

AUTO CLUBMEN MAP PLANS FOR WINTER

Stag Smokers, Open to All Washington Motorists, Will Be Feature.

The board of governors and the house committee of the Automobile Club of Washington held meetings last night at the club's country home on Georgia avenue and mapped out a plan for the fall and winter campaign. President W. D. West presided over the board of governors while T. E. Spence, chairman of the house committee, was in the chair during the session of his committee.

Thomas C. Noyes was elected a member. In order to keep up the interest of the members and also to bring in new additions it was decided to give a series of stag smokers, open to all local automobile owners. The house committee was divided into a number of subcommittees and every effort will be made to make these smokers among the most entertaining ever given in Washington.

The following chairmen of subcommittees were appointed: Entertainment, Lester D. Moore, jr.; music, etc., Dr. William Genter; house arrangements, supper, etc., Franz Kopp. The first smoker will be given Saturday night, October 16, and a general invitation is extended to automobile owners.

"The Automobile Club of Washington is in a more prosperous condition than ever before," said President West this morning, "and every member is enthusiastic over the prospects for a lively fall and winter campaign. Each member has been appointed a committee of one to bring in new members and it will be our aim to broaden the club's influence in matters that affect local motorists."

ANOTHER SHAKE-UP IN PENN ELEVEN

Fischer and Fretz Given Places at End and Tackle on Varsity.

PHILADELPHIA, Oct. 2.—An important shake-up, and one which will undoubtedly last until after the game tomorrow against West Virginia, was made in the University of Pennsylvania football team today.

Largie was replaced at right end by Fischer, while Burns, at left tackle, gave way to Fretz. Both these men have proved to be great finds, and the coaches think now that they have perfected a much stronger combination than has been in evidence at any time this season.

MAKE BIG CHANGE IN BUFFALO CLUB

Resignations of Manager and President Are Formally Accepted.

BUFFALO, N. Y., Oct. 2.—At a meeting of the stockholders of the Buffalo baseball club, President A. B. Potter formally relinquished his position. Jacob S. Stein, long identified with baseball in this city, was elected in his place. Louis E. Hart and Frank Eversman were re-elected vice president and treasurer, respectively. The resignation of George Smith as manager was also tendered and accepted.

MAYOR OF LOWELL WOULD OUST JUDGE

Incensed at Jurist's Action in Restoring Police Commissioners He Deposited.

LOWELL, Mass., Oct. 2.—Threat of impeachment proceedings before the Massachusetts Legislature against Judge Dana of the Suffolk superior court is the answer of George H. Brown, Lowell's policeman mayor, today to the action of the judge in restoring to office the board of police commissioners. Brown had deposed for alleged failure to enforce the liquor laws.

Judge Dana's decision makes police boards of towns and cities independent of all majority control.

BANKS WON'T RESIST.

ENID, Okla., Oct. 2.—Representatives of Enid's State banks announced today that the assessment of three-fourths of 1 per cent on average deposits for the replenishing of the bank guaranty fund would be paid on presentation. The assessment was levied to replenish the funds now being used to re-establish the Columbia Bank and Trust Company of Oklahoma City.

Save Your Sight At the Cost Of a Dollar

A single dollar will do the work of providing you with a pair of our famous, gold-mounted eyeglasses. They are equipped with perfectly ground periscope lenses and equal to any \$3 and \$4 glasses made.

We examine your eyes free, advising glasses only where they are absolutely necessary.

Has New Lectures

FRED NIBLO.

NIBLO FILMS MADE ON MOTORING TOUR

Trip Through Southern Europe Rich in Material for Moving Pictures.

Fred Niblo, the humorist travel talker, who opens his season at the Columbia Theater Sunday night, toured through Europe last summer in an automobile, and believes that where distances are not too great it is the only practical method of seeing a country. How successful he has been will be shown when his new films are shown. Mr. Niblo was in Spain during the uprising, visited Ireland, Scotland, and France for professional purposes, as well as taking pleasure jaunts into other countries of southern Europe.

