

DEMOCRATS' HOPES FIND PRECEDENT FOR WILSON'S ACT UPON INCOME TAX

Is Life-Saver to Tariff Slashers Who Will Cut Deeply Into Country's Revenues.

A more equitable distribution of the burdens of taxation is sought in the income tax rider to the Underwood tariff bill introduced in the House today. Wealth is called to contribute generously toward the revenues of the Government, and no person who receives more than \$4,000 annually will be exempt from the process of dividing with Uncle Sam.

Three-fourths of the States recently ratified the income tax amendment to the Constitution, thus circumventing a Supreme Court decision whereunder an income tax was declared unconstitutional.

The income tax is a life-saver for the Democratic tariff revisionists, who have cut deeply into the country's revenues, but who may compensate for all loss through the levying of an impost upon annual incomes, from whatever source derived. It is estimated that the income tax will raise between \$125,000,000 and \$150,000,000.

After Dodgers.

That the proposed income tax will place part of the burden of the support of the Government on the shoulders of those best able to bear that burden is the position taken by the Democratic members of the House Ways and Means Committee, and persons who are now tax dodgers and are forced to meet their obligations under the new plan, the committee asserts.

Easing the Federal income entirely upon customs and internal revenue duties, says the committee in explaining the provision of the bill, is a system of taxation which will throw the burden of supporting the Government upon the shoulders of the consumers. It correspondingly exempts the men of larger income, whose consumption of the ordinary necessities of life is subject to tariff taxation, to a far less aggregate degree than is that of the smaller income earners, who expend the greater proportion of their resources for the ordinary necessities of life.

Owing to defects in personal property taxation the incomes of the United States have for many years been able to escape with less than their general share of the general burden of taxation. This inequality will be, it is believed, in part, overcome by the plan now proposed.

The Rates.

No wage earner who receives less than \$4,000 a year is subject to the tax. Above \$4,000 and up to \$20,000 the new tax will be 1 per cent; between \$20,000 and \$30,000 it will be 2 per cent; between \$30,000 and \$50,000 3 per cent; and above \$50,000 4 per cent.

To reach the tax dodgers who reside abroad the new law makes all American citizens, no matter where residing, subject to the tax. It defines in minute detail, and at very great length, just what shall be considered income, leaving no apparent loophole for argument on this line.

The committee changed its mind about making the tax apply to President Wilson, although all of his successors will live to pay. The exemption clause affects the present President during the term for which he has been elected; the judges of the Supreme Court and of the inferior courts of the United States now in office, and the compensation of all officers and employees of the State or Federal Government.

This will enable governors of all States and State officials generally to continue in office. Exemption is also given to labor, agricultural, horticultural, fraternal, benevolent, mutual benefit, religious, charitable, and educational organizations.

Verified returns of their income must be made by all citizens and furnishing of fraudulent lists is penalized by an addition of 100 per cent to the tax in addition to the person being subject to the penalty. The law is also extended to the Philippines and to Porto Rico.

Old-Timers Are Swept From the Office of the New Senate Secretary

Nearly all the old-timers have been swept out of their places in the office of the Secretary of the Senate. New faces for the most part are seen in the personnel of the Senate secretary's office and many men who have been well known about the Capitol for years are missing.

One of the new appointments is that of Col. Thomas F. Dawson, for years a member of the Associated Press staff at the Senate, and now secretary of the Senate. He is known to everybody about the Senate and is from Colorado and was for many years secretary to Senator Teller.

The following appointments have been made in addition to that of Mr. Dawson: Thomas H. Tulley, of Colorado, to be principal clerk; Oswald E. Ludwig, of Arkansas, assistant enrolling clerk; Guy Marchand, of Ohio, bill clerk; Robert T. Williams, of Oklahoma, document clerk; W. Grant Llewellyn, of Idaho, first assistant librarian; Carl C. Jones, of Oklahoma, second assistant; Ronaldo M. Cooper, of Indiana, and Christian A. Taylor, of Arizona, to be assistants to the Senate secretary; Richard P. Harris, of Charlotte, N. C., to be a clerk in the Senate document room.

Cool Weather This Week in Capital

Pressure distribution over the Northern Hemisphere is such as to indicate weather with temperature below the seasonal average for the present week in Washington. The precipitation during the week will be below normal except in the Northwest, where rain will be frequent.

A disturbance which now covers the Rocky mountains is drifting slowly eastward. It will be succeeded by a general rise in temperature, and followed by local rains and followed by cooler weather. It will cross the Great Central valley Tuesday and Wednesday and arrive here about Tuesday. Another disturbance will appear in the far West Tuesday or Wednesday and travel eastward attended by local precipitations. It will arrive in the East at the end of the week.

WILSON CONFERS ON NEW TARIFF BILL

President Hears Senators' Views Upon Changes, But Keeps "His Mind Open."

The program for receiving President Wilson on his visit to the Capitol tomorrow, has been mapped out. Missouri's Congressional precedents raised today by Senate and House leaders resulted in the discovery of a program for just such a reception, and when the President goes to Congress to personally deliver his tariff message, he will abide by rules which have not been applicable to a President for years.

Old Guard Republicans Expect Tariff Changes To Re-establish Party

Old Guard Republican leaders are sitting back in their seats and looking on the tariff procession, wondering whether history is going to repeat itself and give the Republican party one more lease of life.

Many of them make no secret of the fact that they are hopeful. The prevailing view of the Old Guard who will not listen to talk of Republican reorganization is that the tariff offers the one real reliance of the Republican party as a means of getting itself reorganized.

Not a few Republican leaders at the Capitol are predicting that the country will object so strongly to the Democratic tariff program that there will be a Republican landslide in 1914 when the Congressional elections are held.

CUSTOMS FRAUDS PUT UP TO CONGRESS

Advocates New Law Which Will Increase Returns.

Responsibility for the enormous customs frauds of the last decade was put squarely up to Congress by the House Ways and Means Committee today. In connection with the Underwood tariff bill, a plan of comprehensive reform is suggested. Unless the administrative features of the customs laws are strengthened, the committee believes such revenue will be lost. So the committee included in the bill a comprehensive plan of valuation which is expected to meet the situation.

Friedmann Treats Seventeen Patients

NEW YORK, April 7.—Seventeen cases of pulmonary tuberculosis, all in the last stages of the disease, are being treated at the Seton Hospital by Dr. Friedrich Franz Friedmann. The physician had to end the clinic after the seventeenth patient was treated, as he did not have any more of his patients to treat.

Broken Machine Repaired.

The machine was so far repaired that he was able to get ready only a small portion of the vaccine before his trip to the hospital at Spuyten Duyvil.

Poor Come First.

So far no plan has been decided upon by those with whom I have been in consultation. A plan to be acceptable must insure its being given freely to the poor, its proper preparation, the education of those who are to use it, and the protection of the doctor's own reputation.
