

WEARY OF SOCIETY, WILL HELP HORSES

Mrs. Jacob M. Ehrlich Comes to Capital to Enlist Volunteers.

CALLS UPON WOMEN TO JOIN IN WORK

"Lady in Gray Auto" Visits Fashionable Homes on Behalf of Horse and Society.

Mrs. Jacob M. Ehrlich, former society woman, friend of worn-out horses, and widely known in New York...

The organization was founded by Mrs. Ehrlich, she is president. She intends to make its development her life work.

"I am tired of society stunts," Mrs. Ehrlich said, "as are a dozen other women who are doing me in this work."

Mrs. Ehrlich is a little woman, scarcely more than five feet tall, and slight in figure...

Work Covers Years. "I have been engaged in this work for nine years," she said, "and in all that time I have caused only two arrests."

A big gray touring car pulled up in front of a number of Washington's fashionable homes today...

Some horses could tell sad tales of cruelty, mistreatment, and starvation if they would," said Mrs. Ehrlich.

Animals Mistreated. "It is a common occurrence to find drivers selling their horses' allowance of oats for drink money..."

Children must be taught to understand animals and the needs," she said. "I think the reading of 'Black Beauty' should be compelled in every school."

When occasion demands Mrs. Ehrlich is not afraid to go into the slums to strike a good lick for her cause.

Has raised stables at night," she said. "And you would not believe the condition in which I have found them."

Heavenly filthy. "I have found runs so deep—measuring up to her elbows and earthen floors and horses standing afloat in it..."

INFLATING BALLOONS FOR WORLD'S RACE

Ten of Greatest Pilots Ready to Start From St. Louis This Afternoon.

ST. LOUIS, Mo., Oct. 17.—Ten of the greatest balloon pilots in the world were at the aviation grounds of the Aero Club of St. Louis before dawn preparing for the start at 4:30 o'clock this afternoon of the international balloon race for the James Gordon Bennett Cup.

The aeronauts represent France, Switzerland, Germany, and the United States. Alfred LeBlanc, the French pilot, is the favorite in the betting.

Children must be taught to understand animals and the needs," she said. "I think the reading of 'Black Beauty' should be compelled in every school."

JUDGES APPOINT PROBATION OFFICER

Fills Police Court Position Created at Last Session of Congress.

Charles Alfred Massey, who for the last eleven years has been associated with the Prisoners' Aid Society of the District of Columbia, as its agent and chief worker, today was appointed Probation Officer under the law passed at the last session of Congress.

This law provided for three probation officers, one at the Criminal Court and two at the Police Court—one of the latter to be designated as chief probation officer and the other as assistant.

The longest flight ever made by a spherical balloon was by Count Henry de Vaux in 1890, when he went from Vincennes, France, into Russia, a distance of 1,300 miles in 35 hours and 45 minutes.

The messages signed by both Wellman and "Jack" Irwin, the wireless operator on board the America, stated that electric power was scarce, and that the motors were not running, although the America was making 25 miles an hour.

There was still another fleet of big liners due today, all of them equipped with wireless. The Prinzessin Wilhelme of the North German Lloyd line, the Barbaross, of the same line, the Panonia, of the Cunard line, and the Uralia and Niagara were other ships who were thought likely to hear from Wellman.

A thick blanket of fog settled down last night and early today it was dense off the coast.

Charles Alfred Massey was born in Shads Ford, Del., in 1848. He organized the Prisoners' Aid Society in Baltimore, to which city he moved in 1855.

In 1888 he came to Washington, where he has remained ever since, ministering to the poor, taking care of the unfortunate, aiding prisoners to obtain honest employment, and in various ways helping those who needed the help of himself and the societies with which he was associated.

In Washington he became at once an active worker with the Associated Charities, for he saw that there lay a field which was practically unexplored and in which he could do a vast amount of good.

When the Spanish war broke out in 1898 he founded the home on Pennsylvania avenue known as the "Soldiers' Rest," and which became famous all over the country.

The name of the person who will be appointed as Mr. Massey's assistant has not been made public, but it is expected it will be in a few days. It is said that the two judges, who have the matter in hand are unable to decide.

Heavenly filthy. "I have found runs so deep—measuring up to her elbows and earthen floors and horses standing afloat in it..."

GAS BAG IN DANGER OF LIGHTNING BOLT

Absence of Wireless Message From Dirigible Increase Fear.

