

HONDURAN REBELS AWAIT THE SIGNAL TO START REVOLT

Bonilla and Christmas Have 3,000 Men Ready to Sweep Country.

UPRISING IN FULL SWING JANUARY 1

Attack on Puerto Cortez to Be Order for Movement of Troops.

PUERTO CORTEZ, Honduras, Dec. 27.—With American ships of war cruising in Honduran waters on both the eastern and western coasts and with the supposed filibuster Hornet racing toward Honduras, there are nearly 3,000 revolutionists under the command of Lee Christmas, an American soldier of fortune, and former President Bonilla who are ready to sweep the country when the signal is given for an attack on this port.

It is learned that the leaders of the revolutionists plan to have the revolt against President Davila's government in full swing before January 1. The Honduran navy's eastern coast patrol, the Tatumba, has kept its crew busy keeping the vessel from sinking, and to time could be spared to prepare a hot reception by sea for the coming Hornet, although there are probably 500 regular soldiers in the town, which is surrounded by earthworks.

Tatumba Sorry Sight. The Tatumba has been steaming about the harbor, and, compared with the trim cruiser Tacoma, she is a sorry sight. One shot from the Tacoma would send the Tatumba to the bottom in splinters. The Honduran ship carries a single one-pound cannon fore and aft. During a battle against supposed coast pirates last summer the Tatumba bombarded four schooners for two hours without one shot taking effect.

The greatest preparations to repel the invading force have been made on the eastern coast and the Nicaraguan frontier. Several hundred Hondurans are in upper Nicaragua ready to sweep over the Risco Coco when the signal is given.

At San Pedro Sula, President Davila's forces have six machine guns and a good-sized fighting force, with 50,000 rounds of ammunition.

Many Americans Arrive. A great number of Americans have arrived recently, and while they are charged openly with being revolutionists the government has feared to arrest any of them.

The American gunboat Yorktown is patrolling the Pacific seaboard off Amapala and has been instructed to keep close watch on the operations of the revolutionists in that quarter. There are a great many American interests on the western Honduran coast.

THREE LIVES LOST IN WRECK OF YACHT

Commander, His Wife, and Guest Go Down on Key West Jetties.

KEY WEST, Fla., Dec. 27.—C. M. S. Bennet, his wife, and Herman Parker, of Atlanta, it is believed, lost their lives in the wreck of the yacht Fhra, which went down after striking the jetties at the entrance to the Northwest channel, while endeavoring to enter this port.

C. O. Gohering, of Wisconsin; A. J. Vinson, of Cordele, Ga., and Mathew Burns, of New York, were found four miles from the wreck on an island. When the boat went down the cabin floated off with the three men clinging to it. They say that as they were swept away they saw Mr. and Mrs. Bennet and Parker clinging to the masts.

Boats went in the direction but returned, having found no trace of them. It is reported that the yacht was a total wreck. The yacht was in command of Mr. Bennet, who the survivors say, had spent the winter in Florida, cruising with his wife. The home port of the Fhra, it is believed, was Richmond, Va.

PERSIA IS ARMING AGAINST ENGLAND

British Accused of Undue Activity in Southern Territory.

LONDON, Dec. 27.—Reports received today from southern Persia and from Dibal, in Arabia, have alarmed the war office.

They indicate clearly that the recent engagement between English bluejackets from the cruiser Hyacinth and tribesmen at Dibal, in which fourteen sailors and three times that number of natives were slain, was only the beginning of a widespread campaign against the British, who are accused of seeking the permanent occupation of southern Persia.

A dispatch from Bushire, on the southern coast of Persia, says that the English consulate at Bandar Abbas, a town of strategic importance, has been fortified against attack, and that a gun-plate has been erected outside the consulate.

CUDAHYS TO REMARRY FOLLOWING REUNION

MRS. EDNA CUDAHY.

Love for Their Children Brings Two Together at Christmas Celebration and Reconciliation Is Result of Their Meeting.

PASADENA, Cal., Dec. 27.—Jack Cudahy and his wife, Edna, who were divorced just after the renowned attack of Cudahy upon Jere S. Lillis in the Cudahy home in Kansas City, are at the Cudahy home here, and it is reported that they will be reconciled and remarry.

Cudahy came to Pasadena a week ago and Mrs. Cudahy arrived yesterday. Their friends say that the meeting will result in a reconciliation for which their children are responsible.

It was Mrs. Cudahy that sued for the divorce after the trouble between Cudahy and Lillis. Mrs. Cudahy arrived at Pasadena two days ago and is at the residence of the late Michael Cudahy. Mr. Cudahy has been there since Wednesday. The love of the couple for their five beautiful children led to a Christmas-Day reconciliation, and a remarriage is probable.

Mrs. Cudahy has denied herself to all callers, and Mr. Cudahy refuses to discuss his affairs with any one. Friends are authority for the report.

