

SWEEPING CHANGES AT THE TREASURY

Special Investigating Committee Completes Work In Department.

That a comprehensive plan for the reduction of salaries in some cases and the increase of pay in other quarters in the Treasury Department has been practically agreed on by the committee appointed by Secretary MacVeagh to investigate the personnel and efficiency of the department, is now no longer kept secret by the officials.

Whether Mr. MacVeagh will accept all the recommendations of the committee is another matter which will not be decided until the Secretary returns to Washington from his summer home in New Hampshire.

If he does follow all the suggestions of the committee, there seems to be no doubt the department will suffer a severe shake-up in the matter of adjustment of salaries. Among the men who profess to be familiar with the findings of the committee it is not claimed there will be any wholesale dismissals of employees from the service, but, instead of this, there will be in some places sweeping reductions in pay, and in others many promotions in salary.

The committee consists of Assistant Secretaries of the Treasury, Norton and Hilles, and former Assistant Secretary Reynolds, whose term of office expired today to enable him to give all his time to his new duties on the Tariff Commission.

Excitement among the clerks and chiefs in the department is running high, and, while there is no definite information as to what the recommendations of the committee will be, there is a general and widespread idea that the results will be more drastic than had been expected.

AERONAUT PLANS TO CIRCLE GLOBE

Prof. Lowe Hopes to Make Continuous Flight in Dirigible Lasting a Year.

PASADENA, Cal., Nov. 1.—Prof. Thaddeus S. C. Lowe, the noted aeronaut and scientist in charge of Mt. Lowe Observatory, is planning a dirigible balloon in which he hopes to circumnavigate the globe without once descending to the solid ground.

This will require his remaining in the air about a year, but the craft he hopes to make will carry at least nine tons of baggage, and this, he hopes, will permit the stocking up with sufficient food and drink for the celebrated voyage.

Prof. Lowe holds the world's balloon speed record made in a flight from Cincinnati to Pea Ridge, S. C., April 20, 1881, having covered 800 miles in less than nine hours. Fearing that this record will be taken away from him by some of the younger aeronauts, Prof. Lowe will attempt his world flight.

WANT SIXTEENTH STREET EXTENDED

The Commissioners have received from the Brightwood Citizens' Association a copy of a resolution urging an appropriation of \$50,000 for the grading and extension of Sixteenth street to the District line.

LIET. ROVELLI KILLED.

ROME, Nov. 1.—As the dirigible balloon One Bis was making a landing here Lieut. of Engineers Pietro Rovelli, in keeping the crowd back, stepped too near the whirling propeller of the dirigible and was instantly killed, half of his head being torn away.

ROME BROKEN IN AUTO.

PHILADELPHIA, Nov. 1.—Mrs. Robert Volvenholme, a Germantown society leader, was thrown into the street when the automobile in which she and her husband were returning from the Vanderbilt races on Long Island collided with another auto. Mrs. Volvenholme's nose was broken.

LIQUOR MEN TO CHECK DRINK SUPPLY OF LO

Minnesota's Association of Wholesalers Tells the Saloon Dealers That They Must Not Sell to the Red Men Any More.

What he hopes is but the beginning of a crusade on the part of the wholesale liquor dealers of the entire country against the illegal sale of liquor to the Indians, was officially recognized today by Commissioner Valentine, of the Bureau of Indian Affairs, in a letter to Attorney F. W. Zollman, of Minneapolis, who had informed him of the agreement of the Minnesota Wholesale Liquor Dealers' Association to do business no longer with the retailers who sell to the red men.

Mr. Valentine received the letter from Attorney Zollman Saturday. It informed him of the ironclad agreement among the wholesalers of that State to abide by the resolution passed at the last meeting of the association. Firms found to be dealing with retailers who sell to the Indians will be stricken off the list as members and a general boycott will be practiced against them by their former colleagues.

"I have contended right along that this is only good business on the part of the wholesalers," Mr. Valentine said today. "They cannot afford to continue selling to men who they know are selling to the Indians. The sentiment in this country should war the wholesalers that careful attention and obedience of the laws should be found in their business dealings hereafter. I hope the wholesalers in other States will follow the example of those in Minnesota."

The recent visit of Special Agent W. E. Johnson to Minnesota, in which he and his deputies demolished the stocks of saloons as effectually as if it had been done by Carrie Nation, brought this matter to the attention of the wholesalers.