(Continued from First Page.)

side of the low pressure area in the northwest and was having favorable weather and winds on its voyage for Europe.

Through the night and early hours today wireless stations along the North Atlantic coast continuously queried attempting to get in touch with the America or with some steamship which knew the whereabouts and condition of the balloon.

It was believed today that the first wireless report from Wellman would come from a steamship, if the leader of the expedition continued in his determination to keep toward Europe.

The storm center of the present trouble is the Rev. Frederick Merrifield, director of the Ann Arbor Baptist Guild, which directs the theological training of students destined for the Baptist ministry.

As a result of these criticisms Mr. Merrifield has been requested to submit a full statement of his doctrinal beliefs and teachings. The convention itself will then discuss the whole matter and by a vote decide whether Mr. Merrifield shall be asked to resign his position.

The introduction of the controversy on the convention floor is expected to precipitate a lively discussion as the assembled clergyman has the support of many prominent divines and laymen throughout Michigan.

Threatened storms and heavy fog struck at the arbor of the aeronauts when the balloon was soaring eastward over the Atlantic from this point.

The machinery was working well, although at 11 o'clock a. m. Sunday a message said that the balloon was jerking from the starting point.

The Government weather forecast for today for the place, because of his wide experience among the habits of the Police Court and the excellent work he has done in connection with the Associated Charities and other organizations.

MICHIGAN PREACHER ACCUSED OF HERESY

Annual Convention of Baptists to Try Director of Ann Arbor Guild.

(Continued from First Page.)

DETROIT, Mich., 17.—Among the ministerial and lay delegates who have arrived to attend the annual convention of Michigan Baptists here this week almost the sole topic of discussion is the "heresy" trial which promises to enliven the proceedings.

A trial for heresy is something unusual in the Baptist denomination. Never before has such a trial taken place in the history of the Michigan Baptist convention, but the present dispute over doctrinal differences has reached such an acute stage that it is felt that the convention cannot well avoid taking official action in the matter.

The storm center of the present trouble is the Rev. Frederick Merrifield, director of the Ann Arbor Baptist Guild, which directs the theological training of students destined for the Baptist ministry.

As a result of these criticisms Mr. Merrifield has been requested to submit a full statement of his doctrinal beliefs and teachings. The convention itself will then discuss the whole matter and by a vote decide whether Mr. Merrifield shall be asked to resign his position.

The introduction of the controversy on the convention floor is expected to precipitate a lively discussion as the assembled clergyman has the support of many prominent divines and laymen throughout Michigan.

JULIA WARD HOWE DEAD; ILL A WEEK

Venerable Author of "Battle Hymn of Republic" Passes Away.

(Continued from First Page.)

BOSTON, Oct. 17.—Miss Julia Ward Howe, author of the "Battle Hymn of the Republic," died today in the home of her daughter, Mrs. Maude Howe Elliott, at South Portsmouth, R. I., where Mrs. Howe has been seriously ill for some weeks.

Mrs. Howe was stricken with a severe cold a week ago and her health steadily declined until Dr. Christopher F. Barker, of Newport, the family physician, advised the family that because of her age, ninety-one years, there was practically no hope for recovery.

For several weeks her health had been failing and her friends and relatives realized that she could not recover. Her end was peaceful, as her life had been. During the morning she spoke a few words and said it was her one hope to have humanity emancipated from sin. Then she lapsed into unconsciousness.

Pneumonia was the cause of death.

MASTODON TUSK GIFT FOR TAFT

TACOMA, Wash., Oct. 17.—The citizens of Tanana valley will present to President Taft a section of a mastodon tusk twenty-five inches long and crusted with base relief, wrought in gold.

The ivory tusk was dug from a placer mine last year, and in its mounting more than \$5,000 worth of gold has been used. The souvenir is due in Washington this month.

WILLIAM G. APPICH'S FUNERAL TOMORROW

Arrangements were today completed for the funeral of William George Appich, of Southeast Washington, who died early yesterday after an illness of three months.

The funeral services will be held tomorrow afternoon at 2 o'clock at the family residence, 1306 Eleventh street southeast. The Rev. William G. Davenport, pastor of the Emanuel Episcopal Church, will conduct the services, and burial will be in Prospect Hill Cemetery.

Mr. Appich was a native of Washington, and was twenty-four years old. He was associated in business with his father, John Appich, a well-known liquor dealer. Besides his father, he leaves a mother, three sisters and a brother.
