

ST. GEORGE TUCKER IN SENATORIAL RACE

Former Virginia Representative to Be Anti-Martin Machine Candidate.

There has been a shifting of political ambitions in Virginia since the Congressional election ten days ago.

It is now stated that Harry St. George Tucker, former Representative, will be a candidate for the United States Senate against Senator Swanson, and that Henry C. Stuart, who brilliant but unsuccessful campaign against Representative Stemp attracted the attention of the country, will be the anti-machine candidate for Representative.

It is still planned that Representative W. A. Jones, of the First Virginia district, will oppose Senator Thomas S. Martin for the Senate. Representative Carter Glass, who was scheduled to run against Swanson, probably will decline to enter the race.

Representatives Jones and Glass were in Washington yesterday, when they met and talked the situation over.

It is just learned from Mr. Tucker's close friends that he is willing to make the race against Senator Swanson, provided either Representative Jones or Representative Glass will agree to oppose Senator Martin. Last year Mr. Tucker was a candidate for governor against William H. Mann and was defeated by a few thousand votes.

Since the fight for the governorship the revolt against the Martin machine has developed. The Second district scandal followed and a State-wide movement organized to drive Senator Martin and his proteges, Senator Swanson, out of public life.

Should Representative Jones finally decide to remain in the lower house, the anti-machine Democrats in Virginia may turn to former Governor A. J. Montague for a candidate against Senator Martin. He ran against the machine leader five years ago and was defeated, and his friends say that he would not be averse to entering another Senatorial campaign if assured of the solid anti-machine support.

ANACOSTIANS PLAN BIG THANKSGIVING

Churches, Homes, and Asylums to Give Dinners or Entertainments.

WASHINGTON TIMES BUREAU, ANACOSTIA, D. C., NOV. 18.

Plans for Thanksgiving Day are being made by the churches, homes, and asylums in this part of the District. Religious services will take place in the Garden Memorial Presbyterian Church, on Minnesota avenue, in the forenoon. An appropriate sermon will be delivered by the Rev. George M. Cummings, pastor. In the Anacostia Methodist Episcopal Church, Fourteenth and U streets, the Rev. Samuel W. Grant, minister, will preside at a prayer service, and in the Emmanuel Protestant Episcopal Church, the Rev. Willard G. Davenport, the rector, will officiate. In St. Teresa's Church, prayers will follow a mass of thanksgiving in the early morning. Of the several institutions located in this section the Government Hospital for the Insane, housing over 3,500 people, will take the lead in providing its patients and employees with special fare and with amusements in the evening. The German Orphan Asylum, on Good Hope road, will furnish a Thanksgiving dinner of generous proportions to the orphans, while just across the street the Ruppert Home for the Aged will have a repast of turkey and cranberries.

Mr. and Mrs. William McPherson McGill, who were married yesterday near Frederick, Md., arrived yesterday for a visit to George McGill, 1225 W street, uncle of the bridegroom. The young couple was given a reception last night by a company of relatives and friends. They will leave today for Buffalo, N. Y., and after their return will make their home near Frederick City, Md.

Dr. William Watson, who is connected with the Department of Justice, has gone to Fort Leavenworth, Kan., accompanying a prisoner.

Joseph Willett, of U street, will spend the Thanksgiving period with his mother in Warrenton, Va.

Social activities have been renewed by the ladies of the Friendly League, who meet regularly both at afternoon gatherings at the homes of the various members, as well as at evening meetings of the husbands of the ladies forming the league. The last afternoon meeting took place at the residence of Mrs. Charles F. Roberts, Maple View avenue and M. View place. The evening gatherings will be held regularly.

District supervisors are in Anacostia today laying out a route for the extension of the water mains to Congress Heights. The big mains have been collected along Minnesota avenue, and the pipe will branch from Minnesota avenue and Good Hope road to Fourteenth street, and thence to Nichols avenue. It will be run along Nichols avenue to Congress Heights.

BRYAN AND PINCHOT AT SAN ANTONIO

Both Will Be Speakers Before the Trans-Mississippi Commercial Congress.

SAN ANTONIO, Tex., Nov. 18.—Arrangements are completed for the meeting of the Trans-Mississippi Commercial Congress, which is expected to attract hundreds of visitors to San Antonio next week. The local committee in receipt of advice indicating that the attendance will be larger and of a more representative character than at any of the previous meetings of the organization.

Public men and industrial leaders from many States will address the congress during the three days' session. Included among the scheduled speakers are William J. Bryan, of Nebraska; Clifford Pinchot, former chief forester of the United States; John M. Parker, of New Orleans, president of the Southern Commercial Congress; United States Senator Stone, of Missouri; and United States Senator Bailey, of Texas.

The governors of Colorado, Nebraska, Oklahoma, and several other States have also signified their intention to attend the gathering.

PROTECTION EXPECTED IN DEMOCRATIC TARIFF

Federal Experts Declare Duties, on Revenue-Only Basis, Will Necessarily Be High In Order to Avoid a Deficit In Income.

