

SWEEPING PROBE OF CIVIL SERVICE IS NOW ASSURED

House Committee on Reform Drafts Resolution for Hearings.

(Continued from First Page.)

for their protection, and that open threats were made to intimidate these employees and to bring about their silence.

The House Committee on Reform in the Civil Service, awakened to the realization that there is something wrong, that dissatisfaction exists in the ranks of the employees to the detriment, perhaps, of the service and that in many instances these employees, in every department of the Government, are underpaid, now propose to begin a probe that will shake the very foundations of the service.

"This committee," said Chairman Godwin today, "has determined upon a full investigation of these various questions. It has come to our attention that the civil service is not what it should be. We hear of instances where favoritism is shown. A man who made an average of 75 per cent in the examination is sometimes promoted in preference to the man who had 85 per cent. Bureau chiefs, we are told, have their favorites."

Personal Favoritism.
"The system does not seem to be a system of merit, as was intended. It seems to have built up instead a machine of personal favoritism."

"We want concrete examples of where the civil service has proved defective and a disapproval. This committee, according to the present temper of its members, wants to go to the very root of this big issue and its ramifications. As soon as I obtain the necessary authority from the House, and I am now preparing a resolution to this end, we propose to start here in Washington an investigation that may last all summer. We will have the right to summon Cabinet officers, and other employees, and to compel the production of documents and records."

"In general terms we will go into the question of the relations between this Government and its thousands of employees. Specifically, we will inquire into and urge reforms as to the following: "The right of Government employees, both in the postal service and elsewhere, to organize a union. A Constitutional question is here involved. "The superannuation of Government employees and the alleged impaired efficiency of the service because of the retention of aged employees who might be relied upon for pension."

"The practicability of the several pension plans proposed, now embraced in the Gillett bill, the Austin bill and others."

Salaries and Living Cost.
"The scale of salaries paid the workers in the Government service, as compared with the present high cost of living."

"The method of promotions and advancements followed in some of the departments, with especial reference to the claim that the merit system has given way to an era of favoritism, and that many worthy clerks are not receiving their deserts, while those with a 'pull' go steadily upward."

"The general workings of the civil service and its alleged failure to establish the merit system for which it was organized."

"We shall be glad to hear, and intend to hear, the advocates of the different plans for reform. The committee then will recommend legislation that will remedy the unsatisfactory conditions that admittedly exist today."

According to Chairman Godwin, the committee probably will hold sessions throughout the entire summer and will sit during the recess of Congress. In event there is an early adjournment, the inquiry is to be thorough, sweeping, drastic, and will be predicated upon the theory that the committee confronts a real task with a real subject for investigation.

TAFT STILL WAITS REPLY FROM DIAZ

Bloodiest Battle of Mexican Revolution Seems Certain to Be Fought At Juarez This Afternoon, According to Official Dispatches.

(Continued from First Page.)

the Mexicans, however, of the obligation to express their sentiments on the situation in a becoming and wholly friendly manner.

This, too, comes from official sources.

Madero's Refusal to Consent to Armistice Causes General Exodus

MEXICO CITY, April 21.—Refusal of Francisco I. Madero to consent to an armistice has stirred a renewal of unrest among all classes.

This is especially true of Americans, many of whom plan to leave here immediately because of the common belief that the United States will intervene. The next few days will witness the exit of hundreds of women and children for the United States.

In some quarters here it is believed Madero desires to fight at Juarez, in a last hope of forcing intervention, because at Agua Prieta intervention was not forced, though it is charged the rebels fired toward the border in order to force international complications.

Others say Madero is stubborn like Diaz, and is bitter at the government because he was imprisoned during the election and wants to fight to a finish, that he does not want peace, and is personally ambitious.

Still others say he is crazy and a religious fanatic, and that having tasted power he cannot quit.

Revelation of Popular Feeling.
It is the consensus of opinion of many persons interviewed that Madero has lost thousands of friends among his followers because of his refusal to consent to an armistice; that this has helped the government more than anything else, and caused a revelation of feeling among the people.

After the battle of Juarez, which will probably be Saturday, Madero will be given another chance to consider peace. If he is still stubborn, many of his inactive supporters will probably rally to the support of the government. It would not be surprising if thousands volunteered to support the government. The people seemed not to desire peace until there were signs it would come. Now thousands are blaming Madero for prolonging the war.

The students of the agricultural school, striking against oral recitations and refusing to attend classes, met at the mess room of the college yesterday afternoon to discuss Madero. The police interfered and in the battle two students were badly wounded. The police were then thrown out.

Soldiers Raid School.
Minister Fomento rushed eighty soldiers to the scene, and they surrounded the school and held the students prisoners within. Several escaped and notified the students' union, and a meeting of all students was called. Four hundred attended and demanded recognition for the union of the director.

Matamoros and Chihuahua have been recaptured by Colonel Blanco, commander of mixed infantry and artillery, against 1,200 rebels. Seventy are dead and 200 wounded on both sides. It is believed the acknowledged rebels are uniting at Ahicco and Chihuahua bands of rebels, and that they will proceed against Puebla. This is considered more serious than the proposed attack on Juarez, because it is only fifty leagues out of Mexico City.