During all of this time he depended solely on a car of American manufacture, the log of which compares most favorably with the records of the best French makes.

SQUIRRELS IN MAIL BOX.
OWENSVILLE, Ind., Oct. 2.—When Marion Wallace, living near the Steel schoolhouse, looked into his mail box he found a female flying squirrel with nine little ones.

Auto Gossip of Interest

By HARRY WARD.

John Nolan and a party of friends returned yesterday from an interesting automobile trip to Gettysburg in Mr. Nolan's big Matheson touring car.

The Motor Car Company reports the sale of a Model Y six-cylinder Stevens-Duryea touring car to W. W. Finley, president of the Southern railway. Mr. Finley recently purchased a Peerless with limousine body. It will be delivered to him tomorrow. The body was made by Fickling & Co., of New York.

The enthusiastic manner in which the announcement that another race for the Vanderbilt Cup would be held again this year was received by both the trade and public, indicates the attendance will be unprecedented even for a Vanderbilt cup race. General interest in this particular race is shown by the fact that reservations have been made by motorists from as far West as San Francisco, Denver, Chicago, Detroit, and Cleveland. This interest in the event cannot help but have a favorable influence on the manufacturers who will understand that races which draw a crowd of nearly half a million people from all sections of the country causes a general boom to the industry as a whole.

C. Royce Hough, formerly connected with the Pope Automobile Company, of Washington, but now general manager with Fickling & Company, automobile body builder of New York, is in the city for a day or two. Mr. Hough, who is in very close touch with the automobile industry, says his outlook this year is brighter than ever before.

An automobile designed for polar exploration was recently offered to Cook for his next possible trip to the Pole. He is reported as saying that he expects some sort of a motor-driven vehicle will be constructed in the near future in which man will be able to make such a trip. From the northern end of Grantland to the pole is about 415 miles, or 830 miles for the round trip. If a motor vehicle is designed for this work it would be possible to make a dash for the Pole and return in possibly seven days.

While there are a number of matters that will make the present year a notable one in motor car history few will when the retrospective stage is reached be seen to have a greater bearing on the industry than the marked tendency toward long tours by owners. In the East this tendency has been noticeable for several years, but in the great central States and the West it is more recent origin. Motor car manufacturers whose factories are in the East have been in a good position to see the extent of this trend. It has not been

an uncommon matter at the Pierce-Arrow Motor Car Company's plant at Buffalo during the summer and early fall for men living in Los Angeles, San Francisco, Salt Lake City, and Denver to come to Buffalo for their cars. Former Mayor Ezra Thompson, of Salt Lake City, was one of those who took his car from the factory and toured to his home. He was joined in Buffalo by his son, who had been attending college in the East, and by Frank Botterill, of his home city. The former mayor wished to see road and agricultural conditions in more detail than was possible from a railway car window. The trip was made in a 35-horsepower Pierce-Arrow, and fourteen days were required for it.

Charles E. Miller & Bro. are having great success with the Ford no less than nine sales having been made within the past week. Among the purchasers were Surg. Gen. P. M. Hixey, James E. West, W. K. Ellis, Miss Rose Browning, Henry Hull, T. C. Thomas, W. J. Lizzersong, E. Mitchell, Dr. Henry Stewart and Dr. Walker. Each purchased a model T touring car.

That in the comparatively short period of its development the gasoline motor should have progressed to a point where its efficiency is superior to the highest grade steam engine, is surprising enough. But that with its handicaps the gasoline motor car engine should equal the best grade of stationary engine using the same fuel should be looked on as little less than wonderful. That this is a fact, however, has been proven by Prof. R. C. Carpenter, of Sibley College, Chicago, Ill.

