of Washington, and Capt. Thomas H. Brown, U. S. M. C., of Annapolis, entered the court room just ahead of the women who are here to probe the fight of Adams and his brother officers with Sutton.

**Party in Dining Room.**  
This was last night when the four, all of whom arrived in Annapolis rather late for dinner, ate one another in a practically deserted dining room. Attorney Vanduyke was the fifth person present. The table groups paid but little attention to each other.

By a strange coincidence, too, William Owens, the chauffeur who drove Sutton and his fellow officers to the barracks on the night of the tragedy, carried the trunk to the Sutton rooms last night. He is now in the employ of a local express company.

A long conference was held between the two women and their attorneys last night. At its conclusion Mr. Davis issued a guarded statement that his clients were attempting to fasten guilt on no particular party, but would prove that Sutton's death was not suicide. He had not, he said, been the first inquiry, except that it did not go far enough. If it had, he said, the verdict would have been different.

**Miss Stewart May Testify.**  
STANLEY BRAE, Ontario, July 19.—Miss Elizabeth Stewart, the Pittsburgh society girl who was with Lieut. James Sutton, U. S. M. C., on the afternoon and in the evening of the day he was shot, may go to Annapolis to tell what she knows of the events of the day to the members of the court of inquiry.

Miss Stewart declares that this will be little or nothing, so far as the shooting or the events that led up to it are concerned. She declares she knew nothing of Lieutenant Sutton's death until informed of it by her father. She is willing to go to Annapolis to testify, she declares, if it is thought her testimony will be of value. Miss Stewart denies that she came to the Canadian woods to hide herself. She says her health has been bad, and she was sent to Canada by her physician, her apartments having been engaged in April, before any investigation of the Sutton case was contemplated.

# CONGRESS TO ACCEPT "TAFT AMENDMENT"

## Corporation Tax of 1 Per Cent Certain—Demands for Free Raw Materials Accepted by Rebellious Senators—Bill to Become a Law by July 30.

(Continued from First Page.)

The bill will be signed into law on or about July 30, instead of July 24, as had at first been believed possible. These facts sum up in brief the conditions surrounding the tariff bill today and describe the triumph of the President and campaign promises of the party and give the country genuine downward revision.

**Wickersham Sees Taft.**  
Attorney General Wickersham had a long interview with Mr. Taft early in the forenoon concerning the final form of the corporation tax amendment and, upon leaving the White House, said the outlook was such as to make it certain that the amendment would be retained in the bill. From the White House he went to the Capitol to have a session with the cabinet members and to explain in detail the effect and operations of the paragraph which he himself drew up.

The "rebellious" Senators are falling into line for a very simple and cogent reason. If they do not make the passage of the bill possible in the form insisted upon by the President, they will find themselves confronted with the task of framing another bill in the near future, and the practical certainty is that, if this were done, the next bill would subject them to even greater reductions of duties in regard to raw materials and make the free list much broader, threatening wool, zinc and coal particularly.

**Dawns on Senators.**  
Assurances came to the White House today that this situation was beginning to dawn on the refractory Senators. As a matter of fact, some of the President's friends in the Senate have been busy for the last two or three days pointing it out, and their words have met with good results. All doubt of the House accepting the

Detective Fortney and Policeman Van Horn, of the Second precinct, testified that Cowell, or Humphries, held up and robbed Jerald Ryan, of 4 Bryant street, of \$4 in cash on the evening of May 15 last.

**SHORT WEIGHT IS CHARGE.**

# TUNNELS TO JERSEY AT LAST A REALITY

(Continued from First Page.)

Two weeks ago on August 2, and there will be opened the transverse tunnel connecting the Pennsylvania railroad depot with the Erie and Lackawanna stations.

**Then the Extensions.**  
Then, in two or three years, there will be opened the extension from the uptown pair of tubes from Twenty-third street to the Grand Central depot. When all these tunnels are completed, passengers from New England for the West can make connections without ever seeing the city of New York.

The building of the downtown tunnel connecting the financial district with Jersey City, has been a herculean feat. Under the gigantic tunnel shaft in New York, hewn out of solid rock, at a depth of ninety feet, is a little city by itself, covering twenty-two acres, where are located enough stores and booths for the average housewife to do a full day's shopping.

The tunnel is built in twin fashion, each separated by thirty feet. Trains going in one direction use one tunnel while trains in the opposite direction use the other. There are eight tracks, four in each tube. It is estimated that to start with 100,000 persons per annum will use the tube, which easily can accommodate 250,000 persons every year.