Eighty rebels attacked a suburb of Puebla this morning, but were repulsed, leaving seven dead. It is not believed they were part of Puebla.

De la Barra's Address.
It was thought the expected attack would stop the address of De la Barra to the congress yesterday afternoon, but he proceeded without excitement. The hall was filled. He detailed conditions in the interior and also foreign relations and cautioned congress against a breach of friendly relations with the United States. He mentioned the presence of United States troops on the border, and hinted that a false step might produce an international conflict.

When De la Barra was shown the telegram that Madero would not consent to an armistice until after the battle of Juarez, he said:

"I haven't received the notice, but it shows Madero hasn't the interest of the country at heart. The government opened the doors to peace, but not through weakness, and his refusal shows his own weakness and that he is not working for his country's good."

Madero Demands That Diaz Resign and City Of Juarez Surrender

EL PASO, Tex., April 21.—Unless assurances are given Gen. Francisco I. Madero, leader of the revolutionists, that President Diaz will resign and the city of Juarez, be surrendered into his hands, during a proposed armistice, developments may arise here in the next twenty-four hours that promise to make war between Mexico and the United States inevitable.

This is the opinion held by a half dozen of the leading citizens of El Paso.

After lengthy conferences with Madero, three of the self-appointed peace emissaries to his camp, announced today that only by the Diaz resignation and the surrender, unconditionally, of Juarez, could the impending rebel attack on the city be prevented.

Madero has given General Navarro, in command of the Juarez federal garrison, until 3 o'clock this afternoon to surrender.

At that time, if Navarro holds to his determination to defend the town against attack, Madero will advance on the town from three sides with infantry, machine gun, and cannon fire. It will be impossible to keep many of the steel bullets and machine gun projectiles from sweeping into the streets of El Paso.

If this occurs and any one is wounded here, hundreds of citizens have announced freely that they will take the matter into their own hands to prevent a repetition of the Douglas, Arizona, incident in which three American citizens were killed.

PRODUCE DEALERS WITHOUT LICENSE TO BE PROSECUTED

Police Instructed to Arrest Traders Who Ignore Law.

Produce dealers who have failed to obtain their licenses for the license year, which began April 1, are in danger of prosecution, according to an announcement of the Commissioners today.

The attention of the Police Department has been called to the statement of Wade F. Coombs, license clerk, that many of the produce dealers are delinquent.

"Many of the dealers wait until May 1, and then say they have just started business, and pay for only eleven months," said Mr. Coombs. "Many fish dealers are only in business during Lent, and escape paying this tax altogether. If the Police Department will co-operate with this office in this matter the revenues of the District will be materially increased."

Acting upon this suggestion, Major Sylvester has issued a bulletin directing attention to Mr. Coombs' statement, and directing that the law be enforced in every instance. Failure to obtain the license, cost of which is \$12 a year, is punishable by a fine of not more than \$50 or imprisonment for not more than thirty days.

Stone in Bladder Removed Without Surgical Operation

In the Spring of 1904, I was confined to my bed with kidney trouble and thought that I would never recover. I took a lot of medicine but did not realize any benefit from anything. I finally saw Dr. Kilmer's Swamp-Root advertisement and sent for a sample bottle and thought the sample bottle helped me, so I bought more of the medicine from my drug-gist, and after using a few bottles discharged a very large stone from my bladder.

After passing this stone my health was very much improved and I have been able to continue my business without any serious sickness.

J. L. KNOWLES, Headland, Ala.

Personally appeared before me this 8th day of September, 1909, J. Loftus Knowles, who subscribed the above statement and made oath that the same is true in substance and in fact.

J. W. WHIDDON, Notary Public.

Three Plead Not Guilty In Jury Tampering Case

Thomas H. Pickford, retired business man; William J. Dugan, and John H. Walter, today pleaded not guilty before Chief Justice Cibaugh of the District Supreme Court to indictments charging attempted subornation of perjury.

Offer of a bribe to Ferdinand Hopp, a former safe proprietor, to give false testimony in the damage suit of James Hudson against Pickford, was charged. Attorney H. Prescott Gatley appeared for the defendants and was given twenty days to demur or enter pleas. The arrangements were conducted by Assistant United States District Attorney James Proctor.

The arraignment was at Pickford and his co-defendants are at liberty under bonds of \$5,000 each pending trial.

On His Way to H—; Stopped by Detectives

Central Office Detectives O'Brien and Berman were at Seventh and D streets northwest this morning, when they saw a crowd of men and boys following a man who was dressed only in his underclothing and a short overcoat. O'Brien ran up to the man and grabbed him by the arm.

"Where are you going?" asked the detective.

"Straight to h—," replied the man. "Don't interfere with me."

The detectives took charge of the man and sent for a patrol wagon, but by the time it arrived a crowd of several hundred persons had gathered. The man was taken to the Emergency Hospital and later removed to the Washington Asylum Hospital, where he said he was Arthur Elliott, forty-two years old, with no fixed place of residence.