For a thesis J. A. Lührman and G. W. Woodward, two students at Sibley, made the test of a 20-horsepower Pierce-Arrow, 35-horsepower motor. The thesis was used as the basis for an address by Prof. Carpenter before the Society of Automobile Engineers. He outlined the outline of statistics prepared by the two students with explanatory remarks. Because of the test, Prof. Carpenter's address created a great deal of interest in technical circles.

TO STOP BELLEVOE DRINKS.
SAGINAW, Mich., Oct. 2.—Hotel bell-boys in Michigan will have to stop carrying intoxicating beverages to guests' rooms according to Deputy State Factory Inspector Frank Wood, of Lansing. "There is a statute which makes it an offense to hire boys to do anything which demoralizes their characters," he said, "and we are regarding work in hotel proprietors' boys under twenty-one years of age must not be allowed to serve drinks."

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S. S. S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S. S. S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. Home treatment book with valuable suggestions and any medical advice sent free to all who write.

These \$15 Suitings

Have 'Em All Guessing

LOCAL tailors can't begin to understand how we can afford to give such a value for \$15.00. It's the same identical value that other tailors found it impossible to duplicate at the price when we charged \$20.00.

This is the first season we've tailored these \$20 HOPKINS values to measure for \$15.00. The way orders are pouring in more than make up for what profit we have sacrificed on each one.

You know HOPKINS reputation as tailors of the highest order. Well, we are adding to that reputation by the way we are designing and building these \$15 Suitings to measure. Every weave and coloring will be

Those \$15 Overcoatings

\$20.00 for this value last year, the same as the Suitings. \$20.00 won't duplicate the value elsewhere this early in the season. Our price, \$15.

We press, gratis, the garments we tailor as frequently as the purchaser desires

SUNDAY SCHOOLS TO HAVE EXHIBIT

Dr. McKim Will Preside at the Annual Convention, October 21.

The thirteenth annual convention of the Sunday School Institute of the Diocese of Washington will be held at the Church of the Epiphany, Thursday, October 21, the pastor, the Rev. Dr. Randolph H. McKim, officiating as celebrant.

An exhibit on the Sunday schools of the diocese, showing their system of grading and the books and materials used, will be one of the features of the day's session. This exhibit was organized by the Teachers' Training Class, and will be reviewed at 11 a. m.

The day will be devoted to a number of three-minute discussions of Sunday school topics, and several short addresses by church workers. All ministers have been urged to assist in bringing together all teachers, officers, and clergy in the district.

IF IT DISAPPEARS, IT'S ECZEMA

How to Tell Whether a Skin Affection Is an Inherited Blood Disease or Not.

Sometimes it is hard to determine whether a skin affection is a sign of a blood disorder or simply a form of eczema. Even physicians are often puzzled in their diagnosis. The best way for any one afflicted is to go to Ogram's, O'Donnell's, the People's Drug Store, Affleck's, or any other good druggist who handles pure drugs and obtain 60 cents' worth of posium. Apply this, and if the itching stops at once and the trouble is cured in a few days it may be set down as having been eczema, as this is the way posium acts in the worst cases of eczema, and in curing acne, herpes, blotches, tetter, piles, salt rheum, rash, barber's and other forms of itchy, scaly scalp, and all surface skin affections.

Any one who will write to the Emergency Laboratories, No. 22 West Twenty-fifth Street, New York, can secure, by mail free of charge, a supply sufficient to cure a small eczema surface or clear a complexion overnight and remove pimples in twenty-four hours.

Real Clothes For Real Men

They are tailor-made—not to be made. And that's the advantage of B.-K. Suits over the made-to-measure kind.

You get all the style, the fit, and latest fabric effects to choose from that the best merchant tailor has to offer. Only instead of trying to get an impression from a sample of cloth as to what an entire suit will look like, you try on the completed garments until you find the one that suits your fancy and fits your figure p-e-r-f-e-c-t-l-y.

And the price? Why the price is only

\$15 FOR OUR LEADER

Other values from \$10 to \$30 for manly men of all ages.