Johnson and his men were arrested and jailed, but got out on writs of habeas corpus, and proceeded to get the men arrested who swore out the warrants against them. Not only did the liquor dealers have their places destroyed, but they were lavishly fined for interfering with Federal agents in enforcing the laws.

PASTOR TELLS FLOCK WHICH WAY TO VOTE

Boston Clergyman Says Damnation Is Fit Reward for Wrong Voting.

BOSTON, Nov. 1.—Damnation for those who vote wrong in the State election here tomorrow will be a fit reward, according to a statement of the Rev. Cortland Myers, which is causing a ripple in political circles here today.

While refusing to mention the candidate by name, Dr. Myers delivered the following warning from the pulpit in Tremont Temple last night:

"You have a State election in Massachusetts next Tuesday, and I have learned that a certain candidate for a high office is allied with the liquor interests, and that friends of his are working among the liquor dealers in his behalf. I have also learned that another candidate for the same high honors is being attacked by these same forces that are supporting his rival.

"Now, if you do not know what to do next Tuesday when you go to the ballot box, your names ought to be stricken off the Book of Life."

CUPID IS MAKING A NEW BUSINESS

CHICAGO, Nov. 1.—A new system for obtaining revenue in connection with the marriage license bureau here has been unearthed.

Addresses of applicants for marriage licenses are obtained by "runners" and sold to certain "home furnishing" houses for a substantial sum. It was not disclosed that any officials were "in on the deal."

A letter to the prospective bridegrooms is forwarded by the "home furnishing" concerns extending congratulations, and closing with something like this: "We take the liberty of suggesting that should you be in the market for rugs, carpets, or furniture we are in a position to offer you excellent bargains upon terms that you could not obtain elsewhere."

TRAIN KILLS STUDENTS.

HUNTINGDON, Pa., Nov. 1.—John Devilly, twenty years old, of Queen, Bedford county, and Willis O. Deemer, nineteen years old, of Brush Valley, Indiana county, were struck and killed by train No. 12 on the Pennsylvania railroad. The young men were first-year students at Juniata College.

NOSE BROKEN IN AUTO.

PHILADELPHIA, Nov. 1.—Mrs. Robert Volvenholme, a Germantown society leader, was thrown into the street when the automobile in which she and her husband were returning from the Vanderbilt races on Long Island collided with another auto. Mrs. Volvenholme's nose was broken.

CAVE-IN THREATENS QUARTER OF PARIS

Rescuers Working Heroically To Save Life of Mme. Chevalier.

PARIS, Nov. 1.—The sewers of Paris, through which Hugo's "Jean Val Jean" struggled to safety, threatened to destroy practically every house in the Montmartre quarter in the cave-in, account of which was given in yesterday's Sunday afternoon edition of The Times.

The population of the quarter is terrified by the decision of engineers that there are a number of undermings similar to that which on Saturday formed a hole large enough to swallow a six-story apartment house when it caved in.

Rescuers are working frantically in the hope of saving Madame Chevalier, who was engulfed in the cave-in. She is believed to be alive in one of the sewers with which the cave-in must connect, or in a pocket of the cave-in cut off by the ruins of the house.

The rescuers are constantly in danger because of the possibility that surrounding houses, which are undermined, may collapse. The husband of Madame Chevalier is directing the work of rescue parties, striving to recover his wife.

FRIENDS BOOM THOMPKINS.

NEW YORK, Nov. 1.—It is announced that D. A. Thompkins, of Charlotte, N. C., has been recommended by the National Association of Manufacturers and by the American Cotton Manufacturers' Association as United States minister to China.

GAMBLERS BLAMED FOR BOMB THROWING

Chicago Police Think Rival Syndicates Responsible for Explosions.

CHICAGO, Nov. 1.—The police again are making a careful investigation of the attempts that have been made to blow up the buildings occupied by gambling clubs in downtown section of Chicago.

Two bombs were exploded last night in two such buildings, making the thirty-third time within the last two years this sort of thing has occurred and a determined effort is to be made by the authorities to find the person or persons responsible and make an example of them. The first bomb tonight was exploded in a building at 290 State street and the other followed soon afterward in a building at the corner of La Salle and Madison streets. It is believed that the bomb throwing is the result of a fight between two syndicates of gamblers.

Popular Excursion, Sunday, November 7th.

Baltimore and Ohio R. R.—\$1.00 round trip to Harpers Ferry and Martinsburg; \$1.50 to Berkeley Springs, and \$2.00 to Cumberland. Special train leaves Union Station at 8:15 a. m., returning same day.