# BODIES OF TWELVE VICTIMS ARE SOUGHT

Twenty-five Persons Lose Their Lives Near New York City.

NEW YORK, July 19.—Government tugs and private boats are today searching the waters off Gravesend, L. I., for the bodies of twelve victims of the capsizing of the sloop Roxana, which went to the bottom Sunday. None of the bodies have yet been recovered.

Twenty-five persons died in the waters around New York city yesterday, while seventy-five more were injured in the collapse of the floor of the old Zabriske mansion in Clermont Park, the Bronx.

The largest number of fatalities occurred when the Roxana went down. The boat, loaded with a large pleasure party, was off Gravesend when a sudden squall overturned her. Twenty-four persons, many of them women, were thrown into the water. The harbor supervisor's tug Lamont went to their rescue and managed to save two.

The others who perished during the day were drowned while swimming at the various summer resorts or by the overturning of many small boats in the sudden squall that sprang up during the afternoon.

Deaths injured in the collapse of the house in the Bronx had died there to seek shelter during the terrific rain that fell in that portion of the city. Many of them were seriously injured.

# TROOP BEN ROUTE TO SOMERSET, PA.

Cavalrymen Are Greeted by Thousands of Sightseers At Cumberland, Md.

CUMBERLAND, Md., July 19.—Troop B, Fifteenth Cavalry, United States Army, on their way from Fort Myer to Somerset, Pa., arrived in Cumberland last night shortly before 7 o'clock from Frankfort, Va., fourteen miles, having made the trip in two and one-half hours.

The troopers pitched their tents on the grounds of the Cumberland Fair and Riding Association, just below South Cumberland, and quickly had their evening meal. Troop B has sixty-eight men, including the officers, Capt. L. C. Andrews in command, Lieut. Victor Foster and Lieut. G. I. ("Galvanized Iron") Jones, of the Medical Corps.

The troop is on its way to the encampment of the Second Brigade of the Pennsylvania National Guard, which takes place at Somerset, July 23-25.

According to their itinerary they will reach Somerset on Thursday next, which will give them a day or two to rest up before the commencement of evolutions, drill, and military tactics.

Great interest has been shown in Cumberland and the surrounding country over the heralded coming of the troops, and in camp last night Troop B received hundreds of visitors. This afternoon at 4 o'clock at the Rolling Mill ground, the troop gave a drill, which was witnessed by several thousand people.

The company will spend a week at the encampment at Somerset. They will spend tonight here and may remain all day tomorrow. They propose to return to Fort Myer by a different route by easy stages over some untraveled roads.

# TWO MEN RID OF CROEL ECZEMA

Nephew Doctored for Fifteen Years but Got No Benefit—Finally Tried Cuticura Remedies and was Permanently Cured—Uncle Similarly Cured Five Years Ago.

# ONE CURE BY CUTICURA LEADS TO ANOTHER

"About five years ago I was burned in an explosion of natural gas. My head and face, also my hands and arms, were burned. About three weeks after, eczema set in over the parts of my body which were burned and my physician undertook to cure it by administering arsenic, increasing the doses, but without any perceptible benefit. I was gradually losing strength from the suffering and I was in a very serious condition.

"About that time my nephew told me about his experience with the Cuticura Remedies. He had eczema so severely that the blood ran down into his shoes. He suffered with the eczema for many years and had tried everything that physicians could prescribe. After doctored for fifteen years, in which time he found no relief, he was finally induced to try the Cuticura Remedies, and they cured him permanently in four months.

"You can easily believe that I made haste to try them on my recommendation. I commenced using the Cuticura Soap and Cuticura Ointment. I was cured in less than two months so perfectly that I have not even had a symptom of the disease since, although it is over five years since the trouble began. I give this testimonial voluntarily, without solicitation or hope of reward, except that some one might be relieved from suffering as I was. G. T. Hamill, Trenton, Ind., Pa., Dec. 15, 1908."

For thirty years Cuticura Soap and Cuticura Ointment have afforded speedy relief to tens of thousands of skin-troubles and disfigured sufferers from eczema, rashes, irritations and chafings, from infancy to age, bringing comfort and peace to distracted households when all else failed.

Cuticura Remedies are sold throughout the world. Puter Drug and Chem. Corp., Sole From Boston, Mass. 25¢ Mail Free. 32-page book on treatment and cure of torturing, disgusting skin diseases.
