INSURGENCY IN ILLINOIS AND NEW JERSEY.

In spite of the powerful interests with which insurgency has to contend in Illinois, three insurgent Republicans were nominated in the Congressional primaries held in that State Thursday.

The reduction of Representative George E. Foss' plurality to about 500 indicates surprising insurgent strength in the Tenth district, and it is significant that in nearly all the other districts of the State regulars won their nominations by relatively small margins.

The action of the Democrats of New Jersey in getting together on a progressive platform, with Woodrow Wilson for their gubernatorial candidate, is very likely to result in the election of a Democratic State ticket and Legislature and several Democratic Representatives.

POOR CHILDREN VACCINATED WITHOUT CHARGE.

No apprehension need be felt over the report that the District's vaccination law may nullify the work of the girls from Normal School No. 2, who have been rounding up negro children in the alley sections and trying to have them sent to school.

need not attend. The volunteer truant officers need only furnish the school board with the names and addresses of the children they have discovered out of school.

INVESTIGATION OF MILK TRADE NEEDED.

The United States District Attorney and the Department of Justice have made a good beginning in their investigations of the milk trade of Washington.

The former is looking into conditions in the District, and is making an inquiry for the purpose of ascertaining particularly whether local dealers have made or are about to make an agreement on retail prices.

If there is a local combination it is the business of the District Attorney to prevent an unjust increase in prices to consumers.

Sufficient evidence has already been brought to light through the newspapers to warrant both the Department of Justice and the District Attorney in making a thorough investigation.

The public looks to the District Attorney and the Department of Justice for protection. Unless the milk producers can prove that a higher rate is necessary in order to assure them a fair profit, and unless the local dealers can prove that the price they pay for the milk at wholesale necessitates an increase in the retail price, there will be good reason to believe that the two associations are, in reality, trusts, which should be speedily broken up.

LEGAL INQUIRY INTO LOVE AND LUNACY.

The matrimonial entanglements of former Sheriff "Bob" Chanler continue to fill several columns of the newspapers every day, and a sympathetic world is suggesting various means by which he can rescue his fortune from the coils of the vampire person.

The latest reports are to the effect that his relatives and the trustees of his estate will seek to nullify the settlement on the ground that "Sheriff Bob" was somewhat dippy when he signed the papers.

Ever since a distinguished writer, several hundred years ago, informed the world that "the lunatic, the lover, and the poet" were all alike more or less crazy efforts have been made to establish the metes and bounds between the lover and the lunatic.

The outcome of the reported investigation will be watched with great interest, and particularly perhaps by the brother who is officially crazy in New York State and officially sane in Virginia.

The progressives of Illinois seem to have made three insurgents grow where none grew before.

PERFECTING PLANS OF CITY BEAUTIFUL

Engineer Department Has Five Items to Be Submitted.

Estimates to Be Submitted in View of District's Income Increase.

Items Included in Report of Engineer

- One for conversion of Willow Tree alley into a playground. One for \$200,000 for beginning reclamation of Anacostia flats. One of \$200,000 for masonry arch bridge across Rock Creek. One for purchase of summit of hill bordering Connecticut avenue, near Cathedral street, and construction of boulevard. One for the purchase of ravine at Columbus avenue, Mt. Pleasant, and Sixteenth street, and construction of road.

In view of the estimated increase of \$1,500,000 in the income of the District for the fiscal year ending July 30, 1912, the Engineer Department will include in its next annual estimate five items providing for permanent improvements for the beautification of Washington.

For Anacostia Flats.

An appropriation of \$200,000 will be requested for the beginning of the work of the reclamation of the Anacostia flats. This project has long been urged by the Commissioners.

For New Park Entrance.

The fifth item in the plan of the Engineer Commissioner is the purchase of a ravine leading into the intersection of Columbus road, Mount Pleasant street and Sixteenth street, and the construction of a road which will form the principal entrance into Rock Creek Park.

PRESIDENT IS BUSY PREPARING FOR TRIP

Will Finish Cincinnati Speech Today—Plays Golf at Myopia.