Mrs. Cudahy was in Chicago a week ago and said she had gone there to spend Christmas with her children, who were with the Cudahy family. She did not know the children had been taken to Pasadena, but as soon as she learned this she started for California.

On her arrival in Pasadena she went at once to the home of the late Michael Cudahy, "Jack" Cudahy's father. The children are there and the Cudahys have been much together since her arrival.

There has been rumors that the Cudahys would become reconciled, ever since Mrs. Cudahy obtained her divorce last August. Friends in Kansas City have been trying to patch up the differences between the couple and it has been reported that they were to be reconciled. Neither Mr. nor Mrs. Cudahy, nor her father, General Cowin, would discuss these reports.

NATIONAL MUSIC TEACHERS IN THREE-DAY SESSION

BOSTON, Dec. 27.—The Music Teachers' National Association began its annual convention in this city today as the guest of Boston University and the music department of Harvard University.

Many prominent musicians and musical instructors from various parts of the country are attending the sessions, which will last three days.

DEATHS

WILLIAM BARBER HAS A FLAREBACK

It Strikes William Barber in a Weak Spot—He's Riding Now.

The reaction from yuletide cheer was evident in Police Court today. William Barber, a negro, suffered worst from the flareback, and he had done nothing, it was testified to the court, but scream fire and murder and other alarming words on Eighth street northwest yesterday afternoon.

William told the court he had had but one glass of eggnog. "But, judge, it slipped right down into this weak spot in my back," he said, and felt gingerly of the lumbar region. "I can show you the plaster on it." The court declined exhibit A, but recommended that William get his plaster on to protect, not to cure the weak spot. He said he would not let eggnog get into it for a year, and signed up a contract of abstinence. The court offered to make the lease on his drought for six months, but William said he wanted to be dry at least a year.

GIRL WHO SHOT BEAU NOT TO BE ARRESTED

Young Man Advanced on Her With Knife After Having Been Jilted.

CLAYTON, Ga., Dec. 27.—Miss Martha Wooten, who killed Samuel Algray, son of a well-to-do planter, by shooting him through the heart as he stood in the doorway of her parlor, which was filled with friends at a Christmas frie, will not be prosecuted for a Christmas.

The girl, who several weeks ago broke her engagement with Algray, formerly admitted the shooting to the coroner and the district attorney, who say they will not even put her on bond. Since Miss Wooten broke the engagement, Algray has repeatedly said he would kill her. Yesterday afternoon, in the midst of dancing at the Wooten home, Algray appeared in the doorway with a knife. He started to advance, saying he was going to kill his former sweetheart. The girl snatched a revolver from her sleeve and fired. Algray fell with the bullet through his heart.

COST OF LIVING HITS ARMY HARD

House Committee on Military Affairs Finds Increase in Past Year.

The House Committee on Military Affairs has been finding out something about the cost of living in the army and how it is going up. It appears that that extremely well known bugaboo, the high cost of living, has struck the army as hard as he has folks in civilian life.

Commissary General Sharp, before the committee, gave some comparative figures in the cost of the army ration for the first four months of the fiscal year, 1911, against the same period for the year 1910, also against the average cost for the entire year of 1910. These figures show that on an average the army ration has increased in cost about 10 per cent in the past year.

FUMES OF AMMONIA FILL THE TREASURY

Accident to Refrigerating Plant Causes Trouble—Red Noses in Vogue.

The Treasury Department is the most uncomfortable office building in Washington today, and the women who were unfortunate to hurry away from home without their powder puffs are utterly miserable because of their inability to hide red noses.

This trouble was all caused by the refrigerating plant. The pipe carrying the ammonia broke early this morning, letting loose large quantities of that distressing chemical. As soon as the clerks entered the Treasury they began to cough, tears started from their eyes, and they found it a difficult matter to breathe.

FAVORS INCREASE IN PHILIPPINE DEBT

General Edwards Wants Maximum Raised by \$5,000,000.

In his annual report, Brig. Gen. Clarence R. Edwards, chief of the Bureau of Insular Affairs, recommends that the maximum bonded indebtedness of the Philippine Islands be increased from \$5,000,000 to \$10,000,000 in order to allow additional public improvements.

Under existing law a maximum of \$5,000,000 can be incurred. This has largely been utilized in various works, chief of them being the harbor improvements at Manila, Cebu, and Iloilo. The operations of the postal savings bank law are described as successful.

PLANNING TO SMASH ELECTRICAL TRUST

Department of Justice Marshaling Forces for Great Struggle.

Officials of the Department of Justice are hard at work preparing for the struggle they will soon begin to smash what they call the "greatest monopoly in the world." This is the so-called billion-dollar electrical trust.

The war to crush this monopoly will be even more bitter than the one against the Standard Oil Company. The Department of Justice looks on the Electrical trust as greater than any of the trusts it has attacked. It looks on the suit it will presently begin against this monopoly as the greatest of the anti-trust suits. It is expected the petition will be filed the first week in January.