Tariff for revenue only, a slogan of many Democrats, does not appear to be terrifying, or to imperil American industries, in the opinion of members of the tariff board who have been looking into the general question of tariff revision since the recent Congressional elections.

It was pointed out today by a member of the board that in writing a bill on the basis of a tariff for revenue a Democratic House would be confronted with the problem of raising so much money for the ordinary needs of the Government that protection is certain to result, with few exceptions.

It is the general expectation that the wool schedule will be one of the first attacked by a Democratic House, and that raw wool will be put on the free list. The report of the Secretary of the Treasury for the fiscal year 1909 shows that the duties collected on raw wool for that year amounted to \$16,500,000. If Congress should put wool on the free list it would have to find some other source of revenue to compensate for the loss of approximately that amount of money, in the opinion of members of the tariff board.

Another schedule which seems destined to be overhauled at the earliest possible moment is the sugar schedule. The greatest revenue producer in the tariff list. In 1907 the Government collected about \$30,000,000 in duties on sugar. From the manufacture of cotton in the same year \$39,000,000 was collected; iron and steel duties netted \$23,000,000; tobacco, \$25,000,000, and wines, malts, etc., \$15,000,000.

Three Problems.

All of these schedules, it is pointed out, will be objects of attack at the hands of the Democrats. It is suggested, however, that in order to raise a sufficient amount of money to run the Government the Democrats would be confronted with three problems: First, a readjustment of existing law with a view to eliminating "jokers" and other objectionable features about which the country has been protesting; second, an increase in the internal revenue tax in the event that the tariff law fails to raise a sufficient amount of money; and third, a deficiency of the tariff experts in the Treasury Department who are daily engaged in assembling information on which Congress can base its next revision of the tariff.

Tariff experts in the Treasury Department who are daily engaged in assembling information on which Congress can base its next revision of the tariff have come to the conclusion that the heaviest burden of taxation will have to be placed on articles of luxury in order to compensate for the reduction in schedules which include necessities.

It also is pointed out by these experts that it may be found necessary to place a purely revenue tariff on articles which now come into this country free of duty. Tea and coffee are mentioned as illustrations in this connection. The mere suggestion during the last revision of the tariff that tea and coffee might be taxed on the dutiable list brought forth protests from all parts of the country, and yet even a most nominal duty on these articles would produce an immense amount of revenue.

Among the luxuries liable to heavily increased taxation are precious stones. Under the Payne-Aldrich law precious stones are taxed but 10 per cent, while jewelry bears a duty of 60 per cent. The theory on which this discrimination was made was that to bring the precious stones to this country meant an extremely low duty would encounter the American jewelry industry, the 60 per cent duty on jewelry giving the American manufacturer a big advantage over his foreign competitor.

Internal Revenue Increase.

In these days of billion-dollar sessions of Congress the possibility of increased internal revenue taxes—the most direct form of taxation we have—is not to be lost sight of, in the opinion of the tariff experts.

Two-thirds of the revenue now raised by the Government comes from customs duties, and about one-third from internal revenue. In 1907, which was a banner year, customs duties netted the Government \$322,000,000, while the internal revenue tax produced about \$283,000,000. Miscellaneous collections amounted about \$50,000,000 more. With Congress practically committed to a billion-dollar session, it is pointed out, therefore, that when the Democrats reduce the duties in one of the big revenue producing schedules they must make it up somewhere else.

It is in this connection that the suggestion is made that tariff reductions, properly adjusted, will produce much greater revenue than can be derived under the present protective system. The cotton and woolen schedules are cases in point. Both of these schedules are protective to the textile manufacturers in the highest degree. It is believed that careful and systematic reductions will permit the introduction of certain grades of goods which are now kept out by prohibitive duties. Nominal duties on these grades would not only compensate for the losses sustained in other directions, but also would bring about competition between the American and foreign manufacturer with probable benefit to the ultimate consumer.

Protection Assured.

Investigations into the cotton and woolen schedules, although as yet far from complete, lead to the belief that an application of the Democratic theory of tariff for revenue applied to the various paragraphs would give the American textile manufacturers a fair measure of protection and at the same time produce a much greater revenue than is derived under existing law.

That the New England interests which had no difficulty in expressing their views in the Payne-Aldrich tariff will oppose further revision in the immediate future is indicated in the tariff resolution adopted by the Home Market Club, of Boston.

This resolution goes far beyond anything that has yet been put forth in the protective line. The club demands a protective tariff sufficiently high to guarantee high wages to American employees; to enable the American manufacturer to make a profit, and to compensate them for the "risk always connected with industrial enterprise."

The club also demands that all talk or thought of further revision of the tariff be held in abeyance until the tariff board has completed its labors and presented its recommendations to the President.

NEVER HAD CALLERS; TO MAKE HER DEBUT

CHICAGO, Ill., Nov. 18.—A most unusual debutante is to be introduced to Chicago society tomorrow.

Miss Marguerite Sherlock, daughter of Mr. and Mrs. James P. Sherlock, who in her twenty years of life has never been permitted to go to a party, never has had any young man caller and has never ventured from her home unless under the eyes of a careful chaperon, is to be introduced to society in a "coming out" party at one of the leading hotels. According to her mother she will be free to follow her own inclination in accepting or refusing invitations.

