

FARE OF FOOTBALL LIES WITH EXPERTS

Future of Game in Washington Depends Upon Today's Conference.

THREE SOLUTIONS TO BE CONSIDERED

Macfarland Favors Abolition Unless Congress Acts of Police Regulations Are Adopted.

Upon the conference in the office of Commissioner Macfarland this afternoon will probably depend the future of football in the District of Columbia.

Invited to confer with the Commissioner and the Corporation Counsel concerning the adoption of legislation providing for the regulation of the game so as to prevent injury to the players.

Three courses open to the Commissioner, according to Commissioner Macfarland. They may adopt a police regulation conferring upon the police supervision over the game and authority to interfere in the play when, in their opinion, it becomes too rough.

The suggestion that soccer be substituted for the old game of football was considered at the meeting this afternoon. Georgetown has already evinced an interest in the English game, and several other colleges have teams.

Reasons for Popularity. One of the reasons for the great popularity of soccer football is that though the games run hot and fast, there is no fear of the nerves of the public being shocked by fatal or dangerous accidents.

FOOTBALL FATALITY REPORT IS FINISHED

Major Sylvester is examining the report prepared by Inspector Francis E. Cross and Captain Henry Schneider, of the Police Department on the conduct of the police at the Georgetown-University of Virginia football game in connection with the fatal injury of Half-back Archer Christian.

There were more than a hundred witnesses examined by the two investigators, including spectators at the game and the policemen on duty on the field.

Major Sylvester said this morning that it would be a week or ten days before he will be ready to make a statement regarding it. The report does not contain any recommendations or conclusions, but being simply the testimony of witnesses.

"This stamp will not carry any kind of mail, but any kind of mail will carry them."

Additional and more insistent arguments as to why you should buy a stamp will be made by the young women who will be stationed at business houses on and after Friday to help raise the \$5,000 the District branch has set out to collect.

Since The Times was designated, only two days ago, to assist the society in the sale of its Christmas souvenirs it has been a clearing house for queries regarding particulars of the sale.

Interest High. Interest is high in the District's sale, because the money is to be used for a definite object. The funds raised here will be devoted to the building of new quarters at the tuberculosis camp.

CALLS LABOR RULING WHOLLY SOUND LAW. Former Representative Charles Littlefield Approves Decision of the Local Courts.

"I think the Gompers decision is wholly sound law." That is all former Representative Charles Littlefield of Maine would say in commenting on the decision in the Buck's Stove and Range Company case against the officials of the American Federation of Labor.

Mr. Littlefield's opinion is valuable because he is now engaged in private practice, and also because the labor unions were continually after his political scalp when he was a member of the House. Mr. Littlefield resigned on the eve of a campaign, which was to be waged against him by President Gompers and other Federation officers.

PLAN BIG DINNER AT WHITE HOUSE

Record-Breaking Turkey Spread Will Be Held Tomorrow Evening.

In the line of big Thanksgiving dinners, the White House will pull off a record breaker tomorrow evening at 6:30 o'clock, when there will come forth from the kitchens of the Executive Mansion a fifty-two pound Rhode Island turkey and a fifty pound New York pig, with other items of the menu to correspond.

Up to a late hour this afternoon neither the pie nor the turkey had arrived, but there was not much doubt in the household that they would get in on time.

The turkey, which is said to be the largest ever browned in the White House oven, was presented by Mr. Taft by the poultryman who has been sending gobblers from Rhode Island to the Presidents ever since General Grant's day. The mince pie was sent to the President by the Bakers' Union of Newark, and is more than two feet in diameter and three inches thick.

All the members of the President's family but one will be gathered around the Thanksgiving table Thursday evening. The absentees will be Robert Taft, the President's elder son, who is in his senior year at Yale, Miss Helen, who is attending school at Bryn Mawr, and Harley, who is at his Uncle Horace Taft's preparatory school at Watertown, Conn., arrived in Washington today.

The President will receive no visitors at his office on Thanksgiving Day. He will go over his morning correspondence with Secretary Carpenter, as usual, however, and later will attend the American Thanksgiving service at St. Patrick's Church.

After the services he will have lunch with the rector of the church, the Rev. Dr. William T. Russell. All the employees at the Executive office will be on duty as usual in the morning, but Secretary Carpenter will see that they get off early to enjoy their turkey at home.

A Fat Woman Carries Her Own Heat. In cold weather fat people are the most comfortable. The fat lays around the body just like so much quilting material and cold can not penetrate this mass of fat.

Mr. Littlefield's opinion is valuable because he is now engaged in private practice, and also because the labor unions were continually after his political scalp when he was a member of the House. Mr. Littlefield resigned on the eve of a campaign, which was to be waged against him by President Gompers and other Federation officers.

IMMUNITY OF SUGAR TRUST EMPLOYES NOT ADMITTED BY JUDGE HOUGH.

NEW YORK, Nov. 24.—John F. Benson and the indicted officials of the American Sugar Refining Company, charged with conspiracy to defraud the Government in the underweighting of sugar in the customs house, must go to trial before Federal Judge Martin on November 29.

Federal Judge Hough this afternoon dismissed without prejudice the motion made by Henry P. Cochrane to dismiss the indictments on the grounds that the officials had, by appearing before a Federal grand jury two years ago, secured a complete immunity bath, and could not be prosecuted.

Free Child's Remedy. What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that "break them in half and crush them" is an annoyance; that usually they are used too drastically and are nauseating and too powerful for the little one's stomach.

Any mother who will take the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup of Pepsin, and the offer of a free trial bottle is open to any mother who has not yet used it.

It is undoubtedly a great family remedy, as it is adapted to all ages, being mild and pleasant to take and yet thoroughly effective. It is especially the ideal remedy for children and women and old folks, who need something pure, mild and natural. It has the advantage of being thorough, laxative and yet contains tonic properties. Use it for the most stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For other request the doctor's address is Dr. W. B. Caldwell, 1125 Caldwell building, Monticello, Ill.