BEVERLY, Mass., Sept. 17.—It was a busy day at Bureau Point in anticipation of the President's departure Sunday night, for a two weeks' journey, most of which will be spent in Cincinnati and Washington.

The President will return to Beverly October 2, and will stay here until October 15.

Mrs. Taft has returned from New York. On her way back she stopped at Watertown, Conn., where Charlie was entered at his uncle's private school.

The President this morning will finish the speech he is to deliver at the Cincinnati exposition next week.

Friends of Mr. Ballinger claim that he is being persecuted in high quarters, and that reports intended to force him out of office are being circulated by his enemies without any shadow of indorsement from the President.

There is only one man who can put Ballinger out of the Cabinet. That man is the President, who on more than one occasion has expressed his confidence in the man who is now at the head of the Department of the Interior.

TAFT SENDS MESSAGE IN PRAISE OF DIAZ

Congratulates Mexican President on Occasion of National Centennial.

In a telegram of congratulation, made public by the State Department today, President Taft lauds in unmeasured terms the leadership of President Diaz, of the Republic of Mexico, on the occasion of the celebration of the Mexican centennial.

"Upon this great anniversary, allow me to add to the expression of cordial friendship taken to your excellency and the government and people of Mexico by the special ambassador and the delegates of this neighboring republic, my own sincere felicitations, and also to offer my best wishes and congratulations to your excellency, whose name will ever be associated with the splendid era of which today is the centennial."

The message, which was sent yesterday by a special messenger, stated that there have been on a fishing trip.

"NONSENSE," SAYS KNOX

NEW HAVEN, Conn., Sept. 17.—Secretary of State Philander C. Knox claims that the report that he is thinking of resigning is "all nonsense," and that he has no idea of tendering a resignation at the present time.

The Secretary and a party passed through here yesterday on their way to the coast, where they have been on a fishing trip.

CHILE EXPOSITION OPENS.

SANTIAGO, Chile, Sept. 17.—An exposition of fine arts is to be formally opened here tomorrow as a feature of the Chilean centennial. The exposition, which is in charge of a committee headed by the recently erected Palace of Fine Arts, will form a permanent memorial of the occasion.

TO AID TURKEY.

PARIS, Sept. 17.—A statement published this morning in the Matin claims that Turkey has concluded a secret military treaty with Roumania, whereby the Roumanian army will aid Turkey in case Bulgaria is attacked. This treaty, according to the Matin, was signed at the institution of Austria and Germany.

The Business Doctor

By Roe Fulkerson

"ALL right, son!" said the Business Doctor. "You go right ahead with your sneers at the man who takes a correspondence course! While you are sneering he will be trying your job loose from its moorings and set you adrift hunting a new wharf!"

There is no one thing that has ever come into this world that has done so much good to the man with aspirations as the correspondence schools which have sprung up all over the country. No young man can now offer the excuse that he had no chance at education as he grew up.

There is nothing like an empty stomach to quicken a man's desire to hold his job. In hiring a woman or a small boy, it is best to get those who work because they have to work to eat rather than those who are simply working for pocket money.

Add this one thing to your creed. I believe in the stuff I am handling, in the firm I am working for, and in myself and my ability to sell it.

In all card index systems where it is easier to keep two systems in one filing case or where the cards are of different kinds, or contain records of a different nature, it has been customary to use cards of different colors.

For example, a card index of the customers of a florist's shop will use a blue card for the record of hotel customers who buy daily, where the ordinary customer is recorded on a white card.

This system has its difficulties, for the red and blue cards are difficult to read or to write on. A better method is to use all white cards, but have the printer print a deep border such as is used on mourning stationery on the cards. This border may be red, blue, or any desired color, and answers all the purposes of identification, and yet leaves the center of the card free for easy writing and reading.

If you cannot be clever be careful. Carelessness is the cause of more discharges than incompetency.

It's not a sign of weakness to ask advice of a man who has had experience. It's a sign of good judgment, and it's a much better sign of good judgment to take the advice than it is to ask for it.