JAPAN WILL BUILD NEW DREADNOUGHT

LONDON, Nov. 18.—Japan is going to increase her navy. An order for a new armored cruiser of the Dreadnought type has been placed with an English shipbuilding firm, it was learned today. It will be of the latest sea-fighting type, and will cost \$12,500,000.

ARREST EXPECTED OF NIGHT INTRUDER

Montgomery County Authorities Have Clue to Identity of Murderous Negro.

ROCKVILLE, Md., Nov. 18.—The Montgomery county authorities are engaged in endeavoring to learn the identity of the negro who entered the home of James E. Devine, at Germantown, this county, and attempted to kill Mr. Devine as he lay asleep in his bed. It is understood an important clue has been discovered and it is thought that an arrest will be made within the near future.

Had it not been for Mr. Devine's little son, who was in bed with his father and who happened to be awake, there is believed to be little doubt that a murder would have been committed. The boy saw the negro crawling along the floor with an open razor in his hand and the little fellow had presence of mind enough to shake and awaken his father, who leaped from the bed and grabbed a loaded rifle which stood in a corner of the room. As the negro was about to jump from the window, Mr. Devine fired and, he thinks, struck the intruder in the back.

After firing at the would-be murderer, Mr. Devine discovered that the man had several companions waiting for him on the outside and it is supposed they helped the wounded man away. It was also discovered that boxes had been piled alongside the house to enable the man to gain access to the house through the bedroom window.

The following cases have been disposed of in the circuit court which began here last Monday: G. Raymond Ratcliffe against Marion O. Burrows, judgment for plaintiff for \$119.92; W. Frank Rabbit against Thomas M. Talbot, judgment for plaintiff for \$4.15; Myra E. Durand, executrix, against Bliss Electrical School, judgment for plaintiff for \$109.50; Frank Hume against Cornelia J. Thompson, judgment for plaintiff for \$21.52; Jacob M. Stein and Jacob I. Shapiro, trading as J. M. Stein & Co., against Andrew J. Cummins, judgment for plaintiff for \$78.75; August W. Schaepe against Hiram W. Hopkins, administrator, dismissed, defendant to pay costs; Samuel W. Cartwright against the Washington and Rockville Railway Company, dismissed; Mary Colbourn against Milton Whitney, judgment for defendant for costs; Alexander Kitzow against Roland C. Booth, judgment for plaintiff for \$50; James B. Johnson, administrator, against Emily Gray and Charles W. Gray, removed to Prince George county.

M. Wilson Offutt has been appointed by the county commissioners tax assessor for Bethesda district in the place of Hamilton A. Loughborough, who resigned recently to go West for the benefit of his health.

SEAT IN THE SENATE MAY GO TO NORRIS

Other Insurgents In House Likely to Step Up to Higher Body.

By reason of the successful fight he has made in the House to clip the wings of the Speaker, and lessen the authority of Mr. Cannon, Representative George W. Norris of Nebraska may capture a seat in the Senate of the United States.

Already, there is talk of Norris going after the place now held by Senator Norris Brown. For a time last spring, Mr. Norris considered entering the field in opposition to Senator Burkett. But he concluded not to. It is considered certain he will try to succeed Senator Brown, and the Lincoln Star already has come out for Norris in opposition to Brown. The Star was chief instrumental in defeating Burkett.

The term of Senator Brown will end March 3, 1913, and the Legislature will choose his successor two years hence. Senator Brown has been a disappointment to the Nebraska insurgents for the reason he has generally lined up with the Senate regulars. On this account, he is likely to find himself in hot water.

Of course, in order to get the Senatorship, the Republicans will have to regain the Legislature, which the Democrats have now got. But Norris is popular in his State, and if it appears he is likely to come to the Senate, this will

"We Will Fight It Out On This Line But It Won't Take All Summer"

—The Gold Dust Twins

Gold Dust is always fighting for cleanliness. Dirt is its arch enemy, and is put to rout wherever the yellow package bearing the piccannies appears.

Use **Gold Dust** for every form of cleaning about your home—on Monday, Tuesday, Wednesday, Thursday, Friday and Saturday. Read directions on the package, and learn of its manifold uses.

Gold Dust does more work, better work and more kinds of work than soap or any other cleanser in the world. It has stood the test for over 25 years, has increased steadily in sales and prestige, and is today the leader in the cleanser line. Don't be put off with a substitute which will do but a small part of the work of **Gold Dust**.

Use **Gold Dust** for washing clothes and dishes, scrubbing floors, cleaning wood-work, oil-cloth, silverware and tinware, polishing brasswork, cleaning bathroom pipes, refrigerators, etc., softening hard water and making the finest soft soap.

Do not use Soap, Naphtha, Borax, Soda, Ammonia, or Kerosene with **Gold Dust**. **Gold Dust** has all desirable cleansing qualities in a perfectly harmless and lasting form. The **Gold Dust Twins** need no outside help.

Made by THE N. K. FAIRBANK COMPANY, Chicago
Makers of Fairy Soap (the oval cake)
